[Docket No. FMCSA-2006-25853]

Medical Review Board Meeting

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), United States Department of Transportation (DOT).

ACTION: Notice; Medical Review Board (MRB) public meeting.

SUMMARY: FMCSA announces that its MRB will hold a public meeting. The MRB members will continue deliberations about current FMCSA medical standards, as well as consider recommendations for new science-based standards and guidelines to ensure that the physical condition of drivers is adequate to enable them to safely operate commercial motor vehicles (CMVs) in interstate commerce. In accordance with the Federal Advisory Committee Act (FACA), the meeting is open to the public.

DATES: The MRB meeting will be held from 9 a.m. to 3:30 p.m. on November 1, 2006.

ADDRESSES: The meeting will take place at the U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Rooms PL-6244 and 6248, Washington, DC 20590-0001. The public must enter through the Southwest Visitor Entrance and comply with building security procedures, including provision of appropriate identification prior to being accompanied by a Federal employee to the meeting rooms.

Background

The U.S. Secretary of Transportation announced on March 7, 2006, the five medical experts who will serve on FMCSA's new MRB. Section 4116 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU, Pub. L. 109-59) requires the Secretary of Transportation with the advice of the MRB to "establish, review, and revise medical standards for operators of CMVs that will ensure that the physical condition of operators is adequate to enable them operate the vehicles safely." FMCSA is planning updates to the physical qualification regulations of commercial motor vehicle (CMV) drivers, and the MRB will provide the necessary science-based guidance to establish realistic and responsible medical standards.

The MRB will operate in accordance with FACA as announced in the **Federal Register** (70 FR 57642, October 3, 2005). The MRB will be charged initially with the review of all current FMCSA medical standards (49 CFR 391.41), as well as proposing new science-based standards and guidelines to ensure that drivers operating CMVs in interstate commerce, as defined in CFR 390.5, are physically capable of doing so.

Meeting Participation

Attendance is open to all interested parties, including the general public, medical professionals, motor carriers, drivers and representatives of associations. Written comments for the MRB meeting are now being accepted and will continue to be accepted until November 16, 2006. Written comments should include the docket number that

is listed in the **ADDRESSES** section. During the meeting, public oral comments will be accepted for 45 minutes (2:15 p.m. to 3 p.m.). Individual comments may be limited depending on the number of persons who wish to comment. Oral comments will be accepted on a first come, first serve basis as requestors register at the meeting. The comments must directly address relevant medical and scientific issues on the MRB meeting agenda. For more information, please view the following Web site: <http://www.fmcsa.dot.gov/mrb>.

Issued on: October 6, 2006.

[Docket No. FMCSA-2006-24278]

Qualification of Drivers; Exemption Requests; Epilepsy and Seizure Disorders

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemptions, request for comments.

SUMMARY: FMCSA announces receipt of applications from four individuals for exemptions from the prohibition against persons with a clinical diagnosis of epilepsy (or any other condition which is likely to cause a loss of consciousness or any loss of ability to control a commercial motor vehicle (CMV)), operating trucks and buses in interstate commerce. If granted, the exemptions would enable these individuals with seizure disorders to operate CMVs in interstate commerce. All records associated with these requests are available in the public docket.

DATES: Comments must be received on or before November 13, 2006.

ADDRESSES: You may submit comments identified by Department of Transportation (DOT) Docket Management System (DMS) Docket Number FMCSA-2006-24278 using any of the following methods:

FOR FURTHER INFORMATION CONTACT: Dr. Mary D. Gunnels, Chief, Physical Qualifications Division, (202) 366-4001, maggi.gunnels@dot.gov, FMCSA, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590-0001. SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant an exemption for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The statute also

allows the agency to renew exemptions at the end of the 2-year period. The individuals listed in this notice have recently requested an exemption from the epilepsy prohibition in 49 CFR 391.41(b)(8), which applies to drivers of CMVs in interstate commerce. Section 391.41(b)(8) states that a person is physically qualified to drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness, or any loss of ability to control a commercial motor vehicle.

FMCSA provides medical advisory criteria for use by medical examiners in determining whether drivers with certain medical conditions should be certified to operate CMVs in interstate commerce. Currently, FMCSA's medical advisory criteria includes a recommendation that individuals diagnosed with epilepsy and taking anticonvulsant medication to reduce the likelihood of seizures are at high risk for further episodes and should not be considered for medical certification. Drivers diagnosed with epilepsy and taking anticonvulsant medication which helps them control their seizures may be at low risk, however, these individuals are exposed to conditions which place them at increased risk for loss of consciousness and therefore increased risk for seizure occurrence, and the acquisition of replacement anti-seizure medication if drugs are lost or forgotten, place such individuals at some increase in risk. These individuals should not be authorized to drive commercial vehicles. Drivers diagnosed with epilepsy, seizure free and off medication for 10 years may be medically certified to operate CMVs.

FMCSA further notes that individuals who experience a single unprovoked seizure, but do not have epilepsy, per se, are clearly at a higher risk than the general population to have further seizures. Individuals with a single unprovoked seizure, seizure-free for a 5-year period and off medications, should not be restricted from obtaining a license to operate a CMV. The history of the occurrence of febrile seizures in childhood should not be a restriction to licensing to operate a CMV. Seizures, in the context of a systemic metabolic dysfunction, should not be a primary reason for restriction from medical certification to operate a CMV. Any restriction should be based upon the risk of recurrence of the primary condition. There are several conditions in which the risk for unprovoked seizures is sufficiently high, even in the absence of the occurrence of acute
