

Fee Operations

Playalinda Entrance Station

Welcome! As the Fee Supervisor at Canaveral National Seashore, I have the privilege of working with some of the most dedicated and friendly visitor use assistants in the Park service today.

We consider visitor satisfaction our top priority, and want your experience here to be a positive one which meets or exceeds your expectations.

Be sure to pick up a park map and informational brochure when you stop at the fee booth. While you're there, be sure to inquire about the various [federal recreation park passes](#) available which may offer you significant cost-savings or even free admission on future visits to Canaveral or other national parks.

Have a safe and wonderful visit! If there is anything we can do to enhance your enjoyment of this very special national resource, please let us know. We are here for you..
