All vessel pumpout facilities that are described either discharge into State approved and regulated septic tanks or

State approved on-site waste treatment plants, or the waste is collected into a large holding tank for transport to a sewage treatment plant. Thus, all vessel sewage will be treated to meet existing standards for secondary treatment.

Estimates based on a survey conducted of Dale Hollow Lake marina managers and owners in regard to the number of boats equipped with U.S. Coast Guard-approved Marine Sanitation Devices (MSD) result in 68 boats. This would result in a ratio of 4.5 boats with MSDs per pumpout facility. Dale Hollow Lake's shoreline management plan does not permit private docks. Altogether, there are a total of 2,663 boat slips located at the 15 Dale Hollow Lake marinas. Of that overall total, 453 are houseboat slips, and 385 of these are houseboats which have holding tanks (subtracting the 68 boats mentioned above, which have MSDs). This results in a ratio of 26 boats with holding tanks per pumpout facility.
