Thomasville Furniture Ind.; Plant #5; Conover, NC; Notice of Revised Determination on Reconsideration

By letter dated April 4, 2006, a petitioner requested administrative reconsideration regarding the Department's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to the workers of the subject firm.

The initial investigation resulted in a negative determination signed on March 10, 2006, was based on the finding that sales and production at the subject facility increased during the relevant time period and that job losses at the subject firm were not attributed to increased imports or a shift of production of upholstered furniture to a foreign source. The denial notice was published in the **Federal Register** on April 4, 2006 (71 FR 16834).

To support the request for reconsideration, the petitioner supplied additional information regarding production at the subject facility and company imports of like or directly competitive products with those produced at the subject firm.

The review of the case revealed that sales at the subject firm decreased from 2004 to 2005. Upon further contact with the subject firm's company official, it was revealed that the subject firm decreased domestic production of upholstered furniture while increasing its reliance on imports of upholstered furniture during the relevant time period.

In accordance with section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor herein presents the results of its investigation regarding certification of eligibility to apply for alternative trade adjustment assistance (ATAA) for older workers.

In order for the Department to issue a certification of eligibility to apply for ATAA, the group eligibility requirements of section 246 of the Trade Act must be met. The Department has determined in this case that the
