

On February 13, 2006, APHIS published a notice¹ in the **Federal Register** (70 FR 7504–7505, Docket No. APHIS–2006–0016) announcing the availability of an environmental assessment (EA) for the proposed field trial. During the 30-day comment period, APHIS received two comments. One comment was from an individual and the other was from a public interest group. Both commenters objected to the field release described in the EA. APHIS' response to those comments can be found as an attachment to the finding of no significant impact (FONSI) and decision notice.

Pursuant to its regulations (7 CFR part 340) promulgated under the Plant Protection Act, APHIS has determined that this field trial will not pose a risk of the introduction or dissemination of a plant pest. Additionally, based upon analysis described in the EA, APHIS has determined that the action proposed in Alternative C of the EA, to issue the permit with additional permit conditions, will not have a significant impact on the quality of the human environment. You may read the FONSI and decision notice on the Internet or in the APHIS reading room (see **ADDRESSES** above).

The EA and FONSI were prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372). Copies of the EA and FONSI are available from the individual listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 7 U.S.C. 7701–7772 and 7781–7786; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 10th day of April, 2006.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Additions

On January 20, and February 17, 2006, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (71 FR 3259, and 8565) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the product and service and impact of the additions on the current or most recent contractors, the Committee has determined that the product and service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

The Following Comments Pertain to Filter, Element Coalescer

Comments were received from the most recent contractor for the Filter, Element Coalescer, in response to a request for sales data. The contractor stated that it held four contracts for this product in 2004, during which the contractor made considerable investments in capital equipment. The contractor also indicated intent to make further investments to produce the product for future contracts. The contractor stated that it makes the product on Native American property, with nearly all its employees being Native Americans. According to the contractor, loss of the opportunity to produce this product for the Government will result in discharge of about twenty people, who will have very few employment areas in that depressed area. Government records show that the four contracts this contractor cited are the only contracts for this product which this contractor
