**Approval and Promulgation of Implementation Plans; State of Missouri**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Missouri for the inclusion of revisions to the Construction Permit Exemptions rule. The Construction Permit Exemptions rule lists specific construction or modification projects that are not required to obtain permits to construct under the Construction Permits Required rule. Revisions to this rule include updating the insignificance levels used for construction permit exemptions, adding a new exemption for manufacturing operations, which produce insignificant emissions, clarifying the grain handling facilities exemption, and restructuring of the record keeping portion of the rule. Missouri developed the revisions to this rule under two separate state rulemaking processes.

**DATES:** Comments on this proposed action must be received in writing by January 3, 2007.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R07-OAR-2006-0883 by one of the following methods:

**SUPPLEMENTARY INFORMATION:** In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the Rules section of this **Federal Register**.
