36 CFR Part 1280

[NARA–06–0005]

RIN 3095–AB55

Use of NARA Facilities

AGENCY: National Archives and Records Administration (NARA).

ACTION: Proposed rule.

SUMMARY: The proposed rule would revise NARA's policy on the inspection of personal property in the possession of a contractor, employee, student intern, visitor, volunteer or other person on NARA properties. Because NARA's current regulations apply specifically only to visitors on NARA property, the revised rule clarifies that all persons arriving on, working at, visiting, or departing from NARA property are subject to the inspection of their personal property. The proposed rule would also amend NARA's current regulations to include additional properties under NARA control. This rule will affect members of the public, members of Federal agencies, NARA employees, NARA contract-employees and NARA volunteers.

DATES: Comments are due by November 27, 2006.

ADDRESSES: NARA invites interested persons to submit comments on this proposed rule. Please include "Attn: RIN 3095–AB55" and your name and mailing address in your comments. Comments may be submitted by any of the following methods:

SUPPLEMENTARY INFORMATION:

Background

The Archivist prescribes rules that ensure the safety and preservation of the holdings subject to NARA's authority. NARA has a staff of over 3,000 people nationwide and receives over three million visitors to its facilities. With a combined volume of 27 million cubic feet of traditional holdings and 500,000 artifacts, the challenges of safeguarding the holdings are both difficult and complex.

Incidents of theft by researchers and unauthorized removal of documents by former NARA staff have resulted in heightened security precautions in NARA facilities. Additional safeguards implemented during the past year include background checks for volunteers working with original records and artifacts, closed circuit video cameras in all regional archives and Presidential library research rooms, and the opening of a classified research room at the National Archives Building in Washington, DC. NARA regulations concerning conduct of NARA contractors, employees, student interns, visitors and volunteers are being revised to strengthen the current policies.

The following section of the **SUPPLEMENTARY INFORMATION** discusses the regulations that we are proposing be revised.

This proposed rule clarifies NARA's policy regarding inspection of personal property in the possession of a contractor, employee, student intern, visitor, volunteer or other person on

property under NARA's control. It specifically provides that all people who arrive, work at, or visit NARA-controlled facilities are subject to the inspection of their personal property. The General Services Administration's (GSA) regulations at 41 CFR 102-74 provide for the inspection of personal property in the possession of all people who arrive, work at, or visit NARA facilities controlled by GSA, but NARA's regulations at 36 CFR 1280.8 specifically provide, at the current time, only for the inspection of personal property of visitors on NARA-controlled property.

NARA controlled properties are those listed in 36 CFR 1280.2. We have identified in 36 CFR 1280.2 three additional NARA-controlled properties that have come into the NARA system since this part was last updated.

The regulations at 41 CFR part 102-74 will continue to provide the authority to inspect all packages, briefcases, and other containers in the possession of all persons on property under the control of GSA.

This proposed rule is not a significant regulatory action for the purposes of Executive Order 12866 and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, I certify that this rule will not have a significant impact on a substantial number of small entities because this proposed rule affects NARA contractors, employees, student interns, visitors, volunteers and other persons on NARA controlled property. This regulation does not have any federalism implications.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R06-OAR-2005-TX-0015; FRL-8224-6]

Approval and Promulgation of Air Quality Implementation Plans; Texas; Revisions To Control Volatile Organic Compound Emissions; Volatile Organic Compound Control for El Paso, Gregg, Nueces, and Victoria Counties and the Ozone Standard Nonattainment Areas of Beaumont/Port Arthur, Dallas/Fort Worth, and Houston/Galveston

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve Texas State Implementation Plan (SIP) revisions. The revisions pertain to regulations to control Volatile Organic Compound (VOC) emissions from facilities in El Paso, Gregg, Nueces, and Victoria Counties; the 8-hour ozone standard nonattainment areas of Beaumont/Port Arthur and Houston/Galveston; and portions of the Dallas/Fort Worth 8-hour ozone standard

nonattainment area. The revisions add additional controls on VOC emissions from industrial wastewater systems in the Beaumont/Port Arthur, Dallas/Fort Worth, El Paso, and Houston/Galveston areas. The revisions also amend requirements to identify and correct emissions from VOC leaks from facilities that refine petroleum or process natural gas, gasoline or petrochemicals in the Beaumont/Port Arthur, Dallas/Fort Worth, El Paso, and Houston/Galveston areas, and from petroleum refineries in Gregg, Nueces, and Victoria Counties. We are proposing to approve the revisions pursuant to section 110 and part D of the Federal Clean Air Act. The control of VOC emissions will help to attain and maintain the 8-hour national ambient air quality standard for ozone in Texas. Approval will make the revised regulations Federally enforceable.

SUPPLEMENTARY INFORMATION: In the final rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no relevant adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment
