Total Annual Burden: 20,754 hours.

Total Annual Cost: \$0.00.

Nature of Extent of Confidentiality:

This collection addresses information of a confidential nature for two of these reports. Respondents have requested and filed for confidential treatment of information they believe should be withheld from public inspection under 47 CFR Section 0.459 of the Commission's rules.

Needs and Uses: FCC Report 43-02 contains company-wide data for each account specified in the Uniform System of Accounts (USOA). It provides the annual operating results of the carriers' activities for every account in the USOA. In this report, we are adjusting the number of carriers filing the 43-02 ARMIS report from 28 respondents to 26 to reflect the sale of two respondents. We are also increasing the burden hours to reflect the Commission's requirement in its Report and Order and Memorandum Opinion and Order (MOO) released August 31, 2007. The Commission required AT&T, Qwest, and Verizon to include the imputation charges it debits to account 5280 accompanied by an explanatory footnote for each line item identifying the amount imputed in three ARMIS report filings. The MOO required this information in FCC Reports 43-01, ARMIS Annual Summary Report; 43-02, ARMIS USOA Report; and, 43-03, ARMIS Joint Cost Report.

ARMIS Report 43-05 collects data at the study level and holding company level and is designed to capture trends in service quality under price cap regulation. It provides service quality information in the areas of interexchange access service installation and repair intervals, local service installation and repair intervals, trunk blockage, and total switch downtime for price cap companies. We are adjusting the number of respondents submitting the 43-05 from 15 to 14 to reflect the merger of two respondents and the spin-off of their landline business.

ARMIS Report 43-07 is designed to capture trends in telephone industry infrastructure development under price cap regulation. It provides switch

deployment and capabilities data. The information is also part of the data necessary to support the Commission's audit and other oversight functions. This data provides the necessary detail to enable the Commission to fulfill its regulatory responsibility.

There are no changes to the ARMIS Report 43-07.

OMB Control Number: 3060-0512.

Report Number: FCC Report 43-01.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 124 respondents; 124 responses.

Estimated Time per Response: 90 hours.

Obligation To Respond: Mandatory—The ARMIS reporting requirements were established by the Commission in 1987 to facilitate the timely and efficient analysis of carrier operating costs and rates of return, to provide an improved basis for audits and other oversight functions, and to enhance the Commission's ability to quantify the effects of alternative policy proposals. Frequency of Response: Annual reporting requirement.

Total Annual Burden: 11,196 hours.

Total Annual Cost: \$0.00.

Privacy Act Impact Assessment: No impacts.

Nature of Extent of Confidentiality:

This collection does not address information of a confidential nature. Respondents may request confidential treatment for information they believe should be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: FCC Report 43-01 facilitates the annual collection of the results of accounting, rate base, and cost allocation requirements prescribed in Parts 32, 36, 64, 65 and 69 of the Commission's rules. ARMIS was implemented to facilitate the timely and efficient analysis of revenue requirements, rates of return and price caps; to provide an improved basis for

audits and other oversight functions; and to enhance the Commission's ability to quantify the effects of alternative policy. The FCC Report 43-01 contains financial and operating data and is used to monitor the incumbent local exchange carriers and to perform routine analyses of cost and revenues. This information is also a part of the data necessary to support the Commission's audit and other oversight functions. This data provides the necessary detail to enable the Commission to fulfill its regulatory responsibility.

The Commission uses an indexed revenue threshold to determine which carriers are required to file the ARMIS Reports. The revenue threshold for mid-sized carriers is currently \$134 million. In this collection, we are revising the number of carriers filing this ARMIS report from 126 to 124 to reflect one carrier that fell below the threshold and another carrier that was sold. We are also increasing the burden hours to reflect the Commission's requirement in its Report and Order and Memorandum Opinion and Order (MOO) released August 31, 2007. The Commission required AT&T, Qwest, and Verizon to include the imputation charges it debits to account 5280 accompanied by an explanatory footnote for each line item identifying the amount imputed in three ARMIS report filings. The MOO required this information in FCC Reports 43-01, ARMIS Annual Summary Report; 43-02, ARMIS USOA Report; and, 43-03, ARMIS Joint Cost Report.

OMB Control Number: 3060-0513.

Title: ARMIS Joint Cost Report.

Frequency of Response: Annual reporting requirement.

Total Annual Burden: 4,160 hours.

Total Annual Cost: \$0.00.

Privacy Act Impact Assessment: No impacts.

Nature of Extent of Confidentiality: This collection does not address information of a confidential nature. Respondents may request confidential treatment of information they believe should be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The ARMIS Joint Cost Report, FCC Report 04-03, contains financial and operating data. The Report details the incumbent local exchange carriers regulated and nonregulated cost and revenue allocations by study area pursuant to Part 64 of the Commission's rules. This information is also a part of the data necessary to support the Commission's audit and other oversight functions. This data provides the necessary detail to enable the Commission to fulfill its regulatory responsibility. The Commission is revising the number of respondents filing this ARMIS report from 83 to 80 to reflect three carriers that were sold.
