

preparation of flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co., v. U.S. EPA*, 427 U.S. 246, 255–66 (1976); 42 U.S.C. 7410(a)(2).

F. Unfunded Mandates

Under section 202 of the Unfunded Mandates Reform Act of 1995 (“Unfunded Mandates Act”), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated annual costs to State, local, or tribal governments in the aggregate; or to private sector, of \$100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated does not include a Federal mandate that may result in estimated annual costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

Approval of Hospital/Medical/ Infectious Waste Incinerator State Plan for Designated Facilities and Pollutants: Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve Indiana’s State Plan for Hospital/Medical/Infectious Waste Incinerators (HMIWI), submitted on September 30, 1999. The State Plan adopts and implements our Emissions Guidelines (EG) applicable to existing HMIWIs. The approval means that EPA finds the State Plan meets Clean Air Act (Act) requirements. In the final rules section of this **Federal Register**, the EPA is approving the State’s request as a direct final rule without prior proposal because EPA views this action as noncontroversial and anticipates no adverse comments. A detailed rationale for approving the State’s request is set forth in the direct final rule. The direct final rule will become effective without further notice unless EPA receives relevant adverse written comment on this action. Should the EPA receive such comment, it will publish a final rule informing the public that the direct final rule will not take effect and such public comment received will be addressed in a subsequent final rule based on this proposed rule. If no adverse written comments are received, the direct final rule will take effect on the date stated in that document and no further activity will be taken on this proposed rule. EPA does not plan to institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

Revisions to Guidelines for the Storage and Collection of Residential, Commercial, and Institutional Solid Waste

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency is proposing to revise Guidelines for the Storage and Collection of Residential, Commercial, and Institutional Solid Waste through incorporation by reference of new voluntary consensus standards from the American National Standards Institute (ANSI). We are proposing this revision in response to a petition for rulemaking submitted by the Waste Equipment Technology Association requesting the Agency to update the references to ANSI standards. This proposed revision would assure that the Guidelines include references to the most current national safety standards.

In the final rules Section of today's **Federal Register**, we are promulgating this amendment as a final rule without a prior proposal because we view this as a noncontroversial action that encourages the use of voluntary consensus standards. Thus, we anticipate no adverse comments. A detailed rationale for the amendment is set forth in the preamble to the accompanying direct final rule. If no adverse comments are received in response to this action, we plan no further action regarding this proposed rule as the accompanying direct final rule will be effective. If we receive relevant adverse comments, we will withdraw the final rule and we will address public comments received a subsequent final rule based on this proposed rule. We will not institute a second comment period on this action.

DATES: Comments on this proposed rule must be received on or before January 18, 2000. A relevant adverse comment will be considered to be any comment substantively criticizing the proposal on

a basis not already provided to EPA in comment.
