BILLING CODE 4162-20-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Statement of Organization, Functions, and Delegations of Authority

Part M of the Substance Abuse and Mental Health Services Administration (SAMHSA) Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services at 71 FR 19740-19741, April 17, 2006 is amended to reflect changes of the functional statements for the Center for Mental Health Services (CMHS). This amendment reflects the placement of the organization and financing activities from the Office of the Director, CMHS, into the Division of State and Community Systems Development (DSCSD), CMHS. DSCSD serves as a focal point for planning, supporting and promoting effective programs concerned with improving State mental health services within the Nation, as well as obtaining, analyzing and disseminating statistics on the major characteristics of the national mental health service systems. The organization and financing activities is closely aligned with other mental health programs managed by this Division. This realignment of function will have a positive impact on organizational effectiveness. The changes are as follows:

Section M.20, Functions is amended as follows:

The functional statements for the Center for Mental Health Services (MS), Office of the Director (MS-1), and the Division of State and Community Systems Development (MSE) are replaced with the following:

Center for Mental Health Services (MS)

Office of the Director (MS-1)

(1) Provides leadership in planning, implementing, and evaluating the Center's goals, priorities, policies, and programs, including equal employment opportunity, and is the focal point for

the Department's efforts in mental health services; (2) plans, directs, and provides overall administration of the programs of CMHS; (3) conducts and coordinates Center interagency, interdepartmental, intergovernmental, and international activities; (4) provides information to the public and constituent organizations on CMHS programs; (5) maintains liaison with national organizations, other Federal departments/agencies, the National Institute of Mental Health and with other SAMSHA Centers; (6) administers committee management and reports clearance activities; (7) conducts consumer affairs activities; and (8) monitors the conduct of equal employment opportunity activities of CMHS.

Division of State and Community Systems Development (MSE)

(1) Administers the Community Mental Health Services Block Grant, including monitoring State implementation of the Mental Health State Plan, compliance with the provisions of the Public Health Service Act, as amended, regarding use of the payments and maintenance of effort; (2) provides technical assistance to the States with respect to the planning, development, financing, and operation of programs or services carried out pursuant to the block grant program; (3) administers a program of State human resource development; (4) plans and supports programs of mental health education, with emphasis on targeted populations; (5) plans and supports programs to provide protection and advocacy services for persons with severe mental disorders; and (6) supports programs for: (a) Obtaining, analyzing, and disseminating national statistics on mental health services, (b) developing methodologies for data collection in biometry and mental health economics; (c) organization and financing activities, and (d) consulting with and providing technical assistance to State and local mental health agencies on statistical methodology, mental health information systems, and the use of statistical and demographic data.

Delegations of Authority

All delegations and redelegations of authority to officers and employees of SAMHSA which were in effect immediately prior to the effective date of this reorganization shall continue to be in effect pending further redelegations, providing they are consistent with the reorganization.

These organizational changes are effective:

Dated: July 5, 2006.

Eric B. Broderick,

Acting Deputy Administrator, Assistant Surgeon General.

BILLING CODE 4160-01-M

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request Renewal From OMB of One Current Public Collection of Information: Registered Traveler Pilot (RT) Pilot Program; Satisfaction and Effectiveness Measurement Data Collection Instruments

AGENCY: Transportation Security Administration, DHS.

ACTION: Notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved information collection requirement abstracted below that we will submit to the Office of Management and Budget (OMB) for renewal in compliance with the Paperwork Reduction Act.

DATES: Send your comments by September 18, 2006.

ADDRESSES: Comments may be mailed or delivered to Katrina Wawer, Attorney-Advisor, Office of the Chief Counsel, TSA-2, Transportation Security Administration, 601 South 12th Street, Arlington, VA 22202-4220.

FOR FURTHER INFORMATION CONTACT: Katrina Wawer at the above address, or by telephone (571) 227-1995 or facsimile (571) 227-1381.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who

are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

1652-0019; Registered Traveler Pilot (RT) Pilot Program; Satisfaction and Effectiveness Measurement Data Collection Instruments. TSA is expanding the scope of the Registered Traveler (RT) Pilot Program, which is currently in operations at one airport and is already approved by OMB, to test and evaluate specific technologies and business processes related to the RT concept. In addition, TSA will add additional locations using the RT Pilot Program's public/private partnership. For the purpose of continuing metrics analysis, testing interoperability of systems, and testing the private/public model of operations, TSA sought emergency processing from OMB in order to begin collecting information in June 2006. OMB issued its temporary approval on June 12, 2006, and TSA is now seeking to renew the RT Pilot Program's control number.

TSA will receive and retain personal information on individuals who volunteer to participate in the program that Sponsoring Entities (*i.e.*, airport authorities and/or aircraft operators under agreement with TSA to conduct RT operations) will collect and transmit through a Central Information Management System (CIMS), which will be under contract with TSA. This information will allow TSA to complete and adjudicate name-based security threat assessments and allow Sponsoring Entities to issue an RT card to approved applicants.

In addition, TSA will administer two instruments, which OMB previously approved, to measure the satisfaction of RT pilot participants and key stakeholders. TSA will administer the first instrument, customer service surveys, electronically via the TSA Web site. TSA estimates the hour burden for the surveys to be 72,000 hours, based on 288,000 respondents and a 15-minute burden per respondent. The second instrument, stakeholder interviews, will be used by TSA to periodically conduct in person interviews to ensure that stakeholders' issues are fully addressed and to facilitate accurate assessments of local concerns. Stakeholders include representatives of participating airports, air carriers, vendor staff, and relevant associations, as well as Federal Security Directors and their staff. TSA estimates the hour burden for the stakeholder interviews to be 120 hours, based on 6-8 interviews per location (not including
