

this information collection subject to OMB review and approval under the Paperwork Reduction Act. They are: (1) Requests for long-term number portability; (2) petitions to extend implementation deadlines; (3) tariffs and cost support; and (4) recordkeeping requirement. The reporting requirements and recordkeeping requirement are as follows:

(a) Requests for long-term number portability—Long-term number portability (LNP) must be provided by Local Exchange Carriers (LECs) and Commercial Mobile Radio Service (CMRS) providers in switches for which another carrier has made a specific request for number portability, according to the Commission's deployment schedule. Wireline carriers began providing LNP in 1998. CMRS providers began offering LNP in 2003.

(b) Petitions to extend implementation deadline—Carriers that are unable to meet the deadlines for implementing a long-term number portability solution are required to file with the Commission at least 60 days in advance of the deadline a petition to extend the time by which implementation in its network will be completed.

(c) Tariffs and cost support—Incumbent LECs may recover their carrier-specific costs directly related to providing long-term number portability by establishing in tariffs filed with the Commission certain number portability charges. Incumbent LECs are required to include many details in their cost support that are unique to the number portability proceeding pursuant to the Cost Classification Order. For instance, incumbent LECs must demonstrate that any incremental overhead costs claimed in their cost support are actually new costs incremental to and resulting from the provision of long-term number portability.

(d) Recordkeeping requirement—Incumbent LECs are required to maintain records that detail both the nature and specific amount of these carrier-specific costs that are directly related to number portability, and those carrier-specific costs that are not directly related to number portability.

The information collected and used by the Commission to determine compliance with Section 251 of the Communications Act, as amended, and the Commission's LNP orders and rules.
