STATE CAPITAL, TALLAHASSEE.

FLORIDA is bounded north by Alabama and Georgia, east by the Atlantic Ocean, south and west by the Gulf of Mexico and Alabama. The peninsular portion of the State is about 375 miles long by an average breadth of 90 miles; the upper portion 360 miles from east to west by from 30 to 90 miles from north to south; land area, 54,240 square miles. Surface is diversified with numerous lakes, the largest, Okeechobee, being 40 miles long by about 30 miles broad. The largest portion of the southern part of the peninsula is occupied by the Everglades, an evergreen marsh or swamp, impassable in the rainy season, and resembling an immense lake dotted with innumerable islands of from half an acre to hundreds of acres in extent, the whole comprising over 2,000,000 acres. From the northern end of the swamp to Georgia is mostly a dead level, with occasional undulations and small hills. West of the neck of the peninsula the surface becomes a little more uneven; the central portion is the most fertile but there are many pine-barrens there. There are numerous gentle eminences called hammocks, which are remarkably fertile, as are also the swamp-lands when ditched and drained. The soil of the east and west peninsula districts is generally sandy and poor. Sugar-cane is raised chiefly along the Gulf coast. Both long and short staple cotton and tobacco are grown, but corn and rice are the principal cereals. Oranges, lemons, limes, pineapples, olives, and grapes flourish luxuriantly; garden vegetables are largely produced. Cattle require little care, are not housed in winter, and large numbers are raised and shipped to Havana. Hogs fatten on the roots and mast of the forest. Sponge is found on many parts of the coast. Manufactures of pine-lumber, ship-timber, tar, rosin, turpentine, cotton-seed-oil and cake, palmetto hats and braids; salt is made by solar evaporation; cigars are manufactured at Key West in large quantities. The number of manufacturing establishments in the State in 1880, was 426; amount of capital invested in them, \$3,210,680; total number of hands employed, 5,504; amount paid in wages, \$1,270,875; value of materials used, \$3,040,119; value of products, \$5,546,448. There are considerable fisheries.

There are 39 Counties in Florida. Newspapers are published in 31.—Cities, towns, and villages in which papers are published number 58, of which 29 designated by a dagger (†) are county-seats. Of the 94 papers which insert advertisements published in the State, 6 are daily, 4 semi-weekly, 77 weekly, 1 bi-weekly and 6 monthly.

## ALABAMA.

Population 1,262,505.....Dem. Plur.in 1884. 33,829

Colored pop., 600,103.

Gbk. vote, 762; Prohib. 610.

STATE CAPITAL, MONTGOMERY.

ALABAMA is bounded north by Tennessee, east by Georgia and Florida, south by Florida and the Gulf of Mexico, and west by Mississippi. Its extreme length north to south is 336 miles, breadth varying from about 150 to 200 miles; land area, 51,540 square miles. The Alleghany range enters the State at the northeast, and extends towards the centre, finally losing itself in mere hills; then follows a tract of rolling prairies, interspersed with pine barrens and exceedingly rich alluvial bottoms, including the cane-brake region, one of the richest cotton producing districts in the world. From this to the Florida border and the Gulf the land is generally flat. This part is thinly settled, and is mostly covered with pine forests. North of this is the broad belt of rich black soil, a space of several miles in breadth, constituting the great cotton producing section of the State. The soil then becomes sandy and poor, but abundant water-power renders it capable of becoming a fine manufacturing district. The mineral region occupies the northeast part, while the northwest is a good agricultural and stock-raising country. Cotton is grown throughout the State, but mainly in the central belt alluded to; tobacco chiefly in the north; very fine wheat in the north and northeast; rice in the south; corn largely all over the State. Dairy products, fruits, wool, oats, and sweet potatoes are produced in considerable quantities. Manufactures have been unimportant until lately, when considerable increase has been manifested, but agriculture is by far the leading industry. The chief manufactures are flour, lumber, leather, cotton goods and cotton gins, thread and yarn, iron, and machinery. The number of manufacturing establishments in the State in 1880, was 2,970; amount of capital invested in them, \$9,668,008; total number of hands employed, 10,019; amount paid in wages, \$2,500,504; value of materials used, \$8,545,520; value of products, \$13,565,504. Commerce centres at Mobile. Cotton and lumber are the chief exports. Extensive beds of brown hematite of an excellent quality are found in Bibb, Cleburne, Jefferson, St. Clair, Shelby, and Talladega Counties. There are other extensive beds of ore. The coal fields contain thick fields of bituminous coal of several kinds; considerable gold has been mined; silver and copper are also found; potter's, porcelain and fire clays, hydraulic limestone, manganese and many other minerals exist in considerable quantities; there are various building-stones. The statuary granite and white marble of Coosa County and the variegated marbles of Talladega and adjacent counties are not surpassed by any in the country.

There are 66 Counties in Alabama. Newspapers are published in 62.—Cities, towns, and villages in which papers are published number 82, of which 60 designated by a dagger (†) are county-seats. Of the 132 papers which insert advertisements published in the State, 9 are daily, 116 weekly, 1 bi-weekly, 4 semi-monthly, and 2 monthly.

# MISSISSIPPI.

Population 1,131,597.....Dem. Maj. in 1884, 33,001

Colored pop , 650,291.

STATE CAPITAL, JACKSON.

MISSISSIPPI is bounded north by Tennessee, east by Alabama, south by the Gulf of Mexico and Louisiana, and west by the Mississippi River, which separates it from Louisiana and Arkansas. Its extreme length from north to south is 332 miles; average breadth, 142 miles; land area, 46,340 square miles. The surface is generally hilly or undulating, except in the Mississippi bottom, from Vicksburg to the Tennessee line, and between the Mississippi and Yazoo rivers, where it is low and swampy, subject to inundation and covered with a dense growth of timber, but with soil which, if reclaimed, would be exceedingly fruitful. Below Vicksburg the surface for some miles inland is hilly, and known as the "cane hills" or "bluffs," and with a generally productive soil. There is a very fertile prairie region in the northeast. The southern part is chiefly a level pine region, and furnishes good pasturage and large quantities of timber, tar, turpentine, etc. The soil of this tract is poor and sandy. Cotton and corn are the great staples. Wheat is grown in the north, and rice and sugar-cane in the south. Grazing is an important industry, much pork is fattened, and the clip of wool is large. Dairy products, sorghum, tobacco, and sweet potatoes are produced in considerable quantities. The manufactures are neither varied nor very extensive, lumber and grist-mill products being the most important. The number of manufacturing establishments in the State in 1880, was 1,479; amount of capital invested in them, \$4,727,600; total number of hands employed, 5,827; amount paid in wages, \$1,192,645; value of materials used, \$4,667,183; value of products, \$7,518,302. Its commerce is carried on principally through New Orleans and Mobile; coasting and river trade large. The State has no coal or iron of practical value. Its mineral deposits are confined mainly to fertilizers, soft limestone and clays. Tishomingo County has large beds of fine pipe and potter's clay; there is also some sandstone suitable for rough masonry.

There are 75 Counties in Mississippi. Newspapers are published in 63. — Cities, towns, and villages in which papers are published number 81, of which 60 designated by a dagger (†) are county-seats. Of the 124 papers which insert advertisements published in the State, 4 are daily, 4 tri-weekly, 113 weekly, and 3 monthly.

# LOUISIANA.

Population 939,946.....Dem. Maj. in 1884, 16,182

Colored pop., 489,655.

Gbk. vote, 438.

STATE CAPITAL, BATON ROUGE.

LOUISIANA is bounded north by Arkansas and Mississippi, east by Mississippi and the Gulf of Mexico, south by the Gulf of Mexico, and west by Texas. Its extreme length from east to west is about 300 miles, and breadth 240 miles; land area, 45,420 square miles. Surface generally low and level. There are low hills in the north and northwest, from which the land slopes gradually to the Mississippi and the Gulf. Much of the land along the river is below the surface at the spring freshets, and is protected from overflow by the levees, which are built on both banks below Baton Rouge, and on the west bank throughout the State. Many of the principal rivers and bayous are protected in like manner. It is estimated that one fifth of the surface of the State is liable to more or less frequent inundation. The soil of the river-bottoms is exceedingly fertile, and yields large crops of cotton, sugar-cane, rice, etc. Its prairies are not generally productive, but afford good pasture in places. The hilly section yields good cotton crops, but is largely covered with pine barrens. The great staples are cotton, sugar, rice, and corn. The State produces nearly all the sugar made in the United States. The yield of rice is very large, and the quality excellent. Cattle-raising is an important interest. The manufacturing interests are not large. The leading industries are lumber, naval stores, castings, machinery tobacco, clothing, flouring-mill products, cotton-seed oil, and ship building. The number of manufacturing establishments in the State in 1880, was 1 553; amount of capital invested in them, \$11,462 468; total number of hands employed; 12,167; amount paid in wages, \$4 360,371; value of materials used, \$14,442,506; value of products, \$24,205,183. Its commerce, carried on chiefly through New Orleans, is extensive and important. Iron-ores, ochre, gypsum, and marl are abundant; large deposits of sulphur in the southwest, and an immense amount of solid rock-salt on Petit Anse Island.

There are 58 Parishes in Louisiana. Newspapers are published in 54. — Cities, towns, and villages in which papers are published number 62, of which 48 designated by a dagger (†) are parish capitals. Of the 115 papers which insert advertisements published in the State, 9 are daily, 1 tri-weekly, 2 semi-weekly, 93 weekly, 1 bi-weekly, 8 monthly, and 1 quarterly.

STATE CAPITAL, AUSTIN.

TEXAS is bounded north by New Mexico, the Indian Territory, and Arkansas, east by the Indian Territory, Arkansas, and Louisiana, southeast by the Gulf of Mexico, southwest by Mexico, and west by New Mexico; greatest length about 825 miles; greatest breadth about 740 miles; land area, 262,290 square miles. From the Sabine River to the Trinity River is the great timber region, generally level and sandy in the south, rolling and fertile in the north. From the Trinity to the Colorado is prairie, timbered along streams, with an extensive forest in the north called the "Cross Timbers." Western Texas embraces the counties between the Colorado and Rio Grande; four-fifths of it is prairie; timber generally confined to banks of streams. Between the Colorado and the Brazos Rivers are the Comanche and Leon River Mountain ranges. In the north and northwest are the Church and Double Mountains, and the surface is generally broken until the Llano Estacado, or Staked Plain, is reached, when the surface is gently undulating, and vegetation scanty. Between the Pecos and Rio Grande are several ranges, sometimes attaining an elevation of 5,000 feet. The chief crops are cotton, corn, and wheat. The former two may be grown in nearly any part of the State, but especially in the eastern and central sections; the latter chiefly in the north and centre. Sea island cotton is grown on the coast. Sugar cane is raised chiefly on the Brazos and other rivers, near their mouths, and rice in the southeast. Oats, barley, tobacco, and sweet and white potatoes are grown to a moderate extent. Swine thrive on the abundant mast of the forests. The chief occupation westward is stock-raising and wool-growing. Figs and oranges thrive in the south. Manufacturing interests are increasing. The number of manufacturing establishments in the State in 1880, was 2,996; amount of capital invested in them, \$9,245,561; total number of hands employed, 12,159; amount paid in wages, \$3,343,087; value of materials used, \$12,956,269; value of products, \$20,719,828. There are immense deposits of copper along the line of the Texas Pacific Railroad; coal, timber, limestone, soapstone and iron are found in the same region. Argentiferous galena is found in large quantities in northwestern Texas; immense quantities of magnetic iron in Mason, Llano, and the western counties. There is a field of bituminous coal about 6,000 square miles in extent, and a field of anthracite in Brown, Coleman, Comanche, and Hamilton Counties. Salt is produced in large quantities from springs in El Paso, Lampasas, and Llano Counties; asphaltum is abundant. Large quantities of salt-petre are found in Blanco and Burnet Counties; marble and roofing-slate, grindstones, pott and fire-clays, marl, and other fertilizers are found in great quantities.

There are 225 Counties in Texas. Newspapers are published in 142.—Cities, towns, and villages in which papers are published number 204, of which 128 designated by a dagger (†) are county-seats. Of the 369 papers which insert advertisements published in the State, 40 are daily, 1 tri-weekly, 3 semi-weekly, 300 weekly, 8 semi-monthly, 14 monthly, and 3 quarterly.

## STATE CAPITAL, LITTLE ROCK.

ARKANSAS is bounded north by Missouri, east by Missouri, Tennessee, and Mississippi, south by Louisiana, southwest by Texas, and west by the Indian Territory; greatest length from north to south, 240 miles, and breadth from 170 to 250 miles; land area, 53,045 square miles. The eastern part is low and level, with dense forests and many swamps and lakes, and is frequently more or less inundated by the Mississippi, Arkansas, and other rivers. The surface rises toward the centre, where it is hilly and diversified with forests and rolling prairies. Further west are branches of the Ozark Mountains, comprising the Black Hills in the north, Cane Hills in the northwest, and the Ouachita Hills in the south. The Valley of the St Francis, in the northeast, is nearly all swamp; the soil is very varied. The river bottoms are very fertile, and yield large crops of cotton, corn, sweet potatoes, tobacco, and fruit. The soil is less productive on the uplands, but in many places, especially north, produces good crops of wheat, oats, etc. Cotton is the chief staple; corn next. Hay is an important crop. The principal manufactures are flour and grist-mill products, cotton-gins, leather, wool-carding, and lumber. The number of manufacturing establishments in the State in 1880, was 1,202; amount of capital invested in them, \$2,953,130; total number of hands employed, 4,557; amount paid in wages, \$925,358; value of materials used, \$4,392,980; value of products, \$6,756,159. Coal, argentiferous galena, zinc, copper, and iron, marble, grindstone, granite, and kaolin are among the minerals. Good coal is mined in Crawford, Conway, Franklin, Johnson, Perry, Pope, Pulaski, Sebastian, Scott, Washington, White, and Yell Counties. Silver is found in connection with galena in Pulaski and Sevier Counties, and with lead in Benton, Carroll, Independence, Izard, Lawrence, Madison, Marion, Newton, Randolph, Searey, and Washington Counties; excellent marble, especially in Madison County. Slate for all purposes is quarried in Pike, Pulaski, Polk, and Sevier Counties; Grant and Hot Springs Counties have extensive quarries of Arkansas home or oil-stone. Among the mineral springs, the "Hot Springs of Arkansas," at Hot Springs, Garland County, are the most renowned.

There are 75 Counties in Arkansas. Newspapers are published in 67.—Cities, towns and villages in which papers are published number 92, of which 61 designated by a dagger (†) are county-seats. Of the 146 papers which insert advertisements published in the State, 11 are daily, 2 semi-weekly, 130 weekly 2 semi-monthly, and 1 monthly.

STATE CAPITAL, FRANKFORT.

KENTUCKY is bounded north by Ohio and Indiana, northwest by Illinois, east by West Virginia and Virginia, south by Tennessee, and west by Missouri; greatest length from east to west, 350 miles; greatest breadth, 178 miles; land area, 40,000 square miles. The surface in the east and southeast is mountainous, being broken by numerous parallel ranges of the Alleghany system, with deep valleys. Northwest of this section is the famous Blue Grass Region, with a gently undulating upland surface, with deep valleys at the rivers. Between the Green and Cumberland Rivers the surface is level and known as the "Barrens," with occasional low round-topped hills, which are covered with oaks. The western part is generally level, varied by slight undulations. The soil is generally fertile, that portion between Lexington and the Ohio River especially so, being commonly known as the "Garden of Kentucky." The chief products are tobacco, corn, wheat, oats, rye, barley, potatoes, and hemp. Kentucky has acquired a world-wide fame for its thoroughbred horses and short-horn cattle. The wool clip is very large, and immense numbers of swine are raised. Dairy products are very extensive; also sorghum-molasses, maple-sugar, honey, and wax; some cotton is raised in the southwest, near the Tennessee, Cumberland, and Mississippi rivers. The manufacturing interests are varied and important, and are carried on chiefly in the towns on the Ohio River; the most extensive industry is the smelting and working of iron. The number of manufacturing establishments in the State in 1880, was 5,328; amount of capital invested in them, \$45,813,039; total number of hands employed, 37,391; amount paid in wages, \$11,657,844; value of materials used, \$47,461,890; value of products, \$75,483,377. Whisky is an important product of the central counties. Salt is made in large quantities from the springs of Clay and other counties. Coal and iron deposits are the most valuable minerals of this State; it has excellent building-stone; silver-ore is found near Cumberland Falls.

There are 118 Counties in Kentucky. Newspapers are published in 87 — Cities, towns, and villages in which papers are published number 97, of which 79 designated by a dagger (†) are county-seats. Of the 197 papers which insert advertisements published in the State, 13 are daily, 4 tri-weekly, 7 semi-weekly, 150 weekly, 7 semi-monthly, and 16 monthly.

Colored pop., 408,151. Gbk. vote, 957; Prohib. 1,151.

STATE CAPITAL, NASHVILLE.

TENNESSEE is bounded north by Kentucky and Virginia; southeast by North Carolina; south by Georgia, Alabama, and Mississippi; west by Arkansas and Missouri; greatest length from east to west 432 miles, breadth 109 miles; land area, 41,750 square miles. The State is popularly divided into East, Middle, and West Tennessee. East Tennessee comprises the eastern mountain border, the beautiful East Tennessee Valley, and about half of the Cumberland Mountain plateau. Middle Tennessee reaches from about the center of the plateau to the Tennessee River, and is a region of fertile terraces, including the vast elliptical basin of nearly 5,000 square miles, known as the Garden of Kentucky. West Tennessee extends from the Tennessee River to the Mississippi, and is somewhat broken in the east, succeeded by a rolling plain descending to the latter river. The Mississippi bottom is a low, flat, alluvial plain, covered with forests and abounding with lakes and swamps. West Tennessee is extremely fertile, and produces corn and cotton in large quantities. Middle Tennessee is generally fertile, giving excellent grain, tobacco, and much cotton, especially toward the south. East Tennessee valley lands are fertile, producing corn, cotton, and winter-wheat; potatoes, oats, hay, and hemp are extensively produced; great numbers of stock are raised, and the wool-clip is large and excellent. Tennessee is rich in marble of various kinds, limestone and other building-stone; valuable copper mines exist in Polk County; coal and iron-ore are very abundant. Iron mining and smelting is becoming very extensive, and much iron-ore is exported to the iron-working towns on the Ohio River. The lumbering interest is very great. Wool-carding and cloth-dressing are carried on extensively. Flouring and grist-mill products are very large. Union County contains zinc and lead mines. Colored marbles are found in immense quantities in East and West Tennessee; roofing-slates in East Tennessee; hydraulic limestone in East, Middle and West Tennessee; there are also building limestone, sandstone, and granite, fire and potter's clay.

There are 96 Counties in Tennessee. Newspapers are published in 71 — Cities, towns and villages in which papers are published number 81, of which 67 designated by a dagger (†) are county-seats. ## OHIO.

Gbk. vote, 5,170; Prohib. 11,269,

## STATE CAPITAL, COLUMBUS.

OHIO is bounded north by Michigan and Lake Erie, east by Pennsylvania and West Virginia, south by West Virginia and Kentucky, and west by Indiana; greatest length from east to west 225 miles; greatest breadth 200 miles; land area, 40,700 square miles. The general character of the surface is that of a plateau from about 800 to 1,000 feet above the sea. The most prominent feature is the great divide which separates the drainage of Lake Erie from that of the Ohio River. This passes diagonally across the State from Trumbull County in the northeast to Mercer and Darke Counties in the west. Its average height is about 600 feet above the lake; and from it the surface slopes gradually northward toward the lake and southward toward the River. The rivers and streams have excavated deep valleys, which give to the surface its distinctive undulating or rolling character. The soil is universally fertile; and Ohio holds a leading position in every branch of agriculture. The uplands are well suited to wheat, the southern slope of the water-shed to grain generally, the northern slope for grazing and dairying, and the northeast section or Western Reserve especially so. The bottom lands of the Miami, Muskingum, and Scioto rivers are very rich in corn; the Western Reserve and Miami regions are famous for apples. Flax and linseed are staple products, and tobacco is largely grown in most of the southern counties. The fishing interests of Lake Erie are important. The manufactures of the State are very numerous and valuable. Iron, pork-packing, farm implements, clothing, flouring and grist mill products, lumber, malt and distilled liquors being among the most important. The number of manufacturing establishments in the State in 1880, was 20,699; amount of capital invested in them, \$188,939,614; total number of hands employed, 173,609; amount paid in wages \$62,103,800; value of materials used, \$215,334,258; value of products, \$348,298,890. Coal underlies a greater part of the State; iron-ore is abundant, especially in the south; salt is very largely produced from springs; petroleum is an important product, also lime and cement. Good grindstones and building-stones are obtained at Amherst, Berea (Berea grit), Buena Vista, and Independence. There are excellent qualities of limestone and sandstone for building, especially at Massillon and Dayton. Marl deposits abound in the Maumee Valley and other points. There are good pottery and fire-clays, the fire-bricks of Mineral Point being among the best in the United States. Cleveland, Massillon, Youngstown, and the towns on the Ohio River are the chief seats of the iron manufacture, which includes pig, forged, and rolled; iron castings and sheet iron works, rails, Bessemer steel rails, etc.

There are 88 Counties in Ohio. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 314, of which 88 designated by a dagger (†) are county-seats. Of the 853 papers which insert advertisements published in the State, 71 are daily, 5 tri-weekly, 13 semi-weekly, 612 weekly, 2 bi-weekly, 12 semi-monthly, 1 every three weeks, 96 monthly, 4 bi-monthly, and 7 quarterly.

# INDIANA.

**Population 1,978,301..... Dem. Plur. in 1884, 6,512**

Gbk. vote, 8,293; Prohib. 3,028.

STATE CAPITAL, INDIANAPOLIS.

INDIANA is bounded north by Michigan and Lake Michigan, east by Ohio, south by Kentucky, and west by Illinois. Its extreme length north and south is 276 miles; average breadth 140 miles; land area, 35,910 square miles. About two thirds of the surface is undulating or level prairie; near the Ohio and other streams the surface is hilly and often abrupt and rugged. In the extreme northwest there is a sandy tract, with considerable marsh-land. The northeast abounds in oak-openings and prairie land, interspersed with many small lakes. The soil is generally fertile, much of it exceedingly so; the richest is found along the Wabash, White, and White Water Rivers. There is abundance of coal of good quality. The iron manufacture is extensive, Indiana coal being particularly suited to its manufacture, but the ores used come mainly from the Lake Superior region, Missouri, and Tennessee. Indiana has some bog-ore and local deposits of better grades which have been worked to some extent. There are some salt-springs, good sandstone, limestone, fire-brick, potter's clays, and kaolin. Indiana ranks high as a grain-producing and stock-raising State. Corn, wheat, oats, tobacco, and potatoes are raised in large quantities. Butter, wool, hay, maple-sugar, and sorghum-molasses also, are important products; timber is largely exported. Manufactures are numerous and extensive, the chief industries being flouring and grist-mill products, lumber, woolen goods, furniture, carriages and wagons, iron and iron-ware, machinery, agricultural implements, pork-packing, liquors, metallic wares, leather, boots, shoes, and clothing. The number of manufacturing establishments in the State in 1880, was 11,198; amount of capital invested in them, \$65,742,962; total number of hands employed, 69,508; amount paid in wages, \$21,960,888; value of materials used, \$100,262,917; value of products, \$148,006,411.

There are 92 Counties in Indiana. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 213, of which 92 designated by a dagger (†) are county-seats. Of the 538 papers which insert advertisements published in the State, 63 are daily, 3 tri-weekly, 1 semi-weekly, 416 weekly, 1 bi-weekly, 7 semi-monthly, 1 every three weeks, 43 monthly, 1 bi-monthly, and 2 quarterly.

# ILLINOIS.

Population 3,077,871 ..... Rep. Plur. in 1884, 24,827

Gbk. vote, 10,849; Prohib 12,005.

## STATE CAPITAL, SPRINGFIELD.

ILLINOIS is bounded north by Wisconsin, northeast by Lake Michigan, east by Indiana, southeast and south by Kentucky, and west by Missouri and Iowa; extreme length north and south 385 miles; extreme breadth 218 miles; land area, 56,000 square miles. The surface is mostly level table-land, inclining gently toward the south, with bluffs along the principal rivers. A small tract in the northwest, around Galena, is somewhat broken, and a low mountain ridge extends across the southern end from Grand Tower, on the Mississippi River, to Shawneetown, on the Ohio, about 850 feet above sea-level. This is a great fruit region. The prairies are sometimes level, but generally undulating. More than two-thirds of the State is a productive bituminous coal-field. The iron-ore is good only when mixed with Michigan and Missouri ores. Lead and zinc are mined extensively in the northwest. Copper-ore, gypsum, and marble are found in various places. Limestone and freestone abound. The prairie soils are deep and fertile; that of the river bottoms is often inexhaustible. A tract called the American Bottom, extending along the Mississippi River a length of ninety miles by about five in breadth, has an alluvial soil about twenty-five feet in depth. Illinois is unexcelled as an agricultural State, and is among the first in manufactures. Spring and winter wheat, corn, and other cereals, dairy produce, wool, and hay, are leading products. The industrial pursuits embrace a wide range of articles, and the seats of manufacture are distributed generally throughout the State. The number of manufacturing establishments in the State in 1880, was 14,549; amount of capital invested in them, \$140,652,066; total number of hands employed, 144,727; amount paid in wages, \$57,429,085; value of material used, \$289,843,907; value of products, \$414,864,673. Fishing interests center chiefly at Chicago.

There are 102 Counties in Illinois. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 416, of which 102 designated by a dagger (†) are county-seats. Of the 1,089 papers which insert advertisements published in the State, 87 are daily, 2 tri-weekly, 17 semi-weekly, 812 weekly, 3 bi-weekly, 17 semi-monthly, 139 monthly, 3 bi-monthly, and 9 quarterly.

## MICHIGAN.

Population 1,636,937.....Rep. Plur. in 1884, 3,308

Prohib. vote, 18,408.

STATE CAPITAL, LANSING.

MICHIGAN is bounded north by Lake Superior, east by Lakes Huron, St. Clair, and Erie, and their connecting rivers, south by Ohio and Indiana, and west by Lake Michigan; land area, 57,430 square miles. It consists of two peninsulas, of which the southern is the principal seat of wealth and population. It is a very level region, abounding in lakes and streams, with very extensive forests of pine and other timber in the north, oak-openings or natural parks in the south, and prairies in the southwest. The soil contains sufficient sand to make it easily tilled, and few sections excel this part of the State as a farming region. In the west and southwest is the great fruit-belt. Winter wheat, oats, and potatoes are abundant and of excellent quality; corn and other cereals are largely grown. Dairy products are very valuable. Wool is raised in very large quantities; live-stock is plentiful. Peppermint is raised extensively in the southwest, and grapes in the south. The surface of the northern peninsula is generally rough and mountainous, with a severe climate and poor soil; but its mineral wealth is very great, especially in copper, iron and silver. Large quantities of iron-ore are mined and shipped to Pennsylvania, Ohio, Indiana, and Illinois to be smelted either alone or with the inferior ores found in those States. Marquette, Ishpeming, Negannee, and Escanaba are the the points of shipment. By far the most important copper mines of the country are in this State. There is a large quantity of coal, used chiefly for local and railroad purposes. The salt-producing territory covers about 8,000 square miles, and the value of the product in 1880 was more than double that of New York State: it is procured from artesian wells, and the Saginaw River is the chief centre of manufacture. Michigan ranks first among the States in the value and extent of its lumber product. Gypsum, fire-clay, and glass-sand are also found. Manufactures are important and varied in extent. Among the leading are iron, lumber, salt, woodenware, furniture, farm implements, leather, cotton and woolen goods, machinery, castings, and hollow-ware. The number of manufacturing establishments in the State in 1880, was 8,873; amount of capital invested in them, \$99,930,959; total number of hands employed, 77,591; amount paid in wages, \$25,313,682; value of materials used, \$92,900,269; value of products, \$150,715,025.

There are 80 Counties in Michigan. Newspapers are published in 77. — Cities, towns, and villages in which papers are published number 277, of which 74 designated by a dagger (†) are county-seats. Of the 563 papers which insert advertisements published in the States, 40 are daily, 1 tri-weekly, 9 semi-weekly, 473 weekly, 2 bi-weekly, 8 semi-monthly, 29 monthly, and 1 quarterly.

**Population 1,315,497.....Rep. Plur. in 1884, 14,698**

Gbk. vote, 4,598; Prohib. 7,656.

STATE CAPITAL, MADISON.

WISCONSIN is bounded north by Lake Superior, northeast by Michigan, east by Lake Michigan, south by Illinois, and west by Iowa and Minnesota. Its greatest length from north to south is 300 miles; greatest breadth, 260 miles; land area, 54,450 square miles. The surface is generally an elevated plain, with high bluffs along the rivers and lakes, and elsewhere gently undulating, diversified with prairie, woodlands, and numerous lakes. The State ranks high in agricultural products. The forest region in the north is but thinly settled, has a rigorous climate, and the soil is poor. Wheat, corn, rye, oats, barley, potatoes, dairy products, and maple-sugar are all raised in large quantities; hops are exceedingly prolific; fruit-growing is an important industry. Large numbers of horses are bred; sheep are numerous, and the wool clip large and valuable. Copper-ore is worked at several points; galena limestone, lead, and zinc in the southwest, chiefly near Mineral Point. One of the best hydraulic cements comes from the neighborhood of Milwaukee. ## IOWA.

Population 1,624,615. . . . . Rep. Plur. in 1884, 19,796

Prohib. vote, 1,472.

## STATE CAPITAL, DES MOINES.

IOWA is bounded north by Minnesota, east by Wisconsin and Illinois, south by Missouri, and west by Nebraska and Dakota. Its greatest length from east to west is 300 miles, and breadth 208 miles; land area, 55,475 square miles. The surface is generally rolling prairie, with no mountains nor even high hills, but with frequent bluffs along streams; and in places near large rivers it presents a broken appearance, caused by erosion from torrents. The southern part is the most level, beautifully diversified with prairies, groves, and the numerous affluents of the two great rivers. In the northeast the surface is more elevated, with numerous low hills with tops covered with oaks, and abounding in lead and other ore; but the distinguishing feature of Iowa is its beautiful diversified prairies, which are everywhere fertile and easily tilled, and having few stones or stumps, are especially adapted for the use of agricultural machinery. The valleys of the Red Cedar, Iowa, and Des Moines rivers contain the richest soils; northward of these the soil becomes less fertile, but still productive and remunerative. Building-stone is abundant; coal and lead are very extensively worked. Iron-ore and other minerals are found. The cereals generally, dairy and market-garden products, wool, linseed, sorghum, and live-stock of all kinds are very largely produced. Grapes grow well in the south, and fruit-culture is increasing. The manufacturing interests are rapidly developing, the leading branches being flour, lumber, wood-working, carriages, woolen goods, boots and shoes, pork-packing, saddlery, furniture, malt liquors, and farm implements. The number of manufacturing establishments in the State in 1880, was 6,921; amount of capital invested in them, \$93,987,886; total number of hands employed, 28,372; amount paid in wages, \$9,725,962; value of materials used, \$48,704,311; value of products, \$71,045,926.

There are 99 Counties in Iowa. Newspapers are published in all—Cities, towns, and villages in which papers are published number 348, of which 97 designated by a dagger (†) are county-seats. Of the 689 papers which insert advertisements published in the State, 41 are daily, 10 semi-weekly, 596 weekly, 1 bi-weekly, 5 semi-monthly, and 36 monthly.

# MINNESOTA.

Population 780,773.....Rep. Plur. in 1884, 41,620

Gbk. vote, 3,583; Prohib., 4,684

STATE CAPITAL, ST. PAUL

MINNESOTA is bounded north by British America, east by Wisconsin and Lake Superior, south by Iowa, and west by Dakota. Its extreme length from north to south is 380 miles; breadth varies from 183 miles in the center to 262 on the south line, and about 330 on the north border; land area, 79,205 square miles. The surface is generally an undulating plain, diversified with rolling prairies, dotted with lakes and groves, with frequent timber belts. The northeast is generally rugged and hilly, with immense forests and much marsh-land. The Red River Valley is a dead level. The southeast is a beautiful rolling prairie region, while the surface rises from the undulating prairies of the south and southwest to the Hauteur des Terres or Heights of Land in the northwest. It is thought that the northeast may develop valuable mineral resources, but the yield of minerals is at present unimportant. The soil is fertile, about two thirds of it being adapted to the cultivation of cereals and general farm produce. Very large quantities of spring wheat are raised even as far as the Manitoba line, while corn grows well all over the State. Oats, barley, hops, flaxseed, and hay are leading products. Wool-growing is remunerative in the southwest. Maple-sugar is an important product. Cattle, horses, and swine are largely exported, and pork-packing is a valuable industry. Manufactures are rapidly increasing in number and value. The leading branches are flour and grist mill products, lumber and woodenware, carriages, furniture, and cooperage, while boots and shoes, brick, leather, lime, saddlery, and woolen goods are also extensively manufactured. The number of manufacturing establishments in the State in 1880, was 3,493; amount of capital invested in them, \$31,004,811; total number of hands employed, 21,247; amount paid in wages, \$8,613,094; value of materials used, \$55,660,681; value of products, \$76,065,198.

There are 80 Counties in Minnesota. Newspapers are published in 74 — Cities, towns, and villages in which papers are published number 159, of which 70 designated by a dagger (†) are county-seats. Of the 300 papers which insert advertisements published in the State, 17 are daily, 1 semi-weekly, 265 weekly, 4 semi-monthly and 13 monthly.

# KANSAS.

**Population 996,096** ..... **Rep. Plur. in 1884. 64,274**  
Colored pop., 48,107. Gbk. vote, 16,341; Prohib. 4,465.

STATE CAPITAL, TOPEKA.

KANSAS is bounded north by Nebraska, east by Missouri, south by the Indian Territory, and west by Colorado. Its length from east to west is 410 miles, and from north to south 210 miles; land area, 81,700 square miles. The surface is chiefly undulating in the east, while the western part has a rolling and varied surface, with every requisite for grazing. There are no mountains, very few lakes, and those small and shallow; no marshes but salt marshes, and these are valuable; probably only five per cent. of the area is forest, and this distributed mainly along streams and in occasional groves and small tracts. The western half, however, is very scantily supplied with timber, but there is an abundance of coal, which is used for domestic purposes, but not for export, and several varieties of good building-stone. The bottom and table lands are chiefly a rich black loam, and highly productive. Winter and spring wheat, corn, rye, oats, and potatoes are the chief products, while broom-corn, sorghum, flax, hemp, castor-beans, tobacco, and hay are also largely produced. Cattle-raising is a prominent industry, and sheep farming is becoming frequent in the western part. Dairy products are increasing rapidly, and progress is also being made in fruit growing and wine-making. Manufactures are being developed, and the number of establishments is rapidly increasing, but at present the chief industries are agriculture, stock-raising, and fruit-culture. The number of manufacturing establishments in the State in 1880, was 2,803; amount of capital invested in them, \$11,192,315; total number of hands employed, 12,062; amount paid in wages, \$3,993,010; value of materials used, \$21,453,141; value of products, \$30,843,777.

There are 103 Counties in Kansas. Newspapers are published in 86.—Cities, towns, and villages in which papers are published number 264, of which 80 designated by a dagger (†) are county-seats. Of the 491 papers which insert advertisements published in the State, 27 are daily, 441 weekly, 1 bi-weekly 18 monthly, 2 bi-monthly and 2 quarterly.

## NEBRASKA.

Population 452,402.....Rep. Plur. in 1884, 22,512

Prohib vote, 2,899.

STATE CAPITAL, LINCOLN.

NEBRASKA is bounded north by Dakota, east by Iowa and Missouri, south by Kansas and Colorado, and west by Colorado and Wyoming Territory. Its extent from north to south is about 210 miles; greatest length about 420 miles; land area, 76,185 square miles. The surface is generally a vast gently undulating plain, with a gradual ascent toward the mountains; the river bottoms are level. There are some bluffs along the Missouri River, some hills in the northwest, which is also partly occupied by the Mauvais Terres or Bad Lands. The Missouri is the only navigable river. East of the Bad Lands and south of the Niobrara is a tract of sand hills which affords some pasturage. Timber is scarce. There is little coal, and that poor, but peat abounds. Brick and potter's clay plentiful, and there are extensive saline deposits; good building-stone abundant. The eastern half of the State is a rich agricultural region, and the west is mainly adapted to grazing; the bottom lands are very rich. The leading products are wheat, corn, barley, oats, sorghum, flax, and hemp; vegetables, small fruits, and grapes are raised extensively. More than 150 species of wild grasses have been classified, which afford excellent pasturage to large numbers of cattle and sheep. There is some manufacturing of various articles, chiefly needed for home consumption. The number of manufacturing establishments in the State in 1880, was 1,403; amount of capital invested in them, \$4,881,150; total number of hands employed, 4,793; amount paid in wages, \$1,742,311; value of materials used, \$8,203,478; value of products, \$12,627,336.

There are 78 Counties in Nebraska. Newspapers are published in 73 — Cities, towns, and villages in which papers are published number 182, of which 62 designated by a dagger (†) are county-seats. Of the 330 papers which insert advertisements published in the State, 18 are daily, 1 semi-weekly, 296 weekly, 4 semi-monthly, and 11 monthly.

# COLORADO.

**Population 194,327.....Rep. Plur. in 1884, 8,563**  
Gbk. vote, 1,961; Prohib. 762.

STATE CAPITAL, DENVER.

COLORADO is bounded north by Nebraska and Wyoming Territory, east by Nebraska and Kansas south by the Indian Territory and New Mexico, and west by Utah. Average length from east to west 380 miles, breadth, 280 miles; land area, 103,645 square miles. The surface consists of three divisions—the mountains and parks, the foot-hills, and the plains. It is intersected near the center by the Sierra Madre Range of the Rocky Mountains, including the highest peaks, among which are Pike's and Long's Peaks, Mts. Torrey, Lincoln, Gray, Yale, Harvard, the Spanish Peaks, etc. The mountains enclose the wonderful valleys or basins known as parks, many of which are small, but others larger than some entire States. These parks are well timbered, and abound with beautiful scenery, being diversified with low hills and ridges, which contain the sources of all the great rivers that rise in the State. The eastern part of Colorado is an immense plain, well adapted to stock-raising. Agriculture is not carried on to any great extent, as extensive irrigation is in most cases necessary to render the soil productive. Where this is resorted to, the yield is very good. Cattle raising and sheep farming are the chief agricultural pursuits. Lumbering is an important industry, but the mining of gold, silver, and other metals is the chief source of wealth. The number of manufacturing establishments in the State in 1880, was 599; amount of capital invested in them, \$4,311,714; total number of hands employed, 5,074; amount paid in wages, \$2,314,427; value of materials used, \$8,806,762; value of products, \$14,260,159.

There are 40 Counties in Colorado. Newspapers are published in 36—Cities, towns, and villages in which papers are published number 62, of which 32 designated by a dagger (†) are county-seats. Of the 146 papers which insert advertisements published in the State, 24 are daily, 115 weekly, 1 semi-monthly, 5 monthly, and 1 bi-monthly.

STATE CAPITAL CARSON CITY.

NEVADA is bounded north by Oregon and Idaho, east by Utah and Arizona, and southwest and west by California. Extreme length from north to south, 485 miles in the eastern, and 210 in the western boundary; greatest breadth, 320 miles, decreasing to 310 miles in the north and to a point in the south; land area, 109,740 square miles. Surface generally is a table-land about 4,000 feet above the sea, traversed by nearly parallel mountain ranges, between which are valleys varying in width from 5 to 20 miles, in some cases narrow canyons, and in others broad deserts, covered with sage-brush and other scanty herbage, the soil when irrigated is fertile, and produces spring wheat, barley, oats, potatoes, butter, hay, wool, etc. There is much good pasturage, and cattle fatten readily upon it. Cotton and sub-tropical fruits do well in the south. It has for years been the leading State in the production of the precious metals. The milling and smelting of ore is the leading manufacturing pursuit. The number of manufacturing establishments in the State in 1880, was 184; amount of capital invested in them, \$1,323,300; total number of hands employed, 577; amount paid in wages, \$461,807; value of materials used, \$1,049,794; value of products, \$2,179,626. Lumber sawing, once important, is declining, owing to the rapid disappearance of the forests.

There are 15 Counties in Nevada. Newspapers are published in 13—Cities, towns, and villages in which papers are published number 16, of which 11 designated by a dagger (†) are county-seats. Of the 28 papers which insert advertisements published in the State, 12 are daily, and 16 weekly.

## CALIFORNIA.

Population 864,694.....Rep. Plur. in 1884 13,128

Gbk. vote, 2,017; Prohib, 2,920.

STATE CAPITAL, SACRAMENTO CITY.

CALIFORNIA is bounded north by Oregon, east by Nevada and Arizona, south by Lower California, and west by the Pacific Ocean. A line drawn through its center, following the curves of the eastern and western borders, would measure about 770 miles. Its greatest breadth is about 330 miles; least breadth, 150 miles; average breadth, 230 miles; land area, 155,980 square miles. It is the largest State in the Union except Texas. The surface is traversed by two great ranges, the Sierra Nevada in the east and the Coast Range in the west, while between them is the beautiful and fertile valley of the rivers Sacramento and San Joaquin. The Yosemite and other valleys are on the western slope of the Sierra Nevadas, and the eastern slope teems with minerals. The north is an elevated mountain region, with a rugged surface and poor soil. The soil of a large part of the State is very deep and rich, and the yield of agricultural products generally is very great. The wheat crop sometimes amounts to over 13,000,000 bushels, and the wool-clip to 24,000,000 pounds. As many as 5,000,000 gallons of wine and 150,000 gallons of brandy have been made in a single season. Dried fruits are extensively produced; oranges, lemons, and other tropical fruits, and honey, are raised in the south, and tobacco, corn, barley, and hops in various parts of the State. Indeed, California is famous for her wheat, wool, vineyard produce, and agricultural products generally, scarcely less than for her yield of the precious metals. Manufacturing interests are growing rapidly, the principal being lumber, flour, woollens, wine, brandy, tobacco, cigars, machinery, and metallic wares. The number of manufacturing establishments in the State in 1880, was 5,885; amount of capital invested in them, \$61,243,784; total number of hands employed, 43,693; amount paid in wages, \$21,065,905; value of materials used, \$72,607,709; value of products, \$116,218,973. There is considerable fishing and coasting-trade.

There are 52 Counties in California. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 128, of which 51 designated by a dagger (†) are county-seats. Of the 386 papers which insert advertisements published in the State, 61 are daily, 4 tri-weekly, 7 semi-weekly, 276 weekly, 2 bi-weekly, 4 semi-monthly, 31 monthly, and 1 bi-monthly.

STATE CAPITAL, SALEM.

OREGON is bounded north by Washington Territory, east by Idaho, south by Nevada and California, and west by the Pacific Ocean; average length from east to west, about 360 miles; average breadth, about 260 miles; land area, 94,560 square miles. It is divided unequally by the Cascade Mountains. East of this range the surface is generally undulating table-land, with high cone-like hills and deep canyons. Between the Cascade and Coast Ranges is the Willamette Valley, 40 miles wide by 140 miles long, and exceedingly fertile; from the Coast Range westward the surface is mountainous, hilly, and broken. This section is suited for wool-growing, stock-raising, and the growth of winter wheat, barley, oats, and hay. The eastern portion does better as a stock-raising region, but good wheat is grown there. In the valley, wheat, hops, tobacco, wool, flax, fruit, linseed, dairy products, and potatoes are raised in large quantities. Corn does not thrive, as the summers are too cool. Manufactures are lumber—the large Douglas spruce affording the best masts and spars in the world; leather, boots and shoes, saddlery, milling and smelting of ores, carriages, furniture, liquors, linseed-oil, etc. The number of manufacturing establishments in the State in 1880, was 1,080; amount of capital invested in them, \$6,312,056; total number of hands employed, 3,473; amount paid in wages, \$1,667,046; value of materials used, \$6,954,486; value of products, \$10,931,232. The packing of beef and pork, and canning of salmon are successfully carried on. Gold and silver are produced, but not in very large amounts; copper and iron-ore are abundant; clay, glass-sand, granite, marble, etc., are plentiful.

There are 26 Counties in Oregon. Newspapers are published in 24.—Cities, towns, and villages in which papers are published number 38, of which 22 designated by a dagger (†) are county-seats. Of the 81 papers which insert advertisements published in the State, 8 are daily, 3 semi-weekly, 67 weekly, and 3 monthly

# ARIZONA.

Population 40,440..... Rep. Maj. in 1884, 1,152 (Congressional.

Chinese pop., 1,630.

## TERRITORIAL CAPITAL, PRESCOTT.

ARIZONA is bounded north by Utah and Nevada, south by New Mexico, and west by California and Nevada; land area, 112,920 square miles. It lies entirely within the Valley of the Colorado. The streams generally flow through deeply eroded chasms. The soil is very fertile when irrigated, even on the alkaline plains; and the mountain lands are well adapted to stock-raising and wool-growing. Wheat, barley, and corn appear to be the principal crops; but pastoral occupations are better suited to the country, and more profitable than strictly agricultural pursuits. The chief wealth of the Territory, however, lies in its mineral deposits. Gold, silver, lead, copper, iron, cinnabar, salt, borax, etc., abound, and the mining and working of gold and silver ores is at present the leading industry. The number of manufacturing establishments in the State in 1880, was 66; amount of capital invested in them, \$272,600; total number of hands employed, 220; amount paid in wages, \$111,180; value of materials used, \$380,023; value of products, \$618,365.

There are 10 Counties in Arizona. Newspapers are published in 9.—Cities, towns, and villages in which papers are published number 12, of which 9 designated by a dagger (†) are county-seats. Of the 30 papers which insert advertisements published in the Territory, 10 are daily, and 20 weekly.

## DAKOTA.

**Population 135,177** ..... **Rep. Maj. in 1884, 56,455** (*Congressional*).

### TERRITORIAL CAPITAL, BISMARCK.

DAKOTA is bounded north by Manitoba, east by Minnesota and Iowa, south by Nebraska, and west by Wyoming and Montana; land area, 147,700 square miles. It is intersected by the Missouri River, which is here navigable. Most of the eastern part is dry, rolling prairie, with many lakes and streams. The southwest contains large tracts of the Bad Lands, while to the north and west of this region are the Black Hills. Some of the highlands and river bottoms are well wooded, but the Territory as a whole is rather deficient in timber. The soil is exceedingly varied; that of the Bad Lands and some high land is inarable, but the Missouri River bottoms are exceedingly fertile. The northeast or Pembina country is a fine wheat section, as are also the prairie lands along the line of the Northern Pacific Railroad and the smaller river bottoms. Corn and other cereals, potatoes, tobacco, etc., grow well in the south. A great part of the Territory affords every requisite for successful stock-raising. Gold and silver are found in the Black Hills. The number of manufacturing establishments in the State in 1880, was 251; amount of capital invested in them, \$771,428; total number of hands employed, 868; amount paid in wages, \$339,375; value of materials used, \$1,523,761; value of products, \$2,378,970.

There are 128 Counties in Dakota. Newspapers are published in 75. — Cities, towns, and villages in which papers are published number 193, of which 62 designated by a dagger (†) are county-seats. Of the 307 papers which insert advertisements published in the Territory, 26 are daily, 274 weekly, 6 monthly and 1 quarterly.

## IDAHO.

Population 32,610. .... Dem. Maj. in 1884, 786 (Congressional).  
Chinese pop, 3,379.

## TERRITORIAL CAPITAL, BOISE CITY.

IDAHO is bounded north by British Columbia, east by Montana and Wyoming, south by Utah, and west by Oregon and Washington; land area, 84,290 square miles. The surface is chiefly mountainous, but there are also large tracts of prairie and fertile valleys. In the southeast is a volcanic region, abounding in geysers and saline springs. It is generally better adapted for grazing than for agriculture. Corn is not profitably raised, owing to the shortness of the summer. Barley, wheat, oats, potatoes, dairy products and wool are the staples. There are vast tracts covered with sage-grass, on which cattle fatten readily. Many of these plains, if irrigated, would make excellent wheat-growing districts. Gold and silver are plentiful in all parts of the territory, and are largely produced. The number of manufacturing establishments in the State in 1880, was 162; amount of capital invested in them, \$677,215; total number of hands employed, 388; amount paid in wages, \$136,326; value of materials used, \$844,874; value of products \$1,271,317.

There are 15 Counties in Idaho. Newspapers are published in 10.—Cities, towns, and villages in which papers are published number 17, of which 8 designated by a dagger (†) are county-seats. Of the 28 papers which insert advertisements published in the Territory, 4 are daily, 1 tri-weekly, 3 semi-weekly 19 weekly and 1 monthly.

## MONTANA.

**Population 39,159.** . . . . . **Dem. Maj. in 1884, 199** (*Congressional*).

Chinese pop., 1,765.

TERRITORIAL CAPITAL, HELENA.

MONTANA is bounded north by British America, east by Dakota, south by Wyoming and Idaho, and west by Idaho; land area, 145,310 square miles. Surface generally mountainous, especially in the west. Along the three forks of the Missouri River, as well as elsewhere through the Territory, there is much undulating prairie, with a fertile soil. The Missouri River is navigable to Fort Benton; the Yellowstone is also navigable. Perhaps nowhere else are such advantages offered to the stock-raiser and wool-grower as are here found. Very little hay or winter foddering is needed, the stock feeding on the rich grasses and ranging all winter in the sheltered valleys. Of agricultural staples, spring wheat, potatoes, butter, barley, oats, and vegetables are the most prominent. The chief minerals are gold and silver, of which large quantities are obtained. Leading manufacturing interests are lumber-sawing, quartz milling and stamping, flour, etc. The number of manufacturing establishments in the State in 1880, was 196; amount of capital invested in them, \$899,390; total number of hands employed, 578; amount paid in wages, \$318,759; value of materials used, \$1,006,442; value of products, \$1,835,867.

There are 13 Counties in Montana. Newspapers are published in 12. — Cities, towns, and villages in which papers are published number 17, of which 12 designated by a dagger (†) are county-seats. Of the 35 papers which insert advertisements published in the Territory, 7 are daily, 2 semi-weekly, 21 weekly and 5 monthly.

## NEW MEXICO.

Population 119,565.....Rep. Maj. in 1884, 2,341 (Congressional).

TERRITORIAL CAPITAL, SANTA FE.

NEW MEXICO is bounded north by Colorado; east by the Indian Territory and Texas, south by Texas and Mexico, and west by Arizona; land area, 122,460 square miles. Its general surface is a region of high plateaus, traversed by mountain ranges with isolated peaks. The valleys are generally nearly level, and their soil fertile when irrigated. In the east is a part of the barren "Llano Estacado" or "Staked Plain." Stock-raising and wool-growing are the leading occupations, the bunch-grass affording rich pasturage, and neither hand-feeding nor shelter is ever necessary for the herds and flocks. Agriculture is successful only when irrigation is resorted to, and wheat, corn, beans, and onions are the chief crops. Of fruits, the apple, peach, melon, fig, apricot, pomegranate, and especially grapes, flourish. Gold, silver, copper, iron, and lead exist, and all are being extensively worked. Manufactures are confined principally to grain, quartz, and lumber milling, manufacturing wines and brandies, the making of blankets by the Navajo Indians, and coarse pottery by the Pueblos. The number of manufacturing establishments in the State in 1880, was 144; amount of capital invested in them, \$463,275; total number of hands employed 557; amount paid in wages, \$218,731; value of materials used, \$871,352; value of products, \$1,284,846.

There are 13 Counties in New Mexico. Newspapers are published in 11—Cities, towns, and villages in which papers are published number 18, of which 10 designated by a dagger (†) are county-seats. ## UTAH.

**Population 143,963** ..... **Mormon Maj. in 1884, 18,905** (*Congressional*).

TERRITORIAL CAPITAL, SALT LAKE CITY.

UTAH is bounded north by Idaho and Wyoming, east by Wyoming and Colorado, south by Arizona; and west by Nevada; land area, 82,190 square miles. The surface is very mountainous, interspersed with arid plains, valleys, and basins; much of it is utterly sterile. Irrigation is nearly everywhere necessary but if a perfect system were adopted, much of the soil now worthless would produce good crops, as it contains most if not all of the elements of fertility. Wheat, oats, barley, corn, potatoes, dairy produce, hay, and wool are the chief products. Cattle-raising is a profitable industry, and is often successfully carried on where farming is impracticable. The chief wealth of the territory, however, is in its minerals. Gold and silver are largely produced, as are also lead, iron, copper, coal, and salt. Manufactures are chiefly those of goods needed for home consumption, but of late extensive works for the mining and smelting of ores have been established. The number of manufacturing establishments in the State, in 1880, was 640; amount of capital invested in them, \$2,656,657; total number of hands employed, 2,495; amount paid in wages, \$858,863; value of materials used, \$2,561,737; value of products, \$4,324,992.

There are 24 Counties in Utah. Newspapers are published in 9. — Cities, towns, and villages in which papers are published number 10, of which 8 designated by a dagger (†) are county-seats. Of the 28 papers which insert advertisements published in the Territory, 6 are daily, 6 semi-weekly, 10 weekly, 2 semi-monthly, and 4 monthly.

# WASHINGTON.

**Population 75,116.....Dem. Maj. in 1884, 148 (Congressional).**

(Chinese pop., 3,186.)

## TERRITORIAL CAPITAL, OLYMPIA.

WASHINGTON is bounded north by British Columbia, east by Idaho, south by Oregon and west by the Pacific Ocean; land area, 66,880 square miles. It is divided by the Cascade Mountains into two distinct sections. The western is a heavily timbered country, rugged and broken, with a few fertile prairies. The eastern has extensive plains, although it has also some broken surface; timber, as a rule, much less abundant. This section is admirably adapted to stock-raising, the soil of its prairies well suited for agriculture; but the chief agricultural region, however, is in the western section, although corn does not thrive so well there, because the summers are too cool. Wheat, barley, oats, hay, and butter are the chief crops; a little gold and silver are mined; salt abounds on the Spokan Plain, and there is good coal. The chief article of export is lumber; some ship-building is carried on. There is considerable fishing, especially salmon, the canning and salting of which is a prominent industry. The number of manufacturing establishments in the State, in 1880, was 261; amount of capital invested in them, \$3,302,497; total number of hands employed, 1,147; amount paid in wages, \$532,226; value of materials used, \$1,967,469; value of products, \$3,250,134.

There are 32 Counties in Washington. Newspapers are published in 21.—Cities, towns, and villages in which papers are published number 30, of which 19 designated by a dagger (†) are county-seats. ## STATE LISTS

COMPRISE

### Over One Thousand Country Papers

Of the best class, within the States of IOWA, NEBRASKA, COLORADO, KANSAS, MISSOURI, MINNESOTA, TEXAS, DAKOTA, MICHIGAN, ILLINOIS AND INDIANA, and have in the aggregate over

#### THREE MILLION WEEKLY READERS.

They are made up of **FARMERS' PAPERS**, and are edited with a special view to the interests and necessities of the farmer.

The Agricultural and Home Departments of each paper are full and complete, and it is a fact that these country papers have come to take the place largely of the purely Agricultural weeklies. In these papers the husbandman and the housewife find their work and their general interests quite as intelligently discussed as in the more pretentious journals.

<b>DES MOINES LIST</b> .....	<b>120 Newspapers</b>

<b>INDIANAPOLIS LIST</b> .....	<b>60 Newspapers</b>

<b>SIOUX CITY LIST</b> .....	<b>80 Newspapers</b>
\$0.80 per line, each insertion.	

The papers embracing the above combination of lists go into over **600,000 homes** in the Great West each week and are read by over **3,000,000 people**.

Our plan varies considerably from that of other Auxiliary Publishers. We cater exclusively to the publishers of the State in which the publication office is located, giving such reading matter and news as are of particular interest to the people of that State. The plan commends itself to publishers, and is deservedly popular. It has aided materially in bringing to us the patronage of the largest and best weekly papers of each State.

The West is the place for the enterprising man to advertise, and the Western Newspaper Union Lists the medium. Rates are \$8 per line for entire combination. Liberal discounts on large orders.

Please examine catalogue carefully.

## 150,000 Copies. What Does it Mean?

It is almost impossible for any one to get a proper idea of the enormous number of papers meant by 150,000 copies. It represents 125 miles of paper, and if the sheets were piled on top of each other it would make a monument almost three times as high as ordinary four-story buildings.

It would cost to print and mail 150,000 circulars about three thousand dollars (\$3,000), while a column advertisement in FARM AND FIRESIDE will cost only about \$160, and an inch card would cost only \$14.

The circular would cost about two cents for each person reached. A column in FARM AND FIRESIDE would cost only one tenth of a cent for each person reached, and an inch card will cost only one hundredth of a cent for each person.

The circular will be thrown away. FARM AND FIRESIDE will be preserved for at least two weeks, and a large portion of them filed away for future reference.

FARM AND FIRESIDE has paid-in-advance subscribers at **20,674** Post-offices (numbering from 1 to 305 Subscribers at each Post Office), as follows:

A NEW YORK EDITOR'S ACKNOWLEDGMENT OF THE ENORMOUS  
SALES OF "THE DAILY NEWS."

The following extract from the speech of Mr. Whitelaw Reid, at the annual banquet of the Typothetae, held at the Hoffman House, New York, January 17, 1885, is taken from *The American Stationer*:

"One of the most widely circulated newspapers in the world is *La Petite Journal*, which claims a circulation of seven hundred thousand—and if a certain New York journalist is here to-night he will be ready within a week with affidavits to prove that he has done so also. But *La Petite Journal* is hardly a newspaper. The London *Telegraph* is certainly a very great one, and has the next widest circulation, and of newspapers, it has the largest. We have a journal in New York which comes next to it: it is not even the *Herald* or the *Sun*, or that latest—a comet which has shot athwart our horizon—but the journal with the widest circulation on the American continent, and I think the third largest in the world, is represented at this table, and if the gentlemen allow Colonel Brown, of the NEW YORK DAILY NEWS, to sit at this table and not respond, they will not be worthy of their noble craft."  
[Great applause]

In response to the call, Colonel William L. Brown responded briefly.

 CINCINNATI OHIO.

From the New York *Journalist*:

"The *Evening Post* has spent \$20,000 for new perfecting presses, which it expects to have in place and running by May 4, 1885, when it will enlarge to seven columns still selling at one cent. The *Post* is more than four years old. It began on the cheapest plan, using an old six-cylinder Hoe Press, for which they paid \$800. It now owns its own building, has a large force, spends money without hesitation whenever necessary, is perfectly independent even to "sassiness," and with the largest circulation in the city, exercises a powerful influence in municipal affairs."

ONLY \$1.00 PER YEAR, SINGLE COPY, 10 CENTS.

This splendid family Magazine is illustrated by the best artistic talent obtainable, and the efforts of printers, pressmen, and paper-makers are taxed to the utmost to make it perfect.

Speaking of this Magazine E. P. ROE writes us:—"The magazines are interesting from beginning to end. There is nothing cheap about the publication except the price."

CHARLES DUDLEY WARNER writes us:—"I am amazed that you can afford to publish such a very handsome periodical at so little cost to the subscriber."

OSCAR WILDE writes us:—"It is exceedingly well printed and the paper is excellent. Its tone is the tone of cultivated appreciation of the best of things."

BILL NYE writes us:—"It is a luxury to get hold of such a publication."

DON PIATT writes us:—"I can afford the money if you can afford the publication."

EMILE ZOLA, from far-away France, writes us:—"LITERARY LIFE is in every way excellent. We cannot have too many such publications which are the honor of a nation."

H. I. M., THE EMPEROR OF BRAZIL, wrote for a year's subscription as soon as he saw a copy of LITERARY LIFE. These are but a few of hundreds of such letters received by us from the most famous people living that help to show something of the character of the circulation of LITERARY LIFE.

"LITERARY LIFE is a publication that Chicago may feel proud to sustain."—*Chicago Inter-Ocean*.

"LITERARY LIFE is a gem of literary information—one of the best"—*Arkansas Traveler*.

"This Journal (LITERARY LIFE) is the best of its kind ever issued"—*St. Louis Evening Chronicle*.

"LITERARY LIFE is a valuable periodical."—*San Francisco Argonaut*.

"LITERARY LIFE helps to make Chicago one of the literary centers of the country"—*Boston Beacon*.

Its circulation of fully Thirty Thousand is composed almost exclusively of the more wealthy, intelligent, and refined class of people, and extends to the four corners of the civilized world. An advertisement in its pages is a *permanent* investment and is not stale or dead in twenty-four hours, nor in a week, but lives from month to month and is often kept for years. The size of its page is the same as that of *Harper's Monthly* or the *Century*. Rates will be furnished upon application and sample copies on receipt of ten cents in stamps.

# JEWISH ADVOCATE

DEVOTED TO HUMANITY, JUDAISM, AND LITERATURE.

REV. RAPHAEL D. C. LEWIN, EDITOR AND PUBLISHER.

The principles upon which this paper is conducted may be thus briefly summarized:

JUDAISM is not a mere sectarian faith, but is a world-embracing religion; hence, every project having for its object the welfare and happiness of the human race should be of paramount interest to every Jew. **THE JEWISH ADVOCATE**, therefore, earnestly endeavors to promote every measure calculated to overthrow bigotry, intolerance, and superstition; to advance mankind in true religious knowledge, and to unite all God's children in a common bond of brotherhood.

As an exponent of Judaism, it maintains a perfectly independent position. It is above party spirit, and will never become the organ of any clique, congregation, or individual. It studies the welfare of the general body of Israelites, and uses every legitimate means for their elevation and advancement.

As a literary journal, it aims to diffuse useful knowledge and in its columns will always be found good, chaste, and interesting reading matter. The best effusions of the great Jewish writers, both of ancient and modern times, form a prominent feature of the paper.

**THE JEWISH ADVOCATE** has for several years labored faithfully to become worthy of the great cause it serves, and it points with pride to its past course as evidence of the truth of this assertion. That course will be steadily adhered to in the future.

**TERMS: YEARLY SUBSCRIPTION, \$1.00, SINGLE NUMBERS, 10 CENTS.**

AS AN ADVERTISING MEDIUM for reaching the Jewish public **THE JEWISH ADVOCATE** is absolutely without a rival. Its circulation is considerably larger than that of any other Jewish journal, and it is read by intelligent Jews in almost every City, Town, and Village in the United States.

# EVENING PENNY PRESS

PITTSBURGH, PENNA.

C. W. HOUSTON, BUSINESS MANAGER.

This paper is one of the recent phenomenal successes in the line of cheap journalism in this country. It started with a double cylinder Hoe Press. The rapid increase of its circulation compelled the purchase of a four-cylinder Hoe Press within a few months. On April 1, 1885, this press was supplanted by a Perfecting Web Printing Machine of the latest pattern, the purchase of which was made imperative by the demands of a constantly growing circulation that could not be handled by a press with a capacity of but 10,000 copies per hour. The average daily circulation of the PENNY PRESS for March, 1885, was 17,950 copies. This circulation is distributed in the cities of Pittsburgh and Allegheny, and in all the villages and country towns of Western Pennsylvania and Eastern Ohio. The PENNY PRESS recently took possession of the handsomest and most complete newspaper quarters in the City of Pittsburgh.

## The Inter Ocean Is Published Every Day in the Year.

The first number of THE INTER OCEAN was published the 25th day of March, 1872, and from that time it has steadily grown in favor with the people of the West and Northwest, which territory it covers more fully than any of its contemporaries.

Through its various editions, THE INTER OCEAN has a larger circulation than any other newspaper west of the Alleghenies.

The character of THE INTER OCEAN'S circulation is of the very best. In its position as the Leading Republican Newspaper of the Northwest, it has made patrons of not only the most intelligent people, but also those best able to purchase and pay for what they want.

Weekly papers are sent to subscribers almost entirely by mail, and the amount of pound postage paid is the best index of their circulation. The pound postage paid by THE INTER OCEAN on circulation for the year 1884 was \$25,421.02; this is more than twice the sum paid by any other Chicago paper.

Special estimates made for large contracts on application to

### North Chautauqua News

(Formerly Silver Creek Local.)

SILVER CREEK AND FORESTVILLE, NEW YORK.

GEORGE M. BAILEY, Editor and Proprietor.

The News, is an 8-page weekly paper, printed entirely at home (is not a "patent inside"), and is devoted to the interests of Chautauqua County—one of the richest and most populous in the State. It is printed for, and dated at the sister villages of Silver Creek and Forestville, having an aggregate population of 3,500. It is the *only* paper published in the five northern townships of Chautauqua. Circulation, 1,000, sworn.

Chautauqua is a great manufacturing center. More milling machinery is made in Silver Creek than in any other town in the world. Hundreds of locomotives are built at Dunkirk annually. Chautauqua Lake, the great Summer Resort, is but 30 miles from Silver Creek. Considering these facts advertising in this community pays.

Suppose you let us try your "ad." for a season. We would like to estimate on all kinds of job-printing, commercial work especially.

# THE DAILY AND WEEKLY DISPATCH

RICHMOND, VIRGINIA.

THE DISPATCH COMPANY, PUBLISHERS.

Advertisers will find that THE DISPATCH is incomparably the best medium in Virginia for reaching *buyers* amongst merchants, manufacturers, farmers, mechanics, miners, railroad companies, colleges, schools, ministers, lawyers, physicians, State, town and county officials, and all classes of our people. It is the leading Democratic newspaper. It is published at the capital of the State, which has a population of 72,000; Manchester (on the opposite side of the river) has 7,000, and Richmond's suburbs 5,000—total 84,000. Six railroads center here, two of which control over 6,000 miles of railroads. Its 714 manufactories have an invested capital of \$11,325,430, employ 16,597 workmen, and sold in 1883, \$28,297,061 of products. The jobbing trade of Richmond in 1883 amounted to \$19,500,000. The whole of Virginia is prospering and is an attractive field for advertisers. Within ten years one and a half million acres have been added to the area under cultivation, making over twenty millions of acres of farming land in use, while the increase in staple farm products has been greater than the increase in acreage. There are over 2,500 miles of railroad in our territory, 600 miles of which were built in the past four years, and there are now 200 miles more under construction. New towns, villages, furnaces, factories and mills have sprung up on these great highways of trade. The value of Virginia manufactures increased from \$51,819,692 in 1880 to \$103,621,384 in 1883. Our foreign and inter-State commerce has quadrupled in the past ten years.

THE DAILY DISPATCH has a larger circulation in Richmond than the combined circulation of all the other daily newspapers of the city. Outside of Richmond its circulation is larger than any daily newspaper in the State. It is served by newsdealers and carriers in all our principal towns and on railroad passenger trains. THE WEEKLY DISPATCH more thoroughly covers all the counties of the State than any newspaper published in Virginia.

Sworn statements of the circulation of the DAILY and WEEKLY DISPATCH will be furnished advertisers. They will thus know how much they get for what they pay.

For schedule of advertising rates address, THE DISPATCH COMPANY, RICHMOND, VA., or any reputable advertising agent.

## The Massachusetts Eclectic Medical Journal

31 CORNHILL, BOSTON, MASS.

The largest and best Medical journal for the price published.

\$1.00 a year, in advance.

48 pages of closely-set reading matter monthly. THE JOURNAL celebrated its fourth birthday Jan. 1884, by reducing the price from \$2.00 per year to \$1.00. This important change was made because it wished to reach a large class of physicians who feel unable to pay \$2.00 for a monthly periodical. THE JOURNAL is one of the best Medical journals printed; it is also the cheapest, for there is no other first-class 48-page journal published for one dollar. Convinced that the change should be made, THE JOURNAL was fortunate enough to be able to make it. The result confirms the wisdom of the step it took, for its circulation has never been so large; its profits have never been so great as during the current year. Its original communications are from the ablest writers in the Eclectic school; its selections from the best home and foreign medical literature. Send for sample copy.

## REMINISCENCE OF THE WAR

Not only does the passion for this class of literature show the great revival of interest in the Rebellion, but the ardor with which Decoration Day is observed, the excursions to old battle grounds, and the reunions of veterans, both North and South, corroborate the assertion that the late war has receded, in a measure, into the realm of calm history and delightful reminiscence, of romance, and cherished memories. In other words,

## POINTS TO KEEP IN MIND:

### ALWAYS

*Use only the best mediums.*

*Take large circulations, and thus pay wholesale prices.*

*Choose a paper that has some moral reason for its existence.*

*Bear in mind that capital invested in advertising is as secure as any other, and is governed by the same rules.*

*Demand absolute proof of circulation claimed.*

### NEVER

*Take a paper because it is cheap, simply.*

*Waste your money painting other people's fences.*

*Accept representations that you would not trust in another branch of your business.*

*Forget that the truth is easily substantiated as to circulation;—provided the publisher wishes to prove his claims.*

WASHINGTON CITY POST OFFICE—MISCELLANEOUS DIVISION.

WASHINGTON, D. C., December 29, 1884.

THE NATIONAL TRIBUNE, WASHINGTON, D. C.

Gentlemen: In reply to your letter of this date, requesting a statement of the amount of postage paid on second class matter by "THE NATIONAL TRIBUNE," for the year 1884, I would state that the books of this office show that the sum of \$16,484.06 was paid during said year.

Very respectfully, FRANK B. CONGER, Postmaster.

THE NATIONAL TRIBUNE, Washington, D. C.

BEANCH OFFICE: Room 118 Tribune Building, New York City.—BYRON ANDREWS, Manager.

[OVER.]

HELLO! HELLO! HELLO!

# I'M PUCK!

I COME FROM PUCKVILLE, PUCK COUNTY, PUCKANSAW,  
AND I AM ALL HERE.

Why do I want to take you by your lily-white hand, and lead you away into a corner, and talk with you? Do I want to tell you where you can find a dumb barber, or a landlord who is too bashful to collect his rents?

No, not particularly. I simply wished to corral your attention, and induce you to answer the following questions:

1.—Where do you see PUCK?

*Answer.*—Everywhere.

2.—Where don't you see PUCK?

*Answer.*—Nowhere.

You don't see PUCK nowhere? That is not grammar. You mean there is nowhere that you don't see PUCK.

But what are the facts?

Here they are: In the Gilded Halls of Luxury, in the Humble Hovel of Honest Poverty, in the Barber Shop, in the Millionaire's Private Office, in the Establishment of the Dispenser of Spirituous Refreshment, in the Sunday School, in the Library of every Military Post and Man-of-War, in the Workshop, in the Reading Room, in the Cafe,

in the Library, in the Parlor, in the Third story back room, in the Legislative Halls, in the Chamber of Commerce, in the Russian Bath, in the hotel, in the Billiard Room, in the Boudoir, in the Sick-room, in the Doctor's Office, in

the Palace Car, on the Steamship, in every Club Reading-room, on every respectable Newsdealer's Stand, you see PUCK.

Everybody reads PUCK everybody talks about PUCK.

Have you not observed that in places where no other illustrated paper is to be found, PUCK is always on hand.

Is there ever a political crisis, or a great social event, when people do not say, "Wonder what PUCK will have about it next week?"

Oh, you have noticed these little things? Well, we thought you had. Very well then, what is the logical conclusion to be drawn therefrom?

That PUCK is the best paper to advertise in. Therefore,

## ADVERTISE IN PUCK.

His rates for English Edition are \$1.00 PER AGATE LINE FOR EACH INSERTION. Discounts: 5 per cent. on 50 lines, 7½ per cent. on 100, 10 per cent. on 200, 15 per cent. on 300, 20 per cent. on 500, 25 per cent. on 1000

For German Edition, 25 CENTS PER AGATE LINE EACH INSERTION. Discounts: 10 per cent. on 100 lines, 15 per cent. on 200, 20 per cent. on 300, 30 per cent. on 500, 40 per cent. on 1000.

They are good healthy rates; but if you want to have a good thing you must pay fairly for it; and you are not overcharged when

### PUCK Lends You His Circulation to Benefit Your Business.

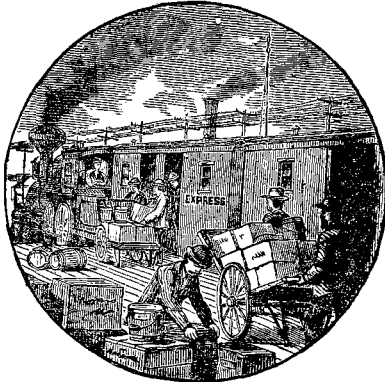

Now sit down in your easy-chair and look over the list of the papers you advertise in, and judge for yourself if there is one that gives you so much circulation, of so good a sort, as PUCK gives you for the money.

Listen to my warbling, and set the gray matter in your convoluted brain to work, and if you want more information on this subject you may write to

## AS AN ADVERTISING MEDIUM

It possesses advantages which commend it to the Ice Dealers and manufacturers of such goods as are used by them, and who wish to bring their business prominently before the public. ## STATEMENT UNDER OATH.

Personally appeared before me, Dr. W. H. Hale, Proprietor of HEALTH AND HOME, who, being duly sworn, deposeth and saith that the *bona-fide* circulation of HEALTH AND HOME exceeds **165,000** each issue exclusive of sample copies, and for the six months ending December, 1884, that its average circulation was over **300,000** each issue, including sample copies.

*Notary Public in and for the District of Columbia.*

ADVERTISING RATES: Display Notices, \$1.00 per line; Reading Notices, \$1.50 per line.  
(All notices are measured agate; fourteen lines make an inch.)

**CUTS—SELECTED POSITIONS.**—We make no extra charge for cuts or selected positions; hence those who send their favors earliest will always secure “top of column,” or “next reading matter,” providing such requests are made in the order.

**OUR MEASURE.**—Our columns are  $13\frac{1}{2}$  picas ( $2\frac{1}{4}$  inches) wide, and  $17\frac{1}{2}$  inches long. There are five columns to a page, and eight pages to the paper.

**DATE OF ISSUE.**—We go to press on the 15th of every month for the succeeding month, all copy must therefore be in our hands positively not later than on the morning of the 15th day of the month preceding the month of publication.

**OUR SUPPLEMENTS.**—We frequently find it necessary to issue supplements of two and four pages, the same size as the page of the paper. All matter received during the month preceding the month of publication, is usually placed on the supplement when published. These supplements, we should state are not like the ordinary “extra sheets” got out for the mere purpose to squeeze in advertisements, but are of equal, and sometimes more, value to the advertiser than the paper proper, on account of the large amount of reading matter they carry and the few ads.

Its field of selection embraces all the leading Foreign Reviews, Magazines, and Journals, and the tastes of all classes of intelligent readers are consulted in the articles presented. Its readers are of the BEST CLASS, and its circulation is largely among those of the highest education and refinement. The numbers of the ECLECTIC are not thrown aside as soon as read, but each number is preserved for at least one month, and advertisers can readily see the importance of this fact to them. As the number of advertising pages is limited, the chances of an advertisement being seen and read in the ECLECTIC are much greater than in any publication which devotes a larger space to this purpose. The aim of the ECLECTIC is to be instructive and not sensational, and it commends itself, particularly to that class of intelligent readers who desire to keep abreast of the intellectual progress of the age.

TERMS.—Single copies, 45 cents; one copy, one year, \$5; five copies, \$20. Trial Subscription for three months, \$1.00. The ECLECTIC and any \$4.00 magazine to one address, \$8 00.

# AMERICAN GRANGE BULLETIN

CINCINNATI, OHIO.

A LARGE EIGHT PAGE, FORTY-EIGHT COLUMN, WEEKLY FARMERS' PAPER.

THE AMERICAN GRANGE BULLETIN newspaper, as at present published, is now in its *eleventh year*. First and foremost, THE BULLETIN is an Agricultural Journal, reaching reliable and well-to-do farmers in the principal agricultural sections of the country, including the great West and Northwest, where it is specially strong. As the National representative of the only established farmers' organization, it becomes specially valuable to advertisers desiring to reach this class.

THE BULLETIN has an actual *bona fide* circulation of over **25,000** copies, and our subscription books are always open to examination of our patrons desiring to verify the statements made. It is especially prepared and edited by experienced agriculturists and journalists, with a view to furnishing the best agricultural, market and miscellaneous information.

As an advertising medium for reaching the progressive, well-to-do class of farmers, THE BULLETIN can not be excelled. Its subscribers are the representative men of their class, those who are able to buy and quick to appreciate anything of real merit, and advertisers testify that it brings splendid results, and rank it with the leading advertising mediums of the country.

THE BULLETIN long since entered the ranks of the progressive papers that give Square Statements of Circulation, and advertisers purchasing space are not venturing, but can make their calculations on a basis of *actual circulation*.

Representing over one million of the most intelligent and progressive farmers and their families in their Granges, Farmers' Clubs and other organizations with Farm, Horticultural, Live Stock, Poultry, Bee, Farmers Club, "Experimental Farm," Household and other Departments. A pure, high-toned paper in every respect.

THE CHARACTER OF A PAPER IS THE BEST INDEX OF THE CHARACTER OF ITS READERS.

The FARMERS' REVIEW is pre-eminently the paper of the Business Farmer. Why? Because it is the only paper which helps him to dispose of his products profitably. Its readers are MONEY-MAKING farmers. No advertiser who wants to reach the best Farmers of the Northwest can feel he has done so if his advertisement has not appeared in its columns.

# FORT WORTH DAILY GAZETTE

FORT WORTH, TEXAS.

THE GAZETTE COMPANY, PUBLISHERS.

THE LEADING DAILY PAPER IN THE GREAT NORTHWEST OF TEXAS.

---

# FORT WORTH WEEKLY GAZETTE

Circulating through the newly settled and thriving agricultural districts and rural towns.

Fort Worth is the metropolis of a tract of country richer in varied resources than any in the world, and equal in extent to the States of New York and Ohio combined. Advertisers will find a new and almost unexplored field in this vast territory.

The increase in population during the past eight years has been well-nigh incredible. In 1880, for instance, the population of Fort Worth was 8,645; it now includes over 25,000 people.

The growth of the towns along the lines of railroad centering at Fort Worth has been equally remarkable in proportion to the extent of territory.

Fort Worth is second only to Galveston, and threatens to surpass it in the near future.

**The Gazette** has no rival in this empire; and circulates along a belt of thriving settlements 870 miles long and from 300 to 700 miles wide.

**The Gazette** is the only newspaper in northwest Texas—and with one exception in the State—that attempts to be more than a local paper.

**The Gazette** has correspondents and agents in every town and settlement in the North, Northeast, and Northwest, and is fully supplied each day with special telegraphic news from all parts of the State.

**The Gazette** is unsurpassed as an advertising medium in Texas.

authorities throughout the country from Maine to Colorado. It is an advertising medium of unusual value.

double the circulation." Another states that "over one hundred orders with money enclosed were received in one  
week in response to my advertisement in the POPULAR EDUCATOR."

This magazine has represented on its subscription list Superintendents, Principals, School Commissioners

*The Best is the Cheapest.*

[OVER.]

# “High Water-Mark” Circulations.

---

THE CHICAGO DAILY NEWS has little interest in “high-water mark” circulations. Their purpose is generally to mislead. The exact circulation of *every* issue the year round is what the advertiser wants and has a right to know. If exceptional cases are alone to be published, the interests of advertisers would be best served by announcements of the “low-water mark.” The fact that the CHICAGO DAILY NEWS’ circulation for the year 1884 averaged **125,178 copies per day**, is of very much greater importance to the regular advertiser than that on a few days of very great public excitement it nearly doubled that figure.

---

## The LARGEST DAILY CIRCULATION in America.

---

THE CHICAGO DAILY NEWS believes that no other daily paper in America printed, during the year 1884, so large a total number of complete copies as would make an average daily issue equal to 125,178 papers. It demonstrates its own claim to this large circulation by a detailed statement, under oath, showing the exact number of papers printed on each publication day of the year, with the further guarantee of genuineness assured in its standing offer to show to any reputable advertiser all its books and accounts relating to circulation.

THE DAILY NEWS claims “**first place**” among the dailies of America **as to extent of circulation**, and will yield it only when displaced by a disputant who submits his claims to a like presentation and examination.

# THE NEW YORK TRIBUNE

THE BEST PAPER FOR AGRICULTURAL ADVERTISEMENTS.

Advertisers will find it profitable to be represented in the columns of the several issues of THE NEW YORK TRIBUNE. The Weekly is the favorite paper of the substantial and intelligent country population of the United States. It goes into the farm house in every State and Territory of the country. It is a well known fact that more TRIBUNE readers own their own houses in towns and farms in the country than those of any other paper. Owing to its large and prosperous constituency, advertisements in the TRIBUNE yield the best returns. Testimonials on this point are without number. As a newspaper the paper is held by readers of a quarter of a century, the best, purest and most valuable in the United States. It covers the whole field of interesting current news, reporting at any rate everything that is fit to be talked about at the family fireside, and doing it in a bright, wholesome and readable way. The paper is fearless and honest. Its present prosperity enables it to spend money abundantly, and it always has the best and latest information of whatever is going on of any account in this big and busy world. The paper is especially active in obtaining for its readers just what they want to know and what will be of solid value to them. Dr. Townsend of the Ohio University, says that it contains more that a man wants to know and less that one doesn't want to know than any other paper with which he is acquainted. THE TRIBUNE is not a local paper, but is printed for the continent, and for all trades and classes of men. It is read in the farm house, the workshop, the business office, the home, the mines, the school and the railway car, and its pages contain something of immediate interest and value for all who glance at them. THE TRIBUNE is the steadfast champion of Republican principles and of Protection to Agriculture and Industry. In this age every one must have a New York paper. In addition to the local paper for current news, men and women need the vast variety of special matter which only a great metropolitan paper can afford to collect and print.

## THE SEMI-WEEKLY TRIBUNE

has nearly all the news of the Daily, and is, in some respects, the best, as well as the cheapest paper sent out from THE TRIBUNE office. It is now delivered east of the Alleghanies on the day of publication; to subscribers west, nearly to the plains, on the day after. It contains all the literary, agricultural and domestic and miscellany, and all the special articles prepared for the Weekly. It has besides most of its editorial articles not strictly local in their application. It is printed in sixteen page form. It is measurably the most successful semi-weekly in the country, having now, as it has had for years, more than four times the circulation of any other semi-weekly issued in New York. It is especially adapted to a large class of intelligent people, who require also the literary and special information which is only found in the columns of a metropolitan paper.

## THE WEEKLY TRIBUNE

has the largest circulation of its class in the United States. Each week it contains a summary of all the news of the world condensed into such shape that busy men have time to read and enjoy. It contains the letters giving the best news from foreign lands, and from time to time others describing the resources, attractions and pursuits of different portions of the United States. It has a strong agricultural department, and good market reports, which are the official standard for the Dairymen's Association, and pages especially written for the benefit of the ladies of the families of its readers, giving accurate instructions in knitting, crochet and kindred subjects. It also prints every year several good novels and stories. THE WEEKLY TRIBUNE is, in fact, the best and cheapest paper in the country. A strong point of the paper is that it is printed in large, plain type.

**TERMS OF THE TRIBUNE:** DAILY TRIBUNE, \$8.50 per annum; WEEKLY TRIBUNE, \$1.25 per annum; SEMI-WEEKLY TRIBUNE, \$2.50 per annum. Postage free to the subscriber.

### THE MINNEAPOLIS TRIBUNE

Was first established as a morning paper in 1867, and made its regular appearance as a competitor of the *Pioneer Press*, until 1875, when by an adroit movement on the part of that newspaper, a majority of THE TRIBUNE stock was secured and the entire paper absorbed. During the period elapsing from 1875 to 1880 THE TRIBUNE appeared as an evening paper. As the city of Minneapolis began to distance St. Paul in their race to become great cities, the people of Minneapolis began to demand the fulfillment of a contract whereby the Associated Press franchise should be released by the *Pioneer Press*, whenever the citizens of Minneapolis should desire it, on payment of \$18,000. This the people demanded in 1880, and on payment of the sum named the *Pioneer Press* surrendered the franchise, quit publishing a paper here, and THE TRIBUNE was once more restored to its proper place as a morning newspaper. In October, 1884, Alden J. Blethen purchased the whole paper. Pending negotiation, Edwin B. Haskell, Editor in Chief of the *Boston Herald*, decided to take a half interest for the benefit of his son, Will E. Haskell, the present managing editor, and now part owner, and on December 1 THE TRIBUNE Company's stock was all transferred to the new purchasers.

#### SPECIAL NOTICE.

THE TRIBUNE owns the exclusive franchise of the Associated Press for Minneapolis. No other morning paper can be published without THE TRIBUNE'S consent. There is no morning paper published in the city of Minneapolis beside THE TRIBUNE. THE TRIBUNE daily sells more than 5,000 copies in the city of Minneapolis, and on Sundays the number is increased to nearly 10,000. There is not another city in the United States of 150,000 people in which an eight-page morning paper has reached this circulation. THE TRIBUNE mails daily throughout the Northwest nearly 4,000 copies to individual subscribers, and the newsmen in the Northwest daily sell some 2,000 more copies, making nearly 6,000 copies of THE TRIBUNE sold to people outside the city of Minneapolis.

MINNEAPOLIS, MINN., April 10, 1885.

TO WHOM IT MAY CONCERN: We, the undersigned, having made a careful examination of the actual circulation of the *Minneapolis Daily Tribune*, hereby certify that we find the published statements made by the Tribune Company of its Daily and Sunday circulation to be substantially correct as follows: As published for six days ending Saturday, April 4, average, 11,030; as found to-day, 11,276. As published Sunday, April 5, 16,100; as found, 15,605. We further find that the published statements made by the company showing a gradual and steady growth in the Daily and Sunday circulation of the Tribune, both in the city and throughout the Northwest, is substantially correct and very gratifying.

LACON, ILLINOIS.

WM. B. WHIFFEN, Editor and Proprietor.

A neat, well-printed, and wide-awake seven-column quarto. \$1.50 a year.

A BUSINESS ARGUMENT TO JUDICIOUS ADVERTISERS:

As the MARSHALL COUNTY DEMOCRAT represents the dominant party in politics in its county, which is the wealthiest and most intelligent portion of a well-to-do agricultural community, its circulation is large and its sphere of usefulness comprehensive. The opposite party is represented by three newspapers, and its readers element is cut up between them. Hence in a business view the influence of the DEMOCRAT is equal to all other Marshall County publications combined. It circulates largely in Woodford, Putnam and Peoria counties.

# THE WESTERN RURAL AND AMERICAN STOCKMAN

CHICAGO, ILLINOIS.

MILTON GEORGE, PUBLISHER.

Eastern Office: 21 PARK ROW, NEW YORK.

This Journal has an immense and influential circulation, covering all parts of the United States, and to some extent in foreign countries. It displays its advertising carefully, and classifies each with the department to which it belongs, so that, although it carries an immense amount of advertising, each advertisement, no matter how small, is placed in a position where it will be readily seen. Its advertising rates are very low in proportion to circulation, while the general testimony of advertisers is that it is the best medium for reaching the Agricultural classes.

**Schedule of Advertising Rates:** (Standard of Measure, Agate Type, 14 lines to the inch): On transient and ordinary advertisements not exceeding 500 lines, per line each insertion, **25c.**; 500 lines or more, single contract, to be used within one year from first insertion, per line, **20c.**; 1,000 lines or more, as above, per line, **15c.** Only reliable Advertisements inserted. No preferred space given. We give no discount from the above.

# THE GRAPHIC

CINCINNATI, OHIO.

O. O. HALL &amp; CO., Publishers.

AN ILLUSTRATED WEEKLY NEWSPAPER OF SIXTEEN PAGES.

THE ILLUSTRATED CINCINNATI GRAPHIC, the only paper of the kind published west of New York city, circulates all over the United States. The novelty of a Western illustrated paper has created a wide-spread interest in the GRAPHIC, that makes it as well known as the long established metropolitan journals.

The character of THE CINCINNATI GRAPHIC is such that it readily finds a welcome in families, while the excellence of its engravings, the finest and most varied that have ever appeared in any American journal, is sufficient to make it appreciated by all lovers of art and of the beautiful.

The distribution of the paper is in the hands of the News Companies, which insures its sale on all railway trains and at all important news stands in the United States.

The value of a weekly illustrated paper of the character of THE GRAPHIC as an advertising medium is evident. The illustrations attract attention to it. The reading matter is entertaining. The quality of the paper, expensive ink, and careful printing insure an expression to advertising matter that is valuable. Each issue lasts not only a week, but sometimes remains months on the table, or is bound in a volume. It is the one paper which every person in the house is sure to see and examine.

A feature to which special attention will be paid, is the *illustrating*, from sketches by our special artists, all events of interest occurring in the North, South and West particularly, our location giving us often the advantage in time of one week over the Eastern illustrated press. The subscription to THE GRAPHIC, including postage, is

THREE MONTHS, \$1.00; SIX MONTHS, \$2.00; ONE YEAR, \$4.00; SINGLE COPIES, 10 CENTS.

All Subscriptions are payable in advance.

In the event that your newsdealer does not handle THE GRAPHIC, ask him to order you a copy from Woodruff, Cox & Co., General Agents, Cincinnati, or inclose us ten cents for sample copy.

Should you desire to subscribe for three, six, or twelve months, send the proper amount by Post Office money order, postal note, draft, or registered letter, to

REACH THE LADIES THROUGH  
THE LEADING LADIES' MAGAZINE  
**DOMESTIC MONTHLY**

THE CHEAPEST GOOD MAGAZINE PUBLISHED.

The DOMESTIC MONTHLY is a beautifully illustrated magazine of 80 pages devoted to Fashion and Good Literature

IT HAS A LARGER CIRCULATION THAN ANY OTHER FASHION MAGAZINE.

NOTICE—CHANGE OF PRICE, ONE DOLLAR AND FIFTY CENTS PER YEAR.

Its FASHION NOTES AND ARTICLES are furnished by London, Paris, and Berlin *special* correspondents and illustrated by a corps of artists whose work is acknowledged to be the best of the kind in America. Articles appear every month upon all the departments of the costume, and every lady who would be well dressed should subscribe to the DOMESTIC MONTHLY. Among others there are articles every month upon WRAPS, STREET COSTUMES, HOUSE COSTUMES, MILLINERY, EVENING COSTUMES, CARRIAGE COSTUMES, UNDERWEAR, SHOES AND STOCKINGS, COIFFURE, LINGERIE, DOMESTIC ART, Etc., Etc., and especial attention is given to Misses' and Children's costumes, a department which is celebrated for its merit and from the fact that it is a subject almost untouched by the other fashion journals.

THE LITERARY DEPARTMENTS.

THE LITERARY CONTENTS of the DOMESTIC MONTHLY are wholly original and written especially for it by many prominent authors. Everything is pure and elevated in tone, and in its excellence compares most favorably with the contents of the purely literary magazines. Serial and short stories and poems appear in every issue, and there are abundant EDITORIAL DEPARTMENTS which treat of noteworthy movements in social, literary and artistic circles. Among notable contributors may be mentioned JUSTIN MCCARTHY, PAUL H. HAYNE, ROSE TERRY COOKE, MARY CECIL HAY, HELEN CAMPBELL, LOUISE STOCKTON, MARY ANGE DEVERE, JOEL BENTON, CARLOTT PERRY, and many others. A very attractive feature of the magazine is the Household Department, edited by MRS. HENRY WARD BEECHER. In every department the DOMESTIC is as complete as art, money and enterprise can make it, and its large circulation enables it to give, at a small price, what smaller magazines strive to equal at double, triple or quadruple the price of the DOMESTIC.

AS IT HAS THE LARGEST CIRCULATION OF ANY LADIES' MAGAZINE ITS VALUE TO ADVERTISERS WHO WISH TO REACH THIS CLASS OF THE COMMUNITY IS EASILY SEEN.

Almost every newspaper in the country has favorably noticed the DOMESTIC. We give below a few:

## POINTS FOR ADVERTISERS:

THE UNITED PRESBYTERIAN'S circulation largely exceeds that of any other religious paper published in Pittsburgh.

It is the leading paper of the United Presbyterian Church, which has a membership of nearly 88,000.

The principal part of its circulation is in Western Pennsylvania and Eastern Ohio.

Its readers are among the most thrifty of our citizens

It is essentially a HOME PAPER; is taken to the home and read carefully—not glanced over and then thrown away.

The character of the paper and the care taken to exclude improper advertising, commend what appears in its pages to favorable attention.

Its rates are low for a paper of its high character and large circulation.

## FACTS FOR ADVERTISERS.

## MIRROR AND FARMER

MANCHESTER, NEW HAMPSHIRE.

JOHN B. CLARKE, Editor and Proprietor.

THE MIRROR AND FARMER, published at Manchester, N. H., established in 1850, has a larger circulation than any other weekly agricultural and family paper published in New England except one. Since its enlargement in 1882, it has gained more than 10,000, and its circulation now exceeds 23,000, and is steadily increasing, so that it is nearly certain to reach 25,000 before the end of the year. It employs no traveling agents. Every person who subscribes for it does so because he or she wants it, and pays for it in advance, which makes it an exception to every other of its class in the Eastern States. It circulates chiefly in the four northern States of New England, but reaches patrons in every other Northern and Western State clear to the Pacific coast. Its readers number more than a hundred thousand. They read it carefully and thoroughly and believe in it. They include not only the intelligent, progressive, well-to-do farmers, but the most prosperous and enterprising citizens in all callings,—professional and business men, merchants and tradesmen,—who have many wants and money to pay for what they need. They buy freely and pay promptly.

The advertising rates of the MIRROR AND FARMER are, in proportion to its circulation and influence, lower than those of any other agricultural paper in the country, being but 18 cents each agate line, \$2.52 an inch, for each insertion, with liberal discounts for large orders. If you have anything to sell for money, tell the readers of the MIRROR about it; it will pay.

MANCHESTER, N. H., Dec. 30, 1884.

The average circulation of the MIRROR AND FARMER for the last three months (thirteen weeks) has been twenty-two thousand nine hundred and sixty-six (22,966). JOHN B. CLARKE, Proprietor.

# THE ST. PAUL AND MINNEAPOLIS PIONEER PRESS

ESTABLISHED IN 1849.

EMBODYING 25 CONSOLIDATED NEWSPAPERS.

Possessing the Dominant Circulation and Influence in the richest field for General Advertising in the United States.

## CIRCULATION.

STATE OF MINNESOTA, COUNTY OF RAMSEY—ss.

F. DRISCOLL, JR., Secretary of the PIONEER PRESS Co., being duly sworn, says that the actual number of full and complete copies of the Daily, Sunday and Weekly PIONEER PRESS, printed during the whole year A. D. 1884, all in regular editions, excluding extras, etc., was as follows:

	*TOTAL.	AVERAGE PER ISSUE
DAILY AND SUNDAY, - - -	4,826,805	15,994
WEEKLY, - - - - -	878,820	16,900

(Signed) F. DRISCOLL, JR.

Subscribed and sworn to before me this 21st day of February, A. D., 1885.

[NOTARIAL SEAL.]

L. E. OGLE,

Notary Public, Ramsey Co., Minn. †

\*Sworn monthly statements, giving circulation of each issue, have been published for each month of the year, and sworn statements for each day of the week are published in the PIONEER PRESS each day.

## FIELD.

The LOCAL field of the PIONEER PRESS is the cities of St. Paul and Minneapolis, containing an aggregate population of 200,000 quite evenly divided between them. In these two cities the PIONEER PRESS is published simultaneously. The general field is—closely stated—Minnesota, Dakota, Montana, the Western half of Wisconsin, and Northern half of Iowa, with considerable westward and northward extension on railroad lines. In this field it has no rival, possessing more than a local circulation.

## CHARACTER.

The PIONEER PRESS is a first-class metropolitan newspaper, in the fullest sense; of from eight to sixteen pages; possessing as complete a news organization as that of any newspaper in the country; with salaried resident reporters in all the principal cities and towns in its field; with special news bureaus in Chicago, Washington, New York, Boston, London and Paris. *It fully maintains, through actual merit, its position as the only paper in its field possessing a general circulation.*

## PRICE.

The foregoing sworn statement shows that the average number of copies per day of the Daily and Sunday PIONEER PRESS for the whole of the year 1884, was 15,994. These figures, with our schedule of rates, show that the cost of run of paper advertising, on yearly contracts, for every day work in the Daily and Sunday PIONEER PRESS is, **per agate line, per day, 2 85-100 cents.**

That the circulation given for one cent per agate line is 5,611, or that **an agate line in 5,611 papers costs ONE CENT.**

That the price for advertising in the PIONEER PRESS, as stated above, is, per agate line per thousand of circulation .1785 of a cent, or *one-sixth* of a cent (within a shade—less than 1-50th of a cent) per agate line per thousand of circulation. There are few first-class dailies offering **one-half** as much for the money. Two of our principles in advertising are:

**Honest Circulation.** (Sworn statements are published in the paper each day, and printed and issued in monthly circulars. These statements are open to the investigation of advertisers.)

**One Price to all Advertisers,** for the same class of work, and that price a low one.

Sample copies of paper and advertising estimates will be furnished on application to the

# THE CANADIAN BREEDER AND AGRICULTURAL REVIEW

CORNER CHURCH AND FRONT STS., TORONTO.

SAMUEL BEATTY, Manager.

Weekly Paper published in the Stock and Farming interests of Canada. Largest circulation. The only Weekly of its class in Canada. It compares favorably with the best publications of its kind in the world, and is an acknowledged authority on all matters which come within its province.

Read the following, which are some of the opinions of the Canadian press:

THE CANADIAN BREEDER is sustained by the capital and editorial ability of men prominent in live-stock circles. In typographical style and in general appearance the paper is surpassed by few stock journals, either on this continent or in Europe, and the character of its contents promises that the journal will occupy a good position among its competitors.—*Toronto Globe*, 13th September, 1884.

A more attractive and handsome-looking paper than THE CANADIAN BREEDER AND AGRICULTURAL REVIEW has not been equaled in Toronto. The type and paper are first-class, and the various articles it contains are written in pure Anglo-Saxon, at once vigorous and scholarly, and are a credit to journalism. That its affairs generally will be administered with tact and ability is assured from the fact that our well-known citizen, Mr. Samuel Beatty is manager.—*Toronto Mail*, 6th September, 1884.

THE CANADIAN BREEDER AND AGRICULTURAL REVIEW, published at Toronto, Canada, is one of the best papers of its class published in Canada, or any other country. Its live stock department especially, is ably edited, and the low price of two dollars per year for a sixteen-page weekly should insure for it an immense circulation.—*Western Sportsman and Live Stock News, Indianapolis, Ind.*, 1st November, 1884.

CIRCULATION OF PAPERS IN HARTFORD, CONN.

# THE DAILY TIMES

## 3,000 AHEAD

THE DAILY TIMES publishes its circulation on each Saturday for every day in the week. These figures are accurate, as we are ready to prove, on the best test that any of our newspaper neighbors or business men may be pleased to apply. We offer them proper facilities for satisfying themselves. We are publishing 3,000 more papers daily than any other paper in Hartford. Yet we are receiving letters from advertising agents, and statements from advertisers in this city, informing us that they have information leading them to believe that the *Hartford Courant*, or some other paper, has a larger circulation than THE TIMES. Where did this information come from? Not one of these advertisers has been invited or permitted to investigate the circulation of any paper in Hartford except THE TIMES.

Last week we received a letter from the Bush & Denslow Manufacturing Company, of New York, offering to THE TIMES an advertisement, and in negotiating for a price, they said:

"The general impression has prevailed among advertisers that the *Courant* stood at the head of the Hartford papers, in point of circulation."

This related to business; and as others had made similar statements to us, it became our duty, in justice to ourselves and the business which we conduct, to bring this question to a test, in a business-like, honorable and fair manner. With these views in mind, we wrote the following "open letter" to Messrs. Bush & Denslow, and we intended it as a public letter, so that our neighbors might investigate the facts which it sets forth, if they should see fit to do so:

LETTER FROM "THE TIMES" TO BUSH & DENSLAW.

HARTFORD, CONN., DECEMBER 17, 1883.

BUSH & DENSLAW MANUFACTURING CO.

No. 139 Pearl Street, New York City.

GENTLEMEN:—Yours of the 15th inst. received. Fairness requires that one point in your letter should be settled. You name a price paid to another paper in Hartford "having a circulation, we think, fully equal to yours," THE TIMES. There is no daily paper in Hartford having a circulation within 3,000 of that of the DAILY TIMES. We will give any one you may name, with a representative from the *Courant*, or other daily paper, if they desire, the fullest facilities to examine our paper accounts, mailing and delivery clerk, foreman of press-room, and the proprietors, under oath, and if the *Courant* or any other daily paper in Hartford will give you, with a representative of THE TIMES, the same facilities, we will pay you \$200 in cash, if the DAILY TIMES has not had over 2,500 more circulation than the *Courant* or any other daily paper here during the past three or six months. If we fail to substantiate this claim we will also pay expenses of investigation. The following statement of last Saturday and Saturday previous gives our circulation correctly:

CIRCULATION OF THE TIMES.

December 8, 1883.		December 15, 1883	
Monday .....	7,500	Monday .....	7,850
Tuesday .....	7,550	Tuesday .....	7,800
Wednesday .....	7,500	Wednesday .....	7,820
Thursday .....	7,700	Thursday .....	7,650
Friday .....	7,800	Friday .....	7,590
Saturday .....	8,200	Saturday .....	8,200
Average .....	7,675	Average .....	7,718

THE TIMES publishes its circulation every Saturday, and invites newspaper publishers and advertisers to come in and verify its correctness, we publicly offering them every facility in doing so. No other paper here publishes its circulation, no other dares to do so, offering the same facilities of investigation that we do.

We are willing that you should give copies of this letter to all the newspapers in Hartford, if you wish; or if you will advertise this letter in all the daily papers in this city, we will pay for it at their regular advertising rates. Awaiting your pleasure, we remain

Very truly yours,

BURR BROS.

Messrs. Bush & Denslow, on receiving this letter, were satisfied, and ordered their advertisement to be inserted in THE TIMES. They did not wish to become prominent in publishing our letter, but they did not object to its publication by the publishers of THE TIMES on their own account. We publish it, in order that business men and newspaper advertising agents may understand our position upon this question of circulation, and to correct erroneous statements that have given them wrong ideas as to the relative circulation of the papers in Hartford—these false statements having misled advertisers and advertising agents, and injured our business.

☞ The daily papers in Hartford will please insert the foregoing once at their ordinary advertising rates, and send their bills to this office for payment.

☛ The *Post* and *Telegram* published it, but made no comment. The *Courant* and *Herald* declined to publish it; neither of them alluded to the matter.

THE DAILY SENTINEL. THE SUNDAY SENTINEL. THE WEEKLY SENTINEL.

# The Milwaukee Sentinel

89, 91 and 93 Mason St., MILWAUKEE, WIS.

(Eastern Agent, J. C. GOODRICH, Sun Building, N. Y. City.)

CIRCULATION GREATER THAN ANY OTHER THREE DAILIES IN THE STATE.

THE ONLY ENGLISH MORNING PAPER PUBLISHED IN THE CITY!  
LAKESIDE CIRCULATION THAN ALL THE OTHER STATE MORNING PAPERS COMBINED!

## WHY THE SENTINEL IS READ BY EVERYBODY

While the SENTINEL is Republican in politics, it is "independently Republican," and gives the news of both parties in such a fair and trustworthy manner that it is an acknowledged authority among each, as may be inferred from the following opinion of the leading Democratic paper of Wisconsin, published at the State capital. It also shows WHY the paper is "read by everybody."

**"Best Newspaper Ever Published in Wisconsin."**

[From the *Madison Democrat*.]

The SENTINEL is by far the best newspaper ever published in Wisconsin, and in its news department is the equal of the Chicago papers in the quantity of its news, and by far their superior in reliability, quality, and arrangement. Politically, the SENTINEL and the *Democrat* have few points of agreement, but that does not stand in the way of a due appreciation of its enterprise as a newspaper; and, as to its political matter, one can feel that there is conviction behind it, which is never suspected of a Chicago Republican sheet.

**"It Deserves Them All."**

[*Fond du Lac Daily Reporter*.]

The Milwaukee SENTINEL is getting some excellent notices from the State press, treating on its enterprise and ability. It deserves them all. The SENTINEL is a good paper, and has not had a year in its history that has witnessed as much improvement in its columns as the past. It is the *Reporter's* hope that the SENTINEL's prosperity is commensurate with the efforts made in its behalf by its proprietors and those who have it in charge.

**The Difference Between "Cheap" Papers and a Good Newspaper.**

[From *The Appleton Daily Post*.]

A better illustration of this cannot be given than that which is furnished by the Milwaukee SENTINEL and the various rivals which it has outlived. Many and futile have been the attempts to supplant this great journal by cheap and sensational publications, but the SENTINEL has continued to move right along upwards and to grow in public favor, until to-day it ranks as the leading paper in the Northwest. If our readers saw it daily, as we do, in contrast with all the cheap or prominent metropolitan papers of the land which come to our exchange table, they would realize that the DAILY SENTINEL is in many respects the most satisfactory and in every way the most reliable daily published in this country.

**Six Hours in Advance of Other Papers.**

[*Janesville Daily Recorder*.]

The Milwaukee SENTINEL is without doubt the best daily published in the State, and is fast becoming a dangerous rival of the Chicago dailies, and, indeed, is preferred by many to the Chicago papers. It contains ably written editorials on all the leading topics of the day, all of the important news that any paper publishes, and more State news than any other city daily. Owing to a change in the night trains it will reach Janesville six hours in advance of the Chicago papers, and this fact alone should gain for it a wide circulation in this community. It is a live, newsy sheet, and deserves a place in every family.

BEST ADVERTISING MEDIUMS IN ALABAMA

# THE DAILY AGE

\$10.50 PER YEAR.

BIRMINGHAM, ALABAMA.

The **DAILY AGE** is the only morning paper published in Birmingham, or within a radius of one hundred miles therefrom, and the only daily that takes the press dispatches, published in the northern half of Alabama, and has a large circulation, not only in that section, but also in West Central Alabama, to which, by reason of railroad connections, it has earlier access than any other daily journal published in the State.

# THE WEEKLY IRON AGE

\$1.50 PER YEAR.

The **WEEKLY IRON AGE** is the largest weekly published in Alabama. It is not merely a local paper, but has a very large general circulation. It goes to over 300 postoffices in Alabama, and has subscribers in every State and Territory in America, with but one or two exceptions.

In addition to the regular editions of these publications immense extra editions are frequently issued for gratuitous distribution, of which our advertising patrons get the benefit, without extra charge.

Birmingham, Alabama, in which **THE AGE** is published, is the heart of the great Southern Coal and Iron fields, and is the liveliest, most progressive and rapidly growing city in the South. In 1880 it had 4,500 inhabitants; to-day it has over 20,000. Since 1879, its taxable property, as shown by the assessors' books, has increased over \$15,000,000. It is located at the intersection of the two great commercial highways of the South, viz: The Louisville and Nashville, and Cincinnati, New Orleans and Texas Pacific Railroads and is also the present terminus of the Georgia Pacific Railway, running from Atlanta, Georgia, to Birmingham, and which is being pushed forward to Greenville, on the Mississippi River; to say naught of several other important railroads projected to this point, some of which are now in course of construction, notably, the Sheffield & Birmingham. It is surrounded by coal and iron mines and stone quarries, at and around which are engaged thousands of industrious and prosperous people. Its industries consist of a large number of large iron furnaces, rolling mills, a cotton factory, iron and brass foundries, machine and railroad shops, and various other manufacturing enterprises too numerous to mention. The city is situated in the midst of a highly productive agricultural district, which is thickly populated by an intelligent, industrious and thrifty class of white people, which is constantly augmented by valuable accessions from all sections of the Union.

These facts make **THE DAILY AGE** and **WEEKLY IRON AGE** by far the best mediums for general advertising in the State.

Lowest cash rates on any kind of advertising contract will be furnished upon application.

THE RUSTIC circulates extensively in all the counties comprising the Eleventh Congressional District. It is the best advertising medium in Southwest or Central Missouri. Rates of advertising are liberal, and will be made known on application. The advertiser who desires to exchange his wares for advertising need not correspond with us, and he who wants part money and part advertising for his goods, if he desires us to be moral and finally set to heaven, must keep his propositions entirely out of our sight. We deal only, and intend to deal only, with cash advertisers. Advertisements must take their regular course in the paper. We have no printer skillful enough to put all ads. at top of column and next to reading matter. We cannot afford to deal with advertisers so exacting. All advertisers who mean business can address,

We hope to remain with you as long as you continue to publish so well conducted and able a R. R. paper.

Yours respectfully,

## The Liberal Press

WOODBURY, N. J.

W. E. SCHOCH, Publisher.

The paper circulates only where it is paid for, and therefore its list is comparatively free from the names of unthrifty people, such as constitute a large proportion of the subscribers of many country papers—the practice of whose publishers is to continue sending the paper to all who will subscribe for it, without regard to their ability or disposition to pay. Every hundred names claimed in our circulation means a hundred families who are paying their way in the world, who will buy what they want and pay for it, and are therefore of the class to whom every advertiser with a useful article to sell desires to introduce his goods.

# THE POPULAR SCIENCE MONTHLY

CONDUCTED BY E. L. & W. J. YOUMANS. D. APPLETON & Co., PUBLISHERS.

Established in May, 1872, has reached a large circulation, and is steadily increasing. The character of the circulation must of necessity be the very best, worth more to advertisers than a circulation of four times the number in a magazine of a miscellaneous character.

THE POPULAR SCIENCE MONTHLY was established to raise the standard of popular reading in this country. Magazines are more and more taking the place of books; first-class minds are devoting themselves with increasing readiness to the work of popular instruction, and when their sterling contributions upon the most important subjects could find no place in our widely circulated periodicals, it became necessary to have a magazine that would give expression to advancing scientific thought for the benefit of the more intelligent classes of the community. In the efficient performance of this service THE POPULAR SCIENCE MONTHLY is now generally recognized as without a competitor. Its object is best explained, perhaps, in the following paragraph by its editors:

"The standard at which we have aimed and to which we have worked will be kept up and improved upon by increasing experience. Our articles will be, first of all, instructive and valuable, but no pains will be spared to make them also entertaining and attractive. While we will not cater to frivolity, we shall do all in our power to make the pages of the MONTHLY agreeable as well as useful."

EDITED BY FRANK P. FOSTER, M. D.

Physician for Diseases of Women to the Out Patient Department of the New York Hospital;  
Fellow of the New York Obstetrical Society, etc., etc.

D. APPLETON & Co., PUBLISHERS.

The JOURNAL circulates in every State in the Union, and is the organ of the best thought of the Profession, its list of contributors embracing the leading minds in all departments of medicine. The Medical Profession of the United States have universally endorsed it as one of the very best medical periodicals published in the world. The same testimony is given by the leading medical professors and publications of the old world. It is also recognized by our own Government, being the official organ of the Medical Department of the Army and Navy of the United States. It therefore becomes one of the very best medium for advertising all articles pertaining to the Medical Profession, and in no better way can advertisements be placed before all those interested in medical practice. Our rates are as low as consistent with circulation. Correspondence solicited, and all information furnished.
