

approved for listing and trading on another exchange and are governed by contract specifications that are substantially the same as those proposed by Amex. The new options proposed by Amex will be governed by contract specifications that are substantially the same as those that govern the similar existing products. Therefore, accelerating approval of Amex's proposal should benefit investors by creating, without undue delay, additional competition in the market for the existing options, as well as an additional investment opportunity with regard to the new options.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²² that the proposed rule change, as amended (SR-Amex-2005-061), is hereby approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²³

Self-Regulatory Organizations; National Association of Securities Dealers, Inc; Notice of Filing of Proposed Rule Change Relating to Position Limits and Position Reporting Obligations for Conventional Index and Equity Options

January 30, 2006.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Exchange Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 23, 2006, the National Association of Securities Dealers, Inc. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

NASD is proposing to amend NASD Rule 2860 to: (a) Revise the definition of the term "underlying index" to include indexes underlying standardized index options and other indexes that meet certain specified criteria; and (b) allow members to calculate the position limits, in accordance with volume and float criteria specified by the options exchanges, for conventional equity options overlying securities that are part of the FTSE All-World Index Series.³

The text of the proposed rule change is available on the NASD's Web site (<http://www.nasd.com>), at the NASD's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Amendment to Definition of "Underlying Index": NASD Rule 2860 governs the activities of members in standardized and conventional options contracts. Paragraph (b)(5) of Rule 2860 imposes a position-reporting obligation on members when they or their customers establish options positions that exceed certain thresholds. Specifically, members are required to file, or cause to be filed, a report with NASD with respect to each account that establishes an aggregate position of 200 or more contracts on the same side of the market covering the same underlying security or index. The current definition of "underlying index" is limited to an index upon which a Nasdaq index option is based.⁴ Since Nasdaq no longer trades any index options, this definition fails to require members to report positions in conventional index options. The proposed rule change would require members to report positions in conventional⁵ index options and would require access firms to report position limits in standardized index options.⁶ In

which covers approximately 30 different countries and over 1900 stocks.

⁴ Nasdaq briefly traded stock index options in the mid-1980s.

⁵ A "conventional option" is an option contract not issued or subject to issuance by the Options Clearing Corporation. See Rule 2860(b)(2)(N).

⁶ As noted in *Notice to Members* 01-01, the options position reporting requirements are applicable to all standardized options positions established by "access" firms or their customers and all conventional options positions established by members or their customers. Access firms, in this context, are understood to be NASD members
