SUPPLEMENTARY INFORMATION:

Title: Long Term Contracting System (LTCS).

OMB Number: 0560-0249.

Type of Request: Extension with revisions.

Abstract: The Long Term Contracting System (LTCS) is a Web-based application that streamlines the bid entry and evaluation functions for Long-Term, Indefinite-Delivery, Indefinite-Quantity (IDIQ) contracts. KCCO will generally issue invitations for bids to purchase commodities for domestic feeding programs on an annual, semi-annual, quarterly, or monthly basis; however, invitations may be issued more frequently, depending on various program requirements. Bid offers are received, evaluated, and awarded within the LTCS. Interested vendors submit a price per destination for each product, along with their available capacities per delivery period/month, and their answers to specific certification questions. The information collected is processed through the LTCS bid evaluation program to determine optimal awards. KCCO will analyze the results of the bid evaluation and award contracts to the eligible, responsible and responsive bidders whose offers are most advantageous to USDA in terms of the lowest overall cost. It is necessary to collect this information in order to evaluate bids impartially. The LTCS automatically ties together monthly allocation contracts with the applicable long-term contract, and since LTCS will access real-time data, users are able to access up-to-the-minute contract award information. Vendors can access LTCS on-line prior to bid opening time to submit, modify, or withdraw their offers. The automated process of LTCS

significantly reduces the chance for errors in awards and reduces recordkeeping errors associated with the former manual process of tracking contract data.

Estimate of Burden: Public reporting burden for collecting information under this notice is estimated to average 23 hours per response.
