§351.506

(2) Treatment as grants. If, at any point in time, the Secretary determines that the event upon which repayment depends is not a viable contingency, the Secretary will treat the outstanding balance of the loan as a grant received in the year in which this condition manifests itself.

§351.506 Loan guarantees.

(a) Benefit—(1) In general. In the case of a loan guarantee, a benefit exists to the extent that the total amount a firm pays for the loan with the government-provided guarantee is less than the total amount the firm would pay for a comparable commercial loan that the firm could actually obtain on the market absent the government-provided guarantee, including any difference in guarantee fees. See section 771(5)(E)(iii) of the Act. The Secretary will select a comparable commercial loan in accordance with §351.505(a).

(2) Government acting as owner. In situations where a government, acting as the owner of a firm, provides a loan guarantee to that firm, the guarantee does not confer a benefit if the respondent provides evidence demonstrating that it is normal commercial practice in the country in question for shareholders to provide guarantees to their firms under similar circumstances and on comparable terms.

(b) *Time of receipt of benefit*. In the case of a loan guarantee, the Secretary normally will consider a benefit as having been received in the year in which the firm otherwise would have had to make a payment on the comparable commercial loan.

(c) Allocation of benefit to a particular time period. In allocating the benefit from a government-provided loan guarantee to a particular time period, the Secretary will use the methods set forth in §351.505(c) regarding loans.

§351.507 Equity.

(a) *Benefit*—(1) *In general*. In the case of a government-provided equity infusion, a benefit exists to the extent that the investment decision is inconsistent with the usual investment practice of private investors, including the practice regarding the provision of risk capital, in the country in which the eq-

19 CFR Ch. III (4–1–03 Edition)

uity infusion is made. See section 771(5)(E)(i) of the Act.

(2) Private investor prices available.—(i) In general. Except as provided in paragraph (a)(2)(iii) of this section, the Secretary will consider an equity infusion as being inconsistent with usual investment practice (see paragraph (a)(1) of this section) if the price paid by the government for newly issued shares is greater than the price paid by private investors for the same (or similar form of) newly issued shares.

(ii) *Timing of private investor prices*. In selecting a private investor price under paragraph (a)(2)(i) of this section, the Secretary will rely on sales of newly issued shares made reasonably concurrently with the newly issued shares purchased by the government.

(iii) Significant private sector participation required. The Secretary will not use private investor prices under paragraph (a)(2)(i) of this section if the Secretary concludes that private investor purchases of newly issued shares are not significant.

(iv) Adjustments for "similar" form of equity. Where the Secretary uses private investor prices for a form of shares that is similar to the newly issued shares purchased by the government (see paragraph (a)(2)(i) of this section), the Secretary, where appropriate, will adjust the prices to reflect the differences in the forms of shares.

(3) Actual private investor prices unavailable-(i) In general. If actual private investor prices are not available under paragraph (a)(2) of this section, the Secretary will determine whether the firm funded by the governmentprovided equity was equityworthy or unequityworthy at the time of the equity infusion (see paragraph (a)(4) of this section). If the Secretary determines that the firm was equityworthy, the Secretary will apply paragraph (a)(5) of this section to determine whether the equity infusion was inconsistent with the usual investment practice of private investors. A determination by the Secretary that the firm was unequityworthy will constitute a determination that the equity infusion was inconsistent with usual investment practice of private investors, and the Secretary will apply paragraph (a)(6) of this section to measure the
