In the Fifth Report and Order in FCC 99-206, the Commission permitted price cap local exchange carriers (LECs) to introduce new services on a streamlined basis, without prior approval. The Commission adopted rules to eliminate the public interest showing required by section 69.4(g) and eliminated the new services test (except in the case of loop-based new services) required under sections 69.49(f) and (g). These modifications eliminated delays that existed for the introduction of new services as well as encouraging efficient investment and innovation.

The information is used by the Commission to determine whether this is in the public interest for the incumbent LEC to offer a proposed new switched access service.

Annual Cost Burden: \$76,235.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality. The FCC is not requiring applicants to submit confidential information to the

Commission. If applicants want to request confidential treatment of the documents they submit to Commission, they may do so under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: This collection will be submitted as an extension (no change in reporting requirements) after this 60 day comment period to Office of Management and Budget (OMB) in order to obtain the full three year clearance.

A Report and Order, FCC 02-78, adopted and released in March 2002 (Order), set forth the procedures for common carriers requiring authorization under section 214 of the Communications Act of 1934, as amended, to acquire domestic interstate transmission lines through a transfer of control. Under section 214 of the Act, carriers must obtain FCC approval before constructing, acquiring, or operating an interstate transmission line. Acquisitions involving interstate common carriers require affirmative action by the Commission before the acquisition can occur.

This information collection contains filing procedures for domestic transfer of control applications under sections 63.03 and 63.04.

(a) Section 63.03 and 63.04 requires domestic section 214 applications involving domestic transfers of control, at a minimum, should specify: (1) The name, address and telephone number of each applicant; (2) the government, state, or territory under the laws of which each corporate or partnership applicant is organized; (3) the name, title, post office address, and telephone number of the officer or contact point, such as legal counsel, to whom correspondence concerning the application is to be addressed; (4) the name, address, citizenship and principal business of any person or entity that directly or indirectly owns at least ten percent of the equity of the applicant, and the percentage of equity owned by each of those entities (to the nearest one percent); (5) certification pursuant to 47 CFR 1.2001 through 1.2003 that no party to the application is subject to a denial of Federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988; (6) a description of the transaction; (7) a description of the geographic areas in which the transferor and transferee (and their affiliates) offer domestic telecommunications services, and what services are provided in each area; (8) a statement as to how the application fits into one or more of the presumptive streamlined categories in section 63.03 or why it is otherwise appropriate for streamlined treatment; (9) identification of all other Commission applications

related to the same transaction; (10) a statement of whether the applicants are requesting special consideration because either party to the transaction is facing imminent business failure; (11) identification of any separately filed waiver request being sought in conjunction with the transaction; and (12) a statement showing how grant of the application will serve the public interest, convenience, and necessity, including any additional information that may be necessary to show the effect of the proposed transaction on competition in domestic markets. Where an applicant wishes to file a joint international section 214 transfer of control application and domestic section 214 transfer of control application, the applicant must submit information that satisfies the requirements of 47 CFR section 63.18. In the attachment to the international application, the applicant must submit information described in 47 CFR section 63.04(a)(6)-(a)(12).

When the Commission, acting through the Wireline Competition Bureau, determines that applicants have submitted a complete application qualifying for streamlined treatment, it shall issue a public notice commencing a 30-day review period to consider whether the transaction serves the public interest, convenience and necessity. Parties will have 14 days to file any comments on the proposed transaction, and applicants will be given 7 days to respond.

(b) Applicants are not required to file post-consummation notices of *pro forma* transactions, except that a post transaction notice must be filed with the Commission within 30 days of a *pro forma* transfer to a bankruptcy trustee or a debtor-in-possession. The notification can be in the form of a letter (in duplicate to the Secretary, Federal Communications Commission). The letter or other form of notification must also contain the information listed in sections (a)(1) through (a)(4) of section 63.04. A single letter may be filed for more than one such transfer of control. The information will be used by the Commission to ensure that applicants comply with the requirements of 47 U.S.C. 214.
