

monitoring. The Commission must report the results of its monitoring to the Department, and the Department must consider the reports in determining whether to self-initiate an antidumping or countervailing duty investigation on the downstream product. This section contains rules regarding applications for the initiation of downstream product monitoring and decisions regarding such applications.

(b) *Contents of application.* An application to designate a downstream product for monitoring under section 780 of the Act must contain the following information, to the extent reasonably available to the applicant:

(1) The name and address of the person requesting the monitoring and a description of the article it produces which is the basis for filing its application;

(2) A detailed description of the downstream product in question;

(3) A detailed description of the component product that is incorporated into the downstream product, including the value of the component part in relation to the value of the downstream product, and the extent to which the component part has been substantially transformed as a result of its incorporation into the downstream product;

(4) The name of the country of production of both the downstream and component products and the name of any intermediate country from which the merchandise is imported;

(5) The name and address of all known producers of component parts and downstream products in the relevant countries and a detailed description of any relationship between such producers;

(6) Whether the component part is already subject to monitoring to aid in the enforcement of a bilateral arrangement within the meaning of section 804 of the Trade and Tariff Act of 1984;

(7) A list of all antidumping or countervailing duty investigations that have been suspended, or antidumping or countervailing duty orders that have been issued, on merchandise that is related to the component part and that is manufactured in the same foreign country in which the component part is manufactured;

(8) A list of all antidumping or countervailing duty investigations that have been suspended, or antidumping or countervailing duty orders that have been issued, on merchandise that is manufactured or exported by the manufacturer or exporter of the component part and that is similar in description and use to the component part; and

(9) The reasons for suspecting that the imposition of antidumping or countervailing duties has resulted in a diversion of exports of the component part into increased production and exportation to the United States of the downstream product.

(c) *Determination of sufficiency of application.* Within 14 days after an application is filed under paragraph (b) of this section, the Secretary will rule on the sufficiency of the application by making the determinations described in section 780(a)(2) of the Act.

(d) *Notice of Determination.* The Secretary will publish in the FEDERAL REGISTER notice of each affirmative or negative “monitoring” determination made under section 780(a)(2) of the Act, and if the determination under section 780(a)(2)(A) of the Act and a determination made under any clause of section 780(a)(2)(B) of the Act are affirmative, will transmit to the Commission a copy of the determination and the application. The Secretary will make available to the Commission, and to its employees directly involved in the monitoring, the information upon which the Secretary based the initiation.

§ 351.224 Disclosure of calculations and procedures for the correction of ministerial errors.

(a) *Introduction.* In the interests of transparency, the Department has long had a practice of providing parties with the details of its antidumping and countervailing duty calculations. This practice has come to be referred to as a “disclosure.” This section contains rules relating to requests for disclosure and procedures for correcting ministerial errors.

(b) *Disclosure.* The Secretary will disclose to a party to the proceeding calculations performed, if any, in connection with a preliminary determination

under section 703(b) or section 733(b) of the Act, a final determination under section 705(a) or section 735(a) of the Act, and a final results of a review under section 736(c), section 751, or section 753 of the Act, normally within five days after the date of any public announcement or, if there is no public announcement of, within five days after the date of publication of, the preliminary determination, final determination, or final results of review (whichever is applicable). The Secretary will disclose to a party to the proceeding calculations performed, if any, in connection with a preliminary results of review under section 751 or section 753 of the Act, normally not later than ten days after the date of the public announcement of, or, if there is no public announcement, within five days after the date of publication of, the preliminary results of review.

(c) *Comments regarding ministerial errors*—(1) *In general.* A party to the proceeding to whom the Secretary has disclosed calculations performed in connection with a preliminary determination may submit comments concerning a significant ministerial error in such calculations. A party to the proceeding to whom the Secretary has disclosed calculations performed in connection with a final determination or the final results of a review may submit comments concerning any ministerial error in such calculations. Comments concerning ministerial errors made in the preliminary results of a review should be included in a party's case brief.

(2) *Time limits for submitting comments.* A party to the proceeding must file comments concerning ministerial errors within five days after the earlier of:

(i) The date on which the Secretary released disclosure documents to that party; or

(ii) The date on which the Secretary held a disclosure meeting with that party.

(3) *Replies to comments.* Replies to comments submitted under paragraph (c)(1) of this section must be filed within five days after the date on which the comments were filed with the Secretary. The Secretary will not consider

replies to comments submitted in connection with a preliminary determination.

(4) *Extensions.* A party to the proceeding may request an extension of the time limit for filing comments concerning a ministerial error in a final determination or final results of review under §351.302(c) within three days after the date of any public announcement, or, if there is no public announcement, within five days after the date of publication of the final determination or final results of review, as applicable. The Secretary will not extend the time limit for filing comments concerning a significant ministerial error in a preliminary determination.

(d) *Contents of comments and replies.* Comments filed under paragraph (c)(1) of this section must explain the alleged ministerial error by reference to applicable evidence in the official record, and must present what, in the party's view, is the appropriate correction. In addition, comments concerning a preliminary determination must demonstrate how the alleged ministerial error is significant (*see* paragraph (g) of this section) by illustrating the effect on individual weighted-average dumping margin or countervailable subsidy rate, the all-others rate, or the country-wide subsidy rate (whichever is applicable). Replies to any comments must be limited to issues raised in such comments.

(e) *Corrections.* The Secretary will analyze any comments received and, if appropriate, correct any significant ministerial error by amending the preliminary determination, or correct any ministerial error by amending the final determination or the final results of review (whichever is applicable). Where practicable, the Secretary will announce publicly the issuance of a correction notice, and normally will do so within 30 days after the date of public announcement, or, if there is no public announcement, within 30 days after the date of publication, of the preliminary determination, final determination, or final results of review (whichever is applicable). In addition, the Secretary will publish notice of such corrections in the FEDERAL REGISTER. A correction notice will not alter the anniversary

month of an order or suspended investigation for purposes of requesting an administrative review (see § 351.213) or a new shipper review (see § 351.214) or initiating a sunset review (see § 351.218).

(f) *Definition of “ministerial error.”* Under this section, *ministerial error* means an error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial.

(g) *Definition of “significant ministerial error.”* Under this section, *significant ministerial error* means a ministerial error (see paragraph (f) of this section), the correction of which, either singly or in combination with other errors:

(1) Would result in a change of at least five absolute percentage points in, but not less than 25 percent of, the weighted-average dumping margin or the countervailable subsidy rate (whichever is applicable) calculated in the original (erroneous) preliminary determination; or

(2) Would result in a difference between a weighted-average dumping margin or countervailable subsidy rate (whichever is applicable) of zero (or *de minimis*) and a weighted-average dumping margin or countervailable subsidy rate of greater than *de minimis*, or vice versa.

§ 351.225 Scope rulings.

(a) *Introduction.* Issues arise as to whether a particular product is included within the scope of an antidumping or countervailing duty order or a suspended investigation. Such issues can arise because the descriptions of subject merchandise contained in the Department’s determinations must be written in general terms. At other times, a domestic interested party may allege that changes to an imported product or the place where the imported product is assembled constitutes circumvention under section 781 of the Act. When such issues arise, the Department issues “scope rulings” that clarify the scope of an order or suspended investigation with respect to particular products. This section contains rules regarding scope rulings, requests for scope rulings, procedures for

scope inquiries, and standards used in determining whether a product is within the scope of an order or suspended investigation.

(b) *Self-initiation.* If the Secretary determines from available information that an inquiry is warranted to determine whether a product is included within the scope of an antidumping or countervailing duty order or a suspended investigation, the Secretary will initiate an inquiry, and will notify all parties on the Department’s scope service list of its initiation of a scope inquiry.

(c) *By application—(1) Contents and service of application.* Any interested party may apply for a ruling as to whether a particular product is within the scope of an order or a suspended investigation. The application must be served upon all parties on the scope service list described in paragraph (n) of this section, and must contain the following, to the extent reasonably available to the interested party:

(i) A detailed description of the product, including its technical characteristics and uses, and its current U.S. Tariff Classification number;

(ii) A statement of the interested party’s position as to whether the product is within the scope of an order or a suspended investigation, including:

(A) A summary of the reasons for this conclusion,

(B) Citations to any applicable statutory authority, and

(C) Any factual information supporting this position, including excerpts from portions of the Secretary’s or the Commission’s investigation, and relevant prior scope rulings.

(2) *Deadline for action on application.* Within 45 days of the date of receipt of an application for a scope ruling, the Secretary will issue a final ruling under paragraph (d) of this section or will initiate a scope inquiry under paragraph (e) of this section.

(d) *Ruling based upon the application.* If the Secretary can determine, based solely upon the application and the descriptions of the merchandise referred to in paragraph (k)(1) of this section, whether a product is included within the scope of an order or a suspended investigation, the Secretary will issue a
