

firm increased reliance on imports of articles like or directly competitive with medical and mobility devices produced by the subject workers. AR 12. As such, the Department determines that Section (a)(2)(A)(C) has been met.

In accordance with Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department herein presents the results of its investigation regarding certification of eligibility to apply for ATAA. The Department has determined in this case that the group eligibility requirements of Section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

### Conclusion

After careful review of the facts developed in the remand investigation for workers of Electric Mobility Corporation, Sewell, New Jersey, I determine that there was a total separation of a significant number or proportion of workers at the subject firm, that there was a decline in sales and production, and that increased imports of articles like or directly competitive with medical and mobility devices produced by the subject firm contributed importantly to the decline in sales and production and the worker separations at that firm.

In accordance with the provisions of the Act, I make the following certification:

All workers of Electric Mobility Corporation, Sewell, New Jersey, who became totally or partially separated from employment on or after February 5, 2007, through two years from the issuance of this revised determination, are eligible to apply for Trade Adjustment Assistance under Section 223 of the Trade Act of 1974, and are eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed at Washington, DC this 10th day of July 2008.

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** U. S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** Notice with a 60-day comment period on this information collection on April 14, 2008.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR Part 32—Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material.

3. *Current OMB approval number:* 3150-0001.

4. *The form number if applicable:* NRC Form 653.

5. *How often the collection is required:* There is a one-time submittal of information to receive a certificate of registration for a sealed source and/or device. Certificates of registration for sealed sources and/or devices can be amended at any time. In addition, licensee recordkeeping must be performed on an on-going basis, and reporting of transfer of byproduct material must be reported every calendar year, and in some cases, every calendar quarter.

6. *Who will be required or asked to report:* All specific licensees who manufacture or initially transfer items containing byproduct material for sale or distribution to general licensees, or persons exempt from licensing, medical use product distributors to specific licensees, and those requesting a certificate of registration for a sealed source and/or device.

7. *An estimate of the number of annual responses:* 1,315

8. *The estimated number of annual respondents:* 846 (239 NRC licensees and registration certificate holders and 607 Agreement State licensees and registration certificate holders).

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 166,054 (10,635 reporting hours, 155,285 hours for recordkeeping, and 134 hours for third party disclosures)

10. *Abstract:* 10 CFR Part 32 establishes requirements for specific licenses for the introduction of byproduct material into products or materials and transfer of the products or materials to general licensees, or persons exempt from licensing, medical

use product distributors to specific licensees, and those requesting a certificate of registration for a sealed source and/or device. It also prescribes requirements governing holders of the specific licenses. Some of the requirements are for information which must be submitted in an application for a certificate of registration for a sealed source and/or device, records which must be kept, reports which must be submitted, and information which must be forwarded to general licensees and persons exempt from licensing. As mentioned, 10 CFR Part 32 also prescribes requirements for the issuance of certificates of registration (concerning radiation safety information about a product) to manufacturers or initial transferors of sealed sources and devices. Submission or retention of the information is mandatory for persons subject to the 10 CFR Part 32 requirements. The information is used by NRC to make licensing and other regulatory determinations concerning the use of radioactive byproduct material in products and devices.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by August 20, 2008. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Nathan J. Frey, Office of Information and Regulatory Affairs (3150-0121), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to [Nathan\\_J\\_Frey@omb.eop.gov](mailto:Nathan_J_Frey@omb.eop.gov) or submitted by telephone at (202) 395-7345.

The NRC Clearance Officer is Russell Nichols, (301) 415-6847.

Dated at Rockville, Maryland, this 15th day of July, 2008.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-413]

### **Duke Energy Carolinas, LLC; North Carolina Electric Membership Corporation; Saluda River Electric Cooperative, Inc.; Catawba Nuclear Station, Unit 1; Notice of Consideration of Approval of the Proposed Transfer of the Catawba Nuclear Station, Unit 1, Renewed Facility Operating License No. NPF-35 and Conforming Amendment, and Opportunity for a Hearing Regarding Transfer of the Saluda River Electric Cooperative, Inc.'s Undivided Ownership Interest in Catawba Nuclear Station, Unit 1, to Duke Energy Carolinas, LLC, a Current Owner and Operator and North Carolina Electric Membership Corporation, a Current Owner**

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under Title 10 of the Code of Federal Regulations (10 CFR), Section 50.80 approving the direct transfer of the Renewed Facility Operating License No. NPF-35 for the Catawba Nuclear Station, Unit 1 (Catawba 1), currently held by Duke Energy Carolinas, LLC (Duke/the licensee), as owner and licensed operator, and Saluda River Electric Cooperative, Inc. (SREC/the licensee), and North Carolina Electric Membership Corporation (NCEMC/the licensee), as owners. The action would be to transfer the SREC undivided ownership interest in Catawba 1 to Duke and NCEMC. The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by the licensees, following approval, Duke will purchase 71.96 percent of the SREC's interest in Catawba 1 and will allow NCEMC to purchase 28.04 percent of SREC's interest in Catawba 1. Duke will remain responsible for the operation and maintenance of Catawba 1.

No physical changes to the Catawba 1 facility or operational changes are being proposed in the application.

The proposed amendment would replace references to SREC to reflect the proposed transfer.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the direct transfer of a license, if the Commission determines
