

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Commandant Instruction M16475.ID which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is not likely to have a significant effect on the human environment. Therefore, we believe that this rule should be categorically excluded, under figure 2–1, paragraph (34) (g) of the Instruction, from further environmental documentation. A preliminary “Environmental Analysis Check List” is available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to 49 U.S.C. 33112, *Insurer reports and information*, NHTSA requires certain passenger motor vehicle insurers to file an annual report with the agency. Each insurer's report includes information about thefts and recoveries of motor vehicles, the rating rules used by the insurer to establish premiums for comprehensive coverage, the actions taken by the insurer to reduce such premiums, and the actions taken by the insurer to reduce or deter theft. Under the agency's regulation, 49 CFR Part 544, the following insurers are subject to the reporting requirements:

(1) issuers of motor vehicle insurance policies whose total premiums account for 1 percent or more of the total premiums of motor vehicle insurance issued within the United States;

(2) issuers of motor vehicle insurance policies whose premiums account for 10 percent or more of total premiums written within any one state; and

(3) rental and leasing companies with a fleet of 20 or more vehicles not covered by theft insurance policies issued by insurers of motor vehicles, other than any governmental entity.

Pursuant to its statutory exemption authority, the agency exempted certain passenger motor vehicle insurers from the reporting requirements.

A. Small Insurers of Passenger Motor Vehicles

Section 33112(f)(2) provides that the agency shall exempt small insurers of passenger motor vehicles if NHTSA finds that such exemptions will not significantly affect the validity or usefulness of the information in the reports, either nationally or on a state-by-state basis. The term "small insurer" is defined, in Section 33112(f)(1)(A) and (B), as an insurer whose premiums for motor vehicle insurance issued directly or through an affiliate, including pooling arrangements established under state law or regulation for the issuance of motor vehicle insurance, account for less than 1 percent of the total

premiums for all forms of motor vehicle insurance issued by insurers within the United States. However, that section also stipulates that if an insurance company satisfies this definition of a "small insurer," but accounts for 10 percent or more of the total premiums for all motor vehicle insurance issued in a particular state, the insurer must report about its operations in that state.

In the final rule establishing the insurer reports requirement (52 FR 59; January 2, 1987), 49 CFR Part 544, NHTSA exercised its exemption authority by listing in Appendix A each insurer that must report because it had at least 1 percent of the motor vehicle insurance premiums nationally. Listing the insurers subject to reporting, instead of each insurer exempted from reporting because it had less than 1 percent of the premiums nationally, is administratively simpler since the former group is much smaller than the latter. In Appendix B, NHTSA lists those insurers required to report for particular states because each insurer had a 10 percent or greater market share of motor vehicle premiums in those states. In the January 1987 final rule, the agency stated that it would update Appendices A and B annually. NHTSA updates the appendices based on data voluntarily provided by insurance companies to A.M. Best¹. A.M. Best publishes in its *State/Line Report* each spring. The agency uses the data to determine the insurers' market shares nationally and in each state.

B. Self-insured Rental and Leasing Companies

In addition, upon making certain determinations, NHTSA grants exemptions to self-insurers, i.e., any person who has a fleet of 20 or more motor vehicles (other than any governmental entity) used for rental or lease whose vehicles are not covered by theft insurance policies issued by insurers of passenger motor vehicles, 49 U.S.C. 33112(b)(1) and (f). Under 49 U.S.C. 33112(e)(1) and (2), NHTSA may exempt a self-insurer from reporting, if the agency determines:

(1) the cost of preparing and furnishing such reports is excessive in relation to the size of the business of the insurer; and 33112(e)(1) and (2),

(2) the insurer's report will not significantly contribute to carrying out the purposes of Chapter 331.

In a final rule published June 22, 1990 (55 FR 25606), the agency granted a

class exemption to all companies that rent or lease fewer than 50,000 vehicles, because it believed that the largest companies' reports sufficiently represent the theft experience of rental and leasing companies. NHTSA concluded that smaller rental and leasing companies' reports do not significantly contribute to carrying out NHTSA's statutory obligations and that exempting such companies will relieve an unnecessary burden on them. As a result of the June 1990 final rule, the agency added Appendix C, consisting of an annually updated list of the self-insurers subject to Part 544. Following the same approach as in Appendix A, NHTSA included, in Appendix C, each of the self-insurers subject to reporting instead of the self-insurers which are exempted.

NHTSA updates Appendix C based primarily on information from *Automotive Fleet Magazine and Auto Rental News*.²

C. When a Listed Insurer Must File a Report

Under Part 544, as long as an insurer is listed, it must file reports on or before October 25 of each year. Thus, any insurer listed in the appendices must file a report before October 25, and by each succeeding October 25, absent an amendment removing the insurer's name from the appendices.

II. Proposal

1. Insurers of Passenger Motor Vehicles

Appendix A lists insurers that must report because each had 1 percent of the motor vehicle insurance premiums on a national basis. The list was last amended in a final rule published on August 30, 2007 (72 FR 50077). Based on the 2005 calendar year data market shares from A.M. Best, NHTSA proposes to remove CNA Insurance Companies and add Auto Club Southern California Group and California State Auto Group to Appendix A.

Each of the 19 insurers listed in Appendix A are required to file a report before October 25, 2008, setting forth the information required by Part 544 for each State in which it did business in the 2005 calendar year. As long as these 19 insurers remain listed, they will be required to submit reports by each subsequent October 25 for the calendar year ending slightly less than 3 years before.

Appendix B lists insurers required to report for particular States for calendar

¹ A.M. Best Company is a well-recognized source of insurance company ratings and information. 49 U.S.C. 33112(j) authorizes NHTSA to consult with public and private organizations as necessary.

² *Automotive Fleet Magazine and Auto Rental News* are publications that provide information on the size of fleets and market share of rental and leasing companies.

year 2005, because each insurer had a 10 percent or greater market share of motor vehicle premiums in those States. Based on the 2005 calendar year data for market shares from A.M. Best, we propose to make no changes.

The nine insurers listed in Appendix B are required to report on their calendar year 2005 activities in every State where they had a 10 percent or greater market share. These reports must be filed by October 25, 2008, and set forth the information required by Part 544. As long as these nine insurers remain listed, they would be required to submit reports on or before each subsequent October 25 for the calendar year ending slightly less than 3 years before.

2. Rental and Leasing Companies

Appendix C lists rental and leasing companies required to file reports. However, subsequent to publishing the final rule (See 71 FR 52292), the agency was informed by Enterprise Rent-A-Car Company (Enterprise) on behalf of its subsidiary, Enterprise Fleet Services (EFS), that when EFS offers vehicles for lease, it also includes as a condition of its lease agreement that lessees purchase and maintain its own motor vehicle insurance. Enterprise also submitted a copy of EFS' lease agreement showing that insurance was required as a condition of the lease. Enterprise further stated that EFS' lessees are also given the option of contractually waiving ("self-insuring") the physical damage, including theft, of the leased vehicle by the Enterprise entity but states that the total number of self-insured vehicles in EFS' fleet is well under the 50,000 exemption threshold. Therefore, Enterprise Rent-A-Car has requested that Enterprise Fleet Services be removed from the list of insurers required to meet the insurer reporting requirements. Since Enterprise Fleet Services requires its lessees to provide the insurance for its vehicles or does not self-insure 50,000 or more of its vehicles in its leasing fleet, it does not meet the criteria the agency uses to determine that an insurer should be included in Appendix C. Therefore, NHTSA proposes to remove Enterprise Fleet Services from the list of insurers required to meet the reporting requirements.

Each of the seven companies (including franchisees and licensees) listed in Appendix C would be required to file reports for calendar year 2005 no later than October 25, 2008, and set forth the information required by Part 544. As long as those seven companies remain listed, they would be required to submit reports before each subsequent

October 25 for the calendar year ending slightly less than 3 years before.

III. Regulatory Impacts

1. Costs and Other Impacts

This notice has not been reviewed under Executive Order 12866. NHTSA has considered the impact of this proposed rule and determined that the action is not "significant" within the meaning of the Department of Transportation's regulatory policies and procedures. This proposed rule implements the agency's policy of ensuring that all insurance companies that are statutorily eligible for exemption from the insurer reporting requirements are in fact exempted from those requirements. Only those companies that are not statutorily eligible for an exemption are required to file reports.

NHTSA does not believe that this proposed rule, reflecting current data, affects the impacts described in the final regulatory evaluation prepared for the final rule establishing Part 544 (52 FR 59; January 2, 1987). Accordingly, a separate regulatory evaluation has not been prepared for this rulemaking action. Using the Bureau of Labor Statistics Consumer Price Index for 2007 (see <http://www.bls.gov/cpi>), the cost estimates in the 1987 final regulatory evaluation were adjusted for inflation. The agency estimates that the cost of compliance is \$103,671 for any insurer added to Appendix A, \$41,468 for any insurer added to Appendix B, and \$11,964 for any insurer added to Appendix C. If this proposed rule is made final, for Appendix A, the agency would propose to remove one company and add two companies; for Appendix B, the agency would propose that no changes be made; and for Appendix C, the agency would propose to remove one company. The agency estimates that the net effect of this proposal, if made final, would be a cost of approximately \$91,707 to insurers as a group.

Interested persons may wish to examine the 1987 final regulatory evaluation. Copies of that evaluation were placed in Docket No. T86-01; Notice 2. Any interested person may obtain a copy of this evaluation by writing to NHTSA, Technical Reference Division, 1201 New Jersey Avenue, SE., East Building, Ground Floor, Room E12-100, Washington, DC 20590, or by calling (202) 366-2588.

2. Paperwork Reduction Act

The information collection requirements in this proposed rule were submitted and approved by the Office of Management and Budget (OMB)

pursuant to the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This collection of information is assigned OMB Control Number 2127-0547 ("Insurer Reporting Requirements"), is approved for use through August 31, 2009, and the agency will seek to extend the approval afterwards.

3. Regulatory Flexibility Act

The agency also considered the effects of this rulemaking under the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*). I certify that this proposed rule will not have a significant economic impact on a substantial number of small entities. The rationale for the certification is that none of the companies proposed for Appendices A, B, or C are construed to be a small entity within the definition of the RFA. "Small insurer" is defined, in part under 49 U.S.C. 33112, as any insurer whose premiums for all forms of motor vehicle insurance account for less than 1 percent of the total premiums for all forms of motor vehicle insurance issued by insurers within the United States, or any insurer whose premiums within any State, account for less than 10 percent of the total premiums for all forms of motor vehicle insurance issued by insurers within the State. This notice would exempt all insurers meeting those criteria. Any insurer too large to meet those criteria is not a small entity. In addition, in this rulemaking, the agency proposes to exempt all "self insured rental and leasing companies" that have fleets of fewer than 50,000 vehicles. Any self-insured rental and leasing company too large to meet that criterion is not a small entity.

4. Federalism

This action has been analyzed according to the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

5. Environmental Impacts

In accordance with the National Environmental Policy Act, NHTSA has considered the environmental impacts of this proposed rule and determined that it would not have a significant impact on the quality of the human environment.

6. Regulation Identifier Number (RIN)

The Department of Transportation assigns a regulation identifier number (RIN) to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information

Service Center publishes the Unified Agenda in April and October of each year. You may use the RIN contained in the heading, at the beginning, of this document to find this action in the Unified Agenda.

7. Plain Language

Executive Order 12866 and the President's memorandum of June 1, 1998, require each agency to write all rules in plain language. Application of the principles of plain language includes consideration of the following questions:

- Have we organized the material to suit the public's needs?
 - Are the requirements in the proposal clearly stated?
 - Does the proposal contain technical language or jargon that is not clear?
 - Would a different format (grouping and order of sections, use of headings, paragraphing) make the rule easier to understand?
 - Would more (but shorter) sections be better?
 - Could we improve clarity by adding tables, lists, or diagrams?
 - What else could we do to make the proposal easier to understand?
- If you have any responses to these questions, you can forward them to me several ways:

a. *Mail:* Rosalind Proctor, Office of International Policy, Fuel Economy and Consumer Programs, NHTSA, 1200 New Jersey Avenue, SE., (West Building) Washington, DC 20590;

b. *E-mail:* rosalind.proctor@dot.gov;

or
c. *Fax:* (202) 493-0073.

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Initiation of status review.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the initiation of a status review for the white-tailed prairie dog (*Cynomys leucurus*) throughout its range in the United States. The status review will include analysis of whether the white-tailed prairie dog warrants listing as threatened or endangered under the Endangered Species Act of 1973, as amended (Act). Through this action, we encourage all interested parties to provide us information regarding the status of, and any potential threats to, the white-tailed prairie dog throughout its range, or any significant portion of its range.

DATES: We will accept information received or postmarked on or before July 7, 2008 to allow us time to review and consider the information in the evaluation of the status of the species and our 12-month finding.

ADDRESSES: You may submit information by one of the following methods:

SUPPLEMENTARY INFORMATION:

Information Solicited

To ensure that the status review is complete and based on the best available scientific and commercial information, we are soliciting information concerning the status of the white-tailed prairie dog. We request information from the public, other concerned governmental agencies, Native American Tribes, the scientific community, industry, or any other interested parties. We are opening a 60-day comment period to allow all interested parties an opportunity to provide information on the status of the white-tailed prairie dog throughout its range, including:

(1) Information regarding the species' historical and current population status, distribution, and trends; its biology and ecology; and habitat selection;

(2) Information on the effects of potential threat factors that are the basis for a species' listing determination under section 4 (a) of the Act (16 U.S.C. 1531 *et seq.*), which are:

(a) Present or threatened destruction, modification, or curtailment of the species' habitat or range;

(b) Overutilization for commercial, recreational, scientific, or educational purposes;

(c) Disease or predation;

(d) Inadequacy of existing regulatory mechanisms; and

(e) Other natural or manmade factors affecting its continued existence.

(3) Information on management programs for the conservation of the white-tailed prairie dog.

Please note that submissions merely stating support for or opposition to the action under consideration without providing supporting information, although noted, will not be considered in making a determination, because section 4(b)(1)(A) of the Act directs that determinations as to whether any species is a threatened or endangered species must be made "solely on the basis of the best scientific and commercial data available." At the conclusion of the status review, we will issue a new 12-month finding on the petition, as provided in section 4(b)(3)(B) of the Act.

You may submit your information concerning this status review by one of the methods listed in the **ADDRESSES** section. We will not consider submissions sent by e-mail or fax or to an address not listed in the **ADDRESSES** section.
