

could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent increase in antidumping duties by the amount of antidumping duties reimbursed.

#### Administrative Protective Order

This notice also is the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 6, 2008.

**David M. Spooner,**

*Assistant Secretary for Import Administration.*

## DEPARTMENT OF DEFENSE

### Department of the Army

#### Preparation of the Supplemental Programmatic Environmental Impact Statement (SPEIS) for Army Growth and Force Structure Realignment To Support Operations in the Pacific Theater

**AGENCY:** Department of the Army, DoD.

**ACTION:** Notice of Intent.

**SUMMARY:** The Army intends to prepare an SPEIS in order to evaluate the relative environmental and socioeconomic impacts of support operations growth in the Pacific Theater as it transforms and aligns its forces to address existing capabilities shortfalls. As part of Army growth, this evaluation will be conducted to supplement the analysis and decisions that were included in the PEIS for Grow the Army (for continental U.S. (CONUS)

locations), which was completed in January 2008.

The Army will use the SPEIS analysis to evaluate and compare the environmental and socioeconomic impacts of alternatives for implementing its Proposed Action. The Army's Proposed Action is to grow, realign, and transform its forces to support operations in the Pacific Theater and to ensure the proper capabilities exist to sustain operations in promoting global and national security now and into the foreseeable future. The implementation of the Proposed Action is needed to better meet military operational and national security requirements and the needs of the Army's Soldiers and their Families.

The SPEIS will assess the capacity of Army installations and their ability to accommodate new units as part of Army growth and force structure realignment to support operations in the Pacific Theater. Alternatives in the SPEIS could include stationing of additional Combat Support (CS) or Combat Service Support (CSS) units or new support brigades. The following alternatives will be analyzed in the SPEIS: (1) Grow, transform, and realign forces by stationing approximately 5,000 additional CS/CSS Soldiers in reasonable locations that support operations in the Pacific Theater; (2) Grow, transform, and realign forces by stationing approximately 7,500 additional CS/CSS Soldiers in reasonable locations that support operations in the Pacific Theater and (3) Grow, transform, and realign forces by stationing approximately 10,000 additional CS/CSS Soldiers in reasonable locations that support operations in the Pacific Theater. The SPEIS will evaluate different stationing scenarios in reasonable locations, which may include Army installations in the CONUS, Hawaii and Alaska with the capability to support operations in the Pacific Theater.

In addition to the above alternatives, the No Action Alternative will be considered and used as a baseline for comparison of alternatives. The No Action Alternative is to retain the U. S. Army forces in the Pacific in their current end strength and force structure. The No Action Alternative includes those stationing decisions which have already been made to include stationing actions directed by Base Realignment and Closure legislation in 2005, Army Global Defense Posture Realignment, and Army Modular Forces initiatives. The No Action Alternative is not a viable means for meeting the current and future strategic security and defense requirements of the nation.

The SPEIS will analyze the Proposed Action's impacts upon the natural, cultural, and man-made environments at those stationing locations which are capable of supporting the needs of the Army and its Soldiers and Families. Viable alternatives include those stationing locations that are able to meet Army unit requirements for training ranges and maneuver space, housing and office space, maintenance and vehicle parking, and Soldier and Family quality of life (e.g., schools, gyms, medical facilities). In addition, viable alternatives must meet the operational mission requirements of the Pacific Command (PACOM).

**ADDRESSES:** Submit comments to [PublicComments@aec.apgea.army.mil](mailto:PublicComments@aec.apgea.army.mil).

#### FOR FURTHER INFORMATION CONTACT:

Public Affairs Office, U.S. Army Environmental Command, Building E4460, 5179 Hoadley Road, Attention: IMAE-PA, Aberdeen Proving Ground, MD 21010-5401; telephone: (410) 436-2556; facsimile: (410) 436-1693. The Public Affairs Office is open during normal business hours Monday through Friday 9 a.m. to 5 p.m. Eastern Time.

**SUPPLEMENTARY INFORMATION:** The global security environment is turbulent, unpredictable, and rapidly changing. It has placed considerable demands on the nation's military and highlighted the need for the Army to correct shortfalls in high-demand skills while reassessing its force capabilities. To meet the challenges of the 21st century security environment, the Army requires the growth and restructuring of its forces to support operations in the Pacific Theater to sustain the broad range of missions required to promote regional, national, and global stability.

Final decisions for the implementation of Army stationing actions within CONUS were published in the **Federal Register** in January 2008. Force structure requirements for U.S. Army Pacific (USARPAC) are still being evaluated. The SPEIS will consider the projected environmental and socioeconomic impacts of different stationing actions at locations capable of supporting operations in the Pacific Theater.

Alternatives for Army growth and force structure realignment to support operations in the Pacific Theater could involve the addition of new units, unit realignment from existing locations, and reconfiguration of the existing force structure in accordance with Army transformation. Adjustments to Army force structure could include changes in the numbers of CS/CSS Soldiers needed to support USARPAC operations with critical military skills such as military

police, engineers, explosive ordnance detachments, logistics and command and control functions. Secondly, growth, realignment, and transformation could involve the addition of new support brigades or constituent units of support brigades at reasonable locations capable of supporting operations in the Pacific Theater. Support brigade stationing decisions could involve the stationing of an aviation brigade, a fires brigade, a battlefield surveillance brigade, a maneuver enhancement brigade, a sustainment brigade, an engineer brigade, a military police brigade, or a combination of these support brigades and the units that compose them. The Army is not considering the stationing of new Brigade Combat Teams (BCT) in USARPAC at this time.

Proposed alternatives to grow the Army to support operations in the Pacific Theater could involve three primary actions depending on the installation being analyzed. These actions include the construction of housing and quality of life facilities (i.e., barracks, schools, gymnasiums), the construction of new training ranges and infrastructure, and changes in the intensity and frequency of use of maneuver land and firing ranges. Evaluations will include strategic military and national security considerations for new stationing actions at locations that, if selected, are capable of supporting the National Security Strategy (2006), the QDR (2006), National Military Strategy, and the Army Campaign Plan.

Based on public scoping and the factors discussed above, the Army will refine its range of reasonable alternatives to the extent possible to accommodate both mission requirements and quality of life considerations. In reaching its decision, the Army will assess and consider public concerns. The SPEIS will compare the direct, indirect, and cumulative environmental effects that may result from stationing actions connected with initiatives to grow the Army. The primary environmental issues to be analyzed will include those identified as the result of the scoping process and installation-specific considerations. These issues may include impacts to soil, water and air quality, airspace conflicts, natural and cultural resources, land use compatibility, noise, socioeconomic, environmental justice, energy use, human health and safety considerations, and infrastructure and range/training requirements.

*Scoping and Public Comment:* All interested members of the public,

federally-recognized Indian Tribes, Alaska Natives, Native Hawaiian groups, federal, state, and local agencies are invited to participate in the scoping process for the preparation of this SPEIS. Comments identifying environmental issues, concerns and opportunities to be analyzed in the SPEIS will be accepted for 30 days following publication of this Notice of Intent in the **Federal Register**.

Dated: March 5, 2008.

**Addison D. Davis, IV,**

*Deputy Assistant Secretary of the Army (Environment, Safety, and Occupational Health).*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. IC08-510-000; FERC-510]

#### Commission Information Collection Activities, Proposed Collection; Comment Request; Extension

March 6, 2008.

**AGENCY:** Federal Energy Regulatory Commission, DOE.

**ACTION:** Notice of proposed information collection and request for comments.

<sup>1</sup> ISO New England Inc., 122 FERC ¶ 61,057 (2008).

**SUMMARY:** In compliance with the requirements of section 3506(c)(2)(a) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13), the Federal Energy Regulatory Commission (Commission) is soliciting public comment on the specific aspects of the information collection described below.

**DATES:** Comments on the collection of information are due May 15, 2008.

**ADDRESSES:** Copies of sample filings of the proposed collection of information can be obtained from the Commission's Web site (<http://www.ferc.gov/docs-filing/elibrary.asp>) or to the Federal Energy Regulatory Commission, Attn: Michael Miller, Office of the Executive Director, ED-34, 888 First Street NE., Washington, DC 20426. Comments may be filed either in paper format or electronically. Those parties filing electronically do not need to make a paper filing. For paper filing, the original and 14 copies of such comments should be submitted to the Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426 and refer to Docket No. IC08-510-000.

Documents filed electronically via the Internet must be prepared in an acceptable filing format and in compliance with the Federal Energy Regulatory Commission submission guidelines. Complete filing instructions and acceptable filing formats are available at (<http://www.ferc.gov/help/submission-guide/electronic-media.asp>). To file the document electronically, access the Commission's Web site and click on Documents & Filing, E-Filing (<http://www.ferc.gov/docs-filing/efiling.asp>), and then follow the instructions for each screen. First time users will have to establish a username and password. The Commission will send an automatic acknowledgement to the sender's e-mail address upon receipt of comments.

All comments may be viewed, printed or downloaded remotely via the Internet through FERC's homepage using the eLibrary link. For user assistance, contact [ferconlinesupport@ferc.gov](mailto:ferconlinesupport@ferc.gov) or toll-free at (866) 208-3676. or for TTY, contact (202) 502-8659.

**FOR FURTHER INFORMATION CONTACT:** Michael Miller may be reached by telephone at (202) 502-8415, by fax at (202) 273-0873, and by e-mail at [michael.miller@ferc.gov](mailto:michael.miller@ferc.gov).

**SUPPLEMENTARY INFORMATION:** The information collected under the requirements of FERC-510 "Application for Surrender of Hydropower License" (OMB No. 1902-0068) is used by the Commission to implement the statutory provisions of sections 4(e) and 6 and 13
