Commenters should include data or specific examples in support of their comments in order to aid the Administrator in determining whether to grant or deny the waiver. Data that shows a quantitative link between the use of corn for ethanol and corn prices, and on the impact of the RFS mandate on the amount of ethanol produced, would be especially helpful.

Needs and Uses: On March 17, 2005, the Commission released a Second Order on Reconsideration and Further Notice of Proposed Rulemaking, Creation of a Low Power Radio Service, MB Docket No. 99-25 (FCC 05-75). The Further Notice of Proposed Rulemaking ("FNPRM") proposed to permit the assignment or transfer of control of Low Power FM (LPFM) authorizations where there is a change in the governing board of the permittee or licensee or in other situations corresponding to the circumstances described above. This proposed rule was subsequently adopted in a Third Report and Order and Second Further Notice of Proposed Rulemaking, MB Docket No. 99-25 (FCC 07-204) (*Third Report and Order*), released on December 11, 2007.

FCC Form 316 has been revised to encompass the assignment and transfer of control of LPFM authorizations, as proposed in the FNPRM and subsequently adopted in the Third Report and Order, and to reflect the ownership and eligibility restrictions applicable to LPFM permittees and licensees.

Filing of the FCC Form 316 is required when applying for authority for assignment of a broadcast station construction permit or license, or for consent to transfer control of a corporation holding a broadcast station construction permit or license where there is little change in the relative interest or disposition of its interests; where transfer of interest is not a controlling one; there is no substantial change in the beneficial ownership of the corporation; where the assignment is less than a controlling interest in a partnership; where there is an appointment of an entity qualified to succeed to the interest of a deceased or legally incapacitated individual permittee, licensee or controlling stockholder; and, in the case of LPFM stations, where there is a voluntary transfer of a controlling interest in the licensee or permittee entity. In addition, the applicant must notify the Commission when an approved transfer of control of a broadcast station construction permit or license has been consummated.

OMB Control Number: 3060-0031.

Title: Application for Consent to Assignment of Broadcast Station Construction Permit or License; Application for Consent to Transfer Control of Entity Holding Broadcast Station Construction Permit or License; Section 73.3580, Local Public Notice of Filing of Broadcast Applications.

Estimated Time per Response: 1 hour to 5 hours.

Total Annual Burden: 18,790 hours.

Total Annual Costs: \$33,989,570.

Nature of Response: Required to obtain or retain benefits.

Confidentiality: No need for confidentiality required.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Instructions to Forms 314 and 315 have been revised to reflect the new ownership limits adopted in the *Third Report and Order and Second Notice of Proposed Rulemaking*, FCC 07–204 (released December 11, 2007), namely, that an entity may own only one LPFM station. By amending the Rules to permanently limit LPFM eligibility, the Commission is protecting the public interest in localism and fostering greater diversity of programming from community sources. Forms 314 and 315 have also been revised to reflect the three-year holding period of an LPFM license, as adopted in the *Third Report and Order*, during which a licensee cannot transfer or assign a license, and must operate the station. That restriction will prevent entities from using the LPFM assignment and transfer process to undermine the Commission's LPFM policies and will ensure that the benefits to the public which were the basis for the license grant will be realized.

On December 18, 2007, the Commission adopted a *Report and Order and Order on Reconsideration* in its 2006 Quadrennial Regulatory Review of the Commission's Broadcast Ownership Rules pursuant to Section 202 of the Telecommunications Act of 1996, MB Docket No. 06–121, FCC 07–216. Section 202 requires the Commission to review its broadcast ownership rules every four years and determine whether any of such rules are necessary in the public interest. Further,

Section 202 requires the Commission to repeal or modify any regulation it determines to be no longer in the public interest.

Consistent with actions taken by the Commission in the 2006 Quadrennial Regulatory Review, the following changes are made to Forms 314 and 315: The instructions to Forms 314 and 315 have been revised to include a reference to the 2006 Quadrennial Regulatory Review as a source of information regarding the Commission's multiple ownership attribution policies and standards. The language in Section A, IV of Worksheet #3 in Forms 314 and 315 is revised. This worksheet is used in connection with Section III, Item 6b of Form 314 and Section IV, Item 8b of Form 315 to determine the applicant's compliance with the Commission's multiple ownership rules and cross-ownership rules set forth in 47 CFR 73.3555. The revisions to the worksheet account for changes made by the Commission in the 2006 Quadrennial Review to 47 CFR 73.3555(d), the Daily Newspaper Cross-Ownership Rule. The revised rule changes the circumstances under which an entity may own a daily newspaper and a radio station or television station in the same designated market area. In Section B of Worksheet #3 of Form 314, the description of a "Daily Newspaper" is changed to comport to the definition of "Newspaper" contained in 47 CFR 73.3555(c)(3)(iii) that the Commission revised in the 2006 Quadrennial Regulatory Review. In Section B of Worksheet #3 of Form 315, language from 47 CFR 73.3555(d) is added to assist applicants in their determination of compliance with the Daily Newspaper Cross-Ownership Rule. Therefore, 47 CFR 73.3555(d) (daily newspaper cross-ownership rule) states:

(1) No license for an AM, FM or TV broadcast station shall be granted to any party (including all parties under common control) if such party directly or indirectly owns, operates or controls a daily newspaper and the grant of such license will result in:

(i) The predicted or measured 2 mV/m contour of an AM station, computed in accordance with § 73.183 or § 73.186, encompassing the entire community in which such newspaper is published; or
(ii) The predicted 1 mV/m contour for an FM station, computed in accordance with § 73.313, encompassing the entire community in which such newspaper is published; or
(iii) The Grade A contour of a TV station, computed in accordance with § 73.684, encompassing the entire community in which such newspaper is published.

(2) Paragraph (1) shall not apply in cases where the Commission makes a finding pursuant to Section 310(d) of the Communications Act that the public interest, convenience, and necessity would be served by permitting an entity that owns, operates or controls a daily newspaper to own, operate or control an AM, FM, or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1).

(3) In making a finding under paragraph (2), there shall be a presumption that it is not inconsistent with the public interest, convenience, and necessity for an entity to own, operate or control a daily newspaper in a top 20 Nielsen DMA and one commercial AM, FM or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1), provided that, with respect to a combination including a commercial TV station:

(i) The station is not ranked among the top four TV stations in the DMA, based on the most recent all-day (9 a.m.–midnight) audience share, as measured by Nielsen Media Research or by any comparable professional, accepted audience ratings service; and
(ii) At least 8 independently owned and operated major media voices would remain in the DMA in which the community of license of the TV station in question is located (for purposes of this provision major media voices include full-power TV broadcast stations and major newspapers).

(4) In making a finding under paragraph (2), there shall be a presumption that it is inconsistent with the public interest, convenience, and necessity for an entity to own, operate or control a daily newspaper and an AM, FM or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1) in a DMA other than the top 20 Nielsen DMAs or in any circumstance not covered under paragraph (3).

(5) In making a finding under paragraph (2), the Commission shall consider:

(i) Whether the combined entity will significantly increase the amount of local news in the market; (ii) whether the newspaper and the broadcast outlets each will continue to employ its own staff and each will exercise its own independent news judgment; (iii) the level of concentration in the Nielsen Designated Market Area (DMA); and (iv) the financial condition of the newspaper or broadcast station, and if the newspaper or broadcast station is in

financial distress, the proposed owner's commitment to invest significantly in newsroom operations.

(6) In order to overcome the negative presumption set forth in paragraph (4) with respect to the combination of a major newspaper and a television station, the applicant must show by clear and convincing evidence that the co-owned major newspaper and station will increase the diversity of independent news outlets and increase competition among independent news sources in the market, and the factors set forth above in paragraph (5) will inform this decision.

(7) The negative presumption set forth in paragraph (4) shall be reversed under the following two circumstances:

(i) the newspaper or broadcast station is failed or failing; or (ii) the combination is with a broadcast station that was not offering local newscasts prior to the combination, and the station will initiate at least seven hours per week of local news programming after the combination.

FCC Form 314 and the applicable exhibits/explanations are required to be filed when applying for consent for assignment of an AM, FM, LPFM or TV broadcast station construction permit or license. In addition, the applicant must notify the Commission when an approved assignment of a broadcast station construction permit or license has been consummated.

FCC Form 315 and applicable exhibits/explanations are required to be filed when applying for transfer of control of an entity holding an AM, FM, LPFM or TV broadcast station construction permit or license. In addition, the applicant must notify the Commission when an approved transfer of control of a broadcast station construction permit or license has been consummated. Due to the similarities in the information collected by these two forms, OMB has assigned both forms OMB Control Number 3060-0031.

47 CFR 73.3580 requires local public notice in a newspaper of general circulation of the filing of all applications for transfer of control of license/permit. This notice must be completed within 30 days of the tendering of the application. This notice must be published at least twice a week for two consecutive weeks in a three-week period. A copy of this notice must be placed in the public inspection file along with the application.

Additionally, an applicant for transfer of control of license must broadcast the same notice over the station at least once daily on four days in the second week immediately following the tendering for filing of the application.

OMB Control: 3060-0110.

Title: Application for Renewal of Broadcast Station License.

Form Number: FCC Form 303-S.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents and Responses: 3,217 respondents, 3,217 responses.

Obligation to Respond: Required to obtain benefits—Statutory authority for this collection of information is contained in Sections 154(i), 303, 307 and 308 of the Communications Act of 1934, as amended, and Section 204 of the Telecommunications Act of 1996.

Estimated Time per Response: 1-11.83 hours.

Frequency of Response: Every eight year reporting requirement; Third party disclosure requirement.

Total Annual Burden: 6,335 hours.

Total Annual Costs: \$1,730,335.

Nature of Response: Required to obtain or retain benefits.

Nature and Extent of Confidentiality: There is no need for confidentiality with this information collection.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: On December 18, 2007, the Commission adopted a *Report and Order* and

Reconsideration in its 2006 Quadrennial Regulatory Review of the Commission's Broadcast Ownership Rules pursuant to Section 202 of the Telecommunications Act of 1996, MB Docket No. 06-121, FCC 07-216. Section 202 requires the Commission to review its broadcast ownership rules every four years and determine whether any of such rules are necessary in the public interest. Further, Section 202 requires the Commission to repeal or modify any regulation it determines to be no longer in the public interest.

Consistent with actions taken by the Commission in the 2006 Quadrennial Regulatory Review, changes are made to Form 303-S to account for revisions made to 47 CFR 73.3555(d), the Daily Newspaper Cross-Ownership Rule. The revised rule changes the circumstances under which an entity may own a daily newspaper and a radio station or television station in the same designated market area. In Section III of Form 303-S, a new Question 7 is added which asks the licensee to certify that neither it nor any party to the application has an attributable interest in a newspaper that is within the scope of 47 CFR 73.3555(d). Instructions for this new question are added to Form 303-S, and include a reference to the 2006

Quadrennial Regulatory Review as a source of information regarding the Commission's newspaper/broadcast cross-ownership rule. Therefore, 47 CFR 73.3555(d) (daily newspaper cross-ownership rule) states:

(1) No license for an AM, FM or TV broadcast station shall be granted to any party (including all parties under common control) if such party directly or indirectly owns, operates or controls a daily newspaper and the grant of such license will result in:

(i) The predicted or measured 2 mV/m contour of an AM station, computed in accordance with § 73.183 or § 73.186, encompassing the entire community in which such newspaper is published; or (ii) The predicted 1 mV/m contour for an FM station, computed in accordance with § 73.313, encompassing the entire community in which such newspaper is published; or (iii) The Grade A contour of a TV station, computed in accordance with § 73.684, encompassing the entire community in which such newspaper is published.

(2) Paragraph (1) shall not apply in cases where the Commission makes a finding pursuant to Section 310(d) of the Communications Act that the public interest, convenience, and necessity would be served by permitting an entity that owns, operates or controls a daily newspaper to own, operate or control an AM, FM, or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1).

(3) In making a finding under paragraph (2), there shall be a presumption that it is not inconsistent with the public interest, convenience, and necessity for an entity to own, operate or control a daily newspaper in a top 20 Nielsen DMA and one commercial AM, FM or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1), provided that, with respect to a combination including a commercial TV station,

(i) The station is not ranked among the top four TV stations in the DMA, based on the most recent all-day (9 a.m.-midnight) audience share, as measured by Nielsen Media Research or by any comparable professional, accepted audience ratings service; and (ii) At least 8 independently owned and operating major media voices would remain in the DMA in which the community of license of the TV station in question is located (for purposes of this provision major media voices include full-power TV broadcast stations and major newspapers).

(4) In making a finding under paragraph (2), there shall be a presumption that it is inconsistent with the public interest, convenience, and necessity for an entity to own, operate or control a daily newspaper and an AM, FM or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (1) in a DMA other than the top 20 Nielsen DMAs or in any circumstance not covered under paragraph (3).

(5) In making a finding under paragraph (2), the Commission shall consider:

(i) Whether the combined entity will significantly increase the amount of local news in the market; (ii) whether the newspaper and the broadcast outlets each will continue to employ its own staff and each will exercise its own independent news judgment; (iii) the level of concentration in the Nielsen Designated Market Area (DMA); and (iv) the financial condition of the newspaper or broadcast station, and if the newspaper or broadcast station is in financial distress, the proposed owner's commitment to invest significantly in newsroom operations.

(6) In order to overcome the negative presumption set forth in paragraph (4) with respect to the combination of a major newspaper and a television station, the applicant must show by clear and convincing evidence that the co-owned major newspaper and station will increase the diversity of independent news outlets and increase competition among independent news sources in the market, and the factors set forth above in paragraph (5) will inform this decision.

(i) The newspaper or broadcast station is failed or failing; or (ii) the combination is with a broadcast station that was not offering local newscasts prior to the combination, and the station will initiate at least seven hours per week of local news programming after the combination.

Type of Review: Revision of a currently approved collection.

Number of Respondents and Responses: 16,659 respondents, 23,377 responses.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain benefits—Statutory authority for this collection of information is contained in Sections 154(i), 303, 308 and 325(a) of the Communications Act of 1934, as amended.

Estimated Time per Response: 0.0025 hours—12 hours.

Total Annual Burden: 34,396 hours.

Total Annual Costs: \$23,850.

Confidentiality: No need for confidentiality required.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On December 11, 2007, the FCC released a Third Report and Order and Second Further Notice of Proposed Rulemaking ("Third Report and Order") MM Docket No. 99-25, FCC 07-204. In the Third Report and Order, the FCC extended the local standards for rural markets. Under the old Rules, an LPFM applicant was deemed local if it was physically headquartered or had a campus within ten miles of the proposed LPFM transmitter site, or if 75 percent of its board members resided within ten miles of the proposed LPFM transmitter site. The Third Report and Order modified the ten-mile requirement to twenty miles for all LPFM applicants for proposed facilities in other than the top fifty urban markets, for both the distance from transmitter and residence of board member standards. We have revised the Form 318 to reflect this extension of local standards for rural markets. While the overall number of respondents increases because the Rule change expands the universe of eligible applicants, there are no new information collection requirements with respect to completion of the Form 318.

In the Third Report and Order, the Commission also delegated to the Media Bureau the authority to consider Section 73.807 waiver requests from certain LPFM stations. When implementation of a full-service station community of license modification would result in an increase in interference caused to the LPFM station or its displacement, the LPFM station may seek a second-adjacent channel short spacing waiver in connection with an application proposing operations on a new channel. Such waiver requests would be filed on a Form 318.

The Third Report and Order also allows LPFM stations to file waiver requests of Section 73.809 of the Rules if: (1) It is at risk of displacement by an encroaching full-service station

modification application and no alternative channel is available, and (2) it can demonstrate that it has regularly provided at least eight hours per day of locally originated programming. LPFM stations that wish to make a showing under this waiver standard must file an informal objection to the "encroaching" community of license modification application.

FCC Form 318 is required: (1) To apply for a construction permit for a new Low Power FM (LPFM) station; (2) to make changes in the existing facilities of such a station; or (3) to amend a pending FCC Form 318 application.

Federal Communications Commission.

Secretary.
