Needs and Uses: The information collection requirements included under this OMB Control Number 3060-0833 govern the filing of complaints with the Commission as part of the implementation of section 255 of the Telecommunications Act of 1996, which seeks to ensure that telecommunications equipment and services are available to all Americans, including those individuals with disabilities. As with any complaint procedure, a certain number of regulatory and information burdens are necessary to ensure compliance with FCC rules. The information collection requirements also give full effect to the accessibility policies embodied in section 255, by requiring telecommunications equipment manufacturers and service providers to make end-user product documentation available in alternate formats, including providing contact information to request such documentation, and by requiring them to demonstrate how they considered accessibility during product development, when no other affirmative defenses to a complaint are pertinent.
