Semiannual Regulatory Agenda

DEPARTMENT OF HOMELAND SECURITY (DHS)

DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

6 CFR Chs. I and II

[DHS Docket No. OGC-RP-04-001]

[≤Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Office of the Secretary, DHS.

ACTION: Semiannual regulatory agenda.

SUMMARY: This regulatory agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department of Homeland Security (DHS) and its component agencies and divisions. This agenda provides the public with information about DHS' regulatory activity. It is expected that this information will enable the public to be more aware of and effectively participate in the Department's regulatory activity. The public also is invited to submit comments on any aspect of this agenda.

FOR FURTHER INFORMATION CONTACT:

General

Please direct all comments and inquiries on the agenda in general to the Regulations Division, Office of the General Counsel, Department of Homeland Security, Washington, DC 20528.

Specific

Please direct specific comments and inquiries on individual regulatory

actions identified in this agenda to the individual listed in the summary of the regulation as the point of contact for that regulatory action.

SUPPLEMENTARY INFORMATION: This notice is given pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, September 19, 1980) and Executive Order (E.O.) 12866, "Regulatory Planning and Review" (September 30, 1993), which require the publication of a semiannual agenda of regulations by the Department. The regulatory agenda is a semiannual summary of all current and projected rulemakings, as well as actions completed since the publication of the last regulatory agenda for the Department. This is DHS' seventh semiannual regulatory agenda since the Department's inception in January 2003. DHS' last semiannual regulatory agenda was published on October 31, 2005, at 70 FR 64630.

DHS currently is comprised of four directorates: Policy; Preparedness; Science and Technology; and Management. Other major components include the Office of Intelligence and Alliance; the Office of Operations Coordination; and the Domestic Nuclear Detection Office. Several other critical agencies were transferred to the Department or were created under the Homeland Security Act of 2002, including the U.S. Coast Guard (Coast Guard), the U.S. Secret Service, the Transportation Security Administration (TSA), and the Federal Emergency Management Administration (FEMA). In addition, the former Immigration and

Naturalization Service (INS) of the Department of Justice and the former U.S. Customs Service of the Department of the Treasury were transferred to DHS and reorganized to become the U.S. Citizenship and Immigration Services (USCIS), the Bureau of Immigration and Customs Enforcement (ICE), and the Bureau of Customs and Border Protection (CBP). Many of the agencies transferred to DHS had existing and active regulatory agendas. Those legacy regulatory agendas have been transferred to DHS and now are identified in the DHS regulatory agenda. Accordingly, some of the regulatory actions identified in this agenda may reference actions initiated by a predecessor Department or Agency.

In September 2005, DHS joined the Environmental Protection Agency Federal Partner online electronic Federal Docket Management System (FDMS) located at . All Coast Guard and TSA electronic dockets continue to be accessed at dms.dot.gov. Since Coast Guard and TSA were originally on the Department of Transportation's (DOT) electronic Docketing Management System, those agencies will remain on that system until DHS fully migrates to FDMS.

The semiannual agenda of the Department conforms to the Unified Agenda format developed by the Regulatory Information Service Center.

Dated: March 23, 2006.

Mary Kate Whalen,

Deputy Associate General Counsel for Regulatory Affairs.

Proposed Rule Stage
1092. SUPPLEMENTAL STANDARDS OF CONDUCT FOR EMPLOYEES OF THE DEPARTMENT OF HOMELAND SECURITY

Priority: Info./Admin./Other. Major status under 5 USC 801 is undetermined.

Legal Authority: 5 CFR 2635.105

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: This regulation will tailor the Executive Branchwide Standards of Conduct for application in DHS. This regulation will replace the existing regulations of agencies that were incorporated into DHS that have

continued to apply to those employees whose duties and organizational structure have remained largely unchanged after their incorporation. Two significant areas to be addressed are outside employment and participation as an officer or director of non-Governmental organizations.

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: sec 3820 of PL 109-59, 119, Stat 1144

CFR Citation: 6 CFR 35

Legal Deadline: NPRM, Statutory, Legislative deadline—180 days after enactment.

Abstract: This proposed rule provides interested parties an opportunity to comment on the characteristics and requirements to be employed by the Department of Homeland Security (DHS) when awarding public transportation security grants. The purpose of these grants is to create a sustainable effort for the protection of regional transit systems and the commuting public from terrorism, especially explosives and non-conventional threats that would cause major loss of life and severe disruption. These funds may be used for planning, organization, equipment, training, exercises, and limited management, administrative, and operational costs.

Priority: Other Significant

Legal Authority: 29 USC 2229(a)

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: This proposed action provides interested parties an opportunity to comment on the Staffing for Adequate Fire and Emergency Response (SAFER) grant program. The purpose of these grants is to award grants to hire new firefighters and to recruit and retain volunteer firefighters. Specifically, there are two funding activities under this program: Hiring of New Firefighters Activity grants would be made directly to volunteer, combination, and career fire departments to increase the number of active firefighters on their rosters to attain 24-hour staffing; and Recruitment and Retention of Volunteer Firefighters Activity grants would be made directly to volunteer and combination fire departments and to local and State-wide organizations that represent the volunteer firefighters' interests to create or expand incentive programs to increase and maintain volunteer firefighter staffing levels.

CFR Citation: 6 CFR 23.1**Legal Deadline:** None

Abstract: This rule implements the Department of Homeland Security’s (DHS) debt collection regulations to conform to the Debt Collection Act of 1982, Public Law 97-365, 96 Stat. 1749 (October 25, 1982), as amended by the Debt Collection Improvement Act of 1996 (DCIA), Public Law 104-134, 110 Stat. 1321, 1358 (April 26, 1996), the Federal Claims Collection Standards, 31 CFR chapter IX (parts 900 through 904), and other laws applicable to the collection of nontax debts owed to DHS entities.

DHS adopts the Governmentwide debt collection standards promulgated by the Departments of the Treasury and Justice, known as the Federal Claims Collection Standards (FCCS), as revised

DHS—OS

Final Rule Stage

on November 22, 2000 (65 FR 70390), and supplements the FCCS by prescribing procedures consistent with the FCCS, as necessary and appropriate for DHS operations. DHS entities may, but are not required to, promulgate additional policies and procedures consistent with this regulation, the FCCS, and other applicable Federal laws, policies, and procedures. This regulation also provides the procedures for the collection of debts owed to other Federal agencies when a request for offset is received by DHS.

This regulation does not apply to the collection of tax debts, which is governed by the Internal Revenue Code of 1986 (26 USC et seq.), and regulations, policies, and procedures issued by the Internal Revenue Service or other Federal agency collecting tax debts.

Nothing in this regulation precludes the use of collection remedies not contained in this regulation. For example, DHS entities may collect unused travel advances through setoff of an employee's pay under 5 USC 5705. DHS entities and other Federal agencies may simultaneously use multiple collection remedies to collect a debt, except as prohibited by law.

Abstract: In 2003, the Department of Homeland Security established the United States Visitor and Immigrant Status Technology Program (US-VISIT), whose objective is to create and maintain an integrated, automated entry-exit system that records the arrival and departure of aliens; verifies their identities; and authenticates their travel documents through comparison of biometric identifiers. The goals of the US-VISIT program are to enhance the security of United States citizens

and visitors to the United States, facilitate legitimate travel and trade, ensure the integrity of the United States immigration system, and protect the privacy of visitors to the United States. In its early stages, US-VISIT applied only to nonimmigrants with visas and to those who did not require a visa as they were entering under the Visa Waiver Program. This rule would amend DHS regulations to provide that aliens may be enrolled into US-VISIT. With very few exceptions, such as diplomats, as resources, technology and operational capacity permit.

Abstract: This action establishes procedures for the Department's Office of the Secretary, necessary to implement the Freedom of Information Act (5 USC 552) (FOIA) and the Privacy Act (5 USC 552a) (Privacy Act). The

provisions of this subpart shall apply to each component of the Department. FOIA provides for the full disclosure of agency records and information to the public unless that information is exempt under clearly delineated statutory language. The Privacy Act serves to safeguard public interest in informational privacy by delineating the duties and responsibilities of Federal agencies that collect, store, and disseminate personal information about individuals. The procedures established here assist the Department in satisfying its responsibility to the public to disclose departmental information

while simultaneously safeguarding individual privacy.

CFR Citation: 8 CFR 215(a)(1)

Legal Deadline: None

Abstract: DHS established the United States Visitor and Immigrant Status Indicator Technology Program (US-VISIT) in accordance with a series of legislative mandates requiring that DHS create an integrated automated entry-exit system that records the arrival and departure of aliens; verifies aliens' identities, and authenticates travel documents. On January 5, 2004, DHS published an Interim Final Rule in the Federal Register at 69 FR 468 authorizing the Secretary of Homeland Security to require, in part, certain aliens to provide fingerprints, photograph[s] or other biometric identifiers, documentation of immigration status in the United States, and other such other evidence as may be required to determine the alien's identity and whether he or she has properly maintained immigration status while in the United States at the time

of departure from the United States. The Interim Rule authorized the establishment of pilot programs at up to fifteen air and sea ports of entry to evaluate the implementation of this departure procedure. That evaluation pilot has been completed and the procedures have been adopted. This rule removes the limit on the collection of this information from the fifteen locations of the pilot programs and authorizes implementation at all air and sea ports of entry. This rule authorizes the Secretary to require those aliens required to provide biometric identifiers at entry to provide biometric identifiers upon departure at any air and sea port of entry at which facilities exist to collect such information.

Abstract: This rulemaking covers several grounds of inadmissibility applicable to those aliens seeking admission to the United States temporarily or permanently—criminal, security, labor certification, licensure requirements for foreign medical graduates and health care workers, failure to attend a removal proceeding, fraud, improperly issued immigrant visa, permanent ineligibility for U.S. citizenship, and miscellaneous grounds. It implements several pieces of legislation. The most significant is the Illegal Immigration Reform and

Immigrant Responsibility Act of 1996 (IIRIRA), signed on September 30, 1996, which substantially revised most grounds of inadmissibility under section 212 of the Act and the waivers available to both immigrants and nonimmigrants.

Abstract: On June 8, 1995, at 60 FR 29751, the Department of Justice published a final rule that provided that all persons, other than ministers immigrating to the United States as religious workers must immigrate or adjust status to permanent residence before October 1, 1997. By statute, this special immigrant category for religious workers expired but was subsequently extended by Congress and is now expiring October 1, 2008. DHS is promulgating this regulation to implement the extension of this category and clarify certain employment experience requirements for those persons affected by this provision of immigration regulations. In order to maintain consistency in the adjudication of nonimmigrant and special immigrant religious worker classifications, the nonimmigrant

Abstract: This rule amends Department regulations by establishing procedures for certain North Atlantic Treaty Organization (NATO) civilian employees and their family members to receive special immigrant status in the United States and become lawful permanent residents of this country. This rule also offers nonimmigrant status to any parent or child of a NATO civilian employee who has been granted special immigrant status. This rule is intended to ensure the qualifying NATO employees and their family members are aware of their opportunity to acquire special immigrant status and adjustment of status or otherwise obtain corresponding nonimmigrant status.

Abstract: This rule amends Department regulations by establishing procedures to be followed by DHS personnel and Department of State personnel in determining whether or not an expatriate alien is inadmissible to the United States under Section 212(a)(10)(E) of the Immigration and Nationality Act. This ground of inadmissibility relates to former U.S. citizens who renounced U.S. citizenship on or after September 30, 1996, and the Secretary has determined that such renunciation was done for the purpose of avoiding taxation by the United States.

Abstract: The Department proposes to amend its regulations regarding the immigration of children of foreign states adopted by United States citizens. The proposed rule would establish a new definition of child to include children adopted from countries that have implemented the Hague Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption. The proposed rule would also change evidentiary requirements for the immigration of adopted children to state that a certificate of adoption or custody issued by the Secretary of State of the United States is conclusive evidence of the relationship between an adoptive parent and the adoptive child. These changes are necessary to conform the regulations to the Intercountry Adoption Act of 2000 (IAA) (Pub. L. 106-279). The proposed rule would also make other technical changes.

Abstract: This rule proposes amending Department regulations for persons using Section 245(k) of the Immigration and Nationality Act to adjust status to that of lawful permanent resident (LPR). Section 245(k) of the Act allows an alien with an approved employment-based petition to adjust status to LPR despite violations of status if those violations have lasted no longer than 180 days since the alien's last entry. CFR Citation: 8 CFR 103; 8 CFR 202; 8 CFR 212; 8 CFR 214; 8 CFR 245; ...

Legal Deadline: None

Abstract: The American Competitiveness in the 21st Century Act, Public Law 106-313, was enacted on October 17, 2000, along with two bills, the Visa Waiver Permanent Program Act, Public Law 106-311, and a bill to increase the fee for certain H-1B petitions. An earlier piece of legislation, the American Competitiveness and Workforce Improvement Act (ACWIA), Public Law 105-277, was enacted to place certain conditions on the employment of H-1B workers. Together, these bills make significant changes to the H-1B classification. Public Law 106-313 increased the numerical H-1B cap to 195,000 for fiscal year 2000-2002 and the percentage of the fees that DHS receives to 4 percent. It exempts certain aliens from the numerical cap, provides for the "portability" of employment authorization, and in certain circumstances extensions of stay for certain aliens who have permanent residence applications pending. Public Law 105-277 imposes penalties for employers violating certain representations and prohibits retaliation against H-1B workers who disclose these violations. Finally, on November 2, 2002, the President approved enactment of Public Law 107-273, The Twenty First Century Department of Justice Appropriations Act (21st Century DOJ Appropriations Act), which codified a provision that amends section 106(a) of AC21. This regulation clarifies several interpretive questions raised by the bills and ensures that the Department practice is consistent with these laws.

Additional Information: DHS rule 1615-AG11 implemented the American Competitiveness and Workforce Improvement Act (ACWIA); it was the result of a prior rule that was overtaken by new legislation relating to H-1B classification. ACWIA increased the numerical cap on H-1B nonimmigrant aliens; required certain dependent employers to make additional attestations to the Department of Labor (DOL); increased the penalties for employers who have been found to be in violation of DOL's rules; and created a "whistleblower" clause to protect H-1B workers who filed complaints against their employer.

In 1190-AA48, the Civil Rights Division, in cooperation with DOL, will implement in the Justice Department's regulations the ACWIA "failure to select" protections—codified in the Immigration and Nationality Act at section 212(n)(5)—by establishing a process under which U.S. workers may file complaints against employers for denying them employment opportunities by improperly hiring temporary foreign professionals on H-1B visas. Under that process, the Secretary is to receive and review these complaints and then—where there is reasonable cause to believe a complainant's allegations—initiate binding arbitration proceedings through Federal Mediation and Conciliation Service.

Abstract: This rule proposes to amend the provisions regarding consent to reapply after removal to conform with the requirements of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA). This rulemaking intends to remove the provisions contained in 8 CFR 212.2(i) relating to a request for consent to reapply in conjunction with an application for admission at a port-of-entry or with an application for adjustment of status. The proposed removal of section 212.2(i) reflects the overall scope of the changes made by IIRIRA and congressional intent to impose severe penalties on aliens who enter illegally or otherwise violate the U.S. immigration laws, by restricting the relief available to them in the United States.

This regulation will implement those sections of law. Previously, this regulation was part of a larger 212 regulation (CIS No. 1413-97, RIN 1615-AA00), but due to the desire for clarity and the need to have different DHS components concentrate on different areas of inadmissibility, these criminal sections have been reported in a separate regulation.

Abstract: DHS and the Department of Labor's Employment and Training Administration (DOL) are proposing changes to reduce the incentives and opportunities for fraud and abuse related to the permanent employment of aliens in the United States. Abstract: The Department of Homeland Security, U.S. Citizenship and Immigration Services (USCIS) issues Alien Registration Receipt Cards (I-551) to lawful permanent residents to serve as evidence of immigration status, registration, identity and employment authorization, and as an entry document upon return from a trip outside the United States. Currently there is a population of lawful permanent residents who possess cards that do not have expiration dates.

USCIS will be terminating the validity of Form I-551 that do not have expiration dates. This rule establishes a 120-day period for aliens with Forms I-551 that do not bear expiration dates to apply for replacement cards. This rule also amends the regulations to remove references to outdated application procedures for the I-551. The application process required by this rule will enable USCIS to issue more secure Forms I-551 to affected aliens, update cardholder information, conduct background checks, and electronically store applicants' biometric information that can be used for biometric comparison and authentication purposes consistent with the goals of the Enhanced Border Security and Visa Entry Reform Act of 2002.

In addition, this rule establishes the mechanism by which USCIS will notify the public of the termination date for forms I-551 that do not have expiration dates. This rule also amends the regulations to add two documents to the list of forms that constitute evidence of registration: Receipt for the form I-90, Application to Replace Permanent Resident Card, and Receipt for pending Form N-400, Application for Naturalization. Finally, this rule amends the regulations to correct the title and edition date of form I-551 and form I-90.

Abstract: A foreign residence requirement is a period of time that certain nonimmigrants are required to remain outside the United States in their home country or place of last habitual residence for a definite period of time until they are allowed to reenter the United States or apply for other U.S. immigration benefits. This proposed rule would amend the Department of Homeland Security (DHS), regulations to impose a foreign residence requirement on certain participants of the Irish Peace Process Cultural and Training Program (IPPCTP). This requirement is necessary to ensure that participants return home to apply the skills they received by participating in the IPPCTP toward the economic regeneration of their region. This rule would also implement the use of the Form I-928 to adjudicate requests from the affected participants to waive the foreign residence requirement on certain grounds.

Abstract: This final rule amends Department regulations by clarifying that an alien remains ineligible for adjustment of status after termination of conditional permanent resident status. The clarification is necessary in view of the determination by the Board of Immigration Appeals that the current regulations do not prohibit the adjustment of status of an alien whose conditional resident status has been

terminated. This final rule would also modify provisions regulating the adjustment of status of nonimmigrant fiance(e)s to reflect the current statute and to eliminate hardships on certain persons who are unable, despite their good faith intentions, to marry until after the expiration of the alien spouse's period of admission as a nonimmigrant fiance(e).

Abstract: In 1996, the Immigration and Naturalization Service published an interim rule on this subject at 61 FR 13061. The USCIS, formerly the Immigration and Naturalization Service, received a number of comments in response to that rulemaking. Most of those comments have since been overcome by events, namely new legislation. In October 2000, the President signed the Victims of Trafficking and Violence Protection Act, PL 106-386, which contained numerous amendments to the battered spouse provisions contained in the Immigration and Nationality Act (INA). More recently, the Violence Against Women and Department of Justice Reauthorization Act of 2005, PL 109-162 (January 5, 2006), made further amendments to the battered spouse provisions of the INA. The Department will now issue another interim final rule to make the changes required by the recent legislation and to provide an opportunity for notice and comment.

Abstract: Section 401(a) of the Personal Responsibility and Work Reconciliation Act of 1996 (PRWORA) provides that, with limited exceptions, only qualified aliens, as defined under section 431, may receive certain Federal public benefits. Section 401(b)(2) provides an exception that allows aliens who are “lawfully present in the United States” to receive social security benefits under title II of the Social Security Act. PRWORA, and other laws, use the term “lawfully present” in other benefit-related contexts as well.

The Department of Justice published an interim final rule on September 6, 1996, which amended then-INS regulations to define the term “an alien who is lawfully present in the United States” so that the Social Security Administration may determine which aliens are eligible for benefits under title II of the Social Security Act. DHS now plans to issue a final rule to complete the rulemaking action.

Abstract: This rule amends USCIS regulations by establishing that an individual (the sponsor) who files an affidavit of support under section 213A of the Immigration and Nationality Act (INA) on behalf of an intending immigrant incurs an obligation that may be enforced by a civil action. This rule also specifies the requirements that Federal, State, or local agencies or private entities must meet to request reimbursement from the sponsor for provision of means-tested public benefits and provides procedures for imposing the civil penalty provided for under section 213A of the INA, if the sponsor fails to give notice of any change of address. This rule is necessary to ensure that sponsors of aliens meet their obligations under section 213A of the INA.

Legal Deadline: Final, Statutory, July 2, 2006.

Abstract: This rule implements the International Marriage Broker Regulation Act of 2005, PL 109-162, and provides that a U.S. citizen filing a Petition for Alien Fiancé(e) from another country must provide information on criminal convictions for specified crimes. The Department of Homeland Security (DHS) will provide this criminal history information to the Department of State. The rule further provides that DHS is prohibited from approving a Petition for Alien Fiance(e) if the U.S. citizen petitioner has filed more than two such petitions in the past, or less than 2 years have passed since the last visa petition was approved. DHS may waive this bar if certain requirements are met. The rule also discusses the tracking database that DHS will create to track repeated Petitions for Alien Fiance(e)s, and also discusses notification and pamphlet distribution requirements.

Abstract: This rule implements section 203 of the Nicaraguan Adjustment and Central American Relief Act (NACARA), enacted as title II of Public Law No. 105-100, 111 Stat. 2160, 2193 (1997) (as amended by Technical Corrections to the Nicaraguan Adjustment and Central American Relief Act (NACARA), Public Law 105-139, Stat. 2644 (1997)). Section 203 of NACARA provides that certain Guatemalans, Salvadorans, and nationals of former Soviet Bloc countries are eligible to apply for cancellation of removal under the standards for suspension of deportation similar to those that existed prior to enactment of Illegal Immigration Reform and Immigrant Responsibility Act (IIRIRA). The rule establishes the authority of DHS asylum officers to adjudicate certain applications under section 203 of NACARA, provides application and adjudication procedures, identifies factors and standards relevant to eligibility, and establishes a rebuttable presumption of extreme hardship for certain NACARA beneficiaries.

Abstract: This rule amends Department regulations to establish clear standards governing a determination that an alien is admissible or ineligible to adjust status, or has become deportable, on public charge grounds. This rule is necessary to alleviate growing public confusion over the meaning of the currently undefined term public charge in immigration law and its relationship to the receipt of Federal, State, or local public benefits. By defining public charge, DHS seeks to reduce the existing confusion and to provide aliens with better guidance as to the types of public benefits that will and will not be considered in public charge determinations.

Abstract: Section 207 of the Immigration and Nationality Act authorizes the Attorney General to admit refugees to the United States under certain conditions, including those provided for by regulation. That authority was delegated to the Secretary of Homeland Security under the Homeland Security Act. DHS regulations require that sponsorship agreements be secured before an applicant is granted admission as a refugee at a U.S. port-of-entry. The determination of whether or not someone is classified as a refugee is described in the Act as a separate decision from whether a refugee may be admitted to the United States in refugee status. This rule amends DHS regulations by removing language that erroneously implies that DHS requires a sponsorship agreement and guarantee of transportation prior to determining whether an applicant is a refugee. This rule is necessary to clarify issues in the existing regulation, and provides more advantageous treatment for the limited number of applicants for refugee status who have their DHS interviews before sponsorship agreements have been secured.

Abstract: Enacted on November 10, 1986, the Immigration Marriage Fraud Amendments of 1986 (IMFA) made a number of changes to the Immigration and Nationality Act (Act) to deter aliens from marrying solely to obtain immigration benefits. IMFA established a conditional resident status for aliens who obtained lawful permanent resident status based upon a marriage of less than 2 years duration. The interim rule published on May 16, 1991, established procedures to allow a conditional resident who married in good faith but whose marriage was terminated by the United States citizen or lawful permanent resident spouse to seek a waiver of the joint filing requirement. The interim rule published on May 16, 1991, also was necessary to provide a method by which a battered conditional resident, or a conditional resident parent of an abused conditional resident child, may apply for removal of the conditional basis of resident status without filing a joint petition. This final rule implements certain technical changes made by the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 and addresses comments received in response to the interim rule published on May 16, 1991.

This rule adds documents to the acceptable list of registration requirements and clarifies the requirements for lawful permanent residents to file Form I-90, Application to Replace Alien Registration Card, if they are also applying for naturalization. This rule also provides additional methods to verify employment eligibility for those in the process of renewing their expired or expiring Form I-551, Permanent Resident Card. These changes are necessary to facilitate the 10-year Form I-551 renewal process. This rule also clarifies the fingerprinting requirements for lawful permanent residents who reach the age of 14 years.

Abstract: On November 29, 1999, Public Law 106-113 was enacted. Section 117 amended the Immigration and Nationality Act at section 203 to provide national interest waivers to alien physicians agreeing to practice five years in designated medically underserved areas or at Veterans Affairs facilities. The Department of Justice issued two interim rules to amend 8 CFR parts 204 and 245 to implement the new statutory provisions and to allow applicants to begin to take advantage of the new provisions. The Department of Homeland Security now seeks to finalize the process by issuing a final rule.

Abstract: The Department is amending its regulations governing eligibility for adjustment of status under Section 245(i) of the Immigration and Nationality Act to conform the regulations to existing policy and procedures and to remove language that has been superseded by subsequent legislation. Specifically, this rule conforms the regulations to include the changes made by Public Law 105-119 and Public Law 106-544. It also provides for the changes contained in the Legal Immigration Family Equity Act of 2000 (LIFE Act). As required by the Life Act, this rule changes the sunset date of Section 245(i) of the Immigration and Naturalization Act to the new date of April 30, 2001, for filing of qualifying petitions or applications that enable the applicant to apply to adjust status using Section 245(i) and clarifies the effect of the new sunset date on eligibility. This means that in order to preserve the ability to apply for adjustment of status under Section 245(i), an alien must be the beneficiary of a visa petition for classification under section 204 of the Act or application for labor certification properly filed on or before April 30, 2001, and determined to have approval when filed. This rule also provides guidance on the standard for review of filing for immigrant visa petitions and applications for labor certification on or before April 30, 2001.

Abstract: This rule proposes to amend Department of Homeland Security regulations that govern asylum eligibility by providing guidance on certain issues that have arisen in the context of asylum adjudications. The amendments focus on portions of the regulations that deal with the definitions of membership in a particular social group, the requirements for failure of State protection, and determinations about whether persecution is inflicted on account of a protected ground. This rule codifies long-standing concepts of the definitions. It clarifies that gender can be a basis for membership in a particular social group. It also clarifies that a person who has suffered or fears domestic violence may under certain circumstances be eligible for asylum on that basis. The Department of Justice believed that this issue required further examination after the Board of Immigration Appeals decision, Matter of R-A-, Interim Decision 3403 (BIA 1999) and published a proposed rule. Additionally, the rule clarifies the factors considered in cases in the Court of Appeals for the Ninth Circuit regarding membership in a particular social group are not determinative.

Hence, DHS, USCIS will publish a final rule which incorporates provisions contained in both an interim rule

amending Department of Justice regulations to implement the Illegal Immigration Reform and Immigrant Responsibility Act, (62 FR 10312-1997), and the proposed past persecution rule, Executive Office for Immigration Review; New Rules Regarding Procedures for Asylum and Withholding of Removal (63 FR 31945-1998).

Abstract: The current regulations provide that an alien worker who wants to apply for permanent residence by filing the appropriate Form I-485, Application To Register Permanent Residence or Adjust Status, cannot do so until he or she obtains approval of the underlying petition, Form I-140, Immigrant Petition for Alien Worker. This procedure has resulted in aliens experiencing unnecessary delays due to the heavy backlog created by increasing numbers of cases received by the Department of Homeland Security (DHS). This rule amends DHS regulations by allowing the Forms I-140 and I-485 to be filed concurrently when a visa is immediately available, thereby improving the efficiency of the system, as well as customer service. This rule will also allow the alien worker to apply for employment authorization (Form I-765, Application for Employment Authorization) and advance parole authorization (Form I-131, Application for Travel Document) while the Form I-485 is pending.

Abstract: This interim final rule (CIS No. 2115-01) implements section 1104 of the Legal Immigration Family Equity Act (LIFE) and LIFE Act Amendments pertaining to adjustment of status of certain class action participants (specifically, Catholic Social Services v. Meese (CSS), 509 U.S. 43 (1993), League of United Latin American Citizens v. INS (LULAC), 509 U.S. 43 (1993), and Zambrano v. INS, 509 U.S. 918 (1993) class applicants) who entered before January 1, 1982, to that of a person admitted for lawful residence. This rule establishes procedures for a one-year application period to allow CSS, LULAC, and Zambrano class applicants to apply for adjustment of status to that of lawful permanent residence.

CIS No. 2145-01 amends the Department's regulations by establishing procedures to apply for Family Unity benefits for certain spouses and unmarried children of aliens who adjusted to lawful permanent resident (LPR) status pursuant to section 1104 of the Legal Immigration Family Equity (LIFE) Act—known as the LIFE Legalization provision. It applies to those persons who are no longer present in the United States to allow them to apply for Family Unity benefits pursuant to section 1504 of the LIFE Act Amendments. This rule also establishes procedures for certain spouses and

unmarried children who previously were granted Family Unity benefits pursuant to section 1504 of the LIFE Act Amendments to apply for an extension of their Family Unity benefits. This rule is necessary to ensure that those aliens eligible to apply for, and extend, Family Unity benefits under the provisions of the LIFE Act Amendments are able to do so in a timely manner.

Abstract: Section 1102 of the LIFE Act of 2000 amends the Immigration and Nationality Act to create a new nonimmigrant classification V for the spouses and children of lawful permanent residents awaiting the availability of an immigrant visa number in the appropriate preference category in accordance with the State Department's monthly Visa Bulletin. Eligible spouses and children of lawful permanent residents residing abroad that obtain the V nonimmigrant visa from the Department of State may work and reside in the United States on the basis of the V classification until they can apply for adjustment of status to that of lawful permanent resident. Certain eligible spouses and children of lawful permanent residents already present in the United States may be granted V classification until they can apply to adjust status to that of lawful permanent resident. Abstract: On October 27, 2000, the President signed into law Public Law 106-378, Adjustment of Status of Certain Syrian Nationals, which provides for the adjustment of status to lawful permanent resident of certain Syrian nationals, without regard to the annual numerical limitation requirement. This interim final rule discusses eligibility and sets forth application procedures for persons wishing to adjust status on the basis of Public Law 106-378. The Department issued this action as an interim rule because Public Law 106-378 provided for a one-year application period, which ended on October 26, 2001. Publication of the interim final rule ensured that applicants were provided with as much time as possible to apply for the benefits under Public Law 106-378.

Abstract: This rule sets forth application requirements for a new nonimmigrant classification. The T classification was created by 107(e) of the Victims of Trafficking and Violence Protection Act of 2000 (VTVPA), Public Law 106-386. The T nonimmigrant classification was designed for eligible victims of severe forms of trafficking in persons who aid the Government with their case against the traffickers and who can establish that they would suffer extreme hardship involving unusual and severe harm if they were removed from the United States after having completed their assistance to law enforcement. The rule establishes application procedures and responsibilities for the Department of Homeland Security and provides guidance to the public on how to meet certain requirements to obtain T nonimmigrant status.

There is a statutory cap for T nonimmigrant status for victims of a severe form of trafficking (principals), which is set at 5,000 per annum. The law also provides that certain family members can derive T status through the principal's application.

Abstract: This rule sets forth application requirements for a new nonimmigrant status. The U classification is for non-U.S. Citizen/Lawful Permanent Resident victims of certain crimes who cooperate with an investigation or prosecution of those crimes. There is a limit of 10,000 principals per year.

This rule establishes the procedures to be followed in order to petition for the U nonimmigrant classifications. Specifically, the rule addresses: The essential elements that must be demonstrated to receive the nonimmigrant classification; procedures that must be followed to make an application; and evidentiary guidance to assist in the petitioning process. Eligible victims will be allowed to remain in the United States.

meaning of the oath. The rule incorporates changes made by Public Law 106-448, which authorized the Secretary of the Department of Homeland Security to waive the oath requirement for such individuals. It also specifies who is authorized to act as a designated representative on behalf of applicants who qualify for the waiver and addresses how DHS will conduct examinations with such representatives to ensure that applicants with disabilities have the opportunity to establish eligibility for naturalization.

Abstract: This interim rule codifies the Secretary of Homeland Security's current discretionary authority, as delegated to the Department of Homeland Security (DHS) directors, to manage the caseload of pending requests for immigration benefits in districts or regions over which the directors have jurisdiction. A component of this case management authority is the ability to withhold

adjudication of any pending application or petition, particularly when an investigation is ongoing and background and security checks are still pending completion. This interim rule expands the circumstances under which DHS may withhold adjudication or toll any applicable regulatory deadline for completion of adjudication of an application or petition. This interim rule also modifies the regulations governing processing of naturalization applications to define when a naturalization examination will be deemed "conducted" for purposes of seeking administrative or judicial review under section 336 of the Immigration and Nationality Act (Act). The interim rule also requires that background and security checks be completed to the satisfaction of the Secretary before an alien may be found to have "good moral character" for naturalization and before the alien may be naturalized in accordance with Title III of the Act. These changes will aid DHS in its efforts to improve case adjudication overall while simultaneously ensuring that no immigration or naturalization benefit is granted until any pending investigation or required background and security check is completed to the satisfaction of the Secretary. These changes also will ensure that no immigration benefit is provided to an ineligible individual or person who may pose a threat to public safety or national security.

RIN: 1615-AB12**1183. REMOVAL OF STANDARDIZED REQUEST FOR EVIDENCE PROCESSING TIMEFRAME****Priority:** Other Significant**Legal Authority:** 8 USC 1103**CFR Citation:** 8 CFR 103

Legal Deadline: NPRM, Statutory, September 1, 2003, NPRM Comment Period Ends January 31, 2005.

Abstract: This rule proposes to amend Department of Homeland Security regulations by removing the absolute requirement for, and the fixed regulatory time limitations on responses to, a U.S. Citizenship and Immigration Services issued Request for Evidence (RFE) or Notice of Intent to Deny (NOID). These changes will enable USCIS to set an appropriate deadline for responding to an RFE or NOID, specific to the type of case, benefit category, or classification, and thus improve the process of adjudication of applications and petitions by reducing the time a case is held awaiting evidence, and by reducing average case processing time. This rule will result in improved efficiency in the USCIS adjudication process.

In addition, this rule includes certain organizational changes necessitated by the implementation of the Homeland Security Act of 2002, Public Law 107-296. This rule also removes obsolete regulatory language related to the Replenishment Agricultural Worker

(RAW) program under section 210A of the Immigration and Nationality Act (Act), which was repealed by section 219(ee)(1) of the Immigration and Technical Corrections Act of 1994, Public Law 103-416. The rule further removes references to the use of qualified designated entities for filing of applications for adjustment of status in the Seasonal Agricultural Workers (SAW) and legalization programs under section 210 and 245A of the Act. By including the organizational changes, the rule will also assist the public in understanding the delegation of authority for adjudicating cases.

Abstract: The Soviet Scientists Immigration Act of 1992 (SSIA) provided for 750 visas to be provided to eligible scientists and engineers from the former Soviet Union. This Program expired on October 24, 1996. Recent legislation extended the eligibility deadline for filing under the SSIA to

September 30, 2006, and raised the numerical limit on these visas from 750 to 950. It also required DHS to consult with the Department of State and other agencies regarding previous experiences with the program and their recommendations for making the program more effective. This rule improves administration of the program by requiring each applicant to submit a statement signed by the State Department's Bureau of Nonproliferation (Bureau) regarding his or her qualifications. Because the Bureau has been in close contact with this group of scientists and with the organizations that have employed them for a number of years, the Bureau is in a better position than DHS to assess the individual applicant's qualifications. Accordingly, this signed statement will be submitted for the evidence of qualifications previously required under the program.

DHS—USCIS

Final Rule Stage

Abstract: This rule amends the regulations of the Department of Homeland Security to enable certain petitioners to file O and P nonimmigrant petitions up to one year prior to the petitioners' need for the alien's services. Petitioners frequently plan for an event or performance more than one year in advance when seeking O and/or P nonimmigrant workers for employment in the United States. By extending the filing time requirement for O and P petitions from the current 6 months to one year, DHS hopes to provide relief and assurance to petitioners that, if approvable, such petitions will be approved prior to the date of the petitioners' need for the alien's services.

Additional Information: Current filing times combined with processing times often result in an O or P petition being adjudicated at the same time or later than the date of the petitioner's stated need for the alien. This creates a hardship for employers who are seeking to hire the alien based on a scheduled performance, competition, or event, and who may have booked a venue and sold advance tickets. If the petition is not approved by the time of the petitioner's stated need, the petitioner may be required to cancel a scheduled event or performance, may lose funds advanced for booking a venue, and may also be liable for the costs associated with ticket refunds. Since an O or P employer may plan for the competition, event, or performance more than one year in advance, DHS has determined that extending the filing time will provide relief to many such employers. Although this rule may have an impact on small entities, the rule has been drafted in a way to minimize the economic impact that it has on small businesses while meeting its intended objective. This rule will ensure that certain O and P nonimmigrant petitions are adjudicated well in advance of the date of the employers' stated need, and thus prevent employers from having to cancel an event, competition, or

performance either because the petition was denied at the last minute, or because the petition was not adjudicated in advance of the need. Employers will be less likely to lose booking costs or have to issue refunds if they receive a decision on the petition well in advance of the event, competition, or performance. Extending the time requirements for the filing of O and P petitions will provide immediate relief to affected United States employers, and any economic impact on small entities is likely to be positive.

Abstract: The Free Trade Agreements with Chile and Singapore, Public Laws 108-77 and 108-98, respectively, allow for the temporary entry of business persons from these countries in order to provide professional services for U.S. employers. While the agreements vest the Departments of Labor and State with determining initial eligibility for issuance of a free trade nonimmigrant visa, the Department of Homeland Security's U.S. Citizenship and Immigration Services oversees cases where a citizen of Chile or Singapore requests a change of nonimmigrant status to that of free trade nonimmigrant as well as requests for extensions of free trade nonimmigrant status. The interim rule outlines the procedures for such change of extension requests.

Abstract: This rule amends Department of Homeland Security regulations to extend the deadline by which certain health care workers from Canada and Mexico must obtain health care worker certifications. This rule applies only to affected health care workers, who, before September 23, 2003, were previously employed as TN nonimmigrant health care workers (Canadian or Mexican citizens), and held a valid license from a U.S. jurisdiction. This interim rule does not change the licensing requirements for employment purposes. Publication of this rule ensures that the U.S. health care system is not adversely affected by the expiration of the transition period for certain health care workers to present the required certification.

Abstract: This interim rule amends Department of Homeland Security regulations to require each Temporary Protected Status (TPS) initial registrant and re-registrant to submit to U.S. Citizenship and Immigration Services (USCIS) at an Application Support Center (ASC): 1) Her/his biometrics; 2) a \$175 filing fee or fee waiver request with Form I-765, Application for Employment Authorization, when requesting an Employment Authorization Document (EAD); and 3) a \$70 biometric services fee. For TPS registrants and re-registrants who are under 14 years of age, this rule only imposes these requirements where an EAD is requested. This interim rule also clarifies current regulations governing registration and imposes a new requirement that each TPS re-registrant submit a \$50 filing fee or a fee waiver request with Form I-821, Application for Temporary Protected Status. The changes made by this interim rule to the current regulations are necessary to improve DHS' ability to identify fraud and security threats while improving the efficiency of the adjudicative process. In addition, collection of these filing fees will help enable USCIS to recover the costs incurred by adjudicating these forms, capturing biometric information, and producing the EAD.

Legal Authority: Not Yet Determined

CFR Citation: 8 CFR 208

Legal Deadline: None

Abstract: Section 208(d)(5)(B), Authority to Apply for Asylum, under the Immigration and Nationality Act, gives the Secretary the authority to provide by regulation any conditions in consideration of an asylum application. Current regulations require the asylum applicant to bring their interpreter to the asylum interview if the applicant is unable to speak English. This proposed rule would change that condition by requiring USCIS to provide interpreter services for applicants unable to speak English. This rule is necessary to help prevent misunderstanding of genuine asylum seekers' claims due to poor translation.

by this legislation. Other technical and administrative changes have been made to correct or clarify certain sections that were in the initial interim rule published in the Federal Register on March 17, 2000, at 65 FR 14774 that implemented this program. This rule also addresses public comments received following the publication of the initial interim rule.

Finally, some elements in the initial interim rule that were specifically related to program requirements, such as eligibility criteria for participation, have been removed and are in a separate Department of State (DOS) program rule (see DOS program rule published elsewhere in this issue of the Federal Register).

1197. REDUCTION OF THE NUMBER OF ACCEPTABLE DOCUMENTS AND OTHER CHANGES TO EMPLOYMENT VERIFICATION REQUIREMENTS

Priority: Other Significant. Major under 5 USC 801.

Legal Authority: 8 USC 1324a; PL 104-208

CFR Citation: 8 CFR 274a

Legal Deadline: Final, Statutory, March 31, 1998, An interim rule, published September 30, 1997, makes the minimal changes required by statute. The provisions will remain in effect until completion of this rulemaking.

Abstract: On September 30, 1996, the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA) was enacted. Section 412(a) of IIRIRA requires a reduction in the number of documents that may be accepted in the employment verification process. Section 412(d) clarifies the applicability of section 274A to the Federal Government. Section 610 of the Regulatory Flexibility Act requires agencies to review rules that have a significant economic impact on a substantial number of small entities every 10 years. The Department is conducting this review in conjunction with IIRIRA implementation. The Department of Justice published a proposed rulemaking on February 12, 1998, to implement sections 212(a) and (d) of IIRIRA and propose other changes to the employment verification process identified through that review. A revised Form I-9, Employment Eligibility Verification, was included with the proposed rulemaking.

The comment period closed on April 3, 1998. The Department of Homeland Security continues to analyze the comments and take into consideration issues raised by the Alien Registration Form (I-551) program. It should be noted that this action supersedes the previously published regulatory action titled "Reduction in the Number of Documents Accepted for Employment Verification." In order to avoid confusion, this regulatory action is being referenced under the current RIN, which captures all prior actions related to employment verification.

Abstract: This final rule implements the provisions of the Legal Immigration Family Equity Act (LIFE Act) and its technical amendments to both the Nicaraguan Adjustment and Central American Relief Act (NACARA), and the Haitian Refugee Immigration Fairness Act (HRIFA) of 1998. Specifically, section 1505 of the amendments to the LIFE Act states that section 241(a)(5) of the Immigration and Nationality Act (INA) does not apply to adjustment applicants under NACARA/HRIFA and that the grounds of inadmissibility under section 212(a)(9)(A) and (C) of the INA may be waived for NACARA/HRIFA adjustment applicants. Section 241(a)(5) of the INA provides for the reinstatement of a removal order against any alien who illegally re-enters the United States after having been removed or after having departed voluntarily under an order of removal. It also bars any alien whose removal

order has been reinstated from receiving any relief under the INA, including any waivers of grounds of inadmissibility necessary for the grant of adjustment of status. Sections 212(a)(9)(A) and 212(a)(9)(C) of the I&NA are grounds of inadmissibility relating to aliens previously removed and aliens who are unlawfully present in the United States after previous immigration violations, respectively. Section 1505 of the amendments to the LIFE Act also states that an alien who has become eligible for benefits under NACARA/HRIFA as a result of the enactment of the LIFE Act may file a motion to reopen his or her removal proceedings in order to apply for adjustment or to apply for cancellation of removal or suspension of deportation.

Priority: Other Significant

Legal Authority: 5 USC 552; 5 USC 552a; 8 USC 1101; 8 USC 1103; 8 USC 1201; 8 USC 1252 note; ...

CFR Citation: 8 CFR 103

Legal Deadline: Other, Statutory, September 2003, Public Law 105-277.

Abstract: This rule amends DHS regulations concerning the acceptance of electronic signatures on applications and petitions for immigration and naturalization benefits. The change is necessary to allow the Department to begin accepting electronically filed applications and petitions as required by law. By accepting electronically filed applications and petitions, the Department expects to streamline its information collection process, improve customer service, and move towards fulfilling the mandates of the Government Paperwork Elimination Act.

Abstract: This rule amended DHS regulations applying to on-campus employment, off-campus employment authorization, and duration of status for nonimmigrant F-1 students. The rule permits the Secretary to suspend some or all of the requirements for on-campus or off-campus employment where emergent circumstances exist as provided through notice in the Federal Register. The rule also amends the regulations to provide that an F-1 student who carries less than a full course of study as a result of this special employment authorization will be deemed to be maintaining status for the duration of the authorization, as long as the student carries a minimum course load of 6 credit hours if the student is an undergraduate, or 3 credit hours if the student is in graduate school.

1204. CONSTRUCTION WORK AND THE B NONIMMIGRANT VISA CLASSIFICATION

Priority: Other Significant

Legal Authority: Not Yet Determined

CFR Citation: 8 CFR 214

Legal Deadline: None

Abstract: The Department of Justice previously solicited comments from the public on the issue of aliens admitted to the United States as B nonimmigrant visitors whose intent is to engage in construction work during the alien's stay. In particular, the Department sought to explore the feasibility of defining the term construction as it relates to B nonimmigrant visitors. A standard definition of construction may assist both the public and Federal Government in determining if an alien admitted as a B nonimmigrant visitor may engage in construction during his or her period of authorized stay. DHS is revising the proposed bill for additional public comment.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 2713; 33 USC 2714

CFR Citation: 33 CFR 136

Legal Deadline: None

Abstract: This rulemaking implements section 1013 (Claims Procedures) and section 1014 (Designation of Source and Advertisement) of the Oil Pollution Act of 1990. An interim rule was published in 1992 and provides the basic requirements for the filing of

claims for uncompensated removal costs or damages resulting from the discharge of oil, for the designation of the sources of the discharge, and for the advertisement of where claims are to be filed. The interim rule also includes the processing of natural resource damage (NRD) claims. The

DHS—USCG

NRD claims, however, were not processed until September 25, 1997, when the Department of Justice issued an opinion that the Oil Spill Liability Trust Fund (OSLTF) is available without further appropriation to pay trustee NRD claims under the general claims provisions of the Oil Pollution Act (OPA) of 1990, 33 U.S.C. 2712(a)(4). Release of this more comprehensive notice of proposed rulemaking has been delayed while the Coast Guard gained experience on NRD claims, as well as other OPA damages. This rulemaking supports the Coast Guard's strategic goal of protection of natural resources.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 499

CFR Citation: 33 CFR 117

Legal Deadline: None

Abstract: The Coast Guard is proposing changes to its drawbridge regulations that provide guidance for general requirements relating to the use and operation of drawbridges. This project will create a new deviation for short-term closures, provide Coast Guard Eighth District Bridges Administration St. Louis, MO, with a general bridge closure requirement during the winter season when navigation is reduced, and eliminate any unnecessary distinction between commercial and recreational vessels in subpart B. It will also make changes throughout part 117 to remove redundancies, make amendments and technical corrections, and remove special bridge regulations that are no

longer functional. Corrections and clarification of these requirements will help to streamline the drawbridge regulatory process and should shorten and simplify part 117 for the reader. This rulemaking supports the Coast Guard's strategic goal of maritime mobility.

Priority: Other Significant

Legal Authority: 46 USC 4302

Abstract: This rule would enable the Coast Guard to enforce existing State statutes or regulations that require persons operating or riding on a personal watercraft, water skiing, or engaging in other forms of towing persons behind recreational vessels to wear a personal flotation device. The rule would also establish regulations within States that do not have such requirements. This rule would allow the Coast Guard to enhance compliance with existing States' requirements and may decrease drownings.

Abstract: This rulemaking will propose amendments to the existing traffic separation schemes (TSS): in the Strait of Juan de Fuca and its approaches; in Puget Sound and its approaches; in Haro Strait, Boundary Pass, and in the Strait of Georgia. These amendments are approved by the International Maritime Organization and have been validated by several recent vessel routing studies. With the amendments in place, commercial vessels would be routed farther offshore when entering or departing the TSS, providing an extra margin of safety and environmental protection in the Olympic Coast National Marine Sanctuary and adjacent waters. This rulemaking will incorporate the modified TSS into the Code of Federal Regulations. This project supports the Coast Guard's strategic goals of safety and protecting the marine environment.

1216. RULES OF PRACTICE, PROCEDURE, AND EVIDENCE FOR ADMINISTRATIVE PROCEEDINGS OF THE COAST GUARD (USCG 1998-3472)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 7701; 46 USC 7702; 33 USC 1321; 42 USC 9609

CFR Citation: 33 CFR 20; 46 CFR 5

Legal Deadline: None

Abstract: The Coast Guard maintains two separate sets of procedural rules: The administrative adjudication rules against merchant mariners' licenses, certificates of registry, and documents; and those for the adjudication of class II civil penalties. The rules for suspension and revocation, contained in part 5 of title 46 of the Code of Federal Regulations (CFR), date from 1948, and are based on criminal procedure. The rules for class II civil penalties, contained in part 20 of title 33 of the CFR, date from 1994, and are based on the Model Rules of Administrative Procedure and on other modern rules for civil procedure. Neither set implements the authority of the Oil Pollution Act of 1990 (OPA 90), which provides for the temporary

suspension of a license, certificate of registry, or document for up to 45 days without a hearing, in certain circumstances, and a hearing within 30 days of any such suspension. This rulemaking would consolidate all procedural rules for administrative adjudications for class II civil penalties, and allow the Coast Guard to promulgate regulations implementing the OPA 90 authority. This project supports the strategic goal of the Coast Guard to promote marine safety. It would also align our rules with the Coast Guard and Maritime Transportation Act of 2004.

International Oil Pollution Prevention Certificate;

Extend eligibility in the ACP to Oceanographic Research Vessels by adding a new section 46 CFR 189.15-3 to reference part 8; and, remove references to the American Bureau of Shipping (ABS) throughout the ACP regulations and replace them with references to "authorized classification society." This rulemaking is intended to expand the benefits available under the ACP. This project supports the Coast Guard's strategic goals of facilitating maritime safety and mobility.

1222. VESSEL REQUIREMENTS FOR NOTICES OF ARRIVAL AND DEPARTURE, AND AUTOMATIC IDENTIFICATION SYSTEM (USCG-2005-21869)

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 33 USC 1223, 1225, 1231; 46 USC 3716, 8502 and Chapter 701; sec. 102 of PL. 107-295

CFR Citation: 33 CFR 160; 33 CFR 161; 33 CFR 164

Legal Deadline: None

Abstract: This rulemaking would expand the applicability for Notice of

Arrival and Departure (NOAD) and Automatic Identification System (AIS) requirements. These expanded requirements would better enable the Coast Guard to correlate vessel AIS data with NOAD data, enhance our ability to identify and track vessels, detect anomalies, improve navigation safety, and heighten our overall maritime domain awareness.

The NOAD portion of this rulemaking would expand the applicability of the NOAD regulations by changing the minimum size of vessels covered below the current 300 gross tons, require that a notice of departure be submitted for all vessels required to submit a notice of arrival, and mandate electronic submission of NOAD notices to the National Vessel Movement Center.

The AIS portion of the rulemaking would expand our AIS carriage requirements to all commercial vessels Congress specifically identified in the Maritime Transportation Security Act of 2002, and would include vessels carrying 50 or more passengers, vice the current 150 or more passengers for hire, carrying or towing certain dangerous cargo, certain dredges, and certain high speed passenger craft.

1223. ● VAPOR CONTROL SYSTEMS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 33 USC 1225; 33 USC 1231; 33 USC 1321; 46 USC 3306; 46 USC 3703; 49 CFR 1.46

CFR Citation: 33 CFR 154 to 156; 46 CFR 35; 46 CFR 39

Legal Deadline: None

Abstract: This project will revise the facility marine vapor control systems (VCS) safety regulations and the vessel VCS safety regulations. These existing regulations require revision to reflect new Federal and State air emissions control requirements, VCS technology developments, and to evaluate and minimize any significant economic impacts of the rules upon small entities. The revisions will also incorporate Coast Guard policies and guidelines developed to support the existing regulations and a Navigation and Vessel Inspection Circular which provides safety guidelines for the design and operation of a marine VCS at tank barge cleaning facilities. This project supports the Coast Guard Marine Safety and Environmental Protection Program's goal to reduce crewmember deaths and injuries on U.S. commercial vessels and seeks to reduce the amount of oil and chemicals discharged into the Nation's waterways, and it promotes the Coast Guard's strategic goal of marine safety.

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 51

CFR Citation: 46 CFR 45

Legal Deadline: None

Abstract: This regulatory project will allow certain unmanned dry cargo river barges operating on Lake Michigan to be exempted from the normal Great Lakes load line requirements. Instead, they may qualify for a conditional load line exemption, or for a limited service domestic voyage load line (depending on which Lake Michigan route). This rulemaking pertains to two specific routes: Chicago to Milwaukee, and Chicago to Muskegon. This will allow certain non-hazardous cargoes originating at inland river ports to be transported as far as Milwaukee and Muskegon by river barge, thereby benefiting from the relatively low cost per ton-mile of river barge transportation. Compliance is not mandatory other than for those river barge operators who voluntarily seek to expand their operations onto these routes. This rulemaking supports the Coast Guard's strategic goals of maritime safety and maritime mobility.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1504

CFR Citation: 33 CFR 148 to 150

Legal Deadline: None

Abstract: This rulemaking project revises regulations adopted in 1975 to implement the Deepwater Port Act of 1974. It updates and streamlines those regulations in accordance with the 1996 Deepwater Port Modernization Act. It also extends the deepwater port regulations to the natural gas deepwater ports authorized by Congress in the Maritime Transportation Security Act of 2002. This project supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Priority: Other Significant

Legal Authority: 46 USC 9303(f)

CFR Citation: 46 CFR 401

Legal Deadline: None

Abstract: The Coast Guard conducts an annual review of the Great Lakes Pilotage based on the "Ratemaking Analyses and Methodology" published in the Federal Register on May 9, 1996. Depending on the results of this review, the Coast Guard can make rate adjustments in accordance with 46 CFR part 404, appendix A, step 7. Or, if the director determines that pilotage rates are within a reasonable range of their target, make no adjustments. This rulemaking may take place annually. It supports the Coast Guard's strategic goal of maritime mobility.

Priority: Substantive, Nonsignificant

Legal Authority: 10 USC 1034

CFR Citation: 33 CFR 53

Legal Deadline: None

Abstract: This rulemaking would amend 33 CFR part 53 both by extending coverage to uniformed members of the Coast Guard who make "protected" communications either to an organization within the Department within which the Coast Guard is operating concerned with audit, inspection, or law enforcement; or to any other person or organization (including any person or organization in the chain of command) designated pursuant to regulations to receive such communications, and by extending the nature of protected communications to comprise complaints: (a) Of violations of statute or regulation prohibiting sexual harassment; (b) of unlawful discrimination; and (c) of gross mismanagement. This project supports the Coast Guard's five strategic goals of maritime safety and security, protection of natural resources, maritime mobility, and national defense.

Legal Deadline: None

Abstract: This project would incorporate national and international standards for certain marine equipment and marine electrical equipment into Title 46 of the Code of Federal Regulations (CFR). These standards would replace long-outdated ones, or update standards that were superseded fairly recently. The Coast Guard has actively participated in the development of national and international standards of safety for marine equipment through the International Maritime Organization, the International Organization for Standardization, and the American Society for Testing and Materials, as well as through other standards-setting bodies under the American National Standards Institute. We would incorporate these standards into the appropriate parts of title 46.

CFR Citation: 33 CFR 151; 33 CFR 155; 33 CFR 157; 46 CFR 162

Legal Deadline: None

Abstract: This rulemaking would revise the Coast Guard's pollution prevention equipment (PPE) regulations to reflect and implement International Convention for the Prevention of Pollution from Ships (MARPOL) Annex I, Regulations for the Prevention of Pollution guidelines and specifications that Member States are invited to make applicable on or after January 1, 2005. The new standards will require equipment designed to reduce the amount of oil discharged from ships and eliminate the need for ozone-depleting solvents to test this equipment for approval. Additionally, this rulemaking proposes the removal of the bilge monitor standard to better align the 46 CFR subpart 162.050 regulations with the IMO PPE guidelines. This project supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Abstract: This rulemaking project would permanently revise the Notice of Arrival (NOA) regulation, 33 CFR part 160, subpart C, by: 1) Adding to the

list of certain dangerous cargo (CDC) ammonium nitrate and certain ammonium nitrate-based fertilizers, in bulk, as well as propylene oxide, alone or mixed with ethylene oxide, in bulk; and 2) adding two options for vessels to submit NOAs electronically. In addition, the proposed rule would clarify that foreign, but not U.S., recreational vessels must submit NOAs. The rulemaking would also permanently revise 33 CFR parts 104 and 105 as necessary. This project supports the Coast Guard's strategic goals of maritime safety, maritime security, and protection of natural resources.

Abstract: The Coast Guard uses these routine and frequent regulations to establish control of access to areas to ensure the safety of events, vessels, or individuals. Many of these zones are of short duration, ranging from a few hours to a few days, and all are

geographically limited in area. Safety zones, defined in 33 CFR 165.20, are established for events such as fireworks displays, high-speed races, bridge repairs, dredging, or salvage operations, or the transit of dangerous cargoes such as explosives or liquefied petroleum gas. Safety zones are promulgated by Captains of the Port or District Commanders. These routine and frequent rulemakings support the Coast Guard's strategic goals of marine safety, maritime mobility, and protection of natural resources. Safety zones under the Outer Continental Shelf Lands Act are also included in these routine and

frequent regulations. The total actions expected is 300 annually.

Abstract: These routine and frequent regulations are established where maritime and commercial interests require them for safety of navigation. Special anchorage areas are areas in which vessels of not more than 65 feet may anchor without displaying the required lights or sound signals. These special anchorage areas are limited geographically, and depending upon the purpose, establish both long- and short-term anchorages. Anchorage grounds are limited geographically, delineate the types and size of vessel which may use the anchorage, and may place time and other restrictions on its use. Special anchorage areas and anchorage grounds are promulgated by District Commanders in response to requests from appropriate officials. These routine and frequent rulemakings support the Coast Guard's strategic goal of marine safety. The total actions expected is 18 annually.

Priority: Other Significant

Legal Authority: 33 USC 1321

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: The Oil Pollution Act of 1990 directed the President by August 18, 1992, to require periodic inspection of discharge-removal equipment to ensure that it is available in an emergency, and to require carriage of discharge-removal equipment by vessels operating in the navigable waters of the United States and carrying oil or hazardous substances. This action implemented those provisions. This project supports the Coast Guard's strategic goal of protection of natural resources. Legal Authority: 33 USC 1233

CFR Citation: 33 CFR 100

Abstract: These routine and frequent, special local regulations ensure the safety of participants and spectators during regattas and marine parades. The regulations or rules specify such controls as separate participant and spectator areas, separation schemes for watercraft in the area of the event, and temporary restrictions on waterways to accommodate the event. These rules are short-term in nature, usually applying to a single event not exceeding 8 hours in duration, and usually encompass only a small portion of a navigable waterway. These rules are promulgated by District Commanders in response to a request from an event-sponsoring organization. These routine and frequent rulemakings support the Coast Guard's strategic goals of maritime safety and maritime mobility of commercial and recreational vessel traffic. 1236. DRAWBRIDGE REGULATIONS**Priority:** Routine and Frequent**Legal Authority:** 33 USC 499**CFR Citation:** 33 CFR 117**Legal Deadline:** None

Abstract: These routine and frequent regulations establish operating schedules and notice requirements for drawbridges across navigable waterways. Drawbridge regulations establish the permanent draw operation schedules for bridges and specify what notice mariners must give to request an opening. Short-term deviations from the permanent schedule may be issued for bridge repairs or to test the effectiveness of a proposed new opening schedule. Drawbridge regulations are promulgated by District Commanders usually at the request of the bridge owner or operator, or of local officials or local Coast Guard bridge administration officials. These routine and frequent rulemakings support the Coast Guard's strategic goals of maritime safety and maritime mobility of commercial and recreational vessel traffic. The total actions expected is 150 annually.

Abstract: This rule would designate those U.S. waters, other than Prince William Sound and Puget Sound, where tankers and other vessels must be escorted by a towing vessel or other appropriate vessel. This project supports the Coast Guard's Prevention Program's goal to reduce the amount of oil discharged into the marine environment and the Coast Guard's strategic goal of protecting natural resources. It is significant because of substantial public and State government interest.

Abstract: These routine and frequent regulations establish operating requirements for vessels within specified geographic areas to ensure

safety on the navigable waters where some special or unusual circumstance exist. Regulated navigation areas are limited areas in which the Coast Guard specifies operational or vessel restrictions such as vessel entry, movement or departure, and vessel size, speed, horsepower, or draft limitations. Regulated navigation areas are promulgated by District Commanders, usually at the request of Coast Guard marine safety or local maritime safety officials. These routine and frequent rulemakings support the Coast Guard's strategic goals of waterways management, marine safety, and maritime mobility. The total actions expected is 11 annually.

Abstract: This project would implement provisions of the Oil Pollution Act of 1990 that require an owner or operator of a marine transportation-related facility transferring bulk hazardous substances to develop and operate in accordance with an approved response plan. The

DHS—USCG

regulations would apply to marine transportation-related facilities that, because of their location, could cause harm to the environment by discharging a hazardous substance into or on the navigable waters or adjoining shoreline. A separate rulemaking, under RIN 1625-AA13, was developed in tandem with this rulemaking and addresses hazardous substances response plan requirements for tank vessels. This project supports the Coast Guard's strategic goals of maritime safety and protection of natural resources by reducing the consequence of pollution incidents. This action is considered significant because of substantial public and industry interest.

Abstract: This project would implement provisions of the Oil Pollution Act of 1990 that require an owner or operator of a tank vessel carrying bulk hazardous substances to develop and operate in accordance with an approved response plan. The regulations would apply to vessels operating on the navigable waters or within the Exclusive Economic Zone (EEZ) of the United States that carry bulk hazardous substances. A separate rulemaking, under RIN 1625-AA12, would address hazardous substances response plan requirements for marine transportation-related facilities. Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 12301

CFR Citation: 33 CFR 189

Legal Deadline: None

Abstract: Title 46 USC 12301, as amended by the Abandoned Barge Act of 1992, requires that all undocumented barges of more than 100 gross tons operating on the navigable waters of the United States be numbered. This rulemaking would establish a numbering system for these barges. The numbering of undocumented barges will allow identification of owners of barges found abandoned and help prevent future marine pollution. This rulemaking supports the Coast Guard's strategic goal of protection of natural resources.

Abstract: The International Maritime Organization (IMO) comprehensively amended the International Convention on Standards of Training, Certification, and Watchkeeping (STCW) for Seafarers, 1978, in 1995. The amendments came into force on February 1, 1997. This project implements those amendments by revising current rules to ensure that the United States complies with their requirements on: The training of merchant mariners, the documenting of their qualifications, and watch-standing and other arrangements aboard seagoing merchant ships of the United States. This project supports the Coast Guard's strategic goal of maritime safety. It also supports the goal of the Prevention Directorate by reducing deaths and injuries of crew members on domestic merchant vessels and eliminating substandard vessels from the navigable waters of the United States.

Abstract: This project would revise the regulations on Outer Continental Shelf (OCS) activities to: 1) Add new requirements for fixed OCS facilities for lifesaving, fire protection, training, hazardous materials used as stores, and accommodation spaces; 2) require foreign vessels engaged in OCS activities to comply with requirements similar to those imposed on U.S. vessels similarly engaged; and 3) allow all mobile inland drilling units to operate on the OCS out to a defined boundary line if they meet requirements for lifesaving, firefighting, and operations similar to those for fixed OCS facilities. This project would affect the owners and operators of facilities and vessels engaged in offshore activities associated with the exploration for, development of, or production of the resources of the OCS. The preliminary estimate of costs

imposed by these amendments varies according to the unit. The Coast Guard is consulting with the Minerals Management Service, part of the Department of the Interior. It supports the Coast Guard's strategic goal of marine safety and environmental protection.

Long-Term Actions

Legal Deadline: None

Abstract: Current vessel response plan regulations require that the owners or operators of vessels carrying groups I through V petroleum oil as a primary cargo identify in their response plans a salvage company with expertise and equipment, and a company with firefighting capability that can be deployed to a port nearest to the vessel's operating area within 24 hours of notification (groups I-IV) or a discovery of a discharge (group V). Numerous requests for clarification revealed widespread misunderstanding and confusion regarding the regulatory language, which will make the implementation of this requirement difficult. Based on comments received after the Vessel Response Plan final rule publication (61 FR 1052; January 12, 1996) and during a Coast Guard hosted workshop, the Coast Guard intends to better define the terms "salvage expertise and equipment" and "vessel firefighting capability" requirements and will reconsider the 24-hour deployment requirement which was scheduled to go into effect on February 18, 1998. Therefore, the Coast Guard suspended the effective dates of the 24-hour deployment requirements as published in the final rule. The Coast Guard will continue with this project to better define the requirements. This rulemaking supports the Coast Guard's strategic goals of maritime safety and protection of the natural resources. This rulemaking is also significant because it concerns a matter of substantial public interest or controversy.

Abstract: This project involves reviewing and updating the commercial diving regulations, which were first adopted in 1977. A review of the commercial diving regulations is needed to determine what parts should be updated or changed based on the current standards of safety, technology, and industry practices and to evaluate and minimize any significant economic impact of the rules upon small entities. The project supports the Coast Guard Marine Safety, Security and Environmental Protection Program's goal to reduce deaths and injuries on U.S. commercial vessels and the Coast Guard's strategic goal of maritime safety.

1246. IMPROVEMENTS TO MARITIME SAFETY IN PUGET SOUND-AREA WATERS (USCG-1998-4501)

Priority: Other Significant

Legal Authority: 33 USC 1223 to 1224

CFR Citation: 33 CFR ch. 1

Legal Deadline: None

Abstract: This rulemaking would promulgate measures to improve maritime safety in Puget Sound-Area waters including Puget Sound, the Strait of Juan de Fuca, passages around and through the San Juan Islands, and the Olympic Coast National Marine Sanctuary. Based on a determination by the Secretary of Transportation regarding the status of maritime safety in the Puget Sound area, the Coast Guard has initiated a comprehensive cost-benefit analysis to study the feasibility of implementing new safety measures, including extended tug escort requirements and a dedicated response vessel. Public input will help focus this cost-benefit analysis and develop any future proposed rules, if deemed necessary. This rulemaking supports the Coast Guard Prevention Program's goal to reduce the amount of oil discharged into the marine environment and the Coast Guard's strategic goal of protection of natural resources. This is a significant action due to substantial public interest.

Abstract: This rulemaking would amend the cargo stowage and securing rules for U.S. vessels operating in U.S. waters. In addition, it would amend rules to require cargo-securing manuals for U.S. or foreign vessels of 500 gross tons or more on international voyages. Its goal is to reduce hazardous material cargo losses from vessels in U.S. waters. It supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 4302

CFR Citation: 33 CFR 175

Legal Deadline: None

Abstract: This rule would establish Federal requirements for non-planing recreational houseboats equipped with propeller driven propulsion located aft of the transom. This rule would require owners of these non-planing recreational houseboats to install either one or two propulsion unit measures (a propeller guard or a jet pump drive) or employ three combined measures (use of an ignition cut-off switch, where installed, and install a swim ladder interlock device and an aft-visibility device). Owners of rental houseboats would have to also install an ignition cut-off switch, if not already installed. These requirements would reduce the number of boaters who are seriously or fatally injured when struck by the propeller of a non-planing recreational houseboat. This rulemaking would implement recommendations made by the National Boating Safety Advisory Council. It supports the Coast Guard's strategic goal of marine safety.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1223(a)

Abstract: This project proposes to establish a new Vessel Traffic Service (VTS) area in the Lower Mississippi River region. This Vessel Traffic Service Area (VTSA) will span from 20 miles north of Baton Rouge (mile 255 Above Head of Passes (AHP)) out to sea, including the South and Southwest Pass. As part of the VTSA, a VTS Special Area will be designated between mile 93.5 and 95 AHP. Unlike traditional VTSs, which are based on radar and video surveillance and rely on voice communications by VHF-FM radio, when fully operational VTS Lower Mississippi River will use Automatic Identification System transponder technology to perform the majority of both surveillance and information exchange. This rulemaking supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Legal Authority: 33 USC 1226; 33 USC 1231; 50 USC 191; 33 CFR 6

establish control of access to areas to ensure the security of vessels, waterfront facilities, or individuals. Many of these zones are of short duration, a few hours to a few days, and all are geographically limited in area. Security zones are established for Presidential or Vice Presidential visits, high profile events such as the Olympics, controversial events such as transport of spent nuclear fuel, and in response to the threat of terrorist attacks. Some security zones are implemented only at heightened security levels and only for the duration of the heightened alert. Security zones are promulgated by Captains of the Port or District Commanders. These routine and frequent rulemakings support the Coast Guard's strategic goals of marine security, mobility, protection of natural resources, and national defense. The total actions expected is 200 annually.

Priority: Substantive, Nonsignificant

Legal Authority: PL 108-293

CFR Citation: 33 CFR 151

Legal Deadline: None

Abstract: This rulemaking implements congressional directives. Public Law 108-293 directs the Coast Guard to continue implementation of an existing enforcement policy that regulates incidental dry cargo residue on the Great Lakes, until September 30, 2008,

or until the promulgation of new regulations that would replace the existing policy. The statute also directs the Coast Guard to undertake any environmental assessment that would be necessary to support new regulations.

1255. NAVIGATION EQUIPMENT; SOLAS CHAPTER V AMENDMENTS (USCG-2004-19588)

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 33 USC 1223(a)(3); 46 USC 3306(a)(1); 46 USC 3703

CFR Citation: 33 CFR 164; 46 CFR 37; 46 CFR 77; 46 CFR 78; 46 CFR 96; 46 CFR 97; 46 CFR 108; 46 CFR 111; 46 CFR 130; 46 CFR 159; 46 CFR 165; 46 CFR 195

Legal Deadline: None

Abstract: This rulemaking project would add new, and clarify existing navigation safety equipment regulations in 33 CFR part 164. This project would also create a new 46 CFR part 165, and a new subpart: 46 CFR part 159, subpart 159.008. These new title 46 regulations would provide for specific type-approval procedures and quality assurance processes, respectively, to require uniform function and capability of equipment across a myriad of manufacturers. These changes would reconcile existing domestic safety navigation regulations with SOLAS

Chapter V navigation safety regulations amended in 2000. By making these revisions to 33 CFR and 46 CFR, we would fulfill the United States' obligations as an International Maritime Organization Contracting Government to implement SOLAS Chapter V as amended for U.S. flag vessels and other vessels operating on navigable waters of the United States to which these SOLAS amendments apply. This project supports the Coast Guard's strategic goals of maritime safety and mobility.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 409

CFR Citation: 33 CFR 64

Legal Deadline: None

Abstract: The proposed rulemaking would reflect the implementation of new legislation that allows the Coast Guard the option to waive the requirement for an owner of a vessel wrecked and sunk in a navigable channel to mark it with a light at night. The proposed rulemaking would meet the Commandant's objectives of maritime safety, maritime mobility, and protection of natural resources.

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: sec. 102 of PL. 107-295 ; 46 USC 70115

CFR Citation: 33 CFR 164

Legal Deadline: None

Abstract: This rulemaking would require, consistent with international law, certain vessels to report identifying and position data electronically. The requirements would better enable the Coast Guard to correlate Long Range Identification and Tracking (LRIT) data with data from other sources, detect anomalies, and heighten our overall Maritime Domain Awareness (MDA). A companion effort is underway at the International Maritime Organization. This project is consistent with the Coast Guard's strategic goal of maritime security, and the Department's strategic goals of awareness, prevention, protection, and response.

Priority: Other Significant

Legal Authority: 46 USC 6101; 33 USC 1901 et seq.

CFR Citation: 33 CFR 151; 46 CFR 4

Legal Deadline: None

Abstract: This action would add to the definition of a reportable marine casualty, "significant harm to the environment." Some casualty reporting requirements are extended to include foreign tank vessels operating in U.S. waters, including the Exclusive Economic Zone. This project supports the Coast Guard's Marine Safety and Environmental Protection program's goal to reduce the consequence of pollution incidents and further supports the Coast Guard's strategic goal of protection of natural resources.

Priority: Other Significant

Legal Authority: PL 105-383, sec 304

CFR Citation: 46 CFR 4

Legal Deadline: None

Abstract: This project will revise the requirements for chemical testing following a serious marine incident. The revision will establish procedures to ensure that alcohol testing be conducted within two hours of a serious marine incident, as required by the Coast Guard Authorization Act of 1998. The rule will also make additional minor procedural changes to the part. This rule supports the Coast Guard strategic goal of maritime safety.

Abstract: The Coast Guard needs to permanently amend its regulations relating to the Notifications of Arrival (NOA) and Departure (NOD) requirements in 33 CFR part 160 to ensure port safety, security, and environmental protection as well as maintain the uninterrupted flow of commerce. Subsequent to the terrorist attacks of September 2001, we published an emergency temporary final rule (96-hour rule) amending the NOA and NOD requirements for commercial vessels bound for or departing from ports or places in the United States. The temporary final rule terminated on March 31, 2003. In this final rule, most of the changes introduced by the temporary final rule have been made permanent. This rulemaking supports the Coast Guard's strategic goals of maritime safety, maritime security, protection of natural resources, and maritime mobility.

Abstract: Amendment to part 122 of the Customs and Border Protection Regulations to require that the owners or operators of commercial aircraft that operate as scheduled airlines and enter the United States from foreign areas who intend to land at landing rights or user fee airports, request from U.S. Customs and Border Protection permission to land in writing at least 30 days before the first flight date and secure customs approval to land before the first flight begins. Amendment would also make the advance notice of arrival requirement applicable to all aircraft. The advance notice of arrival would be required to be given by the aircraft commander directly to the appropriate customs location at least one hour before the aircraft crosses any border or coastline of the United States. Amendment would also modify the application process for the Overflight Program and provide for centralized processing of requests for an overflight exemption.

Abstract: Amendment to parts 4, 18, 113, 122, 123, 146, and 158 of the Customs and Border Protection regulations concerning cargo information (manifest) discrepancy reporting requirements for all modes of commercial transportation (air, sea, rail and truck). Amendment sets forth corresponding guidelines for the assessment of penalties or claims for liquidated damages for manifesting violations. Amendment would require that any discrepancy from previously filed cargo information be reported to CBP by the responsible party immediately upon discovery and that such reports, with limited exceptions be submitted to CBP in an electronic format. Amendment would eliminate Customs Form 5931 and require that cargo declaration information be kept for a period of five years after conveyance arrival. Also provides (as Appendices to the regulations) guidelines for the assessment of penalties for failing to reporting discrepancies.

Proposed Rule Stage

Abstract: Amendment to 19 CFR to expand the list of services for which CBP can seek reimbursement to account for the addition of immigration inspection services to the expanded border-related functions of the Agency. Amendment will eliminate the inconsistencies in the existing collection procedures for customs and immigration inspection reimbursable services, allowing CBP to unify collections into a single reimbursable billing system.

Abstract: Amendment to remove from the CBP regulations the regulatory provisions pertaining to the Land Border Carrier Initiative Program (LBCIP). The LBCIP regulations enlist the voluntary cooperation of commercial carriers as part of CBP's effort to prevent the smuggling of controlled substances into the United States. Since the promulgation of the LBCIP regulations, CBP has developed a more comprehensive voluntary industry partnership known as the Customs-Trade Partnership Against Terrorism (C-TPAT). C-TPAT builds upon the best practices of LBCIP, while providing greater border and supply chain security with expanded benefits to approved participants. For this reason, CBP intends to terminate the LBCIP and focus its partnership efforts on the further development of C-TPAT.

Abstract: This rule amends the DHS regulations to extend the distance Mexican nationals with border crossing cards may travel into the United States without obtaining additional Immigration documentation at selected ports-of-entry (POEs) along the United States and Mexico border. The selected POEs are located in the State of Arizona at Sasabe, Nogales, Mariposa, Douglas, and Naco. Once visitors to Arizona meet the inspection requirements of legal entry to the United States, they will be able to travel within the 75-mile border region of Arizona. This rule is intended to promote commerce in the southern Arizona border area while still ensuring that sufficient safeguards are in place

to prevent illegal entry to the United States.

8 CFR 204; 8 CFR 207; 8 CFR 209; 8 CFR 211; 8 CFR 212

Legal Deadline: Other, Statutory, March 1, 1997, The statute requires the Attorney General to promulgate implementing regulations by March 1, 1997.

This rule was automatically transferred from the former INS to CBP after the creation of DHS. The general authority to promulgate immigration regulations, with certain exceptions, now lies in the Secretary of Homeland Security as per the transfer of authority from the Attorney General in the Homeland Security Act.

Abstract: Many of the provisions of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA) became effective April 1, 1997. Some provisions of the Antiterrorism and Effective Death Penalty Act of 1996 (AEDPA) that were not superseded by IIRIRA became effective November 1, 1996. On March 6, 1997, INS and The Executive Office of Immigration Review (EOIR) published an interim final rule revising the asylum process; providing a mechanism for the determination and review of certain applicants who demonstrate a credible fear of persecution if returned to their own country; defining the inspection and admission process including new expedited removal procedures for aliens attempting to enter the United States through fraud or misrepresentation by apprehension, detention, and removal of aliens; addressing conduct of removal proceedings; and revising many other sections of the regulations to conform with the new laws. On December 6, 2000, INS and EOIR published the rule "Asylum Procedures" (INS No. 1865-97; RIN 1115-AE93), which finalized the asylum portions of this interim rule. DHS intends to publish a final rule to finalize the portions of this rulemaking relating to inspection and expedited removal of aliens, detention and deportation and removal of aliens, and the conduct of removal proceedings.

1286. AMENDMENT OF THE REGULATORY DEFINITION OF ARRIVING ALIEN

Priority: Other Significant

Legal Authority: 8 USC 1101; 8 CFR 2

CFR Citation: 8 CFR 1

Legal Deadline: None

Abstract: This rule amends the DHS regulations by changing the regulatory definition of an arriving alien. Under section 235(b)(1)(A)(i) of the Immigration and Nationality Act, which was effective on April 1, 1997, certain arriving aliens are subject to expedited removal procedures. The existing regulatory definition of arriving aliens includes parolees. As a matter of policy, the Department has decided that it is appropriate to exempt from the new expedited removal procedures aliens who were paroled into the United States before April 1997. This rule clarifies that these aliens, as well as certain other aliens who were paroled into the United States pursuant to advance parole, will not be subjected to expedited removal upon termination at parole. The rule also makes several changes in the ordering of 1.1(q) to use language that is clearer and more consistent with the wording of the statute.

1287. REMOVAL OF VISA AND PASSPORT WAIVER FOR CERTAIN PERMANENT RESIDENTS OF CANADA AND BERMUDA

Priority: Other Significant

Abstract: Currently, certain permanent residents of Canada and Bermuda are permitted to enter the United States without a passport or visa. Many of these former British Commonwealth countries have high rates of fraud and abuse, and the documents presented by these permanent residents, for entry to the United States, do not meet current document security standards. This rule amends the Immigration and Naturalization regulations by providing that a passport and visa will be required for permanent residents of Canada and Bermuda having a common nationality with Canadian Nationals or with British subjects in Bermuda. These permanent residents of Canada and Bermuda will be required to present a passport and visa to enter the United States. This rule also amends several other sections of the regulations that provide exceptions for these individuals based on the prior passport and visa exemption. DHS is taking this action in conjunction with the Department of State. This rule is

Abstract: This rule amends the Department of Homeland Security's regulations to allow nonimmigrant visitors for business or pleasure who are nationals of the British Virgin Islands to apply for admission to the United States without a visa at the ports-of-entry of St. Thomas, U.S. Virgin Islands. Since visas are no longer issued from the British Virgin Islands by the Department of State, all persons needing a nonimmigrant visa have to either travel or mail their applications to Barbados, the nearest visa-issuing location. The Department's action will facilitate travel to the United States for nationals of the British Virgin Islands while still ensuring that the proper application provisions of the INA are met.

Abstract: The Immediate and Continuous Transit program, also known as the Transit Without Visa (TWOV) program and the International-to-International (ITI) program allowed an alien to be transported in-transit through the United States to another foreign country without first obtaining a nonimmigrant visa from the Department of State overseas, provided the carrier had entered into an Immediate and Continuous Transit Agreement on Form I-426, pursuant to section 233(c) of the Immigration and Nationality Act. Both the TWOV and ITI programs were suspended due to security concerns in an interim rule published in August 2003. The Department of Homeland Security in this rule would be terminating these programs and establishing a new program allowing in-transit travelers that will incorporate necessary security measures.

Abstract: The Transportation Security Administration (TSA), in a joint rulemaking with the U.S. Coast Guard, is proposing standards for conducting security threat assessments and issuing biometric credentials to transportation workers who require unescorted access to secure areas of vessels and facilities. In addition, TSA plans to propose standards for determining the comparability of threat assessments conducted in other TSA programs and by other agencies.

The Aviation and Transportation Security Act (ATSA) (Pub. L. 107-071; 11/19/2001; 115 Stat. 609) directs the TSA to improve access control in secure areas. The Maritime Transportation Security Act of 2002 (MTSA) (Pub. L. 107-295; 11/25/2002;

116 Stat. 2073) requires that workers with unescorted access to secured areas of vessels and facilities must be subject to a security threat assessment and hold a biometric credential needed to access secured areas.

Abstract: This rulemaking will seek comment on a proposed revision to the method for apportioning the Aviation Security Infrastructure Fee (ASIF) among air carriers. The ASIF is a fee imposed on air carriers and foreign air carriers to help pay the Government's costs of providing civil aviation security services.

Starting in fiscal year 2005, the Aviation and Transportation Security Act (ATSA) (Pub. L. 107-71; 11/19/2001), authorizes TSA to change the methodology for imposing the ASIF on air carriers and foreign air carriers from a system based on their 2000 screening costs to a system based on market share or other appropriate measures.

On November 5, 2003, the Transportation Security Administration (TSA) published a notice requesting comment on possible changes in order to allow for open industry and public input before beginning the formal rulemaking process for changing this fee.

Proposed Rule Stage

TSA sought comments on issues regarding how to impose the ASIF, and whether, when, and how often the ASIF should be adjusted. The comment period was extended on the notice for an additional 30 days, until February 5, 2004.

Abstract: This action provides administrative appeal procedures for U.S. citizens that hold or are applying for a certificate, rating, or authorization issued by the Federal Aviation Administration (FAA) to challenge a determination by the Transportation Security Administration (TSA) that the individual poses a threat to transportation, aviation, or national security.

The procedures implement the new requirements of Vision 100—Century of Aviation Reauthorization Act (Pub. L. 108-176; 12/12/2003; 117 Stat. 2490) and provide U.S. citizens that hold an

FAA certificate, rating, or authorization the opportunity to request a hearing on the record before an administrative law judge as well as final review by a panel of the Transportation Security Oversight Board. This action also provides aliens lawfully admitted for permanent residence in the United States that hold or apply for a FAA certificate, rating, or authorization and that are determined by TSA to be a risk to transportation, aviation, or national security the opportunity to seek review of such a determination.

Abstract: The Transportation Security Administration (TSA) will take final action on the February 20, 2002, interim final rule (IFR) by completing an economic analysis and responding to comments received.

The IFR established the Aviation Security Infrastructure Fee (ASIF) imposed on air carriers and foreign air

carriers in air transportation, foreign air transportation, and intrastate air transportation to help defray TSA's costs of providing U.S. civil aviation security services.

The Aviation and Transportation Security Act (ATSA) (Pub. L. 107-71; 11/19/2001), codified at 49 U.S.C. 44940, requires TSA to impose a

DHS—TSA

uniform fee, the “September 11th Security Fee,” on certain aviation passengers at no more than \$2.50 per enplanement originating in the United States, up to \$5.00 per one-way trip and \$10.00 per round trip.

To the extent that TSA estimates that the September 11th Security Fee will not cover TSA’s estimated annual costs for providing specified security services, ATSA authorizes TSA to impose a second fee, the ASIF, on carriers based on the costs they incurred for screening passengers and property in calendar year 2000. Beginning in fiscal year 2005, TSA may change the way the ASIF is apportioned among air carriers according to a carrier’s market share or other appropriate measure, in lieu of the carrier’s actual screening costs in calendar year 2000. See 49 U.S.C. 44940(2)(B)(iii). Reapportionment of the ASIF will not be the subject of this rulemaking and may be the subject of a separate rulemaking.

Abstract: The Transportation Security Administration (TSA) will take final action on the May 18, 2004, interim final rule (IFR) by responding to comments received.

In the IFR, published jointly with the Office of the Secretary of Transportation (OST) in May 2004, TSA revised its sensitive security information (SSI) regulations to expand the 2002 regulatory framework governing information generally related to aviation security to cover information related to security in maritime transportation, consistent with the security framework required by the U.S. Coast Guard’s regulations

implementing the Maritime Transportation Security Act (MTSA). This expansion was the main theme of the IFR. However, the IFR also continued TSA’s 2002 regulations coverage for vulnerability assessments and, with some changes, certain other SSI for all modes.

TSA and OST issued a technical amendment to the IFR in January 2005 to address provisions of the regulations that inadvertently restricted sharing of SSI. Specifically, the amendment removed the limiting words “aviation or maritime” from 49 CFR 15.11 and 49 CFR 1520.11 in order to clearly permit the sharing of vulnerability assessments and other documents properly designated as SSI with covered persons who meet the need to know requirements regardless of mode of transportation.

CFR Citation: 49 CFR 1540; 49 CFR 1542; 49 CFR 1544; 49 CFR 1546; 49 CFR 1548

Legal Deadline: Final, Statutory, August 14, 2005, Section 4053 of IRPTA requires TSA to issue a final rule NLT 240 days from enactment to enhance and improve the security of air cargo transported in both passenger and all-cargo aircraft. Section 4053 of the Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA) (Pub. L. 108-458), mandates that TSA issue a final rule not later than 240 days from enactment.

Abstract: This rulemaking will amend current transportation security regulations to enhance and improve the security of air cargo transportation, by requiring the adoption of security measures throughout the air cargo supply chain—applicable to airport operators, aircraft operators, foreign air carriers, and indirect air carriers.

These regulatory requirements will impose significant barriers to terrorists seeking to use the air cargo transportation system for malicious

purposes. This rule will also change the requirement for a Twelve-Five Program from aircraft with a maximum certificated takeoff weight “of 12,500 pounds or more” to “more than 12,500 pounds.” This change will conform the regulation to recent legislation.

The Transportation Security Administration (TSA) is promulgating these amendments after extensive consultation with industry through its Aviation Security Advisory Committee, and with other Federal agencies including the Department of Transportation and Bureau of Customs and Border Protection.

Abstract: The Transportation Security Administration (TSA) is issuing a final rule to exempt several systems of records from the Privacy Act of 1974 by implementing the following changes:

In conjunction with the establishment of a new system of records, Transportation Security Intelligence Service (TSIS) Operations Files (DHS/TSA 011), TSA published a notice of proposed rulemaking (NPRM) on December 10, 2004, to exempt this system of records (SOR) from several provisions of the Privacy Act. The purpose of this system is to maintain records on intelligence, counterintelligence, transportation security, and information systems security matters as they relate to TSA's mission of protecting the nation's transportation systems.

TSA proposed adding 5 U.S.C. 552a(k)(1) as an authority to exempt the Personnel Background Investigation File System (DHS/TSA 004) from the provisions previously claimed for this system that allows TSA to maintain investigative and background records used to make suitability and eligibility determinations for employment.

Finally, TSA proposed adding 5 U.S.C. 552a(j)(2) as an authority to exempt the Transportation Security Enforcement Record System (TSERS) (DHS/TSA 001) and the Internal Investigation Record System (DHS/TSA 005) from the provisions previously claimed for those two systems and to now include subsection (e)(3) of the Privacy Act. DHS/TSA 001 serves as an enforcement docket system while DHS/TSA 005 is maintained to facilitate the management of investigations into allegations or appearances of misconduct by current and former TSA employees or contractors and is being modified to cover investigations of security-related incidents and reviews of TSA programs and operations.

That IFR established passenger civil aviation security service fees, known as the "September 11th Security Fee" in the amount of \$2.50 per enplanement on passengers of domestic and foreign carriers in air transportation, foreign air transportation, and intrastate air transportation originating in the United States, up to \$5.00 per one-way trip and \$10.00 per round trip. The fees are required under 49 U.S.C. 44940 to pay TSA for the costs of providing Federal civil aviation security services.

1301. CIVIL AVIATION SECURITY RULES

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 49 USC 40101 et seq (PL 107-71)

CFR Citation: 14 CFR 91; 14 CFR 107 to 109; 14 CFR 121; 14 CFR 129; 14 CFR 135; 14 CFR 139; 14 CFR 191; 49 CFR 1500 to 1550

Legal Deadline: Final, Statutory, February 19, 2002, ATSA requires TSA to transfer aviation security responsibilities from FAA to TSA within 3 months of enactment of ATSA.

The Aviation and Transportation Security Act (ATSA) (Pub. L. 107-71; 11/19/2001), mandated that not later than 3 months after the date of enactment of this Act, TSA assume civil aviation security functions and responsibilities under chapter 449 of 49 U.S.C., in accordance with a schedule to be developed by the Secretary of Transportation, in consultation with air carriers, foreign air carriers, and the Administrator of the Federal Aviation Administration.

Abstract: The Transportation Security Administration (TSA) will take final action on the February 22, 2002, final rule; request for comments, by completing an economic analysis and responding to comments received.

On December 28, 2001 (66 FR 67117), the U.S. Department of Transportation (DOT) pursuant to the Aviation and Transportation Security Act (Pub. L. 107-71; 11/19/2001), published a final rule amending 49 U.S.C. part 1, to reflect the new DOT operating administration (TSA) and its general responsibilities.

On February 22, 2002, TSA published a final rule, with a request for comments, transferring the Federal Aviation Administration's (FAA) rules (14 CFR) governing civil aviation security to TSA (49 CFR). That rulemaking also amended those rules to enhance security as required by ATSA, codified at 49 U.S.C. 44940. ATSA requires that by November 19, 2002, the responsibility for inspecting persons and property carried by aircraft operators and foreign air carriers be transferred to TSA and that TSA make a number of improvements to aviation security screening in the United States; including that screening of individuals and property be conducted by TSA employees and companies under contract with TSA; enhanced qualifications and training of screeners; and that Federal law enforcement officers be present at screening locations.

It was intended to improve the quality of screening conducted by aircraft operators and foreign air carriers; to improve the qualifications of individuals performing screening, and thereby to improve the level of security in air transportation. The rule helped ensure a smooth transition of aviation security from the FAA to TSA, and avoided disruptions in air transportation due to any shortage of qualified screeners.

CFR Citation: 49 CFR 1540; 49 CFR 1544

Legal Deadline: Final, Statutory, February 19, 2002, Sec. 132(a) of ATSA requires TSA implement an aviation security program for certain air carriers within 90 days of enactment of ATSA. Sec. 132(a) of the Aviation and Transportation Security Act (ATSA) (Pub. L. 107-71; 11/19/2001), codified at 49 U.S.C. 44940, requires that within 90 days of ATSA's enactment, TSA implement an aviation security program for charter air carriers (as defined in sec. 40102(a)(13) of title 49, United States Code) with a maximum certificated takeoff weight of 12,500 pounds or more.

Abstract: The Transportation Security Administration (TSA) will take final action on the February 22, 2002, final rule, known as the "Twelve-Five Rule," by completing an economic analysis. Comments received were disposed of individually and made public when TSA issued the Final Security Program. Comments received which contained

Sensitive Security Information (SSI) were responded to and will not be made public.

The rule required operators of aircraft with a maximum certificated takeoff weight of 12,500 pounds or more to implement a TSA-approved security program, known as the "Twelve-Five Security Program." The rule also required that certain aircraft operators conduct criminal history records checks on their flight crew members, and restrict access to the flight deck. These measures were necessary to comply with congressional mandates and to enhance security in air transportation.

Security programs constitute sensitive security information (SSI), which are disclosed only to persons with a need to know, in accordance with 49 CFR part 1520. Therefore, the proposed Twelve-Five Security Program was distributed for comment only to the operators subject to the rule. TSA received comments on the proposed security program and amended the program, where appropriate, to accommodate the comments received. TSA provided the final security program to affected entities, and completed a training program for the operators to use to ensure that they operate in accordance with the final security program. In addition, TSA developed a fingerprint collection process that enables all affected operators to complete the fingerprint-based criminal history records checks of their flight crew members, as required by the Twelve-Five Rule. Affected operators were required to be in compliance with the rule by April 1, 2003.

CFR Citation: 49 CFR 1540; 49 CFR 1544

Legal Deadline: Final, Statutory, February 19, 2002, Section 132(a) of ATSA requires TSA to implement an aviation security program for certain air carriers within 90 days after enactment of ATSA.

Section 132(a) of the Aviation and Transportation Security Act (ATSA) (Pub. L. 107—71; 11/19/2001), codified at 49 U.S.C. 44940, requires that within 90 days of ATSA's enactment, TSA implement an aviation security program for charter air carriers (as defined in sec. 40102(a)(13) of title 49, United States Code) with a maximum certificated takeoff weight of 12,500 pounds or more.

Abstract: The Transportation Security Administration (TSA) will take final action on the December 31, 2002, final rule by completing an economic analysis.

This current rule amends the requirements applying to private charter passenger aircraft to increase the level of security required in private charter operations. TSA adopted an international security standard, in which private charter operations in aircraft with a maximum certificated takeoff weight (MTOW) greater than 45,500 kg (100,309.3 pounds), or with a passenger seating configuration of 61 or more, are required to ensure that passengers and their accessible property are screened prior to boarding.

In response to section 132(a) of the Aviation and Transportation Security Act (ATSA) requirement that TSA implement an aviation security program for charter air carriers, TSA published a final rule on February 22, 2002, known as the "Twelve-Five Rule." The rule required operators of aircraft with a maximum certificated takeoff weight of 12,500 pounds or more to implement a TSA-approved security program, known as the "Twelve-Five Security Program."

In June 2002, TSA issued another final rule request for comments, which required private charter operators using aircraft with a maximum certificated takeoff weight of 95,000 pounds or more, to ensure that passengers and their carry-on baggage are screened prior to boarding. However, in response to the comments received from this rule and after further analysis, TSA determined that this threshold did not adequately capture the appropriate group of aircraft, so TSA published a further amendment in December 2002, adopting the international security standard above for private charter operations. As a result of this current amendment, additional aircraft are now covered by the rule that were not previously subject to it. TSA established a new compliance date for operators of these aircraft, in order to provide them sufficient time to develop procedures required by this rule and the security program. Also, in response to comments received, TSA is permitting the use of non-TSA screeners in certain circumstances.

Security programs constitute sensitive security information (SSI), which can be disclosed only to persons with a need to know, in accordance with 49 CFR part 1520. Therefore, the proposed private charter security program was distributed for comment only to the operators subject to the rule. TSA received comments on the proposed security program and amended the program, where appropriate, to accommodate the comments received. TSA provided the final security program to affected entities, and completed a training program for the operators to use to ensure that they operate in accordance with the security program. Affected operators were required to be in compliance with the rule by April 1, 2003.

Abstract: TSA will establish a compliance program for aircraft operators to implement and test security contingency plans. The intent is to enhance security for the traveling public, air carriers, and persons employed by or conducting business at public airports by increasing awareness of and compliance with civil aviation security measures. This rulemaking will implement section 4 of the Airport Security Improvement Act of 2000 (ASIA), (Pub. L. 106-528, 11/22/2000; 114 Stat. 2517), codified at 49 U.S.C. 44903(g), on improving secured-area access control.

Rules governing civil aviation security were transferred from the Federal Aviation Administration (FAA) to the Transportation Security Administration (TSA). Part 108 of title 14 of the Code of Federal Regulations (CFR) on Aircraft Operator Security, is now codified in 49 CFR parts 1540 and 1544.

On August 1, 1997, the FAA published the Airport Security NPRM (Notice No. 97-13, 62 FR 41760) and the Aircraft Operator Security NPRM (Notice No. 97-12, 62 FR 41730) in the Federal Register for public comment. The comment period for both NPRMs closed on December 1, 1997.

These notices proposed to completely revise parts 107 and 108, and included a requirement for a compliance program to be included in the airport and aircraft operators' security programs. That compliance program would include procedures to ensure that those individuals with unescorted access authority to critical security areas or restricted operations areas comply with the proposed security program requirements.

In the aircraft operator security NPRM, the FAA noted that the aircraft operators would develop procedures to educate individuals on their

responsibility and accountability for the control and use of airport-approved identification media. The aircraft operator must also monitor the compliance of individuals with security requirements of part 108. Additionally, the NPRM included a discussion on the need for penalties being imposed on individuals not in compliance with the airport operator's security measures.

There were two comment periods for each NPRM in which four public meetings were held to address the proposed revisions for parts 107 and 108. During these public meetings, several non-supportive comments were received on the proposed compliance programs. Based on these comments, the FAA reopened the comment period on August 10, 1999 (64 FR 43321), to specifically address the compliance programs for both parts 107 and 108. This new comment period closed on September 24, 1999.

On July 17, 2001, the FAA issued final rules for the revisions of parts 107 (66 FR 37274) and 108 (66 FR 37330). These rules contain a section on the accountability of employees and other persons to carry out required security measures. See sections 107.11 and 108.9.

Those final rules did not include the final compliance program requirements, however, which are included in this action.

Abstract: TSA will establish a compliance program for airport operators to implement and test security contingency plans. The intent is to enhance security for the traveling public, air carriers, and persons employed by or conducting business at public airports by increasing awareness of and compliance with civil aviation security measures. This rulemaking will implement section 4 of the Airport Security Improvement Act of 2000 (ASIA), (Pub. L. 106-528, 11/22/2000; 114 Stat. 2517), codified at 49 U.S.C. 44903(g), on improving secured-area access control.

Rules governing civil aviation security were transferred from the Federal Aviation Administration (FAA) to the Transportation Security Administration (TSA). Part 107 of title 14 of the Code of Federal Regulations (CFR) on Airport Security, is now codified in 49 CFR parts 1540 and 1542.

On August 1, 1997, the FAA published the Airport Security NPRM (Notice No.

97-13, 62 FR 41760) and the Aircraft Operator Security NPRM (Notice No. 97-12, 62 FR 41730) in the Federal Register for public comment. The comment period for both NPRMs closed on December 1, 1997.

These notices proposed to completely revise parts 107 and 108, and included a requirement for a compliance program to be included in the airport and aircraft operators' security programs. That compliance program would include procedures to ensure that those individuals with unescorted access authority to critical security areas or restricted operations areas comply with the proposed security program requirements.

In the airport security NPRM, the FAA noted that some airports already had such programs in place and had established penalties, such as monetary fines and suspension of access authority. The FAA proposed that the airport operator would remain the primary party responsible for violations, including those committed by their employees, contractors, and tenants. Further, the FAA recognized that in appropriate cases, persons who failed to comply would be subjected to FAA enforcement action.

The NPRM proposed that the FAA would have a means to directly discipline individuals who fail to comply with certain security requirements. Having individuals accountable to both the airport operator and the FAA emphasizes the importance of individuals in ensuring that all security measures are carried out.

There were two comment periods for each NPRM in which four public meetings were held to address the proposed revisions for parts 107 and 108. During these public meetings, several non-supportive comments were received on the proposed compliance programs. Based on these comments, the FAA reopened the comment period on August 10, 1999 (64 FR 43321), to specifically address the compliance programs for both parts 107 and 108. This new comment period closed on September 24, 1999.

On July 17, 2001, the FAA issued final rules for the revisions of parts 107 (66 FR 37274) and 108 (66 FR 37330). These rules contain a section on the accountability of employees and other persons to carry out required security measures. See sections 107.11 and

Abstract: The Transportation Security Administration (TSA) will take final action on the December 6, 2001, Federal Aviation Administration (FAA) final rule by completing an economic analysis and responding to comments. This rule, published by the FAA, requires each airport operator and

aircraft operator that has adopted a security program under 14 CFR parts 107 or 108 to conduct fingerprint-based criminal history record checks (CHRC) for individuals if they have not already undergone CHRCs. The rule applies to those who either have, or apply for: unescorted access authority to the Security Identification Display Area (SIDA) of an airport; authority to authorize others to have unescorted access; and screening functions. The FAA determined the rule is needed because the current employment investigation method is not adequate. The rule will ensure that individuals in these positions do not have disqualifying criminal offenses.

Rules governing civil aviation security were transferred from the FAA to TSA. Parts 107 and 108 of title 14 of the Code of Federal Regulations (CFR) on Airport Security and Aircraft Operator Security, respectively, are now codified in 49 CFR parts 1540, 1542, and 1544. TSA will complete any further action required in this rulemaking. TSA plans to amend parts 1542 and 1544 to make technical changes and improve organization and clarity.

DHS—TSA

Long-Term Actions

This action, initiated with a rule published on May 5, 2003, implements requirements in the Safe Explosives Act and the USA Patriot Act, relating to security threat assessments of commercial truck drivers who are authorized to transport hazardous materials.

This rule amends the May 5 rule by providing additional guidance to the States and industry on the process for collecting fingerprints and information from commercial drivers who apply to obtain or renew a hazardous materials endorsement. In addition, the rule requires the States to formally decide whether they will collect this information or whether TSA will complete the collection. TSA has added definitions and made organizational and substantive changes to the current standards codified at 49 CFR part 1572.

The rule moves the start date of the fingerprint-based checks for transfer and renewal applicants to May 31, 2005. TSA made these changes in response to comments received from the affected parties and to clarify further the implementation of this program.

Abstract: This document provides a regulatory framework through which the Transportation Security Administration (TSA) may issue Security Directives (SDs) to owners or operators of conveyances, facilities, terminals, or infrastructure assets, involved in all modes of transportation, except aviation and maritime which have effective rules for Security Directives.

Security Directives, if issued, may require owners or operators of conveyances, facilities, terminals, or infrastructure assets to implement measures specified in the Security Directives to enhance transportation security. Under this framework, TSA

may also issue Information Circulars (ICs) advising operators of possible threats to transportation security. Since information contained in Security Directives may be Sensitive Security Information (SSI), this rule would require that sensitive security information be managed in accordance with procedures that restrict its availability.

the requirements of Sec. 612 of Vision 100—Century of Aviation Reauthorization Act (Pub. L. 108-176, December 12, 2003; 117 Stat. 2490), including the fee provisions, not later than 60 days after the enactment of the Act.

Abstract: The Transportation Security Administration (TSA) will take final action on the September 20, 2004, interim final rule (IFR) by completing a regulatory analysis, amending the rule to incorporate the exemptions and interpretations, and responding to comments received.

The IFR was published on September 20, 2004 (69 FR 56324). After comments were received, new exemptions and interpretations were issued. The IFR created a new part 1552, Flight Schools, in title 49 of the Code of Federal Regulations (CFR). This IFR applies to flight schools and to individuals who apply to obtain flight training.

The IFR is requiring flight schools to notify TSA when aliens and other individuals designated by TSA apply for flight training. TSA has established standards relating to the security threat assessment process that TSA will conduct to determine whether such individuals are a threat to aviation or national security, and thus prohibited from receiving flight training. In addition, TSA has established a fee to cover a portion of the costs of the security threat assessments that TSA will perform under this rule. Finally, TSA has established standards relating to security awareness training for certain flight school employees.

These requirements will help ensure that individuals who intend to use aircraft to perform terrorist attacks in the United States do not obtain flight training that would enable them to do so. These requirements also will improve security at flight schools.

1312. AIRCRAFT REPAIR STATION SECURITY

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 49 USC 114; 49 USC 44924

CFR Citation: 49 CFR 1554

Legal Deadline: Final, Statutory, August 8, 2004, Section 611 of Vision 100 requires TSA to issue a final rule within 240 days from date of enactment of Vision 100.

Sec. 611(b)(1) of Vision 100—Century of Aviation Reauthorization Act (Pub. L. 108-176; 12/12/2003; 117 Stat. 2490), codified at 49 U.S.C. 44924, requires TSA to issue “final regulations to ensure the security of foreign and domestic aircraft repair stations” within 240 days from date of enactment of Vision 100.

Abstract: The Transportation Security Administration (TSA) is proposing to add a new 49 CFR part 1554 regulation to improve the security of domestic and foreign aircraft repair stations, as required by the section 611 of Vision 100—Century of Aviation Reauthorization Act.

The proposed regulations establish general requirements for security programs to be adopted and implemented by repair stations certificated by the Federal Aviation Administration (FAA). Some flexibility would be provided to repair stations to reflect the fact that repair stations are diverse and that the specific measures needed to comply with the security requirements may vary depending on an assessment of the security vulnerability at a particular repair station location.

The proposed regulations also authorize TSA to conduct security audits, assessments, tests, and inspections of repair stations. The proposed regulations provide procedures to notify repair stations of any deficiencies in their security programs, and to notify those repair stations that present an immediate risk to security. Finally, the proposal includes a process whereby a repair station may seek review of a determination by TSA that the station has not adequately addressed security deficiencies or that the station poses an immediate risk to security.

Regulations were to be promulgated by August 8, 2004. A Report to Congress was sent August 24, 2004 explaining the delay. The NPRM revisions have been completed and the regulatory evaluation is being revised.

1313. MARYLAND THREE AIRPORTS: ENHANCED SECURITY PROCEDURES FOR OPERATIONS AT CERTAIN AIRPORTS IN THE WASHINGTON, DC, METROPOLITAN AREA FLIGHT RESTRICTED ZONE**Priority:** Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.**Legal Authority:** 49 USC 114; 49 USC 40113**CFR Citation:** 49 CFR 1562**Legal Deadline:** None**Abstract:** The Transportation Security Administration (TSA) will take final action on the February 10, 2005, interim final rule (IFR) by responding to comments received.

This action creates a new part 1562, General Aviation, in Title 49 of the Code of Federal Regulations (CFR). The IFR transfers responsibility for ground security requirements and procedures at 3 Maryland airports; College Park Airport (CGS), Potomac Airfield (VKX), and Washington Executive/Hyde Field (W32) that are located within the Washington, DC, Metropolitan Area Flight Restricted Zone (FRZ), and for individuals operating aircraft to and from these airports, from the Federal Aviation Administration (FAA) to TSA. These airports are referred to as the Maryland Three Airports.

These requirements and procedures were previously issued by the FAA, in coordination with TSA, in Special Federal Aviation Regulation (SFAR) 94. TSA is assuming responsibility for these requirements and procedures because TSA and FAA agree that they are best handled under TSA's authority over transportation security. These requirements and procedures will continue to enhance the security of the critical infrastructure and Federal Government assets in the Washington, DC, Metropolitan Area.

in 49 CFR part 1546 to make them more consistent with the rules applicable to domestic air carriers. The proposal extends regulations to foreign air carrier private charters and those using aircraft with a maximum certificated takeoff weight of 12,500 pounds or more in their operations. The proposal also adds new security requirements to foreign air carriers including requiring the use of security coordinators, the prohibition of loaded firearms in checked baggage, and restricted access to the flight deck.

Unfunded Mandates: Undetermined

Legal Authority: PL 107-071, sec 109

CFR Citation: 49 CFR 1540; 49 CFR 1542

Legal Deadline: None

Abstract: Registered Travelers are individuals who voluntarily have submitted biographic and biometric data and have undergone a security threat assessment resulting in a determination by TSA that they are eligible for expedited security screening at participating airports. Registered Travelers will be required to pay a fee to defray TSA's costs for background checks.

The RT program is designed to improve the security screening process by helping TSA to align screeners and resources with potential risks. Travelers that voluntarily submit to background checks and are approved for enrollment will be positively identified at the airport through biometric technology. These passengers will be permitted to go through expedited security screening, such as a dedicated security checkpoint line, which will allow TSA to more efficiently focus its resources.

Several statutory provisions express congressional intent that the RT program be implemented and funded by user fees: section 109 of the Aviation and Transportation Security Act (ATSA), (Pub. L. 107-71; 11/19/2001; 115 Stat. 597); and section 520 of the Department of Homeland Security Appropriations Act, 2004, (Pub. L. 108-90; 10/01/2003; 117 Stat. 1137).

Abstract: The Transportation Security Administration (TSA) will take final action on the July 19, 2005, interim final rule (IFR) by responding to comments received.

This final rule restores access to (DCA) for certain aircraft operations while maintaining the security of critical Federal Government and other assets in the Washington, DC, Metropolitan Area. Since September 11, 2001, general aviation aircraft operations have been prohibited at Ronald Reagan Washington National Airport DCA. This rule applies to all passenger aircraft operations into or out of DCA, except foreign air carrier operations operating under 49 CFR part 1546.101(a) or (b) and U.S. air carrier operations operating under a full security program required by 49 CFR part 1544. The rule establishes security procedures for aircraft operators and gateway airport operators, and security requirements relating to crewmembers, passengers, and law enforcement officers onboard aircraft operating to or from DCA.

Abstract: When DHS receives a cash bond, it is deposited into an account where interest is accumulated from the date the bond is posted, to the date that the bond is paid out. If a cancelled cash bond is unclaimed after a year, the principal and any accumulated interest are transferred to the U.S. Department of the Treasury, account entitled "Payments of Unclaimed Moneys of Individuals Whose Whereabouts are Unknown." This regulation concerns the computation of interest on cash bonds. It does not mention the Treasury Department requirement concerning the disposition of funds from unclaimed cash bonds. Since some cash bonds obligors have questioned the curtailment of interest a year after the bond is cancelled, we believe that this regulation should include language that clarifies the Department's requirement to comply with Treasury's regulation.

1322. ESTABLISHING PROCEDURES FOR RECERTIFICATION OF SCHOOLS APPROVED BY THE STUDENT AND EXCHANGE VISITOR PROGRAM (SEVP) TO ENROLL F OR M NONIMMIGRANT STUDENTS

Priority: Other Significant

Legal Authority: PL 107-173, sec 502; 8 USC 1356(m); PL 107-56

CFR Citation: 8 CFR 103; 8 CFR 214

Legal Deadline: NPRM, Statutory, October 2004, Schools started becoming eligible for recertification on October 1, 2004.

The Uniting and Strengthening America by Providing Appropriate Controls Required to Intercept and Obstruct Terrorism Act (USA PATRIOT Act), Public Law 107-56, mandated that SEVIS be completely implemented before January 1, 2003. Both Directive No. 2 and the Border Security Act require DHS to conduct periodic reviews of all schools within two years of the initial approval of their SEVP certification, and every two years thereafter. DHS acknowledges this mandate and recognizes.

Abstract: This proposed rule amends DHS regulations governing recertification of schools approved by the Student and Exchange Visitor Program (SEVP) for attendance by F or M nonimmigrant students. It sets the fee amount for recertification, adds a provision to allow a school to voluntarily withdraw from its certification, and clarifies procedures for school operation with regard to nonimmigrant students during the review process and following withdrawal of certification.

On October 30, 2001, the President issued Homeland Security Directive No. 2, requiring periodic reviews of all institutions certified to receive nonimmigrant students. The Enhanced Border Security and Visa Entry Reform Act of 2002 (Border Security Act), Public Law 107-173, enacted May 14,

2002, also requires a periodic review of approved schools every two years. This rule is being promulgated consistent with these mandates.

Priority: Other Significant

Legal Authority: Not Yet Determined

CFR Citation: 8 CFR 214; 22 CFR 62

Legal Deadline: None

Abstract: Department of State (DOS) has 10 flight training programs that are validated to enroll exchange visitors. This number is so small that it is administratively inefficient and resource-intensive to manage. DHS has between 100 to 200 flight training programs, which are certified by the Student and Exchange Visitor Program (SEVP). DOS has requested that its 10 programs be incorporated into DHS. As a group that is of special interest for national security, it is important that DHS provide efficient and effective oversight of flight training programs. The DOS programs concern J visa; the DHS programs are in F and M visa categories. Rules between SEVP and DOS programs differ significantly and need to be modified accordingly.

Abstract: The Department continues to experience problems collecting the funds for breached surety bonds. Several surety companies and/or their bonding agents continue to circumvent administrative remedies to address immigration surety bond claims sent out by the Department and have evaded the judicial review process.

This rule proposes to strengthen the Department's control over the collection of immigration surety bonds by improving current DHS procedures and by providing the Department with stronger enforcement measures. Specifically, this rule will require surety companies and bonding agents to exhaust administrative remedies by using the Department's appeal procedures, as a prerequisite to challenging the Department's actions under the Administrative Procedures Act, before seeking judicial review of DHS actions. Also, this rule limits the exposure of the Department in cases where bonding agents have acted improperly or where authorities have been denied by their corporate principals; and encourages surety companies and bonding agents to respond early if there are any issues

or disputes with the Department's claim. Further, the rule formalizes DHS' reporting requirements to the Department of Treasury and provides notification to the Treasury of high dollar volume of unpaid debt over 90 days old. Lastly, the rule adds an enforcement measure to suspend acceptance of surety bonds from bonding agents and or surety companies that have large unpaid balances or who do not otherwise respond to DHS invoices. This rule is necessary to ensure that the Department receives funds owed by the surety companies.

Abstract: The Bureau of Immigration and Customs Enforcement proposes to amend the regulations relating to the unlawful hiring or continued employment of unauthorized aliens. The proposed rule adds two more examples of situations that may lead to a finding that an employer has constructive knowledge that an employee is an unauthorized alien. These additional two examples involve an employer's failing to take reasonable steps in response to one or the other of two events: (1) The employer receives written notice from the Social Security Administration (SSA) that the name and social security account number submitted for an employee do not match SSA records; or (2) the employer receives written notice from the Department of Homeland Security (DHS) that the immigration-status or employment-authorization documentation presented or referenced by the employee in completing Form I-9, Employment Eligibility Verification, was not assigned to the employee according to Agency records. The proposed rule also describes steps that DHS considers to be a reasonable response, and clarifies that whether DHS will find that an employer had constructive knowledge that an

employee was an unauthorized alien will depend on the totality of relevant circumstances. The purpose of this rule is to clarify an employer's obligations and options when it receives a no-match letter, either from SSA or DHS.

Abstract: On October 30, 2001, the President issued Homeland Security Directive No. 2, requiring periodic reviews of all institutions certified to accept nonimmigrant students. The Enhanced Border Security and Visa Entry Reform Act of 2002 (Border Security Act), enacted May 12, 2004, also requires a periodic review of approved schools every two years. This proposed rule amends DHS regulations governing certification and recertification of schools approved by the Student and Exchange Visitor Program (SEVP) for attendance by F or

M nonimmigrant students. The rule deletes obsolete, pre-SEVIS policies and procedures in various regulations. The continued presence of this outdated verbiage contributes to confusion, inefficiency and misunderstanding by students and academic institutions.

Abstract: This rule proposes to implement section 309(c)(3) of the Illegal Immigration Reform and Immigrant Responsibility Act (IIRIRA) by affording certain aliens rendered ineligible for relief from deportation by recent changes in the law the opportunity to have their deportation proceedings terminated and removal proceedings initiated in order to apply for relief. Certain permanent resident aliens rendered ineligible for section 212(c) relief by the Antiterrorism and Effective Death Penalty Act and certain nonpermanent resident aliens rendered ineligible for suspension of deportation by the stop-time rule in IIRIRA may apply for "repapering" (as it is commonly known) under this rule. This process would not apply to aliens eligible for 212(c) relief pursuant to the procedures described in the Executive Office for Immigration Review rulemaking.

Abstract: This rule amends 28 CFR and sets forth implementing guidance for section 107(c) of the Victims of Trafficking and Violence Protection Act of 2000. The Secretary and the Secretary of State are promulgating these regulations for law enforcement, Immigration, and Department of State (DOS) officials regarding the protection of victims of severe forms of trafficking who are in custody, the access of such victims to information about their rights and translation services, and the training of appropriate DHS and DOS personnel in identifying and protecting such victims. The rule also addresses the authority of Federal law enforcement officials to permit the continued presence in the United States of certain victims of severe forms of trafficking who are potential witnesses in order to aid prosecutions.

Abstract: This rule addresses comments received upon publication of the interim rule on November 14, 2001. The rule was to be published as a proposed rule as significant structural changes were made to custody review procedures governing the detention of aliens who are the subject of an administratively final order of removal, exclusion, or deportation. The rule was initially revised in light of the U.S. Supreme Court decision of Zadvydas v Davis. With a new decision by the Supreme Court, Clark v Martinez, the rule requires further substantive revisions to conform to the ruling in Martinez. In this case, the Supreme Court has refined its interpretation of INA 241(a)(6) and further limited detention of certain aliens subject to administratively final orders of removal, exclusion or deportation where the alien's removal is not significantly likely in the reasonably foreseeable future.

Abstract: This rule amends DHS regulations for the registration and monitoring of certain nonimmigrant aliens. This rule amends existing regulations by suspending the 30-day and annual re-registration requirements for aliens who are subject to the National Security Entry-Exit Registration System (NSEERS) Registration. Instead of requiring all aliens subject to NSEERS to appear for 30-day and/or annual registration interviews, DHS will utilize a more tailored system in which it will notify individual aliens of future registration requirements. This rule also eliminates the requirement for those nonimmigrant aliens subject to special registration who are also enrolled in the Student and Exchange Visitor Information System (SEVIS) to separately notify DHS of changes in educational institutions and addresses. Additionally, this rule clarifies how nonimmigrant aliens may apply for relief from special registration requirements and clarifies that certain alien crewmen are not subject to the departure requirements. Finally, certain conforming amendments have been made to existing regulations to reflect that the former Immigration and Naturalization Service has been abolished and its functions transferred from the Department of Justice to DHS, under the Homeland Security Act of 2002 (HSA), Public Law 107-296.

Abstract: This interim rule amended DHS regulations to provide that the Secretary may publish a notice to extend the duration of status, under specified conditions, of certain F-1 and J-1 nonimmigrant aliens who may be affected adversely because the numerical limit (cap) on H-1B nonimmigrant aliens has been reached prior to the end of a given fiscal year. This rule was a necessary stopgap measure because of a large number of F-1 and J-1 nonimmigrant aliens seeking a change of nonimmigrant status to that of H-1B after completion of their studies or their program. However, many of these aliens were unable to change their nonimmigrant status for the remainder of a given fiscal year because of the cap on H-1B petitions. This rule allows such aliens to avoid a lapse in their status because of a circumstance that is not under their control.

Abstract: This rule continues the implementation of the process by which schools may be approved to obtain access to the Student and Exchange Visitor Information System (SEVIS). On October 30, 2001, the President issued Homeland Security Directive No. 2 requiring DHS to conduct periodic reviews of all institutions certified to receive nonimmigrant students. The Enhanced Border Security and Visa Entry Reform Act of 2002, Public Law 107-173 enacted May 14, 2002, also requires a periodic review of school approvals.

This rule governs the review and certification process that DHS uses to approve schools to enroll foreign students. While DHS had in place an existing process for certifying and decertifying schools, DHS requires all previously approved schools to apply for certification in accordance with these new mandates cited above, prior to being allowed to enroll in SEVIS.

Abstract: This rule implements recent legislation creating new visa classifications applicable to part-time students who commute across the border. Previously, DHS created an option for F-1 and M-1 nonimmigrant students to enroll in a reduced course load if the nonimmigrant maintained residence in their home country of

DHS—BICE

Final Rule Stage

Mexico or Canada and commuted to schools within 75 miles of the border. These special F-1 and M-1 nonimmigrants were required to pursue a full course of study albeit at part-time enrollment. This rule has been drafted to effect congressional legislation that created new visa classifications, F-3 and M-3, for border commuter student nonimmigrants. The F-3 and M-3 visa categories replace the option of reduced course load for border commuter students within the F-1 and M-1 visa categories. When this rule is made effective, any student from Canada or Mexico wishing to enroll in a reduced course load for purposes of commuting must obtain an F-3 or an M-3 visa accordingly. The F-3 and M-3 visa holders will be tracked in the Student and Exchange Visitor Information System (SEVIS) administered by DHS and the Student and Exchange Visitor Program (SEVP), a component of Bureau of Immigration and Customs Enforcement.

Abstract: On November 25, 2002, the President signed into law the Homeland Security Act of 2002 (Pub. L. 107-296), which created the new Department of Homeland Security (DHS). Pursuant to the provisions of the HSA, DHS came into existence on January 24, 2003. The functions of the Immigration and Naturalization Service (Service) and all authorities with respect to those functions, transferred to DHS on March 1, 2003, and the Service was abolished on that date, pursuant to the HSA and the Department of Homeland Security Reorganization Plan, as modified (Reorganization Plan). The transition and savings provisions of the HSA, including sections 1512(d) and 1517, provide that references relating to the Service in statutes, regulations, directives, or delegations of authority shall be deemed to refer to the appropriate official or component of DHS. DHS is promulgating this rule to continue the process of conforming the text of title 8 of the Code of Federal Regulations to the governmental structures established in the HSA and Reorganization Plan. This rule is not intended to and does not restrict or otherwise limit the authority of any DHS officer.

CFR Citation: 8 CFR 235; 8 CFR 236; 8 CFR 241; 8 CFR 287

Legal Deadline: None

Abstract: The Secretary of Homeland Security is publishing this rule to define: 1) Which official has authority over an alien's immediate custody when detained by the Department of Homeland Security (DHS); and 2) which official has administrative control over an alien's removal (and execution of the warrant for an alien's removal, if applicable) from the United States. DHS is publishing this rule to reflect that the official with immediate custody of a detained alien shall be the official with day-to-day control over the alien's physical environment. The rule defines the duties of these custodians.

If an alien is not detained, the rule generally reflects that the Field Office Director (FOD) or his designee within the Bureau of Immigration and Customs Enforcement (ICE) has geographical jurisdiction over the place with

administrative control over the Record of Proceeding of an alien's removal, whether that record is created by DHS or by the Executive Office for Immigration Review, a branch of the Department of Justice, shall have administrative control over the alien's removal and execution of the warrant of removal. The rule reflects that transfers of cases and control of removal and execution of the warrant of removal occur once the Agency acknowledges a transfer in writing.

The rule generally reflects that if the alien is detained, only the FOD with geographical jurisdiction over the place where the alien is detained or his designee has administrative control over the alien's removal and execution of the warrant of removal. The rule also reflects that only the FOD or his designee can transfer this administrative control to a FOD or his designee in another geographical jurisdiction or to another person and/or office within the FOD's own district, whether or not an alien requests such a transfer. Finally, the regulation reflects that only the Director of Field Operations (DFO) or his designee for the Bureau of Customs and Border Protection (CBP) has administrative control over an alien's removal if the alien has been placed in expedited removal and the alien remains in CBP custody.

1346. CENTRALIZED FILING OF BOND APPEALS

Priority: Other Significant

Legal Authority: 5 USC 301; 5 USC 552; 5 USC 552a; 8 USC 1101; 8 USC 1103; 8 USC 1304; PL 107-296, section 116; ...

CFR Citation: 8 CFR 103.3

Legal Deadline: None

Abstract: During the past several years, the former Immigration and Naturalization Service analyzed ways to improve the bond appeal process. In the transition to the Department of Homeland Security (Department), the

Bureau of Immigration and Customs Enforcement (BICE) again looked at the process and is consequently proposing the adoption of centralized filing of bond appeals. Centralized filing of bond breach appeals will require appellants to file the complete appeal including any supporting brief and fee with the Office of Financial Management, Debt Management Center (DMC), rather than with the office that issued the bond breach decision, within 30 days after service. The DMC will then promptly direct the appeal to the office where the initial (unfavorable) decision was made for reconsideration and will also provide the appellant with a receipt for the filing fee by mail. Centralized filing of bond breach appeals will enable the Department to service appeals in a consistent manner, better manage and track appeals, and reduce or eliminate instances of

invoices being issued on bond breaches that are under appeal.

1347. NATIONAL FLOOD INSURANCE PROGRAM; STANDARD FLOOD INSURANCE POLICY; EXPANSION OF INCREASED COST OF COMPLIANCE (ICC) COVERAGE AND PROSPECTIVE PAYMENT OF FLOOD INSURANCE PREMIUMS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 4011(b)(4); 42 USC 4015(f)

CFR Citation: 44 CFR 61

Legal Deadline: None

Abstract: This interim final rule would amend the National Flood Insurance Program regulations to incorporate the statutory changes in the Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004 (Pub. L. 108-264) enacted on June 30, 2004. Specifically, this rule would address Sections 105 (Amendments to Additional Coverage for Compliance with Land Use and Control Measures) and 209 (Prospective Payment of Flood Insurance Premiums). Section 105 authorizes the extension of Increased Cost of Compliance coverage, which currently applies when a community is enforcing its substantial damage or cumulative substantial damage ordinance, to also include those properties for which an offer of

mitigation assistance is made under a variety of FEMA-funded mitigation programs. Section 209 directs that if a policyholder is determined to be paying a lower premium than is required due to an error in the flood plain determination, the higher premium may only be charged prospectively.

Abstract: The Department of Homeland Security published a proposed Maximum Pay Rate Table (Table) in conjunction with its interim rule for the National Urban Search and Rescue Response (US&R) System, which was also published in the same edition of the Federal Register. The interim rule standardizes the financing, administration, and operation of the US&R System, and standardizes the relationships between DHS and "Sponsoring Agencies" of the US&R System—those State or local government agencies that agree to organize and administer a US&R Task Force. The notice seeks comment on the proposed Table, which establishes the maximum rates that DHS will pay

for US&R Task Force physicians, engineers, and canine handlers as "Affiliated Personnel" or for backfill positions for activated US&R System Members employed by or otherwise associated with a for-profit "Participating Agency."

Abstract: These proposed regulations are intended to replace the current regulations for public assistance insurance requirements (44 CFR part 206, subpart I). The proposed regulations detail the insurance requirements that applicants must meet to be eligible for FEMA assistance for their damaged facilities following a Presidentially-declared major disaster. Many of the changes in these proposed regulations are not new, but are intended to provide clarification concerning how FEMA handles insurance issues in the Public Assistance program. The proposed rule only addresses post-disaster insurance requirements. It does not create any predisaster insurance requirements.

1366. PILOT PROGRAM FOR THE MITIGATION OF SEVERE REPETITIVE LOSS PROPERTIES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 4102a

CFR Citation: 44CFR 79

Legal Deadline: None

Abstract: This rule would implement section 1361A of The National Flood

Insurance Act of 1968, as amended, (the Act), which authorizes FEMA to implement a Pilot Program that would provide financial assistance to States and communities for activities to mitigate the risk of damage from future flooding to severe repetitive loss properties. The Pilot Program represents a concentrated effort to mitigate those insured properties that have suffered the greatest amount of damage in terms of claims against the National Flood Insurance Fund. Severe repetitive loss properties are defined in section 1361A(b)(1) of the Act as Single Family Properties consisting of one to four family residences that are covered under a contract for flood insurance made available under the Act which have had four or more claims with each claim exceeding \$5,000 and with the cumulative payments exceeding \$20,000, or which have had at least two claim payments that cumulatively exceed the value of the property. The rule will identify program requirements including eligibility and matching requirements, as well as procedures for grant application, evaluation, award, and appeals. It will also implement provisions of the law that set forth implications for property owners who decline a mitigation offer under the Pilot Program.

Long-Term Actions

CFR Citation: 44 CFR 79**Legal Deadline:** None

Abstract: This interim final rule will implement sections 1366 and 1367 of the National Flood Insurance Act of 1968, as amended, by section 103 of the Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004 (Pub. L. 108-264), 42 U.S.C. 4102a. The rule will update the existing Flood Mitigation Assistance Program (FMA) by providing for an increased emphasis on planning and providing new incentives for States and communities to participate in the FMA through reduced cost-share requirements. The rule will also clarify and streamline mitigation planning with respect to the general mitigation planning requirements and FMA planning requirements.

Abstract: This proposed rule would revise the implementing regulations for section 420 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5187, as amended by section 303 of the Disaster Mitigation Act of 2000, which provides

overall program guidance on the operation and administration of the Fire Management Assistance Grant Program (FMAGP). The revisions incorporated into this proposed rule are designed to facilitate the grant application and administration processes of FMAGP, thereby improving the delivery of financial assistance to the State, local, and Indian tribal governments.

1371. GRANTS FOR REPETITIVE INSURANCE CLAIM PROPERTIES

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 4102a

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The interim final rule would implement section 1323 of the National Flood Insurance Act of 1968 (the Act), as amended, to provide funding for mitigation actions that reduce flood damages to individual properties for which one or more claim payments for losses have been made under the National Flood Insurance Program. Grants for repetitive insurance claims properties may only be awarded: 1) If proposed mitigation activities are determined to be in the best interest of the National Flood Insurance Fund; and 2) if the State or community in which the property is located cannot meet the requirements of section 1366 of the Act (the Flood Mitigation Assistance Program), or the State or community does not have the capacity to manage a mitigation project. The rule will address program requirements and procedures for determining eligibility for funding.

Abstract: This interim final rule would revise the existing regulations to implement amendments to the Robert T. Stafford Disaster Relief and Emergency Assistance Act that provide for delegating the administration and management of the Hazard Mitigation Grant Program (HMGP) to States. These revisions include: 1) The criteria and process for designation as a Managing State; 2) the HMGP program authorities and responsibilities of Managing States, and of FEMA in working with Managing States; and 3) the evaluation process for Managing States. In addition, this interim final rule would amend the existing regulations to clarify the language of the rule in general, to more fully reflect program and grants management practices previously detailed in guidance, and to make the rule more reader-friendly.

Legal Authority: 42 USC 5133

CFR Citation: 44 CFR 206

Abstract: This interim final rule would assist States, Indian tribal governments, and communities to implement a consistent predisaster natural hazard mitigation program to reduce overall risk to the population and structures, while also reducing reliance on funding

from actual disaster declarations. This Predisaster Mitigation Program provides a significant opportunity to raise risk awareness and to reduce the Nation's disaster losses through predisaster mitigation planning, and the implementation of planned, preidentified, cost-effective mitigation measures that are designed to reduce injuries, loss of life and damages and destruction of property from all hazards, including damage to critical facilities. The Robert T. Stafford Disaster Relief and Emergency Assistance Act provides a framework for linking pre- and post-disaster mitigation planning and projects with public and private interests to ensure an integrated, comprehensive approach to disaster loss reduction.
