Type of Review: New.

Title: Strengthening Adult Reading Instructional Practices (SARIP).

Frequency: Learner respondents will report twice; Instructor respondents will report once for two instruments and weekly for 15 weeks.

Affected Public: Individuals or household.

Reporting and Recordkeeping Hour Burden:

Responses: 4,734.

Burden Hours: 1,431.

Abstract: The SARIP Study is an initial investigation of whether the Study Achievement in Reading (STAR) training and materials are effective in developing adult basic education (ABE) instructors' capability to deliver evidence-based reading instruction and consequently, in improving intermediate-level (4th-8.9th grade equivalence) adult learners' reading skills. The study will employ a quasi-experimental design to examine whether learners who are taught by ABE instructors that have been trained in the STAR methods and materials and have

become proficient in these methods make greater gains in developing their reading skills compared to learners who have been taught by ABE instructors that have not participated in STAR. The treatment learners will be compared to data from a matched sample of adult learners that have not participated in STAR. The comparison group will be drawn from extant data from two previous studies on adult learners' development of reading skills. The learner data collected in the SARIP study will be used by the U.S. Department of Education to assess the preliminary learner reading outcomes from the STAR intervention and to determine whether a more rigorous evaluation of STAR should be undertaken at this point in the implementation of STAR. The data collected in the SARIP study about the delivery of instruction by teachers trained in STAR will be used by the U.S. Department of Education to review the STAR training and to determine whether modifications may be needed in the STAR training. The information about ABE programs collected in the study will be used by the U.S. Department of Education and state adult education offices to provide guidance to local ABE providers about the types of ABE program practices that may support the delivery of effective reading instruction.
