

manufacturers outside the State who would have otherwise had to comply with California's requirements in order to produce new motor vehicles for sale in California. In addition, because other states have adopted or may adopt California's GHG program for new motor vehicles—which is allowed if certain criteria under section 177 of the Act are met, this decision will also affect those states and those persons in such states. For these reasons, I determine and find, as in past waiver decisions, that this is a final action of national applicability for purposes of section 307(b)(1).

As with past waiver decisions, this action is not a rule as defined by Executive Order 12866. Therefore, it is exempt from review by the Office of Management and Budget as required for rules and regulations by Executive Order 12866.

In addition, this action is not a rule as defined in the Regulatory Flexibility Act, 5 U.S.C. section 601(2). Therefore, EPA has not prepared a supporting regulatory flexibility analysis addressing the impact of this action on small business entities.

Dated: February 29, 2008.

Administrator.
