## INTERNATIONAL TRADE COMMISSION

[Investigation No. 332-477]

### Sub-Saharan Africa: Factors Affecting Trade Patterns of Selected Industries

**AGENCY:** United States International Trade Commission.

**ACTION:** Institution of investigation and scheduling of hearing.

**SUMMARY:** Following receipt on July 27, 2006 of a request from the United States Trade Representative (USTR) under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)), the U.S. International Trade Commission ("the Commission") instituted investigation No. 332-477, *Sub-Saharan Africa: Factors Affecting Trade Patterns of Selected Industries*.

**EFFECTIVE DATE:** August 18, 2006.

*Background:* As requested by the USTR, the Commission will conduct an investigation under section 332(g) and prepare three annual reports providing certain information on the competitive factors affecting industries within Sub-Saharan Africa (SSA) that have experienced significant shifts in exports.

In each of the reports, the Commission will provide an overview of the trends in SSA exports in the (1)

Agriculture, (2) mining and manufacturing, and (3) services sectors, as well as profiles of SSA industries within those sectors that produce products (as identified by the USTR) that have shown significant export shifts in recent years. The reports will be based on the most recent 5-year period for which data are available.

Each industry profile will provide the following information, to the extent data are available:

- A description of the leading industries within SSA that export the subject products, including their position relative to global competitors;
- Identification of the leading SSA exporting countries and their key markets; and
- Analysis of the competitive factors, by country, that have contributed to the shift in exports. (Such factors may include access to inputs, labor, technology, investment, trade policies—e.g., tariffs and trade preference programs such as the African Growth and Opportunity Act (AGOA), privatization, and liberalization.)

As specified in the USTR's letter, the first annual report will cover industries producing the following products: (1) Agriculture—cut flowers, cocoa butter and paste, nuts (coconuts, Brazil nuts, and cashews), and prepared and preserved fish; (2) mining and manufacturing—acyclic alcohol, unwrought aluminum, textiles and apparel, petroleum gas (liquified natural gas), flat-rolled steel, and wood veneer sheets; and (3) services—financial services and tourism.

The Commission expects to deliver the first annual report to the USTR by April 3, 2007. The second and third reports will be delivered 12 and 24 months, respectively, after delivery of the first annual report.

The Commission anticipates that industry coverage for the subsequent reports will be determined in consultation with the USTR no later than 2 months after delivery of the previous year's report.
