Total people fed by PVO's and the Government of the Dominican Republic per year:			1,915,953

* Includes only recipients of direct feeding and take-home rations. Other project beneficiaries may include teachers, parents, siblings, and community members because of improved schools, educational materials, teacher training, adult literacy programs, school gardens, and other project-funded activities.

GFE Activity Summary: World Food Program

LATIN AMERICA AND THE CARIBBEAN

Country	Donated U.S. Commodities	Commodity Disposition and Food Served	Estimated People Fed Per Year*
Bolivia	Wheat	<ul style="list-style-type: none"> • Barter – donated U.S. wheat is exchanged for local products, mainly vegetable oil, milk beverages, rice, and iodized salt. • Children are served both breakfast and lunch that consists of donated food from WFP as well as from parents. Each meal contains at least 100 grams of wheat flour; 35 grams of dried milk beverage (milk, cocoa, sugar, and vitamins); 15 grams of vegetable oil; 30 grams of rice; 20 grams of meat; and five grams of iodized salt. Parents provide fresh vegetables, fruits, and other local products. • Meals are served 200 days a year and provide roughly 800 calories and 26 grams of protein. 	102,176
Dominican Republic	Rice	<ul style="list-style-type: none"> • Direct distribution – primary and pre-school children receive a snack and lunch at school. The U.S. rice is cooked by the parents and used along with donated vegetables and other foods for lunch. • WFP also provides fortified porridge for snack time and supplies cooking oil and sugar to the schools. 	95,028
El Salvador	Corn Rice Soybean Oil	<ul style="list-style-type: none"> • Direct distribution – U.S. rice and soybean oil are provided directly to the schools for the parents to use in hot lunches. • The U.S. corn is milled and prepared into a locally produced cereal blend. This blend is made from corn (70 percent) and soy (30 percent), which is then made into a highly nutritious drink for the students (parents add flavoring and sugar). • Canned meat is also provided by WFP to add variety to the school meals. School gardens provide fresh vegetables and fruit. • For primary school children, the individual ration provides about 481 calories and 13 grams of protein, or about one-fourth of energy requirements and one-fourth to two-fifths of daily protein requirements. 	148,000
Colombia	Wheat	<ul style="list-style-type: none"> • Barter – U.S. wheat is exchanged for local commodities, including fortified juice and biscuits. • Children in school receive an early morning snack of fortified juice and biscuits. Hot lunches prepared with local foods are also served at the schools. 	20,000

LATIN AMERICA AND THE CARIBBEAN (continued)

Country	Donated U.S. Commodities	Commodity Disposition and Food Served	Estimated People Fed Per Year*
Honduras	Corn Corn-Soy Blend Vegetable Oil	<ul style="list-style-type: none"> • Direct distribution – U.S. donated vegetable oil, corn-soy blend, and corn are used in hot meals at schools. • Take-home rations of U.S. corn and vegetable oil are also provided to some girls for meeting attendance levels. • Parent associations prepare hot meals and serve them to the students prior to class beginning. The meals include donated beans, corn (typically prepared into tortillas), vegetable cooking oil, corn-soy blend, and sugar. Parents also provide local vegetables and fruits. • Meals are provided to students for 160 days. 	185,230
Nicaragua	Corn Corn-Soy Blend Corn-Soy Milk Wheat Vegetable Oil	<ul style="list-style-type: none"> • Direct distribution – U.S. food is served in hot meals or snacks at the schools. • WFP uses the blended foods (CSM and CSB) to prepare a high-fortified drink that is served with nutritious biscuits during snack times. • The donated corn and wheat are milled in-country and then used for preparing food in the schools, such as bread, tortillas, etc. 	580,000
Peru	Wheat	<ul style="list-style-type: none"> • Barter – U.S. donated wheat is exchanged on a value basis for local products. The local products used for school snacks consist of a prepared dairy drink enriched with vitamins and minerals and a baked product (biscuit or bread) made of wheat flour and other local grains. • WFP serves over 113 million snacks with a nutritive value of 600 calories, 22.5 grams of protein, and 20 grams of fat, containing a vitamin and mineral supplement including 13.2 milligrams of iron. 	135,042

ASIA

Country	Donated U.S. Commodities	Commodity Disposition and Food Served	Estimated People Fed Per Year*
Bhutan	Corn-Soy Blend Rice Vegetable Oil Wheat	<ul style="list-style-type: none"> • Direct distribution – U.S. donated commodities are used directly at the schools to prepare both breakfast and hot lunches for the school children. • The parents prepare the meals and supplement them with local products. The parents also provide the third meal for their children. • All the meals are provided at least 230 days a year. 	30,936

ASIA (continued)

Country	Donated U.S. Commodities	Commodity Disposition and Food Served	Estimated People Fed Per Year*
Cambodia	Rice Vegetable Oil	<ul style="list-style-type: none"> • Direct distribution. • The rice is cooked with the cooking oil and served at breakfast. 	181,956
Nepal	Wheat-Soy Blend Vegetable Oil	<ul style="list-style-type: none"> • Direct distribution of the wheat-soy blend is used in combination with sugar and vegetable ghee to produce a daily, high-fortified porridge. • Take-home ration of two liters of vegetable oil is provided to girls for school enrollment and high attendance levels. • The daily porridge provides approximately 463 kilocalories, 15 grams of fat, and 17 grams of protein, plus micronutrients. 	200,000
Pakistan	Vegetable Oil	<ul style="list-style-type: none"> • Take-home rations – U.S. donated vegetable oil, in four-liter packages, is provided to girls monthly for meeting high attendance levels. 	58,000
Tajikistan	Flour Vegetable Oil	<ul style="list-style-type: none"> • Take-home rations – students receive 175 grams of wheat flour, 15 grams of vegetable oil, and five grams of iodized salt to supplement their families' food needs and to encourage school attendance. • The feeding program provides enough food for approximately 180 days of prepared meals at home. 	219,026

AFRICA

Country	Donated U.S. Commodities	Commodity Disposition and Food Served	Estimated People Fed Per Year*
Cameroon	Corn	<ul style="list-style-type: none"> • Take-home rations – U.S.-donated corn is provided to girls on a quarterly basis for food prepared in the home. Parents' committees distribute the corn to girls based on new enrollments and attendance. 	92,074
Chad	Cornmeal Corn-Soy Meal Vegetable Oil	<ul style="list-style-type: none"> • Take-home rations – U.S. donated cornmeal and vegetable oil are used by parent management committees to deliver to girls' families for supporting their education. • Direct distribution – hot lunches are prepared with the donated U.S. corn-soy blend and provided to students in schools. 	123,377
Cote d'Ivoire	Rice	<ul style="list-style-type: none"> • Direct distribution – U.S. rice is provided to schools with kitchen facilities for preparation by the parents' associations. The cooked rice is provided to the students, supplemented by vegetables supplied by the parents. 	254,133

AFRICA (continued)

Country	Donated U.S. Commodities	Commodity Disposition and Food Served	Estimated People Fed Per Year*
Ethiopia	Corn-Soy Blend Vegetable Oil	<ul style="list-style-type: none"> • WFP will provide two locally produced and blended commodities, Famix and high-energy biscuits. Meal of corn-soy porridge is prepared with iodized salt. • For half-day schools, an open packet of four biscuits is provided to each child upon arrival at school. The Famix is served at mid-morning, thereby allowing adequate time for its preparation. • For full-day students, an open package of four biscuits is given to each child upon arrival. Famix drink is served during the mid-morning break. Porridge and an additional two biscuits are given at lunchtime. • To the extent possible, all commodities are purchased locally in Ethiopia. In order to increase resources to the project, WFP retains the option to import wheat to be exchanged for biscuits and Famix. 	296,174
Gambia, The	Corn-Soy Blend Rice Vegetable Oil	<ul style="list-style-type: none"> • 60,000 primary school children in 260 rural public schools receive an early morning beverage and lunch 160 days a year. 	132,247
Ghana	Wheat Vegetable Oil	<ul style="list-style-type: none"> • Take-home rations – consisting of eight kilograms of U.S. wheat and two liters of vegetable oil are provided to girls as long as they attend at least 85 percent of school days every month. 	6,500
Guinea	Corn-Soy Blend	<ul style="list-style-type: none"> • Direct distribution for vulnerable groups at high risk of malnutrition. • The ration level for emergency feeding is 628 kilocalories. 	52,253
Kenya	Corn Vegetable Oil Corn-Soy Milk	<ul style="list-style-type: none"> • Direct distribution – school children receive a mid-morning snack of cornmeal porridge, and a midday meal including corn, beans, and oil, with the dietary contribution equivalent to 700 kilocalories and 23 grams of protein per student per day. • Food for work – corn and beans are used as an in-kind grant to communities to undertake a number of labor-intensive activities at the school level. • Barter – food may be used to exchange for items such as a school-based livestock herd. 	1,714,738

AFRICA (continued)

Country	Donated U.S. Commodities	Commodity Disposition and Food Served	Estimated People Fed Per Year*
Mozambique	Rice Corn-Soy Milk Vegetable Oil	<ul style="list-style-type: none"> • Direct distribution of U.S. food for use in preparing two nutritious meals each school day; 30,000 pupils enrolled in primary schools in rural and peri-urban areas will receive these cooked meals. • 40,000 pupils in boarding schools and 1,800 teachers and 1,700 staff will receive three daily meals throughout each school year. • Take-home rations of U.S. vegetable oil for 64,000 girls and 1,600 orphans will be distributed two times per school year. 	43,500
Tanzania	Corn Corn-Soy Blend	<ul style="list-style-type: none"> • Direct distribution of U.S. commodities for use in preparing an early morning breakfast of porridge and a full hot meal cooked at midday. • Two meals are served 180 days per year to an annual average of 67,500 students at selected primary and pre-primary day schools. • Additionally, two meals per day (breakfast and lunch or dinner), 230 days per year, to an annual average of 7,500 students at selected primary boarding schools. 	75,000
Uganda	Corn Corn-Soy Blend Corn-Soy Milk Vegetable Oil	<ul style="list-style-type: none"> • Direct distribution of U.S. provided corn-soy milk and corn-soy blend for use in morning porridge (similar to oatmeal). • The porridge is provided to the pupils in the morning and again in the afternoon. • The take-home rations of corn and vegetable oil are distributed to students every Friday upon completion of the week's attendance. 	166,613
Total people fed by World Food Program per year:			4,911,977
TOTAL PEOPLE FED, ALL GFE PROGRAMS, PER YEAR:			6,827,930

* Includes only recipients of direct feeding and take-home rations. Other project beneficiaries may include teachers, parents, siblings, and community members because of improved schools, educational materials, teacher training, adult literacy programs, school gardens, and other project-funded activities.
