**Overview of This Information
Collection**

(1) Type of Information Collection: Extension of a currently approved collection.

(2) Title of the Form/Collection: Police Public Contact Survey.

(3) Agency form number, if any, and the applicable component of the Department sponsoring the collection: Not applicable. Survey will be conducted in computer-assisted personal interviewing (CAPI) environment. Bureau of Justice Statistics, Department of Justice.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Eligible respondents to the survey must be age 16 or older. The Police Public Contact Survey fulfills the mandate set forth by the Violent Crime Control and Law Enforcement Act of 1994 to collect, evaluate, and publish data on the use of excessive force by law enforcement personnel. The survey will be conducted as a supplement to the National Crime Victimization Survey in all sample households for a six (6) month period. Other: None.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply: A total of approximately 74,317 persons will be eligible for the PPCS questions during July through December 2008. Of the 74,317 persons, we expect approximately 80 percent or 59,231 persons will complete a PPCS interview. Of those persons interviewed for the PPCS, we estimate approximately 81.5 percent or 48,272 persons will complete only the first two (contact screener questions) survey questions. The estimated time to read the introductory statement and administer the first two contact screener questions to the respondents is approximately .025 hours (1.5 minutes) per person. Furthermore, we estimate that the remaining 18.5 percent of the interviewed persons or 10,958 persons will report contact with the police. The estimated time required to ask the detailed questions regarding the nature of the contact is estimated to take an average of .167 hours (10 minutes). Respondents will be asked to respond to this survey only once during the six month period.

(6) An estimate of the total public burden (in hours) associated with the collection: The total respondent burden is approximately 3,037 hours.
