Docket No.: FAA-2006-25036.

Petitioner: ConocoPhillips Alaska.

Section of 14 CFR Affected: 14 CFR part 43 Appendix A(c).

Description of Relief Sought: This exemption, if granted, would allow ConocoPhillips Alaska to train Type Rated CASA 212 pilots to remove and install the approved baggage bin from the Company CASA 212-300DF. The pilots could then perform this function while operating under 14 CFR part 91 in remote areas. Safety would not be compromised as the installation and removal process requires no tools and all pilots would attend and successfully complete an initial training course. Recurrent training would follow every two years thereafter.

Title: Bus Testing Program.

OMB Control No.: 2132-0550.

Background: 49 U.S.C. 5323(c)

provides that no Federal funds appropriated or made available after September 30, 1989, may be obligated or expended for the acquisition of a new bus model (including any model using alternative fuels) unless the bus has been tested at the Bus Testing Center (Center) in Altoona, Pennsylvania. 49 U.S.C. 5318(a) further specifies that each new bus model is to be tested for maintainability, reliability, safety, performance (including braking performance), structural integrity, fuel economy, emissions, and noise.

The operator of the Bus Testing Center, the Pennsylvania Transportation Institute (PTI), has entered into a cooperative agreement with FTA. PTI operates and maintains the Center, and establishes and collects fees for the testing of the vehicles at the facility. Upon completion of the testing of the vehicle at the Center, a test report is provided to the manufacturer of the new bus model. The bus manufacturer certifies to an FTA grantee that the bus the grantee is purchasing has been tested at the Center. Also, grantees about to purchase a bus use this report to assist them in making their purchasing decisions. PTI maintains a reference file for all the test reports which are made available to the public.

Respondents: Bus manufacturers.

Estimated Annual Burden on

Respondents: 30 testing determinations @ 3 hours each; 18 tests @ 3 hours each; and 520 requirements @ 0.5 hours each.

Estimated Total Annual Burden: 404 hours.

Frequency: On occasion.
