This research study will assess the effectiveness of a Marine Corps-sponsored youth development program, the Young Marines, in reducing drug use and promoting a healthy, drug-free lifestyle among its youth participants. The information collected will be used to describe how the program is affecting drug behaviors and related measures and will allow recommendations to be made to improve youth drug education. Respondents to this study will include youth, approximately ages 11 through 18 years, in the Young Marines program and Young Marine adult leaders.

Affected Public: Young Marines program participants and Young Marines adult leaders.

Annual Burden Hours: 1,046.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

This information collection is necessary for the Naval Health Research Center (NHRC) to carry out the research study "Evaluation of Young Marines Drug Education Program." Naval Health Research Center has been tasked by U.S. Marine Corps Community Services Substance Abuse Program to conduct

this evaluation. The Naval Health Research Center team will collect information about the youth's drug use, attitudes, and knowledge, as well as factors such as self-esteem by administering a voluntary paper-and-pencil survey to approximately 1,000 youth at regularly scheduled Young Marines meetings and by posting an online survey. Approximately 250 of these youth subjects will also complete an online, follow-up survey about three months later. Approximately 325 Young Marine adult unit leaders will be asked to complete a one-time, online survey about the drug education activities that their unit provides to their Program members. In all cases, consent will always be received prior to survey administration. The information collected will be used to describe how the Young Marines program is affecting drug behaviors and related measures and will allow recommendations to be made to improve youth drug education.

Title: Feasibility and Conduct of an Impact Evaluation of Title I Supplemental Education Services.

Frequency: On occasion.

Affected Public: Individuals or household.

Reporting and Recordkeeping Hour Burden:

Responses: 50,009.

Burden Hours: 10,082.

Abstract: The No Child Left Behind Act (NCLB) requires districts with Title I schools that fall short of state standards for three years or more to offer supplemental educational services (SES) to their students from low-income families who attend these schools. SES are tutoring or other academic support services offered outside the regular school day by state-approved providers free of charge to eligible students. Parents can choose the specific SES provider from among a list approved to serve their area. The U.S. Department of Education has commissioned Mathematica Policy Research to evaluate the impact of SES on student achievement in up to nine school districts across the country. Findings of the study will not only inform national policy discussions about SES, but will also provide direct feedback to participating districts about the

effectiveness of the SES offered to their students.
