VII. Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), EPA must determine whether the regulatory action is “significant” and, therefore, subject to review by the Office of Management and Budget (OMB) and the requirements of the Executive Order. The Executive Order defines “significant regulatory action” as one that is likely to result in a rule that may:

- (1) Have an annual effect on the economy of \$100 million or more, or adversely affect in a material way the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;
- (2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;
- (3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs, or the rights and obligations of recipients thereof; or
- (4) Raise novel legal or policy issues arising out of legal mandates, the President’s priorities, or the principles set forth in the Executive Order.

It has been determined that this action is not a “significant regulatory action” under the terms of Executive Order 12866 and is, therefore, not subject to OMB review.

This notice is not a rule; it is essentially an information sharing activity which does not impose regulatory requirements or costs. Therefore, the requirements of Executive Order 13132 (Federalism), Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments), Executive Order 13045 (Protection of Children from Environmental Health Risks and Safety Risks), Executive Order 13211 (Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use), the Regulatory Flexibility Act, the Unfunded Mandates Reform Act, and the National Technology Transfer and Advancement Act do not apply to this notice. Also, this notice does not contain any

information collection requirements and, therefore, is not subject to the Paperwork Reduction Act, 44 U.S.C. 3501, *et seq.*

Dated: May 11, 2006.

Stephen L. Johnson,
Administrator.

SUPPLEMENTARY INFORMATION: The Charter of the NEJAC states that the advisory committee shall provide independent advice to the Administrator on areas that may include, among other things, “advice on EPA’s progress, quality and adequacy in planning, developing and implementing environmental justice strategies, projects and programs” relating to environment justice. In order to provide such independent advice, the Agency requests that the NEJAC convene a focused, issue-oriented public meeting in Washington, DC. To help prepare for this specific focused policy issue meeting the following background information is provided:

The meeting shall be used to receive comments on, discuss, and analyze what mechanisms will most effectively:

(1) Ensure continuation of timely, relevant and cogent public policy advice on environmental justice issues/concerns; (2) enable impacted communities to continue to raise concerns to government agencies; (3) support continued partnership-building and problem-solving capacity among EPA's regulatory partners and other environmental justice stakeholders; and (4) promote opportunities for training and sharing lessons learned for all stakeholders involved in the environmental justice dialogue. The Agency, furthermore, requests that the NEJAC produce a comprehensive report on the differing views, interests, concerns, and perspectives expressed by the stakeholder participants on the focused policy issue, and provide advice and recommendations for the Agency's review and consideration.

In order to fulfill this charge, the NEJAC is being asked to discuss and provide recommendations regarding the following broad public policy questions:

- What venues and other mechanisms would be most effective for EPA to continue to obtain public policy advice on specific environmental justice issues/concerns?

- What mechanisms would be most effective for EPA to receive timely advice on specific environmental justice issues/concerns that require action or decision on short notice?

- What are the best mechanisms to continue to build a collaborative problem-solving capacity to address environmental justice issues/concerns among EPA's regulatory partners and other environmental justice stakeholders?

In addition, the NEJAC will deliberate on two draft reports: (1) the Gulf Coast Hurricanes Workgroup's draft advice and recommendations on the environmental justice issues related to natural disasters such as Hurricanes Katrina and Rita, and (2) the Waste and Facility Siting Subcommittee's draft report, "Unintended Impacts of Redevelopment and Revitalization Efforts in Five Environmental Justice Communities." Documents that are the subject of NEJAC reviews normally are available from the originating EPA office and are not available from the NEJAC.

The Gulf Coast Hurricanes Workgroup's draft advice and recommendations responds to the following question:

How can EPA effectively address the vulnerabilities of all communities to public health and environmental risks and harms, including minority and low-income communities, in EPA's response and rebuilding, and preparedness and prevention efforts, in the aftermath of natural disasters

similar to Hurricanes Katrina and Rita, pursuant to the National Response Plan and applicable statutory authorities and their implementing regulations, as well as Executive Order 12898?

The Waste and Facility Siting Subcommittee's draft report provides draft advice and recommendations based upon lessons learned regarding unintended impacts of successful brownfields cleanup at redevelopment and revitalization projects in five minority, low-income, and/or tribal communities.

Public Comment: Individuals or groups making oral presentations during the public comment period will be limited to a total time of five minutes. Only one representative of a community, an organization, or a group will be allowed to speak. Any number of written comments can be submitted for the record. The suggested format for individuals making public comment should be as follows: Name of Speaker, Name of Organization/Community, Address/Telephone/E-mail, Description of Concern and its Relationship to the policy issue(s), and Recommendations or desired outcome. If you wish to submit written comments of any length, at least 50 copies should be received by Friday, June 14, 2006. Written comments received after that date will be provided to the NEJAC as logistics allow. All information should be sent to the address, e-mail, or fax number listed in the **FOR FURTHER INFORMATION CONTACT** section above.
