SUPPLEMENTARY INFORMATION:

Background

To provide expanded notice and transparency to the public, the

Department of Homeland Security (DHS), U.S. Customs and Border Protection (CBP) published a Privacy Act system of records notice (SORN) in the **Federal Register** regarding the Automated Targeting System (ATS) on November 2, 2006 (71 Fed. Reg. 64543). As detailed in the SORN, ATS is the enforcement screening module associated with the Treasury Enforcement Communications System and was previously covered by the Treasury Enforcement Communications System "System of Records Notice." This system of records is subject to the Privacy Act of 1974, as amended (5 U.S.C. 552a).

The DHS Privacy Office published the Privacy Impact Assessment (PIA) for ATS on November 24, 2006 on its Web site, www.dhs.gov/privacy under "Privacy Impact Assessments." The PIA provides additional background information and context for the SORN, including specific information on measures taken by DHS to protect the privacy of persons whose information might be found in ATS.

The SORN referenced above did not identify or create any new collection of information; rather DHS merely provided additional notice and transparency of the functionality of these pre-existing systems. The SORN provided for a thirty day comment period which expired on December 4, 2006.

Extension of Comment Period

In response to the SORN published in the **Federal Register**, and the PIA published on the web, DHS has received a number of comments from the public requesting an extension of the comment period. DHS has decided to grant the request for the extension. Accordingly, the period of time for the submission of comments is being extended. Comments are now due on or before December 29, 2006.

Dated: December 4, 2006.

Hugo Teufel III,
Chief Privacy Officer.
