

comment from the mother of a living donor and recipient who both experienced post-transplant complications asserted that stronger policies should be developed to ensure living donor safety.

Conclusion

HRSA has reviewed and considered each aspect of each comment and has determined that OPTN living donor guidelines should be given the same status of other OPTN policies as discussed in the **Federal Register** Notice published on January 23, 2006. Under 42 CFR 121.4(a)(6), the Secretary directs the OPTN to develop policies regarding living organ donors and living organ donor recipients, including policies for the equitable allocation of living donor organs, in accordance with section 121.8 of the final rule. Thus, the OPTN shall develop such policies in the same manner, and with the same public comment process, that it does for policies on deceased organ donors and deceased organ donor recipients. Non-compliance with such policies shall subject OPTN members to the same consequences as noncompliance with policies concerning deceased organ donors and deceased organ donor recipients developed under the final rule.
