BILLING CODE 6560-50-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 071106671-8010-02]

RIN 0648-XG19

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure.

SUMMARY: NMFS is opening directed fishing for pollock in Statistical Area 610 of the Gulf of Alaska (GOA). This action is necessary to fully use the A season allowance of the 2008 total allowable catch (TAC) of pollock

specified for Statistical Area 610 of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), March 7, 2008, through 2400 hrs, A.l.t., December 31, 2008. Comments must be received at the following address no later than 4:30 p.m., A.l.t., March 21, 2008.

ADDRESSES: Send comments to Sue Salvesson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, Attn: Ellen Sebastian. You may submit comments, identified by 0648-XG19, by any one of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal eRulemaking Portal Web site at <http://www.regulations.gov>;
- *Mail:* P.O. Box 21668, Juneau, AK 99802;
- *Fax:* (907) 586-7557; or
- *Hand delivery to the Federal Building:* 709 West 9th Street, Room 420A, Juneau, AK.

Instructions: All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (for example, name, address, etc.)

voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

NMFS will accept anonymous comments. Attachments to electronic comments will be accepted in Microsoft Word, Excel, WordPerfect, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT: Jennifer Hogan, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2008 pollock TAC specified for vessels in Statistical Area 610 in the GOA is 3,322 metric tons (mt) as established by the 2008 and 2009 harvest specifications for groundfish of

the GOA (73 FR 10562, February 27, 2008).

NMFS closed the directed fishery for pollock in Statistical Area 610 of the GOA under § 679.20(d)(1)(iii) on January 22, 2008 (73 FR 4493, January 25, 2008). The fishery reopened on March 3, 2008 for 24 hours (73 FR 12031, March 6, 2008).

As of March 4, 2008, NMFS has determined that approximately 3,050 mt of pollock remain in the directed fishing allowance in Statistical Area 610 of the GOA. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C) and (a)(2)(iii)(D), and to fully utilize the A season allowance of the 2008 TAC of pollock in Statistical Area 610, NMFS is terminating the previous closure and is reopening directed fishing for pollock in Statistical Area 610 of the GOA, effective 1200 hrs, A.l.t., March 7, 2008.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) and 50 CFR 679.25(c)(1)(ii) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the opening of pollock in Statistical Area 610 of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of March 4, 2008.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Without this inseason adjustment, NMFS could not allow the fishery for pollock in Statistical Area 610 of the GOA to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit written comments on this action to the above address until March 21, 2008.

This action is required by § 679.20 and § 679.25 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 6, 2008.

Emily H. Menashes

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 070816465-8008-02]

RIN 0648-AV96

Fisheries of the Exclusive Economic Zone Off Alaska; Prohibited Species Bycatch Management

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues a final rule to repeal regulations providing for a groundfish vessel incentive program (VIP) that was designed to reduce the rate at which Pacific halibut and red king crab are taken as incidental catch in Alaska groundfish trawl fisheries. The VIP has not performed as intended because of the costs associated with implementation and enforcement, the relatively small number of vessels covered by the regulation, and the implementation of more effective bycatch reduction programs. This action is necessary to reduce a regulatory burden on the industry and to reduce the administrative costs necessary to support a program no longer considered an effective means to reduce bycatch rates.

DATES: Effective April 10, 2008.

ADDRESSES: Copies of the Environmental Assessment/Regulatory Impact Review/Final Regulatory Flexibility Analysis (EA/RIR/FRFA) prepared for this action are available on the Alaska Region Web site at <http://www.fakr.noaa.gov>. Printed copies can be obtained from the Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802, Attn: Ellen Sebastian.

FOR FURTHER INFORMATION CONTACT: Ben Muse, 907-586-7228, or ben.muse@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

NMFS manages the U.S. groundfish fisheries of the exclusive economic zone off Alaska under the Fishery

Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area and the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMPs). The North Pacific Fishery Management Council (Council) prepared the FMPs pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations implementing the FMPs appear at 50 CFR part 679. General regulations that pertain to U.S. fisheries appear at subpart H of 50 CFR part 600.

Fisheries off Alaska targeting groundfish incidentally catch other species. Some of these non-groundfish species are themselves the objects of valuable targeted fisheries and retention of these species is prohibited in the groundfish fishery. These prohibited species include Pacific halibut, Chinook and "other" salmon, several crab species, and herring. Measures to restrict the catch of these species have been incorporated into the FMPs and regulations at 50 CFR part 679. Among these measures are prohibited species catch (PSC) limits that restrict the amount of a prohibited species that may be taken incidentally in a groundfish fishery. Groundfish fisheries are routinely closed in all or part of a management area when a PSC limit is reached. These closures are expensive for industry because they mean that valuable groundfish are left unharvested.

Section 3.6.4 of the Gulf of Alaska (GOA) FMP authorizes regulations to reduce halibut bycatch rates in fisheries subject to halibut PSC limits to increase the opportunity to fish groundfish total allowable catches (TACs) before established PSC limits are reached.

Section 3.6.4 of the Bering Sea and Aleutian Island (BSAI) FMP allows for implementation of regulatory measures to provide incentives to individual vessels to reduce bycatch rates of prohibited species for which PSC limits are established. While the GOA provisions are limited to halibut, the BSAI provisions authorize the creation of incentive programs to reduce the bycatch of red king crab, as well as halibut.

Vessel Incentive Program

Regulations at 50 CFR 679.21(f) implement a vessel incentive program (VIP) under the authority of the FMPs. The program creates incentives for individual groundfish trawl operators to reduce their incidental catch rates of halibut and red king crab by imposing penalties on operators whose incidental catch rates exceed specified standards. Under the program, the Alaska Regional
