

MOVES Update for FACA Modeling Workgroup

**John Koupal
EPA Office of Transportation & Air Quality
FACA Modeling Workgroup Meeting
December 2, 2003**

MOVES

- **M**Otor
- **V**ehicle
- **E**mission
- **S**imulator

Implementation Schedule

- **MOVES2004:** May 2004
 - On-road Energy consumption, CO₂, CH₄, N₂O
 - U.S. at county level inventories 1999 forward
 - Well-to-pump (GREET) integration
- **MOVES2005:** February 2005
 - Draft Aircraft, Commercial Marine, Locomotives
- **MOVES2006:** January 2006
 - Final Aircraft, Commercial Marine, Locomotives
 - Draft on-road criteria pollutants
- **MOVES2007:** June 2007
 - Final on-road
 - Draft non-road

MOVES2004 Release

- **Draft model**
- **Documentation**
 - Emission input development
 - National default fleet & activity input development
 - Model results
 - Validation, sensitivity, uncertainty, results
 - Design documentation
 - User's Guide
- **Will plan workshop, training**
- **Will trigger new review process**

MOVES2004 Status

- **Majority of coding complete**
- **Emission data gathering complete**
- **Internal working version end of November**
 - National default fleet & activity data loaded
 - First-cut emission rates binned
- **Advanced technology modeling in progress**
- **REET integration underway**
- **CH₄/N₂O analysis near completion**

Today's Topics

- **Default Fleet & Activity Inputs (Megan Beardsley)**
- **Emission Data Gathering (Carl Scarbro)**
- **Emission Rate Development (John Koupal)**
- **Advanced Technology Modeling (Ed Nam)**
- **CRC Review of MOVES (ENVIRON)**
 - Discussion of CRC, NYDEC comments
- **MOVES Demonstration (Mitch Cumberworth)**
