Abstract: This information collection is associated with regulations implementing the Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703 *et seq.*). Under the MBTA, it is unlawful to take, possess, import, export, transport, sell, purchase, barter, or offer for sale, purchase, or barter, migratory birds or their parts, nests, or eggs, except as authorized by regulations implementing the MBTA. In 2003, we promulgated regulations to authorize the take of double-crested cormorants (DCCOs) under certain circumstances. The regulations at 50 CFR 21.47 (Aquaculture Depredation Order) authorize aquaculture producers in 13 States to take DCCOs when the birds are found committing or about to commit depredations on commercial freshwater aquaculture stocks. The regulations at 50 CFR 21.48 (Public Resource Depredation Order) authorize State fish and wildlife agencies, the U.S. Department of Agriculture (APHIS-Wildlife Services), and federally recognized tribes in 24 States to take DCCOs to prevent depredations on the public resources of fish, wildlife, plants, and their habitats.

Both 50 CFR 21.47 and 21.48 impose reporting and recordkeeping requirements on those operating under the depredation orders. We use the information collected to:

- (1) Help assess the impact of the depredation orders on DCCO populations.
- (2) Protect nontarget migratory birds or other species.
- (3) Ensure that agencies and individuals are conforming to the terms, conditions, and purpose of the orders.

(4) Help gauge the effectiveness of the orders at mitigating cormorant-related damages.

Comments: On April 19, 2006, we published in the **Federal Register** (71 FR 20120) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited public comments for 60 days, ending on June 19, 2006. We received two comments.

The first commenter noted opposition to the killing of cormorants but, for the most part, did not specifically address the information collection except to say that "this paperwork * * * is ineffectual in even recording the actual numbers killed." We believe that the reporting provides valid information about the number of birds killed.

Following are comments by the second commenter and our responses:

Comment: The information will have practical utility only if it is freely accessible to other individuals to assess the accuracy and predictability of the outcomes.

Response: We have found the information useful and it is available upon request.

Comment: The accuracy of the burden estimate for this collection of information is only valid if cross-validation is allowed and reassessment of the data by another is conducted without knowledge of the outcome (blind tests).

Response: The accuracy of the estimate might be enhanced, but we believe it is of sufficient quality as reported.

Comment: The quality, utility, and clarity of the information collected must have transparency, ground truthing, and

redundancy by collaborators and outside entities.

Response: We do not believe that ground truthing or other confirmation of the limited data collected is necessary.

We again invite comments concerning this information collection on:

(1) Whether or not the collection of information is necessary, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on respondents. Comments submitted in response to this notice are a matter of public record.

Dated: August 28, 2006.

Hope Grey,

*Information Collection Clearance Officer,
 Fish and Wildlife Service.*

Type of review: Renewal.

OMB Control Number: 1076-0158.

Title: Gaming on Trust Lands Acquired after October 17, 1988, 25 CFR 292.

Summary: The collection of information will ensure that the provisions of IGRA, the relevant provisions of State laws, Federal law and the trust obligations of the United States are met when federally recognized tribes seek a secretarial determination that a gaming establishment would be in the best interest of the tribe and would not be detrimental to the surrounding community. Section 292.8 specifies the information collection requirement. An Indian tribe must ask the Secretary to make a determination that a gaming establishment would be in the best interest of the tribe and would not be detrimental to the surrounding community. The information to be collected includes: name of the tribe, tribal documents, description of the land to be acquired, proof of ownership,

distance of land from the Indian tribe's reservation or trust lands and other documents deemed necessary. Collection of this information is currently authorized under an approval by OMB (OMB Control Number 1076-0158). All information is collected when the tribe submits a request for a secretarial determination that a gaming establishment would be in the best interest of the tribe and would not be detrimental to the surrounding community. Annual reporting and record keeping burden for this collection of information is estimated to average 1,000 hours each for approximately 2 respondents, including the time for reviewing instructions, researching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information, thus, the total annual reporting and record keeping burden for this collection is estimated to be 2,000 hours.

Frequency of Collection: Annually.

Total Respondents: 2.

Response Hours per Application: 1,000.

Total Annual Burden Hours: 2,000 hours.
