Persons making such presentations must file two copies of written presentations and two copies of memoranda reflecting new data or arguments in oral presentations no later than the next business day after the presentation. The information is used by parties to permit-but-disclose proceedings, including interested members of the public, to respond to the arguments made and data offered in the presentations. The responses may then be used by the Commission in its decision-making. The availability of the *ex parte* materials ensures that the Commission's decisional processes are fair, impartial, and comport with the concept of due process in that all interested parties can know of and respond to the arguments made to the decision-making officials.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0463.

Title: Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, Report and Order and Declaratory Ruling, CG Docket No. 03-123, FCC 07-186.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; State, local or tribal government.

Number of Respondents: 5,053.

Estimated Time per Response: 10-25 hours.

Frequency of Response: Annual reporting requirement; Recordkeeping requirement; Third Party Disclosure.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 27,412 burden hours.

Total Annual Cost: None.

Nature and Extent of Confidentiality: An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information (PII) from individuals.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On November 19, 2007, the Commission released the *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, Report and Order and Declaratory Ruling (2007 TRS Cost Recovery Order), CG Docket No. 03-123, FCC 07-186, adopting (1) a new cost recovery methodology for interstate traditional TRS and interstate Speech-to-Speech (STS) based on the Multistate Average Rate Structure (MARS) plan proposed by Hamilton Relay, Inc., (2) a new cost recovery methodology for interstate captioned telephone service (CTS) and interstate and intrastate Internet-Protocol (IP) Captioned Telephone Service (IP CTS) based on the MARS plan, (3) a cost recovery methodology for IP Relay based on price caps, and (4) a cost recovery methodology for Video Relay Services (VRS) that adopts tiered rates based on call volume. The 2007 TRS Cost Recovery Order also clarifies the nature and extent that certain categories of costs are compensable from the Interstate TRS Fund (Fund), and addresses certain issues concerning the management and oversight of the Fund, including financial incentives offered to consumers to make relay calls and the

role of the Interstate TRS Fund Advisory Council.

The 2007 TRS Cost Recovery Order establishes reporting requirements associated with the MARS plan cost recovery methodology for compensation from the Fund. Specifically, TRS providers must submit to the Fund administrator the following information annually, on a per-state basis, regarding the previous calendar year: (1) The per-minute compensation rate(s) for intrastate traditional TRS, STS and CTS, (2) whether the rate applies to session minutes or conversation minutes, (3) the number of intrastate session minutes for traditional TRS, STS and CTS, and (4) the number of intrastate conversation minutes for traditional TRS, STS, and CTS. Also, STS providers must file a report annually with the Fund administrator and the Commission on their specific outreach efforts directly attributable to the additional compensation approved by the Commission for STS outreach.

In the 2007 TRS Cost Recovery Order, the Commission has assessed the effects of imposing the submission of rate data, and has found that there is no increased administrative burden on businesses with fewer than 25 employees. The Commission recognizes that the required rate data is presently available with the states and the providers of interstate traditional TRS, interstate STS, and interstate CTS, thereby no additional step is required to produce such data.

The Commission therefore believes that the submission of the rate data does not increase an administrative burden on businesses.
