

exercise training in offshore operating areas along the East and Gulf Coasts of the U.S.

Environmental concerns addressed in the EA included land use, community facilities, coastal zone management, socioeconomics, cultural resources, airspace, air quality, noise, geology, soils, water resources, biological resources, munitions and hazardous materials management, and safety. The EA and OEA addressed potential impacts to the ocean physical environment, fish and Essential Fish Habitat; sea turtles and marine mammals; seabirds and migratory birds; endangered and threatened species; socioeconomics; and cultural resources. The SOEA included an updated analysis of MFA sonar use associated with the CSG COMPTUEX.

This action includes mitigation measures to reduce impacts to a level that is less than significant. In accordance with the Major Atlantic Fleet Training Exercise EA and OEA and the SOEA and the evaluation of the nature, scope and intensity of the proposed action, the Navy finds that the conduct of the CSG COMPTUEX in April and May 2008 will not significantly impact or harm the environment and, therefore, an Environmental Impact Statement or Overseas Environmental Impact Statement is not required.

Dated: April 9, 2008.

T. M. Cruz,

Lieutenant, Judge Advocate General's Corps, U.S. Navy, Federal Register Liaison Officer.
