SUPPLEMENTARY INFORMATION: In order to help ensure that TVA land management and permitting activities are self-sustaining to the full extent possible, the agency has determined that its administrative cost recovery regulations should be amended by eliminating certain mandatory cost recovery exemptions. This determination is consistent with the objectives of increasing efficiency and recovery the cost of government services from those who most directly benefit from the services.

TVA now proposed to amend its administrative cost recovery regulation by eliminating the following exemptions: Conveyance of land pursuant to section 4(k)(d) of the Tennessee Valley Authority of 1933, as amended (16 U.S.C. 831c(k)(d)); TVA phosphate land transactions; and permits and licenses for use of TVA land by distributors of TVA power.

This proposed amendment does not impose an information collection burden under the provision of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* This proposed action will not have a significant impact on a substantial number of small entities as described in the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* There will be no significant economic impact from the amendments include the proposed rule would not significantly add to the cost of one who conducts an activity upon or acquires TVA property. Any economic impact that would occur as a result of the rule amendment would not affect a substantial number of small entities because TVA only receives about ten land use applications from the currently exempted parties each year. Pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1501 *et seq.*, the proposed rule does not include any Federal mandates for state, local, and tribal government or the private sector. In addition, any expenditures by state, local, and tribal

government or the private sector in connection with the rule would be substantially less than \$100 million in any one year.
