EXPLANATIONS.

POPULATION.

The population is from census of 1870, or recent estimate of resident postmasters or publishers—the latter case indicated by a dagger—c. h. stands for court house, county seat—m. for miles—p. for population—r. for river and Rd. for railroad.

CIRCULATION.

The circulation has been omitted in cases where a description of the publications did not appear in the last edition of the DIRECTORY.

Where no advertisements are taken for a publication, the matter of circulation, being unimportant, has been omitted, and the fact stated thus: "Does not insert advertisements."

In some instances, from local jealousies or other causes, the statements of publishers have been questioned, and in such cases, the affidavits have been called for, and when promptly furnished the figures are marked with a dagger (†), which indicates that the affidavit is on file in this office. The star (*) against estimated circulations, indicates that a larger issue was claimed and a willingness to furnish an affidavit in proof of the correctness thereof expressed by the publisher, but none was furnished in response to the application therefor.

Where publications are bought and circulated by persons and firms that advertise therein by means of descriptive articles in the reading columns, or devoted to the (almost) exclusive advertising of any particular person or firm, or to the advertising of any certain idea, or established solely as advertising schemes, embracing a class with circulations almost entirely gratuitous, they are termed "advertising sheets," and no circulation given.

†† Means that the Editor of the DIRECTORY at the time of going to press had no certain evidence that the paper so marked had suspended publication, but he was unable to secure any late issue, therefore no particulars are given.

ITALIC WORDS.

Where *italic* matter follows the description of a publication, it is by order of the publisher, and is paid for as an advertisement.

The publishers of the DIRECTORY assume no responsibility for any statements made in italic type, every publisher of a newspaper being allowed to print in that manner anything for which he is willing to pay the price demanded, viz.: *ten cents a word*.
