Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Written Paperwork Reduction Act (PRA) comments should be submitted on or before June 19, 2006. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**Needs and Uses:** On October 25, 2002, the Commission released the *Fifth Report and Order*, In the Matter of Telecommunications Relay Services and the Americans with Disabilities Act of 1990, (*Report and Order*), CC Docket Nos. 90-571 and 98-67, FCC 02-269. The *Report and Order* has eliminated the coin sent-paid requirement and has encouraged specific outreach and education programs to inform Telecommunications Relay Services (TRS) users of their options when placing calls from payphones. Because the Commission concluded that it is infeasible to provide coin sent-paid toll relay service through payphones at this time, and the coin sent-paid toll functionality was not necessary to achieve functional equivalence, carriers no longer needed to provide coin sent-paid toll TRS calls from payphones. The *Report and Order* has required carriers to continue to provide coin sent-paid local calls free to TRS users. The *Report and Order* has also required carriers via the Industry Team to submit a one time report on the efforts industry has made to educate consumers on how to make toll coin sent-paid calls.

**Needs and Uses:** 47 CFR 73.1201(a) requires television broadcast licensees to make broadcast station identification announcements at the beginning and ending of each time of operation, and hourly, as close to the hour as feasible, at a natural break in program offerings. Television and Class A television broadcast stations may make these announcements visually or aurally. 47 CFR 73.1201(b) requires the licensee's station identification to consist of the station's call letters immediately followed by the community or communities specified in its license as the station's location.
