Any such disclosure of data is known as a "routine use." The Government will only release PSC Parking, Transhare, Security Services, and Badge Issuance information that can be associated with an individual as provided for under

"Section III." Both identifiable and non-identifiable data may be disclosed under a routine use. We will only collect the minimum personal data necessary to achieve the purpose of this system.

## III. Routine Use Disclosures of Data in the System

A. The Privacy Act allows us to disclose information without an individual's consent if the information is to be used for a purpose that is compatible with the purposes for which the information was collected. Any such disclosure of data is known as a "routine use." The Government will only release PSC Parking, Transhare, Security Services, and Badge Issuance information that can be associated with an individual as provided for under Section III. Both identifiable and non-identifiable data may be disclosed under a routine use. We will only collect the minimum personal data necessary to achieve the purpose of this system.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records or information from these records may be used:

1. To disclose pertinent information to appropriate city, county, State and Federal law enforcement agencies responsible for investigating, prosecuting, enforcing, or implementing statutes, rules, regulations or orders, when HHS becomes aware of evidence of a potential violation of civil or criminal law.

2. To disclose information to a congressional office from the record of an individual in response to a verified inquiry from that congressional office made at the written request of that individual.

3. To disclose information to the Department of Justice, a court or other tribunal, when: (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS where it is authorized to do so) has agreed to represent the employee; or (d) The United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however, that in each case HHS determines that such disclosure is

compatible with the purpose for which the records are collected.

4. When HHS contemplates contracting with a private firm for the purpose of collating, analyzing, aggregating, or otherwise refining records in this system, relevant records will be disclosed to such a contractor. The contractor will be required to maintain Privacy Act safeguards with respect to such records. These safeguards are explained in the section entitled "Safeguards."

5. To disclose information to officials of labor organizations recognized under 5 U.S.C. Chapter 71 when relevant and necessary to their duties of exclusive representation, concerning personnel policies, practices, and matters affecting working conditions.

6. Disclosure may be made to organizations deemed qualified by the Secretary to carry out quality assessments or utilization review.

#### IV. Safeguards

PSC has safeguards in place for authorized users and monitors such users to ensure against unauthorized use.

1. *Authorized Users:* Data on computer files is accessed by authorized users who are PSC employees and who are responsible for implementing the program.

2. *Physical Safeguards:* Rooms where records are stored are locked when not in use. During regular business hours, rooms are unlocked but are controlled by on-site personnel.

3. *Procedural and Technical Safeguards:* A password is required to access the terminal, and a data set name controls the release of data to only authorized users. All users of personal information in connection with the performance of their jobs (see Authorized Users above) protect information from public view and from unauthorized personnel entering an unsupervised office.

4. *Contractor Guidelines:* A contractor who is given records under routine use 4 must maintain the records in a secured area, allow only those individuals immediately involved in the processing of the records to have access to them, prevent unauthorized persons from gaining access to the records, and return the records to the System Manager immediately upon completion of the work specified in the contract. Contractor compliance is assured through inclusion of Privacy Act requirements in contract clauses, and through monitoring by contract and project officers. Contractors who maintain records are instructed to make no disclosure of the records except as

authorized by the System Manager and as stated in the contract.

This system will conform to all applicable Federal laws and regulations and Federal, HHS, and PSC policies and standards as they relate to information security and data privacy. These laws and regulations may apply but are not limited to: The Privacy Act of 1974; the Federal Information Security Management Act of 2002; the Computer Fraud and Abuse Act of 1986; the E-Government Act of 2002, and the corresponding implementing regulations. Federal, HHS, and PSC policies and standards include but are not limited to: All pertinent National Institute of Standards and Technology publications and the HHS Information Systems Program Handbook.

#### V. Effects of the Proposed System of Records on Individual Rights

PSC proposes to revise this system in accordance with the principles and requirements of the Privacy Act and will collect, use, and disseminate information only as prescribed therein. Data in this system will be subject to the authorized releases in accordance with the routine uses identified in this system of records.

PSC will take precautionary measures to minimize the risks of unauthorized access to the records and the potential harm to individual privacy or other personal or property rights of patients whose data are maintained in this system. PSC will collect only that information necessary to perform the system's functions. In addition, PSC will make disclosure from the proposed system only with consent of the subject individual, or his/her legal representative, or in accordance with an applicable exception provision of the Privacy Act. PSC, therefore, does not anticipate an unfavorable effect on individual privacy as a result of information relating to individuals.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

Section 302(a)(1) of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA) (Pub. L. 108-173) added section 1834(a)(20) of the Social Security Act (the Act) and requires the Secretary to establish and implement quality standards for suppliers of certain items, including consumer service standards, to be applied by recognized independent accreditation organizations. Suppliers of DMEPOS must comply with the quality standards to furnish any item for which payment is made under Medicare Part B, and to receive and retain a provider or supplier billing number used to submit claims for reimbursement for any such item for which payment may be made under Medicare. Section 1834(a)(20)(D) of the Act requires us to apply these quality standards to suppliers of the following items for which we deem the standards to be appropriate:

- Covered items, as defined in section 1834(a)(13) of the Act, for which payment may be made under section 1834(a) of the Act.

- Prosthetic devices, orthotics, and prosthetics described in section 1834(h)(4) of the Act.

- Items described in section 1842(s)(2) of the Act, which include medical supplies; home dialysis supplies and equipment; therapeutic shoes; parenteral and enteral nutrients, equipment, and supplies; electromyogram devices; salivation devices; blood products; and transfusion medicine.

Section 1834(a)(20)(E) of the Act explicitly authorizes the Secretary to establish the quality standards by program instruction to ensure that suppliers that wish to participate in
