Federal Highway Administration

Environmental Impact Statement: San Joaquin County, CA

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Revised Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that the Notice of Intent, to prepare an Environmental Impact Statement (EIS) for the proposed South Stockton Six-Lane Project, on State Route 99, in San Joaquin County, California will be withdrawn; and an Environmental

Assessment (EA) in lieu of an EIS is being prepared for this proposed highway project.

FOR FURTHER INFORMATION CONTACT:

Dominic Hoang, Highway Engineer, FHWA, California Division, 650 Capitol Mall, Suite 4-100, Sacramento, CA 95814-4708; weekdays 7 a.m.-4 p.m. (Pacific time); telephone: (916) 498-5002; e-mail:

dominic.hoang@fhwa.dot.gov. Gail Miller, Senior Environmental Planner, Caltrans, 2015 E. Shields Avenue, #100, Fresno, CA 93726; weekdays 8 a.m.-5 p.m. (Pacific time); telephone: (916) 243-8274; e-mail: gail_miller@dot.ca.gov.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with Caltrans, conducted studies of the potential environmental impacts associated with the proposed highway project to widen a three-mile stretch of State Route 99 from four lanes to six lanes, from 0.4 mile north of the Arch Road Interchange to 0.1 mile south of State Route 4 West in Stockton, San Joaquin County, California. During the course of conducting these studies, it was identified that many of the potential costly environmental impacts that led to issuing the Notice of Intent could be avoided by adding the additional lanes to the existing median, instead of to the outside of the existing freeway where residents and businesses are built up close to the roadway. Additional design changes were identified to avoid or minimize potential impacts by further reducing the amount of right-of-way needed to construct the project. Therefore, the FHWA has determined that an EA would be the appropriate environmental document for the project, and that the Notice of Intent previously issued on January 29, 2002 on the **Federal Register**, should be withdrawn.

The EA will be available for public inspection prior to a public hearing, anticipated to be held in the Spring of 2008. Comments or questions concerning this proposed action and the determination that an EA is the proper environmental document should be directed to the FHWA or Caltrans at the addresses provided above.

Federal Highway Administration

Notice of Final Federal Agency Actions on a Proposed U.S. Highway Project in California

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by FHWA and other Federal agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(l)(1). These actions relate to the proposed highway project which would widen Highway 101 for approximately 12.3 km (7.6 mi) from its current four lanes to six lanes by adding one HOV lane in each direction from just north of Steele Lane in Santa Rosa to Windsor River Road-Old Redwood Highway in the Town Windsor in Sonoma County in the State of California. The project also would provide auxiliary lanes, interchange modifications and ramp improvements.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the project will be barred unless the claim is filed on or before September 9, 2008. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such a claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Melanie Brent, Chief, Office of Environmental Analysis, 510-286-5231, melanie.brent@dot.ca.gov.

SUPPLEMENTARY INFORMATION: Effective July 1, 2007, the Federal Highway Administration (FHWA) assigned, and the California Department of Transportation (Caltrans) assumed environmental responsibilities for this project pursuant to 23 U.S.C. 327. Caltrans prepared an Environmental Assessment on a proposal for a highway high occupancy vehicle (HOV) lanes and improvements project in Sonoma County, California.

The Sonoma 101 HOV Lanes Widening (North) Improvements Project would alleviate traffic congestion and

delays and improve safety and operations in Sonoma County, California. This would be accomplished by providing an HOV lane in both the north and south directions.

The anticipated permits include: Section 7 Incidental Take Statement for the California tiger salamander (from the U.S. Fish and Wildlife Service) under the Federal Endangered Species Act) 401 Water Quality Certification (from the Regional Water Quality Control Board) under Section 401 of the Clean Water Act) and a 404 Individual Permit (from the U.S. Army Corps of Engineers) under Section 404 of the Clean Water Act).

A public meeting was held at the Town of Windsor Council of Chambers on January 9, 2007. The Environmental Assessment, Finding of No Significant Impact, which was approved on October 24, 2007 and other documents are available for public and agency review at the Caltrans address provided above.
