

uranium feed and contract for uranium enrichment services (*i.e.*, SWU).¹⁰

The Department did not receive a substantive response to the Sunset Initiation from the Ministry of the Russian Federation for Atomic Energy ("MINATOM"), the original Russian government signatory to the *Suspension Agreement*, its successor agency, the Russian Federal Atomic Energy Agency ("Rosatom"), or any Russian exporter of subject merchandise. On September 9, 2005, USEC and AHUG submitted rebuttal comments regarding the August 30, 2005 substantive responses.

On November 10, 2005, the Department determined that the sunset review of the *Suspension Agreement* was extraordinarily complicated and required additional time for the Department to complete its analysis. Therefore, the Department extended the deadlines in this proceeding, stating that it intended to issue either the preliminary results of the full sunset review on January 17, 2006, and the final results on May 30, 2006, or the final results of the expedited review on January 27, 2006. *See Extension of Time Limit for Sunset Review of the Agreement Suspending the Antidumping Investigation on Uranium from the Russian Federation*, 70 FR 68397 (November 10, 2005) (*Review Extension*).

On January 13, 2006, AHUG submitted a letter to the Department with respect to recent court actions which occurred in the case of *Eurodif v. United States* (U.S. Court of Appeals for the Federal Circuit ("CAFC") Case Nos. 01-1209, -1210). In its letter, AHUG states that the Department should remove SWU transactions from the scope of this Russian sunset review and the underlying restrictions imposed on uranium from Russia to be consistent with the CAFC's legal holdings in *Eurodif v. United States* and the direction of the U.S. Court of International Trade (CIT) on remand to the Department.

On January 17, 2006, the Department determined that it would conduct a full sunset review in this case. *See Memorandum from Sally C. Gannon to*

Ronald K. Lorentzen entitled "Sunset Review of Uranium from the Russian Federation: Adequacy of Domestic and Respondent Interested Party Responses to the Notice of Initiation and Decision to Conduct Full Sunset Review" (January 17, 2006). The Department also determined on January 17, 2006, that it needed an additional 30 days to complete the preliminary results of this full sunset review. *See Extension of Time Limit for Sunset Review of the Agreement Suspending the Antidumping Investigation on Uranium from the Russian Federation*, 71 FR 3824 (January 24, 2006). On January 26, 2006, the Department notified the ITC of its decision to conduct a full review. *See Letter from Sally C. Gannon to Robert Carpenter* (January 26, 2006). On February 24, 2006, the Department extended the deadline for the preliminary results of this sunset review by an additional 35 days, until no later than March 24, 2006. *See Extension of Time Limit for Sunset Review of the Agreement Suspending the Antidumping Investigation on Uranium from the Russian Federation*, 71 FR 9522 (February 24, 2006).

Analysis of Comments Received

All issues raised by parties to this sunset review are addressed in the *Issues and Decision Memorandum for the Sunset Review of the Agreement Suspending the Antidumping Investigation on Uranium from the Russian Federation; Preliminary Results ("Decision Memorandum")* from Joseph A. Spetrini, Deputy Assistant Secretary for Policy and Negotiations, Import Administration, to David Spooner, Assistant Secretary, Import Administration, dated March 24, 2006, which is adopted by this notice. The issues discussed in the *Decision Memorandum* include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail were the suspended antidumping duty investigation to be terminated. Parties may find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in the Central Records Unit, room B-099, of the main Department of Commerce building. In addition, a complete version of the *Decision Memorandum* can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "April 2006." The paper copy and electronic version of the *Decision Memorandum* are identical in content.

Preliminary Results of Review

We preliminarily determine that termination of the suspended antidumping duty investigation on uranium from Russia would likely lead to a continuation or recurrence of dumping at the following percentage weighted-average margin:

Exporter/manufacturer	Weighted-average margin (percent)
Russia-Wide	115.82

Any interested party may request a hearing within 30 days of publication of this notice in accordance with section 351.310(c) of the Department's regulations.
