

Payette National Forest Recreation Facility Action Plan – Program of Work 2006 – 2010

The table below displays the “Program of work” schedule for managing the Developed Recreation Facilities on the Payette National Forest from 2006 – 2010 as developed as a part of the Recreation Facility Master Planning Process. The table ONLY includes new projects, and does not list the regular maintenance associated with all trailheads and campgrounds. This list may be altered due to unplanned events such as fire damage, a tree blow-down event, vandalism or other extreme weather events that can destroy facilities. The Forest will also continue to monitor visitor satisfaction with the sites and services provided, and consider how our developed recreation program contributes to local community stability. Some of the proposed actions will require full National Environmental Policy Act (NEPA) analysis, assuring environmental sound decision.

How closely the Forest adheres to the plan will depend upon available funding and resources, as well as the public’s interest, and in many cases, involvement and partnership to enhance our recreation program. If you are interested in discussions to improve the proposed program of work, please contact Jane Cropp, Payette National Forest Recreation Program Manager at (208)634-0757.

Ranger District	Site Name	Proposed Management Action	Proposed year of implementation
Council RD	Big Flat Campground	New double vault CXT restroom, replace kiosk, gravel, and blade roads, fee increase from \$8 to \$10.	2008
