OREGON.

Population §210,000.....**Rep. Plur. in 1884, 2,256**

Chinese pop., 9,510.

Rep. vote, 26,860; Dem. 24,604.

STATE CAPITAL, SALEM.

OREGON is bounded north by Washington Territory, east by Idaho, south by Nevada and California, and west by the Pacific Ocean; average length from east to west, about 360 miles; average breadth, about 260 miles; land area, 94,560 square miles. It is divided unequally by the Cascade Mountains. East of this range the surface is generally undulating table-land, with high cone-like hills and deep canyons. Between the Cascade and Coast Ranges is the Willamette Valley, 40 miles wide by 140 miles long, and exceedingly fertile; from the Coast Range westward the surface is mountainous, hilly, and broken. This section is suited for wool-growing, stock-raising, and the growth of winter wheat, barley, oats, and hay. The eastern portion does better as a stock-raising region, but good wheat is grown there. In the valley, wheat, corn hops, tobacco, wool, flax, fruit, linseed, dairy products, and potatoes are raised in large quantities. The Rogue River Valley, on account of its mild climate, is well adapted for raising fruits and grapes and large quantities are shipped from there annually. Manufactures are lumber—the large Douglas spruce affording the best masts and spars in the world; leather, boots and shoes, saddlery, milling and smelting of ores, carriages, furniture, liquors, linseed-oil, etc. The number of manufacturing establishments in the State in 1880, was 1,080; amount of capital invested in them, \$6,312,056; total number of hands employed, 3,473; amount paid in wages, \$1,667,046; value of materials used, \$6,954,436; value of products, \$10,931,232. All manufacturing enterprises have increased fully 50 per cent. in the last two years, and nearly double since 1880. The packing of beef and pork, and canning of salmon are successfully carried on. Gold and silver are produced, but not in very large amounts; copper and iron-ore are abundant; clay, glass-sand, granite, marble, etc., are plentiful.

There are 29 Counties in Oregon. Newspapers are published in 28.—Cities, towns, and villages in which papers are published number 52, of which 25 designated by a dagger (†) are county-seats. Of the 112 papers which insert advertisements published in the State, 13 are daily, 4 semi-weekly, 88 weekly 1 semi-monthly and 6 monthly.

PENNSYLVANIA.

Population 4,282,891.....Rep. Plur. in 1884, 81,019

Rep. vote, 473,804; Dem. 392,785; Gbk. 18,932; Prohib., 15,283.

STATE CAPITAL, HARRISBURG.

PENNSYLVANIA is bounded north by New York and Lake Erie, east by New York and New Jersey, south by Delaware, Maryland, and West Virginia, and west by West Virginia and Ohio. Its greatest length from east to west is about 302 miles; its greatest breadth about 175 miles; mean length 280 miles; mean breadth 158 miles; land area, 44 985 square miles. The surface is exceedingly varied, chiefly level or slightly undulating in the southeast, hilly and mountainous in the interior, and generally rolling or broken in the west. A series of parallel ridges, members of the Appalachian system, each with a distinct name, traverse the State from northeast to southwest. The easternmost of these is the South Mountain, an extension of the Blue Ridge, and the westernmost and highest the Allegheny, from which the surface slopes generally toward Ohio. Nearly one fourth of the State is wooded, and a very large amount of lumber is manufactured, Williamsport and Lock Haven being the chief centres of this industry. The soil of the valleys and plains is generally fertile, and some of it exceedingly so. Lancaster County, and some of the counties bordering on the Ohio River, are the most productive. The State excels in dairy and market-garden produce and all the agricultural staples of the Northern States. The tobacco crop is exceeded only by that of Kentucky and Virginia, reaching in 1880 nearly 37,000,000 lbs., of which amount Lancaster County alone produced two-thirds, and York nearly 6,000,000 lbs. Its beds of anthracite and bituminous coal and iron-ore, and the great oil basin, are sources of immense wealth. Anthracite coal is found mainly in the counties of Carbon, Dauphin, Luzerne, and Schuylkill, to some extent in Columbia and Northumberland, and semi-anthracite in limited areas in Sullivan and Wyoming. Bedford, Bradford, Centre, Clearfield, Fulton, Lycoming, and Tioga counties contain fields of semi-bituminous coal, while the bituminous coal beds are located beyond the main Allegheny Ridge, every county west of it, with the exception of Erie, yielding more or less of this coal. Mercer supplies a good block coal for furnace use. The petroleum region is situated mainly in the counties of Venango, Butler, McKean, and Clarion. Salt springs abound in the same region, also natural gas wells, the gas from which is used for heating and lighting purposes. It is rich in minerals, slate, and building-stone of many kinds. There are many medicinal springs, the principal of which are at Bedford, Doubling Gap, Ephrata, Yellow Springs, and York. The southeastern corner of the State (bounded by a line running from Trenton, N. J., to Norristown, thence nearly to Lebanon, thence across the Susquehanna in a southwesterly direction to the Maryland line, east of Gettysburg), is rich in limestone and marble, of which great quantities are quarried for use in Philadelphia. This region also produces combined iron and chromium ores, hematite, magnetic iron, and corundum. Nickel is found at Lancaster, galena at Phoenixville, zinc at Friedensville and Bethlehem. A handsome black limestone is quarried at Williamsport, roofing-slates in the Lehigh and Delaware Valleys, Silurian limestone in the Cumberland Valley and at other points. In manufactures, Pennsylvania is second only to New York, and Philadelphia is one of the principal seats of foreign and coast-wise trade. The leading exports are grain, provisions, petroleum, tobacco, oil-cake, lumber, tallow, hides, leather, shoes, cotton goods, machinery, and coal. Erie and Pittsburgh are also great commercial centres. Kensington and Chester are the chief ship building stations. Pittsburgh, Allegheny, Harrisburg, Reading, and Scranton are the chief seats of the iron manufactures. The number of manufacturing establishments in the State in 1880, was 31,232, amount of capital invested in them, \$474,510,993; total number of hands employed, 387,072; amount paid in wages, \$134,055,904; value of materials used, \$465,020,563; value of products, \$744,818,445.

There are 67 Counties in Pennsylvania. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 358, of which 67 designated by a dagger (†) are county-seats. Of the 1,141 Papers which insert advertisements published in the State, 145 are daily, 2 tri-weekly, 14 semi-weekly, 785 weekly, 3 bi-weekly, 17 semi-monthly, 159 monthly, 2 bi-monthly, and 14 quarterly.

RHODE ISLAND.

Population 304,284.....Rep. Plur. in 1884, 6,639

Rep. vote, 19,080; Dem. 12,391.

STATE CAPITALS, NEWPORT AND PROVIDENCE.

RHODE ISLAND is bounded on the north and east by Massachusetts, south by the Atlantic Ocean, and west by Connecticut. Its extreme length from north to south is $47\frac{1}{2}$ miles; extreme breadth, 40 miles; average breadth, 35 miles; land area, 1,085 square miles. The surface is for the most part rough, hilly, and stony. There are no mountains, and few hills of any eminence. Nearly one fourth is woodland. Soil generally fertile, especially that of the smaller islands; but parts are level and marshy. Rhode Island is not an agricultural State. The wheat and buckwheat crop is merely nominal; other cereals small; dairy and market-garden produce and live-stock very moderate. In 1880 nearly one fourth of the population was engaged in manufacturing. The most prominent industries are cotton, woolen and worsted goods, machinery, jewelry, silver and plated ware, clothing; iron and ironware, rubber and elastic goods, leather, refined sugar and molasses, and flouring-mill products. The number of manufacturing establishments in the State in 1880, was 2,205; amount of capital invested in them, \$75,575,943; total number of hands employed, 62,878; amount paid in wages, \$21,355,619; value of materials used, \$58,103,443; value of products, \$104,163,621. Coal is mined at Cumberland, Portsmouth, and Valley Falls, but is hard and difficult to burn. There are extensive granite quarries at Westerly.

There are 5 Counties in Rhode Island. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 18, of which the 4 designated by a dagger (†) are county-seats. Of the 51 papers which insert advertisements published in the State, 7 are daily, 2 semi-weekly, 36 weekly, 1 bi weekly, 1 semi-monthly, 3 monthly, and 1 quarterly.

SOUTH CAROLINA.

Population 995,577.....Dem. Maj. in 1884, 48,112

Colored pop., 604,332.

Dem. vote, 69,845; Rep. 21,733.

STATE CAPITAL, COLUMBIA.

SOUTH CAROLINA is bounded north and northeast by North Carolina, southeast by the Atlantic Ocean west and southwest by Georgia. Its greatest length from east to west is about 275 miles, and its greatest breadth about 210 miles; land area, 30,170 square miles. The surface presents nearly the same features as that of North Carolina. The coast for 100 miles inland is low and level, with sandy soil, numerous swamps, and extensive pine forests; then follows a tract of low sand-hills, the soil of which is moderately productive. The land rises abruptly on the western edge of this belt, and continues to rise until it terminates in the Blue Ridge, the highest peak of which, Table Mountain, is 4,000 feet above the sea. The swamps embrace over 1,000,000 acres, and the pine lands 6,000,000. The sea islands are mainly devoted to sea-island cotton and rice, and the palmetto grows on them; the tidal swamps to rice; inland swamps, when drained, to rice, cotton, corn and pease; the salt marshes to long cotton; the oak and pine and oak and hickory lands to corn and cotton; and the pine-barrens to fruits and vegetables. Rice, cotton, and corn thrive best in the central and southern counties. The northwestern region produces corn, wheat, barley, oats, tobacco, and many fruits. Stock-raising and wool-growing are carried on with profit. Figs and pomegranates grow in the lower counties, and the peach and grape thrive over the State generally; strawberries abundant. The manufactures are principally cotton goods, flour, lumber, machinery, tar, turpentine, carriages, and fertilizers. The number of manufacturing establishments in the State in 1880, was 2,078; amount of capital invested in them, \$11,205,894; total number of hands employed, 22,123; amount paid in wages, \$2,836,289; value of materials used, \$9,885,333; value of products, \$16,738,008. Since 1880 the number of manufacturing establishments has increased to over 3,000, employing more than 34,000 persons, and the value of products has increased 91 per cent., of which increase the cotton manufacture contributes nearly one-fourth, and lumber mills and flour and other mills more than 50 per cent. of the remainder; of the agricultural products cotton furnishes one-half and corn about one-fourth. The value of live-stock has increased \$7,000,000; farm and vegetable productions, \$7,700,000, and mineral products, \$720,000. In 1860, under slave labor, South Carolina products, from all sources, amounted to \$54,455,707, in 1887; under free labor they reached a total of \$101,682,530. Commerce is mainly confined to Charleston, Georgetown, and Beaufort. Exports are chiefly rice, cotton, lumber, phosphate, naval stores, cotton-seed and its oil, oil-cake, fish, and spring vegetables. Considerable shad and oyster fishing. The mineral wealth, though large, has not been much developed. Considerable gold is found in the northwestern counties; there were four mines worked in 1887 yielding \$100,000; there are large deposits of excellent iron-ore in Greenville, Pickens, Spartanburg, and Union Counties; manganese, copper, lead, and bismuth are also found, mainly in the northwest; white and colored marbles and limestones, granites and cyanites, soapstones, flagging-stone, and buhrstone abundant. During 1886 and 1887 there was a rapid development of the quarries, especially in Fairfield Co., where is found, what is claimed to be, the finest granite in the United States. It is of beautiful appearance, great strength and fine quality. Aiken County contains immense beds of the finest porcelain clay. A little coal is found in Chesterfield County. The most valuable mineral at the present day is, however, a bone phosphate marl, a fossil of very remote origin and one of the best of fertilizers, found in the lowlands and river beds near Charleston; on the Stono, Ashepoo and Edisto Rivers, and also near St Helena Sound. This product has grown from 18,000 tons in 1868-70 to 432,757 tons in 1887.

There are 34 Counties in South Carolina. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 56, of which 33 designated by a dagger (†) are county-seats. Of the 102 papers which insert advertisements published in the State, 6 are daily, 1 tri-weekly, 2 semi-weekly, 88 weekly, 1 semi-monthly, and 4 monthly.

TENNESSEE.

Population 1,542,359.....Dem. Plur. in 1884, 9,180
 Colored pop., 403,151. Dem. vote, 133,270; Rep. 121,090.

STATE CAPITAL, NASHVILLE.

TENNESSEE is bounded north by Kentucky and Virginia; southeast by North Carolina; south by Georgia, Alabama, and Mississippi; west by Arkansas and Missouri; greatest length from east to west 432 miles, breadth 109 miles; land area, 41,750 square miles. The State is popularly divided into East, Middle, and West Tennessee. East Tennessee comprises the eastern mountain border, the beautiful East Tennessee Valley, and about half of the Cumberland Mountain plateau. Middle Tennessee reaches from about the center of the plateau to the Tennessee River, and is a region of fertile terraces, including the vast elliptical basin of nearly 5,000 square miles, known as the Garden of Kentucky. West Tennessee extends from the Tennessee River to the Mississippi, and is somewhat broken in the east, succeeded by a rolling plain descending to the latter river. The Mississippi bottom is a low, flat, alluvial plain, covered with forests and abounding with lakes and swamps. West Tennessee is extremely fertile, and produces corn and cotton in large quantities. Middle Tennessee is generally fertile, giving excellent grain, tobacco, and much cotton, especially toward the south. East Tennessee valley lands are fertile, producing corn, cotton, and winter-wheat; potatoes, oats, hay, and hemp are extensively produced; great numbers of stock are raised, and the wool-clip is large and excellent. Tennessee is rich in marble of various kinds, limestone and other building-stone; valuable copper mines exist in Polk County; coal and iron-ore are very abundant. Iron mining and smelting is becoming very extensive, and much iron-ore is exported to the iron-working towns on the Ohio River. The number of manufacturing establishments in the State in 1880, was 4,326; amount of capital invested in them, \$20,092,845; total number of hands employed, 22,445; amount paid in wages, \$5,254,775; value of materials used, \$23,834,262; value of products \$37,074,886. The lumbering interest is very great. Wool-carding and cloth-dressing are carried on extensively. Flouring and grist-mill products are very large. Union County contains zinc and lead mines. Colored marbles are found in immense quantities in East and West Tennessee; roofing-slates in East Tennessee; hydraulic limestone in East, Middle and West Tennessee; there are also building limestone, sandstone, and granite, fire and potter's clay.

There are 96 Counties in Tennessee. Newspapers are published in 79.—Cities, towns and villages in which papers are published number 96, of which 69 designated by a dagger (†) are county-seats. Of the 224 papers which insert advertisements published in the State, 12 are daily, 4 semi-weekly, 180 weekly, 1 bi-weekly, 4 semi-monthly, 22 monthly and 1 quarterly.

TEXAS.

Population 1,591,749.....Dem. Plur. in 1884, 131,978
 Colored pop., 393,384. Dem. vote, 223,679; Rep., 91,701.

STATE CAPITAL, AUSTIN.

TEXAS is bounded north by New Mexico, the Indian Territory, and Arkansas, east by the Indian Territory, Arkansas, and Louisiana, southeast by the Gulf of Mexico, southwest by Mexico, and west by New Mexico; greatest length about 825 miles; greatest breadth about 740 miles; land area, 262,290 square miles. From the Sabine River to the Trinity River is the great timber region, generally level and sandy in the south, rolling and fertile in the north. From the Trinity to the Colorado is prairie, timbered along streams, with an extensive forest in the north called the "Cross Timbers." Western Texas embraces the counties between the Colorado and Rio Grande; four-fifths of it is prairie; timber generally confined to banks of streams. Between the Colorado and the Brazos Rivers are the Comanche and Leon River Mountain ranges. In the north and northwest are the Church and Double Mountains, and the surface is generally broken until the Llano Estacado, or Staked Plain, is reached, when the surface is gently undulating, and vegetation scanty. Between the Pecos and Rio Grande are several ranges, sometimes attaining an elevation of 5,000 feet. The chief crops are cotton, corn, and wheat. The former two may be grown in nearly any part of the State, but especially in the eastern and central sections; the latter chiefly in the north and centre. Sea island cotton is grown on the coast. Sugar cane is raised chiefly on the Brazos and other rivers, near their mouths, and rice in the southeast. Oats, barley, tobacco, and sweet and white potatoes are grown to a moderate extent. Swine thrive on the abundant mast of the forests. The chief occupation westward is stock-raising and wool-growing. Figs and oranges thrive in the south. Manufacturing interests are increasing. The number of manufacturing establishments in the State in 1880, was 2,996; amount of capital invested in them, \$9,245,561; total number of hands employed, 12,159; amount paid in wages, \$3,343,087; value of materials used, \$12,956,269; value of products, \$20,719,828. The number of manufacturing establishments in 1887 is reported as being 3,945. Capital invested, \$12,327,414; hands employed, 16,212; amount of wages, \$4,457,449; value of materials, \$17,275,025; value of products, \$27,626,437. There are immense deposits of copper along the line of the Texas Pacific Railroad; coal, timber, limestone, soapstone and iron are found in the same region. Argentiferous galena is found in large quantities in northwestern Texas; immense quantities of magnetic iron in Mason, Llano, and the western counties which is now being developed. There is a field of bituminous coal about 6,000 square miles in extent, and a field of anthracite in Brown, Coleman, Comanche, and Hamilton Counties. Salt is produced in large quantities from springs in El Paso, Lampasas, and Llano Counties; asphaltum is abundant. Large quantities of salt-petre are found in Blanco and Burnet Counties; marble and roofing-slate, grindstones, pott and fire-clays, marl, and other fertilizers are found in great quantities.

There are 242 Counties in Texas. Newspapers are published in 171.—Cities, towns, and villages in which papers are published number 272, of which 155 designated by a dagger (†) are county-seats. Of the 486 papers which insert advertisements published in the State, 38 are daily, 1 tri-weekly, 3 semi-weekly, 44 weekly, 11 semi-monthly, 18 monthly, and 1 quarterly.

VERMONT is the most northwesterly of the New England States, bounded north by Quebec, east by New Hampshire, south by Massachusetts, and west by New York. It is 143 miles long by from 40 to 85 miles wide, with a land area of 9,135 square miles. The Green Mountains traverse it from north to south, mainly in two ranges, generally covered with dense forests, but affording excellent pasturage. Western Vermont and a large tract of the eastern part comprise beautiful pastoral regions, but the central part is rugged and mountainous. The best soil is found on the western slope of the mountains near the border of Lake Champlain, and in the valley lands of the Connecticut River. The State occupies a prominent position in agriculture. When its area, population, amount of forest-land, and long severe winters are considered, there is perhaps no other State that yields so large a return. All the ordinary agricultural staples are abundantly produced; wool and dairy products are large and excellent; cattle, sheep, and horses are raised in large numbers, and the yield of maple-sugar is unequalled. Manufactures occupy a prominent position in its industries, and cover a wide range of goods. The number of manufacturing establishments in the State in 1880, was 2,874; amount of capital invested in them, \$23,265,224; total number of hands employed, 17,540; amount paid in wages, \$5,164,479; value of materials used, \$18,330,677; value of products, \$31,354,366. Large quantities of lumber are exported, and marble and slate extensively quarried. The principal marble quarries are at Brandon, Dorset, Isle La Motte, Manchester, Middlebury, New Haven, Pittsford, Proctorsville (serpentine), Roxbury (verd-antique), Rutland, Shelburne Sutherland Falls, Swanton and West Rutland; slate quarries at Castleton, Fair Haven, Guilford, Northfield, Pawlet and Poultney; granite at Barre and Brattleboro. Potters' clay comes from Bennington and Rutland; steatite from Castleton and Grafton. Manganese, brown hematite, kaolin and ochre from Brandon, South Wallingford and Manchester Center; copper-ore from Vershire and Corinth. Rutland is now (1888) the largest marble center in the world, not less than \$6,000,000 of capital and 4,000 men being employed in 15 quarries and 20 mills. During the last ten years the development of the granite business at Barre, six miles from Montpelier, has been very large. Nearly \$2,000,000 of capital and 1,000 men are employed in it. Burlington is a large market for Vermont and Ottawa lumber, having extensive mills and a trade extending throughout the Eastern States. Vermont continues to be the greatest breeding state of fine horses (Morgans and Hambletonians) and of Spanish merino sheep. Every year numbers of these superior animals are shipped to all parts of this country, to South America and to Australia.

There are 14 Counties in Vermont. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 40, of which 12 designated by a dagger (†) are county-seats. Of the 68 papers which insert advertisements published in the State, 4 are daily, 56 weekly, 1 semi-monthly, 1 every three weeks and 6 monthly.

VIRGINIA.

Population 1,512,565.....Dem. Plur. 6,141

Colored pop., 681,616.

Dem. vote, 145,497; Rep. 139,356.

STATE CAPITAL, RICHMOND.

VIRGINIA is bounded north by West Virginia and Maryland, east by Maryland and the Atlantic Ocean, south by North Carolina and Tennessee, and west by Kentucky and West Virginia. Its greatest length from east to west is about 440 miles, its greatest breadth 192 miles; land area, 40,125 square miles. The surface is divided into six great natural divisions, the Tidewater comprising the south and southeast; the Middle, an undulating plain, extending westward to the Coast Range; the Piedmont, from the Coast Range to the Blue Ridge Mountains, and from the Potomac River to North Carolina; the Blue Ridge, stretching across the State in a southwesterly direction; the Valley—a part of the great Appalachian Valley, reaching from Canada to Alabama—a broad belt of rolling country between the Blue Ridge and the Kittatinny or North Mountain; and the Appalachian, a mountainous region traversed by the Alleghenies. The soil in the Tidewater region is a light sandy loam, yielding large crops of vegetables and small fruits. The Valley Region has a rich fertile soil, well adapted for cereals. Much of the Mountain Region is uncultivated and chiefly forest land; but the parallel valleys are very fertile. The Piedmont, Blue Ridge, Valley, and Appalachian regions are noted for their grasses. The yield of tobacco is only equaled by that of Kentucky. Some cotton is grown in the Tidewater section; fruit grows all over the State. A considerable part of the tide-water region is devoted to raising early vegetables for northern markets. Dairying, stock-raising, and wool-growing are important industries. The timber export is large. There are profitable fisheries of bass, shad, etc., and the oyster trade is very important. The manufacturing interests are comparatively small, but are increasing, the chief seats being Richmond, Alexandria, Danville, and Lynchburg. The number of manufacturing establishments in 1880, was 5,710; amount of capital invested in them, \$26,963,990; total number of hands employed, 40,184; amount paid in wages \$7,425,261; value of materials used, \$32,883,933; value of products, \$51,780,992. Virginia has excellent natural advantages for commerce, but it is only lately that she has begun to take a prominent part in foreign trade. There are beds of anthracite, semi-bituminous, and bituminous coal in the southwestern counties, not much developed; salt is an important product of this region. There are coal-bearing strata in other parts of the State, particularly near Richmond; the coal is bituminous, and generally of good quality. Virginia has vast beds of gypsum and marl, abundant iron-ore, fine granite, marble, and other building stones; zinc, sulphur, kaolin, fire-clay, and many other minerals. It abounds in mineral springs of great reputation.

There are 100 Counties in Virginia. Newspapers are published in 70.—Cities, towns, and villages in which papers are published number 99, of which 58 designated by a dagger (†) are county-seats. Of the 233 papers which insert advertisements published in the State, 20 are daily, 2 tri-weekly, 6 semi-weekly, 170 weekly, 3 semi-monthly, 31 monthly, and 1 bi-monthly.

WEST VIRGINIA.

Population 618,457.....Dem. Plur. 4,221

Colored pop., 25,886.

Dem. vote. 67,317; Rep., 63,096.

STATE CAPITAL, CHARLESTON.

WEST VIRGINIA is bounded north and east by Pennsylvania and Maryland, east and south by Virginia, and west by Kentucky and Ohio. Its greatest length from north to south is about 240 miles; greatest breadth, 160 miles; land area, 24,645 square miles. A large part of the surface is mountainous and hilly; about two-thirds is covered with forest. The soil of the ridges is fertile to the tops, and the summits of many mountains are flat, natural meadows or glades. The valley of the Great Kanawha is the finest grazing region of the State. Blue grass is indigenous; the lumber trade is important. Nearly the whole of the State lies within the Allegheny coal system, and large quantities of coal are exported both by river and rail, and new mines are constantly being opened. It is generally bituminous. The Kanawha Valley is one of the great salt-producing regions of the United States. Petroleum is extensively produced, chiefly in Ritchie, Pleasants, Marshall, Wood, and Wirt Counties. Natural gas is found in several sections, Wheeling and the Northern Pan Handle using it as fuel almost to the exclusion of coal. Limestone, sandstone, and grinding stone abound generally through the State. The minerals and mineral springs are inexhaustible. West Virginia is especially famous for wool. Other great staples are corn, wheat, oats, and tobacco. Manufactures are comparatively undeveloped, except in the towns along the Ohio River. The leading industries are steel and iron in various forms, glass, flour, salt, wood pulp, liquor, lumber, queens-ware and porcelain, fire-brick, leather, cigars and tobacco, and machinery. Wheeling is the largest and most important city. Population 35,000. It is the manufacturing center and all the industries enumerated above, except salt, flourish there. The number of manufacturing establishments in the State in 1880, was 2,875; amount of capital invested in them, \$13,883,390; total number of hands employed, 14,311; amount paid in wages, \$4,313,965; value of materials used, \$14,027,338; value of products, \$22,867,126.

There are 54 Counties in West Virginia. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 72, of which 52 designated by a dagger (†) are county-seats. Of the 145 papers which insert advertisements published in the State, 8 are daily, 1 semi-weekly, 123 weekly, 2 bi-weekly, 1 semi-monthly, and 10 monthly.

WISCONSIN.

Population 1,563,423.....Rep. Plur. in 1884, 14,698

Rep. vote, 161,167; Dem. 146,459.

STATE CAPITAL, MADISON.

WISCONSIN is bounded north by Lake Superior, northeast by Michigan, east by Lake Michigan, south by Illinois, and west by Iowa and Minnesota. Its greatest length from north to south is 300 miles; greatest breadth, 260 miles; land area, 54,450 square miles. The surface is generally an elevated plain, with high bluffs along the rivers and lakes, and elsewhere gently undulating, diversified with prairie, woodlands, and numerous lakes. The State ranks high in agricultural products. The northern part of the State is heavily timbered but is fast settling up. It has a somewhat severe climate, but outside the wooded country the soil is good, produces large crops but not of corn. The lumber business of this section of the State, in pine and hard wood, has built up many large and flourishing inland cities like Oshkosh, Eau Claire, Wausau, Chippewa Falls, Stevens' Point, Merrill and Shawano. During the past three years an immense deposit of the best iron ore, extending across the entire northern part of the State and known as the Gogebic iron belt, has developed many valuable mines, and the shipments of Bessemer and hematite ore have added millions of wealth to the productive capacity of the State and largely increased the population. Galena limestone, lead, and zinc in the southwest, chiefly near Mineral Point. One of the best hydraulic cements comes from the neighborhood of Milwaukee. Wheat, corn, rye, oats, barley, potatoes, dairy products, and maple-sugar are all raised in large quantities; hops are exceedingly prolific; fruit-growing is an important industry. Cheese and butter making have increased to enormous proportions, especially in the central and southern counties, and the growing of seed-leaf tobacco for wrappers has become an important and profitable industry, the product commanding the highest market price. Large numbers of horses are bred; sheep are numerous, and the wool clip large and valuable. The lakes and streams abound with fish, especially trout and black bass. Manufactures are thriving and numerous, lumber and wood-work of all kinds holding a very prominent position. The manufactures of furniture, wagons, agricultural implements, leather and brooms are large and increasing, while at Milwaukee are situated several of the largest and wealthiest beer brewing corporations in the world, and the manufactures of cotton and woolen goods, nails, steel rails and merchant iron are conspicuous and valuable. The number of manufacturing establishments in the State in 1880, was 7,674; amount of capital invested in them, \$73,821,802; total number of hands employed, 57,109; amount paid in wages, \$18,814,917; value of materials used, \$85,796,178; value of products, \$128,255,480. Since 1880 there has been a marked growth of manufacturing enterprise in the leading cities of the State. Milwaukee, in particular, has enjoyed a revival in this direction, owing to her natural advantages. The number of miles of railway in 1887 was 4,778; number of farms, 156,108, the value of which, together with their products in 1885, was \$563,187,288; the value of the iron producing establishments and their product, in 1885, was nearly \$200,000,000.

There are 68 Counties in Wisconsin. Newspapers are published in all. — Cities, towns, and villages in which papers are published number 208, of which 67 designated by a dagger (†) are county-seats. Of the 487 papers which insert advertisements published in the State, 89 are daily, 1 tri-weekly, 2 semi-weekly, 412 weekly, 2 bi-weekly, 6 semi-monthly, and 25 monthly.

ALASKA.

Population §2,500.

Indian pop. 13,000.

TERRITORIAL CAPITAL, SITKA.

ALASKA is bounded north by the Arctic Ocean, east by the Northwest Territories of Canada, west and south by the Pacific Ocean, Behring's Sea and Strait, and numerous islands. It has a land area of about 600,000 square miles. The northern half is low with great swampy morasses along the streams, running back into low, rolling hills. Native Indians inhabit that section, living along the streams in small bands. The southern half is mountainous, and along the southwest coast are some of the highest mountain peaks on the American continent; Mount St. Elias, the highest, is estimated at 20,000 feet. The principal industry at present is mining, the country being seamed by the largest quartz veins in the world. The Alaska Mill and Mining Co. have erected a \$600,000 plant of 120 stamps, and chlorination works on Douglas Island, across the bay from Juneau, which has been running night and day for five years. Their ledge of solid quartz is 600 feet wide, and the ore averages about \$14 per ton. The company ships \$100,000 a month in gold bricks. Other mining companies are erecting works on the same island, and at Berner's Bay, fifty miles north of Juneau, and in the Basin near the city. In a few years the fisheries and forests of red and yellow cedar will yield large returns. The Seal Islands in Behring Sea pay an enormous yearly revenue to the government. The two principal cities are Sitka, the capital, with a population of 550, and Juneau, the metropolis and supply point, with a population of 1,200. The western coast, from the southern boundary to Cape Spencer, is lined with a continuous chain of islands, many of them as large as the State of Maine. Between the islands and mainland are salt water channels, navigable for the largest sized steamships. In the interior is one of the largest rivers in the world, the Zukon, navigable for 2,000 miles, and 60 miles wide at the mouth. The climate along the coast is wet and warm, the thermometer in winter rarely going 5 degrees below zero. In the interior it is warm in summer, but cold in winter.

ARIZONA.

Population \$80,440.....Rep. Maj. in 1884, 1,152 (Congressional.

Chinese pop., 1,630.

Rep. vote, 6,747; Dem. 5,595.

TERRITORIAL CAPITAL, PRESCOTT.

ARIZONA is bounded north by Utah and Nevada, south by New Mexico, and west by California and Nevada; land area, 112,920 square miles. It lies entirely within the Valley of the Colorado. The streams generally flow through deeply eroded chasms. The soil is very fertile when irrigated, even on the alkaline plains; and the mountain lands are well adapted to stock-raising and wool-growing. Wheat, barley, and corn appear to be the principal crops; but pastoral occupations are better suited to the country, and more profitable than strictly agricultural pursuits. With the increase in the number of irrigating canals, of which there are said to be now 400 miles, representing a cost of \$1,000,000, a corresponding increase may be looked for in land subjected to tillage, of which there are millions of acres suited to the growth of every variety of grasses, grains, fruits and vegetables grown in the temperate and semi-tropic zones, and which only require irrigation to make it yield abundantly. The chief wealth of the Territory, however, lies in its mineral deposits. Gold, silver, lead, copper, iron, cinnabar, salt, borax, etc., abound, and the mining and working of gold and silver ores is at present the leading industry. The number of manufacturing establishments in the State in 1880, was 66; amount of capital invested in them, \$272,600; total number of hands employed, 220; amount paid in wages, \$111,180; value of materials used, \$330,023; value of products, \$618,365.

There are 10 Counties in Arizona. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 15, of which 9 designated by a dagger (†) are county-seats. Of the 35 papers which insert advertisements published in the Territory, 8 are daily, and 27 weekly.

DAKOTA.

Population 568,477.....Rep. Maj. in 1884, 56,455 (Congressional).

Rep. vote, 71,579; Dem. 15,124.

TERRITORIAL CAPITAL, BISMARCK.

DAKOTA is bounded north by Manitoba, east by Minnesota and Iowa, south by Nebraska, and west by Montana and Wyoming. Land area 150,932 square miles, or 93,596,480 acres. Vacant land still open to settlement under the Government land laws, 23,811,445 acres; assessed valuation 1887, \$157,034,365—in 1880 it was but \$20,300,000; miles of railroad, 4,509; output of minerals (gold and silver from the Black Hills) in 1887, \$4,200,000; wheat crop of 1887 (estimated by Commissioner of Immigration) 60,000,000 bushels, one-eighth of the entire crop of the United States; corn, 30,000,000 bushels; oats, 32,000,000 bushels; flax, 4,000,000 bushels; value of live stock 1887, \$43,195,229; value of farm products 1885, \$32,430,816. The Missouri River furnishes navigation the entire length of the Territory for boats of three to six hundred tons burden. The Red River of the North, also navigable, drains the great wheat valley on the eastern edge of the northern part of the Territory. That portion of the Territory east of the Missouri River is mostly rolling prairie; the soil on the Missouri Slope being a black, sandy loam, with clay subsoil; while in the Red River Valley it is a vegetable deposit of unsurpassed richness. West of the Missouri river the land is more broken, with stretches of excellent farming and grazing lands along the line of the Northern Pacific Railroad, and mining and grazing lands in the southwestern section or Black Hills region. The northern and central parts of the Territory are especially adapted to the raising of wheat and other cereals, potatoes, vegetables and the earlier varieties of corn. In the southern part corn and flax are also successfully grown. The Missouri River and all small streams and lakes are lined with timber, and west and north of Bismarck are found inexhaustible beds of lignite coal. The Territorial census of 1885 shows the number of manufactories to be 257, amount of capital invested, \$16,677,537; amount paid in wages, \$1,408,336; value of manufactured products, \$6,593,218; value of farm products, \$36,808,131; capital invested in banking, \$4,514,000; surplus, \$592,359.

There are 134 Counties in Dakota. Newspapers are published in 85.—Cities, towns, and villages in which papers are published number 218, of which 80 designated by a dagger (†) are county-seats. Of the 347 papers which insert advertisements published in the Territory, 24 are daily, 3 semi-weekly 312 weekly 1 semi-monthly and 7 monthly.

IDAHO.

Population 97,250.....**Dem. Maj. in 1884, 786** (Congressional).

Chinese pop., 3,379.

Dem. vote, 1,547; Rep. 761.

TERRITORIAL CAPITAL, BOISE CITY.

IDAHO is bounded north by British Columbia, east by Montana and Wyoming, south by Utah, and west by Oregon and Washington; land area, 84,290 square miles. The surface is chiefly mountainous, but there are also large tracts of prairie and fertile valleys. In the southeast is a volcanic region, abounding in geysers and saline springs. It is generally better adapted for grazing than for agriculture. Corn is not profitably raised, owing to the shortness of the summer. Barley, wheat, oats, potatoes, dairy products and wool are the staples. There are vast tracts covered with sage-grass, on which cattle fatten readily. Many of these plains, if irrigated, would make excellent wheat-growing districts. Gold and silver are plentiful in all parts of the territory, and are largely produced, the product in 1887 reaching \$8,000,000. The number of manufacturing establishments in the State in 1880, was 162; amount of capital invested in them, \$677,215; total number of hands employed, 388; amount paid in wages, \$136,326; value of materials used, \$844,874; value of products \$1,271,317.

There are 16 Counties in Idaho. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 25, of which 15 designated by a dagger (†) are county-seats. Of the 37 papers which insert advertisements published in the Territory, 5 are daily, 3 tri-weekly, 2 semi-weekly and 27 weekly.

MONTANA.

Population 160,000.....Dem. Maj. in 1884, 199 (Congressional).

Chinese pop., 1,765.

Dem. vote, 13,584; Rep. 13,385.

TERRITORIAL CAPITAL, HELENA.

MONTANA is bounded north by British America, east by Dakota, south by Wyoming and Idaho, and west by Idaho; land area, 145,710 square miles. Surface generally mountainous, especially in the west. Along the three forks of the Missouri River, as well as elsewhere through the Territory, there is much undulating prairie, with a fertile soil. The Missouri River is navigable to Fort Benton; the Yellowstone is also navigable. Perhaps nowhere else are such advantages offered to the capitalist, mining operator, stock raiser and wool grower as are here found. Very little hay or winter foddering is needed, the stock feeding on the rich grasses and ranging all winter in the sheltered valleys. Of agricultural staples, spring wheat, potatoes, butter, barley, oats and vegetables are the most prominent. The chief minerals are gold and silver, of which large quantities are obtained. Leading manufacturing interests are mining, lumber-sawing, quartz-milling and stamping, flour, etc. The output of minerals in 1887 is estimated at \$4,000,000 in gold, \$16,000,000 in silver and the enormous amount of 72,000,000 pounds of copper. The wool clip was about 6,000,000 lbs. A superior quality bituminous coal, in what is said to be one of the largest and most compact coal fields in the country, is being developed about 50 miles from Billings.

There are 16 Counties in Montana. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 22, of which 16 designated by a dagger (†) are county-seats. Of the 43 papers which insert advertisements published in the Territory, 8 are daily, 4 semi-weekly, 27 weekly, 2 semi-monthly and 2 monthly.

NEW MEXICO.

Population 133,530.....Dem. Maj. in 1884, 2,341 (Congressional).

Dem. vote, 12,271: Rep. 9,980.

TERRITORIAL CAPITAL, SANTA FE.

NEW MEXICO is bounded north by Colorado; east by the Indian Territory and Texas, south by Texas and Mexico, and west by Arizona; land area, 122,460 square miles. Its general surface is a region of high plateaus, traversed by mountain ranges with isolated peaks. The valleys are generally nearly level, and their soil fertile. In the southeast is a part of the barren "Llano Estacado" or "Staked Plain." The mesas, or table lands, occupy a large part of the surface, making stock-raising and wool growing the leading occupations; the bunch-grass affording rich pasturage, and neither hand-feeding nor shelter is ever necessary for the herds and flocks. Agriculture is successful in the valleys, glens and on the foot spurs of the mountain ranges. Irrigation is frequently resorted to in the valleys but never on the foot-hills; for on the latter nature supplies moisture sufficient for the most luxurious crops. In fact during the last three years farming on the mesas and in the valleys without irrigation has largely increased and has proven perfectly successful, causing the old inhabitants to say that the rain-fall has increased. New comers think it has arisen from deep ploughing and better methods of farming. Wheat, corn, beans, onions, cabbage, alfalfa, oats, wild hay, and all kinds of vegetables are the chief crops. Of fruits, the apple, peach, melon, fig, apricot, pomegranite, and especially grapes, flourish. Gold, silver, copper, iron, and lead exist, and all are being extensively worked. Manufactures are confined principally to grain, quartz, and lumber milling, manufacturing wines and brandies, the making of blankets by the Navajo Indians, and coarse pottery by the Pueblos. The number of manufacturing establishments in the State in 1880, was 144: amount of capital invested in them, \$463,275; total number of hands employed 557; amount paid in wages, \$218,731; value of materials used, \$871,352; value of products, \$1,284,846.

There are 14 Counties in New Mexico. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 21, of which 11 designated by a dagger (†) are county-seats. Of the 39 papers which insert advertisements published in the Territory, 7 are daily, 31 weekly, and 1 monthly.

UTAH.

Population 143,963Mormon Maj. in 1884, 18,905 (Congressional).

TERRITORIAL CAPITAL, SALT LAKE CITY.

UTAH is bounded north by Idaho and Wyoming, east by Wyoming and Colorado, south by Arizona; and west by Nevada; land area, 82,190 square miles. The surface is very mountainous, interspersed with arid plains, valleys, and basins; much of it is utterly sterile. Irrigation is nearly everywhere necessary but if a perfect system were adopted, much of the soil now worthless would produce good crops, as it contains most if not all of the elements of fertility. Wheat, oats, barley, corn, potatoes, dairy produce, hay, and wool are the chief products. Cattle-raising is a profitable industry, and is often successfully carried on where farming is impracticable. The chief wealth of the territory, however, is in its minerals. Gold and silver are largely produced, as are also lead, iron, copper, coal, and salt. Manufactures are chiefly those of goods needed for home consumption, but of late extensive works for the mining and smelting of ores have been established. The number of manufacturing establishments in the State, in 1880, was 640; amount of capital invested in them, \$2,656,657; total number of hands employed, 2,495; amount paid in wages, \$858,863; value of materials used, \$2,561,737; value of products, \$4,324,992.

There are 24 Counties in Utah. Newspapers are published in 10. — Cities, towns, and villages in which papers are published number 12, of which 8 designated by a dagger (†) are county-seats. Of the 30 papers which insert advertisements published in the Territory, 4 are daily, 5 semi-weekly, 14 weekly, 2 semi-monthly, and 5 monthly.

TERRITORIAL CAPITAL, OLYMPIA.

WASHINGTON TERRITORY is bounded north by British Columbia, west by the Pacific Ocean and east by the Bitter Root Range of the Rocky Mountains. It is divided by the Cascade Mountains, into two distinct parts. Western Washington is a fine timber country, with many fertile valleys, well settled and very productive in vegetables, which grow to an immense size; fruit of all kinds and hops. Extensive coal and iron mines are being operated, coke ovens established, and the Territory will be, in a short time, the Pennsylvania of the Pacific Coast. The discoveries during the past two years have been of copper, silver, galena and gold mines, all of which are rapidly being developed. Eastern Washington is especially adapted for the raising of all kinds of grain, fruit, vegetables, hops, corn, and particularly wheat, of which staple there was raised this year half a million tons. The climate is perfection; the mean average temperature for the year being 53°. It is the best agricultural country on the Pacific Coast. Cattle and stock of all kinds do remarkably well; the ranges are good and it is not considered necessary to feed the stock in the winter time, owing to the generally light snow-fall and the abundance of natural grasses. Puget Sound, is itself a vast harbor, having an extent of 1,594 miles of shore line, and Seattle, its principal sea-port, is fast becoming the metropolis of the northwest Pacific Coast. Fish of all kinds abound, and the canning of salmon employs many hundred people in the season. Manufacturing establishments are increasing every day and the Territory is on the eve of great developments. Hops are a leading product of Western Washington, the yield in 1887 approximating 25,000 bales. The output of coal for 1887 was 530,000 tons. The output of lumber for the same year was 645,440,000 feet. WYOMING

Population \$40,000.....**Rep. Maj. in 1884, 1,639** (Congressional).
Chinese pop., \$14. Rep. vote, 7,225; Dem. 5,586.

TERRITORIAL CAPITAL, CHEYENNE CITY

WYOMING is bounded north by Montana, east by Dakota and Nebraska, south by Colorado and Utah, and west by Utah, Idaho, and Montana; land area, 97,575 square miles. Its surface is broken by mountain ranges, deep river canyons, flat-topped hills or buttes, the latter a feature of South Wyoming, and which rise from valley or plain like walled cities or mounds. There are large elevated plateaus or parks, of which the principal is the Great Yellowstone or National Park. Stock-raising, sheep-husbandry, and coal-mining are the leading pursuits. Irrigation is needed in a large part of the country to make the soil productive. Gold and silver are plentiful. There are vast beds of iron-ore and plenty of good coal. Gypsum, salt, soda, sulphur, copper, and other minerals are found. In manufactures, the sawing of lumber and railroad ties, milling of quartz, and railroad repair and machine shops in the towns on the line of the Union Pacific Railroad, occupy the leading place. The number of manufacturing establishments in the State, in 1880, was 57; amount of capital invested in them, \$364,673; total number of hands employed, 391; amount paid in wages, \$187,798; value of materials used, \$601,214; value of products, \$898,494.

There are 8 Counties in Wyoming. Newspapers are published in all,—Cities, towns and villages in which papers are published number 13, of which 8 designated by a dagger (†) are county-seats. Of the 26 papers which insert advertisements published in the Territory, 4 are daily, 1 semi-weekly and 21 weekly.

BRITISH COLUMBIA.

Population §114,286.

PROVINCIAL CAPITAL, VICTORIA.

BRITISH COLUMBIA is bounded on the north by the parallel of 60° north, on the west by the Pacific Ocean and Alaska, on the south by the 49th parallel (the boundary of the United States), on the east by the Rocky Mountains and the meridian of 120° west. It is the largest of all the Canadian Provinces, having an area of 341,305 square miles. It includes a number of islands, the largest being Vancouver, which contains the capital of the Province, has an area of about 20,000 square miles, and produces the finest coal on the Pacific Coast. About 250,000 tons are exported annually to the United States, and the quantity is steadily increasing. The Province is about 700 miles long and 500 wide. Its surface is largely mountainous and densely wooded, producing the largest trees in the world. Lumbering is one of the principal industries, but as the land becomes cleared the soil is found very fertile and well adapted for agriculture of all kinds. The climate is temperate and healthy, and is particularly suitable for stock raising. Gold has been found in large quantities, and mining it is one of the chief industries. Upwards of \$15,000,000 of this metal have been exported during the last 15 years. The fisheries are also very valuable, their produce in 1886 having been reckoned at \$4,834,848. Fur-bearing animals are very numerous. The principal town on the mainland is Vancouver, the terminus of the Canadian Pacific Railway. Though barely two years old it has a population of over 5,000.

Of the 14 papers which insert advertisements published in British Columbia, 6 are daily, 2 semi-weekly, and 6 weekly.

MANITOBA.

Population \$123,175.

PROVINCIAL CAPITAL, WINNIPEG.

MANITOBA, is bounded south by Minnesota and Idaho, east by Ontario and Keewatin, and north and west by Keewatin and the northwest Territories, and has an area of 60,520 square miles. Its surface is principally prairie land, with groves of timber along the rivers and streams. The soil is probably the richest in the world, and produces the finest wheat known in the market. In 1887 the average yield was 27.7 bushels per acre. All other cereals grow and ripen in great abundance, and so do vegetables and small fruits of all kinds. For grazing and cattle raising the facilities are unbounded, hay being chiefly made from the prairie grasses, which are very nutritious, and in illimitable abundance. Cultivated grasses also answer well. The growth of the Province has been very rapid, the increase in population between 1881 and 1886 having been 74.56 per cent. Winnipeg is on the main line of the Canadian Pacific Railway, which passes through the Province from east to west, and from it several railways branch out into the Province and the United States. The means of water communication are also very considerable.

Newspapers are published in 9 Counties of the Province.—Cities, towns, and villages in which papers are published number 16, of which 2, designated by a dagger (†) are county-seats. Of the 35 papers which insert advertisements, 3 are daily, 29 weekly, and 3 monthly.

NEW BRUNSWICK.

Population 342,047.

PROVINCIAL CAPITAL, FREDERICTON.

NEW BRUNSWICK is bounded north by Quebec, east by the Gulf of St. Lawrence, west and south by the Bay of Fundy, part of Nova Scotia, and Maine. It is 210 miles in length and 180 miles in breadth, and has a coast line of about 500 miles. Its area is 27,174 square miles. Surface generally very undulating, scarcely an elevation on the west coast exceeding 300 feet, on the north there is a section of mountainous character, consisting of hills ranging from 500 to 800 feet in height, covered with dense forest, and surrounded by fertile valleys and table lands. Its forests are very extensive, and lumbering is one of the principal industries. The climate is very healthy and the soil fertile, with great agricultural capabilities. Ship-building is extensively carried on, and the fisheries, viz: salmon, smelt, herring and lobster, are second in value only to those of Nova Scotia. Their value in 1887 was \$4,180,227. Coal, antimony, copper, iron, manganese and other minerals are found in considerable quantities. Manufactures are chiefly sawed lumber and wooden wares, cotton and woollen goods, refined sugar, rope and cordage, canned goods, polished granite, boots and shoes, edge tools, furniture, paper castings, machinery, locomotives, etc. Chief exports—lumber, fish, cotton goods, potatoes, butter and eggs, beef and mutton, gypsum, hay, etc.

Newspapers are published in 9 Counties of this Province. — Cities, towns, and villages in which papers are published number 14, of which 6 designated by a dagger (†) is a county-seat. Of the 40 papers which insert advertisements published in the Province, 4 are daily, 2 tri-weekly, 3 semi-weekly, 25 weekly, and 6 monthly.

NORTHWEST TERRITORIES.

Population \$96,000.

SEAL OF GOVERNMENT, REGINA.

The NORTHWEST TERRITORIES are bounded north by the Arctic Ocean, east by the Atlantic Ocean and Hudson's Bay, west by Alaska and British Columbia, and south by the United States and portions of the Dominion. They cover an area of about 2,647,730 square miles, and were formerly known as the Hudson's Bay Territory. In 1882 four provisional districts were formed, viz: Alberta, Saskatchewan, Assiniboia and Athabasca. The population of the first three at a census taken in 1885 was 48,362. The four districts contain 431,000 square miles, or 275,840,000 acres, the greater number of which are fit for cultivation. Assiniboia and Saskatchewan contain the best wheat lands, while Alberta is peculiarly well adapted for grazing and stock raising. Upwards of 4,000,000 acres are already under lease for these purposes, on which are more than 100,000 head of cattle. The Canadian Pacific Railway runs through Assiniboia and Alberta. The population of the remainder of the Territories consists principally of Hudson Bay Company employes and Indians. An immense coal field 300 miles wide commences 150 miles east of the Rocky Mountains and extends to the Arctic Ocean, and is now being worked in several places. Lumber is also abundant in many places, so that a good supply of fuel is amply provided for. The completion of the Canadian Pacific Railway has given an impetus to farming and cattle raising that is rapidly settling the southern portion of the country, while the placing of powerful steamers on the Athabasca, the Pease and Mackenzie Rivers of the North is destined at an early day to open up to settlement the immense tracts of mineral and timber land that constitute almost all the "North Country." These steamers ply in waters two thousand miles north of the North Saskatchewan and far within the Arctic Circle.

There are 15 papers which insert advertisements published in the Northwest Territories, of which 2 are daily and 13 weekly.

NOVA SCOTIA.

Population \$476,900.

PROVINCIAL CAPITAL, HALIFAX.

NOVA SCOTIA consists of a very narrow peninsula, connected with New Brunswick by a narrow isthmus about 16 miles wide, and of the island of Cape Breton. It is bounded on the north by the Gulf of St. Lawrence, on the east and south by the Atlantic, on the west by the Bay of Fundy and New Brunswick. It is 300 miles long and from 80 to 100 wide, with an area of 20,907 square miles, or 11,000,000 acres, of which 5,000,000 are fit for tillage. The Cobequid Range runs through the interior, the soil on both sides of which is very fertile; also in the beautiful valley of the Annapolis River. The soil is very rich and fertile, and agricultural productions are very extensive; wheat, rye, oats, barley, buckwheat, corn, vegetables, and fruit grow abundantly. The principal minerals are coal, iron and gold. Coal is in great abundance, and is freely worked, 250,000 tons being exported in 1886. Iron is in large quantities and practically inexhaustible; it is of a fine quality and commands the highest price in the market. There are 58 gold miles in working order, the value produced in 1886 was \$455,564. Manganese, gypsum, and roofing-slate abound. Manufactures are numerous, and include coarse cloth, flannels, blankets, carpets, boots and shoes, saddlery, furniture and farm implements. Ship-building is important. The fisheries are reckoned among the richest in the world; the value of their produce in 1886 was \$8,415,361. The capital city, Halifax, is situated on the west side of the harbor of that name, and contains over 40,000 inhabitants. The harbor is one of the finest in the world, over half a mile in width at its narrowest part, and extensive enough to contain all the navies of the world. Halifax has two sugar refineries, a dry dock, paint works, cotton factory. It is the winter port for the direct mail steamers, and has direct communication with Liverpool, Boston, Baltimore, Quebec and the West Indies. As a summer resort it is yearly becoming better known; its suburbs furnish the pleasantest drives and bathing facilities, and its public gardens have been pronounced by all who have visited them the most beautiful on this side of the Atlantic.

Newspapers are published in 15 Counties of this Province.—Cities, towns, and villages in which papers are published number 23, of which 9 designated by a dagger (†) are county-seats. Of the 51 papers which insert advertisements published in the Province, 5 are daily, 3 tri-weekly, 4 semi-weekly 36 weekly, 1 semi-monthly, and 2 monthly.

ONTARIO.

Population \$2,121,003.

PROVINCIAL CAPITAL, TORONTO.

ONTARIO is bounded on the east by Quebec, north and northwest by Hudson's Bay and the Northwest Territories, southwest and south by the Great Lakes and St. Lawrence River, and has an area of 181,800 square miles, exclusive of its water surface. It is the most populous and wealthy Province of the Dominion of Canada, and contains a number of large cities with populations of from 30,000 to 45,000, amongst others being Ottawa, population 35,000, which is the Seat of Government and capital of the Dominion. Surface is mostly undulating, traversed by the Laurentian Hills and Blue Mountains, but except in the neighborhood of Lake Superior and Georgian Bay they nowhere exceed a few hundred feet in height. The agricultural resources are very great. Three-fourths of the present area of habitation is fertile, while an immense region beyond is capable of cultivation; very large crops of cereals are raised. The apple orchards of the southwest are very productive, and small fruits and vegetables are prolific. Stock raising and dairy farming succeed remarkably well, cattle, butter and cheese being exported in large quantities. Its mineral treasures are exceedingly rich and varied; iron, copper, lead and silver are very abundant. Some gold has been found between Georgian Bay and the Ottawa River; petroleum, salt, rock-salt and peat beds also exist. Manufactures are rapidly increasing in number and importance, among the principal being agricultural implements of all kinds, wagons, carriages, railroad stock, including locomotives, cotton and woolen factories, tanneries, furniture, paper, soap, wooden ware factories, &c. The railway enterprise is very great, and in addition to the great trunk lines, the Grand Trunk Railway and Canadian Pacific, every important section has competing lines stretching out to it. Its educational system is a combination of the best features of the schools of other countries, and is claimed to be the best in the world, especially in its common schools.

Newspapers are published in 48 Counties and Districts of this Province. — Cities, towns, and villages in which papers are published number 202, of which 39 designated by a dagger (†) are county-seats. Of the 453 papers which insert advertisements published in the Province, 41 are daily, 1 tri-weekly, 4 semi-weekly, 317 weekly, 1 bi-weekly, 9 semi-monthly and 50 monthly.

PRINCE EDWARD ISLAND.

Population §118,523.

PROVINCIAL CAPITAL, CHARLOTTETOWN.

PRINCE EDWARD ISLAND is bounded north by the Gulf of St. Lawrence, east by Cape Breton Island, south by Nova Scotia proper, and west by New Brunswick. The greatest length is 130 miles; greatest breadth 34 miles; least breadth, 4 miles; area about 2,134 square miles. The surface is gently undulating, large part of it forest. Soil a light loam, not known to contain available minerals, but remarkably rich and particularly favorable for the growth of grasses. Principal productions—wheat, barley, oats, horses, sheep, pork, potatoes, cheese, starch, etc. It has valuable fisheries, especially of cod, mackerel and oysters; upwards of thirty-five thousand barrels of the latter being shipped annually from the port of Summerside alone. Manufactures of tweeds, flannels, pottery, boots and shoes, agricultural implements and domestic articles; ship-building is carried on to considerable extent.

Newspapers are published in 2 Counties of this Province.—Cities, towns, and villages in which papers are published number 2. Of the 9 papers published which insert advertisements, 2 are daily, and 7 weekly.

QUEBEC.

Population **§1,462,043.**

PROVINCIAL CAPITAL, QUEBEC.

QUEBEC is bounded north by Hudson Bay, east by Labrador and the Gulf of St. Lawrence, south by New Brunswick, Maine, New Hampshire and New York, southwest by the Ottawa River, which separates it from Ontario. Length from east to west 700 to 1,000 miles, breadth about 300 miles; area about 188,688 square miles. Surface south of St. Lawrence generally hilly, northern part mountainous and rocky and abounding in rivers and small lakes. A great part of the surface is covered with forests. Soil in many districts is rich, and cereals grow well. Oats, potatoes and hay are the chief crops; also wheat, barley, rye, buckwheat, flax, peas and beans. Hops and apples are extensively grown. Cattle raising and cheese dairying are important industries. Copper and mica abound in the eastern townships, and iron almost everywhere. Lead, silver, platinum, zinc, &c. are in abundance, and there are large deposits of phosphate of lime in the Ottawa River district; 26,000 tons were exported in 1886. Gold is found in several places. The lumber industry is the principal one, produce of the forest to the value of \$9,603,441 having been exported in 1886. The fisheries are also important and rank next to those of New Brunswick in value. Ship building is carried on in Quebec. Lumber is a valuable article of export. The principal manufactures are cloth, linen, furniture, leather, sawed timber, flax, iron and hardware, paper chemicals, boots and shoes, cotton and woolen goods, agricultural implements, etc. Montreal, though not the capital, is the largest city in the Province and the commercial capital of the Dominion. It has a population of 192,000.

Newspapers are published in 27 Counties of this Province.—Cities, towns, and villages in which papers are published number 35, of which 15 designated by a dagger (†) are county-seats. Of the 130 papers which insert advertisements published in the Province, 23 are daily, 3 tri-weekly, 5 semi-weekly, 76 weekly, 1 bi-weekly, 1 semi-monthly, and 21 monthly.

NEWFOUNDLAND.

Population 197,335.

CAPITAL, ST. JOHN'S.

NEWFOUNDLAND is in the Atlantic Ocean, at the mouth of the Gulf of St. Lawrence; bounded north and northeast by Labrador (Belle Isle Straits intervening); Cape Breton is off its southwest point; east by the Atlantic Ocean, and west by the Gulf of St. Lawrence. Its extreme length is 350 miles; average breadth 130 miles, and area 40,200 square miles. Surface generally rugged, with numerous lakes and rivers; not much timber, except along the streams and on the western side of the island. Soil is fertile near many of the lakes and rivers, and in many places farming is profitable. Wheat grows well; so do potatoes and green crops generally; apples and small fruits are profitable. The timber lands are unsettled, and lumbering is not carried on. The fisheries, both on the Grand Banks and in-shore, are very extensive and valuable. The seal fishery employs many vessels and steamers. Principal exports are fish and fish-oils, seal-oil and skins, and amount to more than \$5,000,000 annually. The coast of Labrador, on the mainland, is now included in the colony; it comprises about 120,000 square miles, but has only 4,211 inhabitants.

There are 8 papers which insert advertisements published in Newfoundland, 3 daily, 2 semi-weekly, and 3 weekly.

THE TIoga MINERS

Some Eight Hundred Coal Workers Leave the Mines

The Tioga miners, who have been on strike for some time, have today left the mines in large numbers. The strike is believed to be a result of the refusal of the owners to grant the demands of the miners for higher wages and shorter hours. The miners are now scattered throughout the county, and many are seeking employment elsewhere. The strike has caused a serious shortage of coal in the region, and the public is suffering as a result.

BISHOP RYAN'S LETTER

The following is a copy of a letter written by Bishop Ryan to the miners. In the letter, the bishop expresses his sympathy for the miners' plight and offers advice on how to resolve the dispute. He urges both sides to exercise patience and reason, and suggests that a fair settlement can be reached through negotiation. The letter is widely read and has had a significant impact on the community.

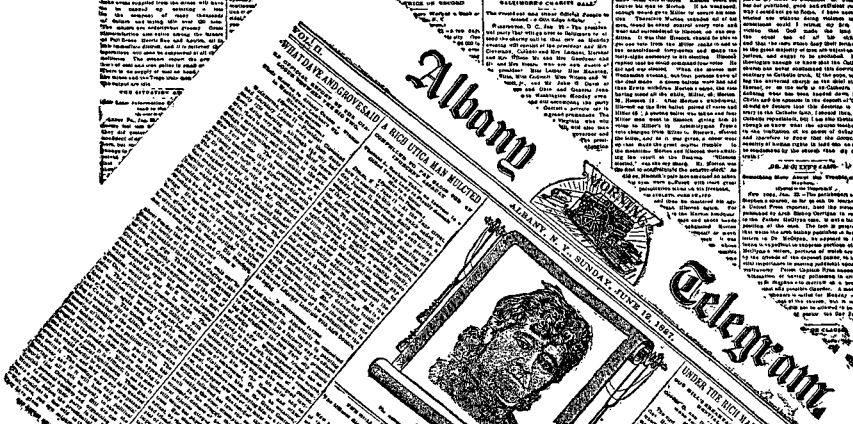

Portrait of a man with a mustache, likely a prominent figure mentioned in the articles.

JUST HOW IT WAS DONE

This article details the methods used by a certain group to achieve their goals. It describes the planning and execution of their actions, highlighting the ingenuity and determination of the individuals involved. The account provides a clear and concise overview of the entire process, from the initial idea to the final outcome.

M'GLYNN SPEAKS

Mr. M'Glynn has recently given a series of lectures on the subject of community relations. His talks have been well-received and have provided valuable insights into the challenges of living in a diverse society. He emphasizes the importance of mutual respect and understanding, and offers practical suggestions for fostering positive relationships between different groups.

THE JONES SCALE WORKS.

JONES OF BINGHAMTON.

Binghamton, N. Y., May 27, 1887.

DEAR SIR: It rarely happens in the history of any advertiser's experience with any one paper that he can say frankly, and without hesitation, that such a paper is the best, and for this reason it affords us greater pleasure to say most emphatically, that we had during the year 1886 no one paper which brought us so many returns or so much actual business as THE AMERICAN RURAL HOME. Our experience has been considerable, and we do not feel more indebted to any one than to you. We seldom if ever feel called upon to give an unsolicited testimonial, but we feel in renewing our contract with you it is due to THE AMERICAN RURAL HOME to say what we have. Wishing you the best of success, we are

Yours truly,
JONES OF BINGHAMTON.

KEMP & BURPEE MANUFACTURING CO. KEMP'S MANURE SPREADER, PULVERIZER, AND CART COMBINED.

Syracuse, N. Y., May 18, 1887.

DEAR SIR: If advertisers want inquiry for their goods especially in the agricultural line we commend THE AMERICAN RURAL HOME on the strength of our experience with it this spring, it having turned in an unprecedented number of inquiries, the largest we ever had from any one paper in response to our advertisement this spring. We have been surprised at the large returns, which exceeded our expectations.

Yours truly,
KEMP & BURPEE M'FG. CO.

WORLD'S DISPENSARY AND INVALIDS' HOTEL.

Buffalo, N. Y., May 16, 1887.

GENTLEMEN: We have always regarded THE AMERICAN RURAL HOME as an excellent medium for advertising. Circulating as it does among a class of people who read such publications thoroughly, and being ably edited, gives it a value as an advertising medium not possessed by many of the more cheaply-gotten up papers with which the country is flooded. Yours truly,
WORLD'S DISPENSARY MEDICAL ASSOCIATION,
R. V. PIERCE, President.

OFFICE OF OBORN BROTHERS. MANUFACTURERS OF THE ECLIPSE, TRIUMPH AND VICTOR HAY CARRIERS.

Marion, O., May 21, 1887.

GENTLEMEN: We can cheerfully say that THE AMERICAN RURAL HOME stands at the head for inquiries, also for cash returns. We have adopted a system that we can credit each paper that we advertise in with inquiries from it, and we find that THE AMERICAN RURAL HOME stands as one of the very best for responses, and we can recommend it to all manufacturing firms as one of the best mediums to get their implements before the public. A trial will convince any one that its results for the money expended will have no equal.

Yours respectfully,
OBORN BROS.

WILSON BROTHERS,

SOLE MANUFACTURER OF THE FRANK WILSON PATENT
GRINDING MILLS AND HORIZONTAL STEAM ENGINES.

Easton, Pa., May 20, 1887.

GENTLEMEN: We keep a pretty strict account of all the leading papers we advertise in, and credit them with the number of inquiries received from each. Without exaggeration, these figures frankly tell us THE AMERICAN RURAL HOME, of Rochester, N. Y., is AT THE HEAD OF THE LIST.

Yours truly,
WILSON BROS.

DUANE H. NASH,

THE 27TH ANNIVERSARY

1888

FINDS THE

MILWAUKEE HEROLD

PUBLISHED DAILY, WEEKLY AND SUNDAY AT
MILWAUKEE, WISCONSIN.

THE "HEROLD" BUILDING,
CORNER MASON STREET AND BROADWAY.

In most prosperous condition. Its constantly increasing circulation and business demanding more room and greater facilities, its building has been enlarged by erection of a fourth story, and a Webb Perfecting Press added to its array of fast running presses. The Herold Building is fitted up in modern style. Its upper story contains the well-lighted and properly ventilated composing and stereotype rooms, the third story is a model as regards the arrangement of its numerous editorial rooms and library. The business department requires the greater part of the ground floor, while the press rooms occupy the basement, the full width of sidewalks being used.

The "Daily Herold" having the largest circulation of all Milwaukee daily papers, occupies a front rank as an advertising medium, as does the "Weekly Herold" circulated largely throughout the Northwest. The "German Agricultural and Horticultural Journal," published since 1870, is issued semi-monthly. The German-American Industrial Gazette, "Progress of the Age," aims to supply its readers with information similar to that of the "Scientific American;" separate departments devoted to Art, Natural and Industrial Science, Geographical and Historical Knowledge being maintained. These journals furnish instructive and entertaining reading to hundreds of thousands of people throughout the United States.

To Students of German Mr. Coleman's German series, the

The sixteen periodicals mentioned above are of the better class, and are preserved in the homes of the better classes of the masses. Subscribers are not received for less than one year.

Affidavits of circulation always furnished every advertiser each month; an advertiser has the same right to know the exact circulation given him that the merchant has to full knowledge of the exact quantity of goods delivered on his order.

Advertisers who have the means of identifying returns, give large orders after a trial trip. I own the controlling interest in each of the above named periodicals, and all orders for advertising should be sent to me direct.

The quality of the circulation of the above named periodicals is "Gilt Edge," and handsome returns will be received by patrons whose business it is to reach the better classes of the masses.

The circulation of Allen's Lists is very steady; it is not first way down and then way up, but is on a solid foundation. For nearly **Twenty Years** these lists have been gradually growing, and to-day no more staple circulation exists in America.

NOTHING COVERED UP.

Each month we tell advertisers all about our circulation; that we shall permanently do regularly. The advertiser has a right to know just what he pays for, and though it is generally the custom for publishers to try to make advertisers believe their circulation much larger than it really is, we propose to **TELL THE EXACT TRUTH** first, last, and all the time. Books and all avenues of information always wide open at our offices, for the inspection of advertisers and advertising agents.

Full information by letter or special representative.

Advertisements inserted in both lists for **\$3.60** per Agate line, each insertion.

HOME AND FARM

SEMI-MONTHLY.

LOUISVILLE, KY.

CIRCULATION

THE

Largest of any Paper in the South

This Agricultural Journal is published at Louisville, Kentucky, and circulates largely in every Southern State, and throughout the Northern States bordering on the Ohio. It is an indispensable medium of advertising for those

Enterprising Merchants and Manufacturers

Who, realizing the vast industrial changes which have occurred in the South, are pushing their wares into that territory, there to establish a new market for their products.

THE NEW SOUTH

Has a purchasing power that the OLD SOUTH never possessed, and its wealth is increased each month by the coming of the capitalist and the immigrant.

Twenty years ago the West was the field to which every merchant and manufacturer turned. To-day the same forces are at work in the Southern States. *You must look to this region if you wish to extend your trade, and this is the time to do it.*

FOR TWELVE YEARS

HOME AND FARM

HAS BEEN IN THE SOUTH

THE CHIEF AUTHORITY ON AGRICULTURAL MATTERS

It is edited with the utmost care and without regard to expense. No journal has ever won so completely the confidence of such an extended constituency. It retains this confidence by dealing fairly with subscribers and advertisers alike. All objectionable advertisements refused. Lotteries and gift enterprises excluded. It is a home, as well as a farm, journal, and its advertisers as well as contributors are compelled to recognize this fact.

Do you want to reach the Southern Buyer? You must insert your advertisement in HOME AND FARM, and the sooner the better. Rates reasonable. Address

THE DAILY AND WEEKLY DISPATCH

RICHMOND, VIRGINIA.

THE DISPATCH COMPANY, PUBLISHERS.

Advertisers will find that THE DISPATCH is incomparably the best medium in Virginia for reaching buyers amongst merchants, manufacturers, farmers, mechanics, miners, railroad companies, colleges, schools, ministers, lawyers, physicians, State, town and county officials, and all classes of our people. It is the leading Democratic newspaper. It is published at the capital of the State, which has a population of 81,081; Manchester (on the opposite side of the river) has 8,000, and Richmond's suburbs 6,000—total 95,082. Six railroads center here, two of which control over 6,000 miles of railroads. Its 600 manufactories have an invested capital of \$12,360,546, employ 19,961 workmen, and sold in 1887, \$27,887,340 of products. The jobbing trade of Richmond in 1886 amounted to \$25,290,000. The whole of Virginia is prospering, and is an attractive field for advertisers. Within ten years one and a half million acres have been added to the area under cultivation, making over twenty millions of acres of farming land in use, while the increase in staple farm products has been greater than the increase in acreage. There are over 3,800 miles of railroad in our territory, and there are now 500 miles more under construction. New towns, villages, furnaces, factories and mills have sprung up on these great highways of trade. The value of Virginia manufactures increased from \$51,819,692 in 1880 to \$114,032,602 in 1885. Our foreign and inter-State commerce has quadrupled in the past fifteen years.

THE DAILY DISPATCH has a circulation double the combined circulation of all the other daily newspapers of the city. Outside of Richmond its circulation is larger than any daily newspaper in the State. It is served by newsdealers and carriers in all the principal towns and on railroad passenger trains in Virginia and North Carolina. THE WEEKLY DISPATCH more thoroughly covers all the counties of the State than any newspaper published in Virginia.

Sworn statements of the circulation of the DAILY and WEEKLY DISPATCH will be furnished advertisers. They will thus know how much they get for what they pay.

For schedule of advertising rates address, THE DISPATCH COMPANY, RICHMOND, VA., or any reputable advertising agent.

OHIO STATE JOURNAL

FAITH DEMANDS A REASON.

Following are a few of the foundation stones of belief in the efficacy of judicious advertising in the DAILY and WEEKLY OHIO STATE JOURNAL:

Columbus has a population of over 90,000. The city is located in the center of the third State of the Union. Reach out 150 miles in every direction and you find people, PEOPLE, PEOPLE, millions of them. You also find as rich a territory, in its natural products, as exists on the earth. Columbus herself is the second richest city, *per capita*, in the Union. She has fourteen lines of railroad that dive out into a royal domain in every direction. Not an early morning train leaves Columbus that does not carry the DAILY OHIO STATE JOURNAL. This paper has been continuously published at this point since 1811. The DAILY is a 56 and the WEEKLY a 64-column quarto, each as handsome as a picture. Within a radius of 100 miles you will find it in every city, village and hamlet. It is needless to add that the people know, respect and read it. Where the DAILY cannot reach, the WEEKLY STATE JOURNAL is certain to be found. It is a magnificent family paper, edited with special reference to the requirements of the American country home, and its like is not published in America. On the green earth there is no publication that reaches as many families in Central, Southeastern and Northwestern Ohio as the DAILY and WEEKLY STATE JOURNAL. We will back this statement with a 50,000 line contract.

APPLES OF GOLD.

The STATE JOURNAL is now 76 years of age, but is still young enough to be vigorous and enterprising. It is withal a sound Republican paper, and a worthy mouthpiece of the intelligent Republicans of Central Ohio.—*N. Y. Tribune*.

Few interior State papers in this country are edited or managed with more ability than the STATE JOURNAL.—*Chicago Tribune*.

In all its departments it is strictly first-class.—*Cincinnati Commercial Gazette*.

The STATE JOURNAL is one of the most reliable and able Republican papers printed in Ohio.—*Cleveland Leader*. Our esteemed contemporary is now one of the handsomest and newsiest papers in the country. The Republicans of Ohio are fortunate in having at the State capital a representative that discusses political subjects with the candor, vigor and thoroughness which characterize the STATE JOURNAL's editorials.—*Cincinnati Times-Star*.

The STATE JOURNAL is a good representative of its constituency.—*Dayton Journal*. It is now the progressive kind of a Republican organ that the Capital City of Ohio has needed for a number of years.—*Mansfield News*.

The STATE JOURNAL is the only newspaper of standing Columbus has ever had.—*Massillon Independent*.

THE ABOVE SEEMS TO BE A PRETTY UNANIMOUS SENTIMENT.

We have hundreds more equally good. The Centennial celebration of the settlement of the Northwest Territory is to occur at Columbus in 1888. The National Encampment of the G. A. R. is to be held at Columbus in 1888. These two great events will bring thousands upon thousands of people here.

The OHIO STATE JOURNAL has been selected by the Executive Committee to publish the Encampment Roster daily during the meeting of the G. A. R. This insures an increased circulation of from 50,000 to 75,000 copies daily during the week.

If any man desires to bring his business before the people of Ohio, manifestly the best thing he can do is to close a contract with the OHIO STATE JOURNAL. Don't fritter your advertising appropriation away; put it where, with a generous and *bona fide* circulation, you get also character and influence. Address,

GENTLEMEN:

Would be pleased to have you consider the following newspapers in making up your list:

"Detroit Evening News," fourteen years old, circulates in every part of the State an average of 45,000 copies every day. Sells for two cents. The number of readers in Michigan, who do not read the "News," is very small.

"Pittsburgh Chronicle Telegraph," issues every afternoon and weekly. Daily sells for two cents, and Weekly for one dollar a year. Established in 1841. Enjoys the prestige of both the United and Associated Press reports; has 22,000 daily, and 27,000 weekly. It is one of the substantial papers of the country.

"The Cincinnati Evening Post,"—A wonder in modern Journalism. Sells for one cent and circulates over 50,000 copies each afternoon in Cincinnati and surrounding towns, within a radius of 150 miles. It would not pay to use this paper for returns from Alabama or California, but in its territory the greatest good can be done with the least outlay by using the "Post."

"The Cleveland Press," the oldest one-cent paper in the country west of Philadelphia, with but one exception. The only exclusive afternoon paper in Cleveland. Circulation 40,000 every day. A glance at its columns convinces one of its worth.

"The St. Louis Evening Chronicle," the only one-cent paper in St. Louis. Has 27,000 actual daily circulation, and is growing every day.

Very Truly Yours,

N. W. AXER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

Sioux City Volksfreund

SIOUX CITY, IOWA.

OSCAR A. HOFFMANN, Publisher.

As a witty supplement is issued, "Bruder Lustig," every two weeks, subscription \$2.00 per year.

The Amador Dispatch

JACKSON, AMADOR CO., CAL.

WM. M. PENRY, Editor and Publisher.

Published every Saturday. Terms, \$3.00 per annum. THE DISPATCH is published in one of the most important mining and agricultural districts of the State. Has an established circulation throughout Amador and adjoining counties. Advertisers will find it an unequalled medium. Rates of advertising (per square of 250 ems): First insertion, \$1.50; each additional insertion, up to four, \$1.00; each subsequent insertion, 35 cents.

THE BEST MEDIUMS TO REACH BUCKS COUNTY PEOPLE.

WEEKLY. INTELLIGENCER DAILY.

DOYLESTOWN, PENNSYLVANIA.

THE BUCKS COUNTY INTELLIGENCER (Weekly), established in 1804, is the oldest, largest and most widely circulating journal within fifty miles north of Philadelphia. Its constituency is second to none in the wealthy and populous region indicated, and it is emphatically the best paper for advertisers to use to reach this section.

THE DOYLESTOWN INTELLIGENCER (Daily), established in 1886, is the first and only daily newspaper in Bucks county. It was enlarged in 1887, and has become one of the firmly-established institutions of the county.

The circulation of the Daily and Weekly editions of the INTELLIGENCER are almost entirely distinct and separate. Quite a favorite method of securing the most complete advertising for this section is by using the Weekly edition with two or three insertions in Daily per week.

TERMS ARE LOW AND UNIFORM, AND ARE THE SAME TO ALL ALIKE.

THE GUIDE is the only paper of its class published, and therefore has an exclusive field of its own, covered by no other journal.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

THE TERRE HAUTE EXPRESS

TERRE HAUTE, INDIANA.

Population, **38,000.**

Number of Railroads, **9.**

TERRE HAUTE IS THE CENTRE OF THE GREAT COAL FIELDS OF INDIANA. SITUATED ON THE WABASH RIVER, IT ENJOYS A LARGE RIVER TRADE IN ADDITION TO THAT DERIVED FROM ITS NINE RAILROADS, TAPPING THE RICH AGRICULTURAL REGIONS SURROUNDING TERRE HAUTE.

The principal articles manufactured in Terre Haute are Flour, Hominy, Forks, Hoes, Rakes, Tined Goods, Hubs and Spokes, Steel and Wrought-iron Nails, Cars, Carriages and Buggies, Overalls, Bar and Pig Iron, etc., etc. Coal for manufacturing purposes cost **50 cents per ton**—less than natural gas. Terre Haute has had the steadiest and healthiest growth of any city in Indiana, and its percentage of increase in population, as shown by the census, has not been exceeded by a half dozen cities in the United States.

THE TERRE HAUTE EXPRESS WAS ESTABLISHED IN 1823, AND IT IS NOW RECOGNIZED AS THE LEADING PAPER IN THE WABASH VALLEY.

It circulates extensively in Eastern Illinois, in a region naturally tributary to Terre Haute.

The Scranton Truth

HAS A SWORN CIRCULATION OF

NEARLY 8,000 COPIES DAILY.

And is printed every week-day afternoon, in its own new building, on one of R. Hoe & Co's Lightning Web-Perfecting Presses.

OPINIONS OF THE PRESS.

Its circulation is constantly increasing and its influence is now equal to that of any journal in Northeastern Pennsylvania.—*Philadelphia Times*.

The success of THE SCRANTON TRUTH is the most remarkable fact in recent Pennsylvania journalistic history.—*Philadelphia News*.

THE SCRANTON TRUTH is only four years old, but has a circulation of between 7,000 and 8,000 copies daily. It has just bought a new press, which prints 20,000 copies an hour. Such success in so limited a time is phenomenal.—*Lancaster Intelligencer*.

THE TRUTH is among the ablest daily papers in the State and deserves all of the success it is meeting with.—*Bradford Republican*.

THE TRUTH needs no flattery. Its success speaks for its excellence.—*Carbondale Leader*.

THE SCRANTON TRUTH, a wide-awake and progressive afternoon journal, has scored a great success from its inception four years ago. It is now fairly established and has just moved into a building of its own, equipped with the latest and completest machinery.—*Indianapolis News*.

The Republican congratulates THE TRUTH upon its enterprise and upon the fact that the costly investment was necessitated by its large and enlarging business.—*Scranton Republican*.

THE SCRANTON TRUTH is an Evening Daily, patterned in form and style much after the *Union*, that does credit to the third city in size and importance of the second State of the Union, and to the great valley of the Lackawanna, in which it is published and circulated. It has just celebrated its fourth birthday by putting in operation a new Hoe Press of 20,000 an hour capacity, and is very justly receiving the hearty congratulations of its contemporaries, in which the *Union* desires to emphatically join.—*Rochester Union*.

Truth always does come to the top in the long run, and THE SCRANTON TRUTH is no exception to this good old rule. The enterprising and energetic daily has reached the top notch of the best standard of American journalism. Its progress has been somewhat phenomenal. Only last Saturday it celebrated the fourth anniversary of its birth and at the same time christened a new Hoe Press, capable of turning out 20,000 copies an hour. A newspaper that can accomplish so much in the short space of four years is deserving of the highest praise and must be ably managed. THE TRUTH in its news columns and editorials ranks among the ablest papers in Pennsylvania, and richly merits the success it has met with.—*Brooklyn Daily News*.

THE TRUTH, without a doubt, is the largest and healthiest four-year-old inland daily in the world.—*Dunmore Pioneer*.

THE TRUTH is one of the best of Pennsylvania's newspapers, and is to be congratulated on its good fortune.—*Utica Daily Press*.

The advancement of journalism in the anthracite region of Pennsylvania was never better illustrated than in the wonderful progress made by THE SCRANTON TRUTH.—*Wilkes-Barre News Dealer*.

A new building, admirably equipped with machinery, perfectly adapted as to ventilation and light, with a circulation daily of from 7,000 to 8,000, signalized the fourth anniversary of the birthday of THE SCRANTON TRUTH.—*Pittston Gazette*.

ADVERTISERS

Are you looking for a medium with a national circulation that will PAY YOU EVERY TIME? If so, remember that here is one that inserts only a LIMITED AMOUNT OF ADVERTISING, and all that is taken are GIVEN A POSITION NEXT TO PURE READING. By this method of doing business ALL ADVERTISERS ARE USED ALIKE instead of one half of them being so placed *no one will ever see them*, while at the same time our subscribers receive their full money's worth of reading, and this accounts for our success. If these and a circulation of nearly 45,000 are any inducements, we should be pleased to receive a trial order that you may see that it pays. ADVERTISING RATES: 30 cents a line (Agate Measure), each insertion.

THE EVENING BULLETIN

SAN FRANCISCO, CALIFORNIA.

ESTABLISHED IN 1855.

CIRCULATION, 17,000.

THE LEADING EVENING JOURNAL IN CIRCULATION AND INFLUENCE WEST OF
THE ROCKY MOUNTAINS.

It is the recognized authority in all financial and trade circles, and, at the same time, is found in every cultivated and refined home on the coast. The proprietors of THE BULLETIN respectfully refer to the entire mercantile public, both importing and jobbing, as to the character of this journal for advertising purposes. THE BULLETIN is read by the wealth and intelligence of the coast, while the masses consult its columns as attentively as the more cultured branches of society.

THE WEEKLY BULLETIN

CIRCULATION, 20,500.

Is a mammoth twelve-page paper and reaches every town, hamlet and mining camp west of the Rocky Mountains, and presents unequalled claims to the advertiser who wishes to reach the masses of the interior.

THE KANSAS CITY JOURNAL

KANSAS CITY, MISSOURI.

FOUR GREAT EDITIONS.

DAILY. SUNDAY. TRI-WEEKLY. WEEKLY.

"Progression" has been the motto of this now leading Western paper. In its mechanical department it ranks with the larger papers of Eastern cities, but in its system of news gathering it far excels the majority of even these. Its columns present an array of news from all the world, surprising to publishers of older cities whose ways are those of their forefathers.

The West and all of the West is our field, being situated in the center of an empire in point of industry, development of wealth, yearly increasing beyond comprehension. The advertiser and reader not identified with this region by the medium of its daily and weekly press has but a fragmentary interest in the crowning achievements of the American people.

The JOURNAL for thirty-three years has been a part of, and a factor in, this great growth. The city of its home stands to-day among the leading cities in its clearing house, being the tenth on the list.

New Orleans, Louisville, Milwaukee, Providence, Indianapolis, Cleveland, Galveston, Minneapolis, St. Paul, and a host of lesser places stand quoted far down the list, surpassed in the race for supremacy. In several of the leading products Kansas City's position is still nearer the highest, notably in the packing, live stock and grain interests.

AS THE GROWTH OF OUR CITY HAS BEEN PHENOMENAL SO HAS THE GROWTH OF THE JOURNAL, ALWAYS ITS LEADING PAPER.

PATENTS.

In connection with the **Scientific American**, Messrs. MUNN & Co. are Solicitors of American and Foreign Patents, have had forty-two years experience. Patents are obtained on the best terms.

A special notice is made in the **Scientific American** of all inventions patented through this Agency, with the name and residence of the patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent.

Any person who has made a new discovery or invention can ascertain free of charge, whether a patent can probably be obtained, by writing to MUNN & Co. We also send free our **Hand Book** about the Patent Laws, Patents, Caveats, Trade Marks, their costs and how procured. Address,

MUNN & CO., 361 Broadway, New York.

BUILDING EDITION OF THE SCIENTIFIC AMERICAN

This is a special Trade Edition of the **Scientific American**, issued monthly. Each number contains about forty large quarto pages, illustrating the most interesting examples of modern Architectural Construction.

A special feature is the presentation in each number of a variety of the latest plans for private residences, city and country, including those of very moderate cost as well as the most expensive. Drawings in perspective and in color are given, together with full Plans, Specifications, Costs, Bills of Estimate, and sheets of Details.

All who contemplate building or improving homes have before them in this work an almost *endless series of the latest and best examples* from which to make selections, thus saving time and money. Many other subjects, including Sewerage, Plumbing, Lighting, Warming, Ventilating, Decorating, etc., are illustrated. Terms, \$2.50 a year; single copies, 25 cents.

MUNN & CO., 361 Broadway, New York.

Building Plans and Specifications.

MIRROR AND FARMER

MANCHESTER, NEW HAMPSHIRE.

CIRCULATION, 27,600.

THE MIRROR AND FARMER, established in 1850, has a larger New England circulation than any other weekly agricultural and family paper published. It circulates on its merits. Every person who subscribes for it does so because he or she wants it, and pays for it in advance, a fact which makes it an exception to every other of its class in the Eastern States.

MANCHESTER DAILY MIRROR & AMERICAN

ESTABLISHED IN 1850, HAS GROWN UP WITH THE CITY, IS THE LEADING PAPER IN IT, AND IS TAKEN BY ALL THE PEOPLE WHO HAVE MONEY TO SPEND IN THIS THRIVING PLACE OF 38,000 INHABITANTS.

As a local advertising medium the DAILY MIRROR surpasses all others published here or taken in the City.

THE AUGUSTA CHRONICLE

AUGUSTA, GEORGIA.

OLDEST NEWSPAPER IN THE SOUTH. PUBLISHED EVERY DAY AND WEEKLY.

Augusta is one of the principal cities of Georgia, located at the head of navigation on the Savannah River, with lines of light draught steamers plying between the city and the sea.

It has a population of 40,000, and is now the manufacturing centre of the State. Nine Railroads connect here, making it also a great railway centre and distributing point.

THE CHRONICLE represents the enterprise of one of the most prosperous sections of the South. Its news service is thorough and complete, and it is in all respects a representative Southern newspaper.

IT IS A VALUABLE MEDIUM FOR ADVERTISERS.

THE CINCINNATI COMMERCIAL GAZETTE

STANDS IN THE FRONT RANK OF AMERICAN NEWSPAPERS.

While the DAILY COMMERCIAL GAZETTE enjoys the largest circulation among the best classes within the limits of Cincinnati, the constituency of the paper throughout the surrounding states is most important. There are over one thousand regular carriers for the COMMERCIAL GAZETTE who deliver the paper daily in large numbers to its readers in the splendid galaxy of thriving cities and towns within the territory tributary to Cincinnati.

THE WEEKLY GAZETTE

The weekly edition of the COMMERCIAL GAZETTE is one of the oldest and most widely circulated family and farm papers in the West. It carries all the news of the week to nearly one hundred thousand rural homes, and is in every sense a family paper. Over three thousand Club Agents, by personal effort among the people, at their homes, on their farms, and in their shops, maintain this large subscription list.

The advertising rates for both Daily and Weekly are low, extent and character of circulation considered.

THE HOT BLAST

DAILY AND WEEKLY.

ANNISTON, ALABAMA.

Anniston is a City of 10,000 Inhabitants, and its Population is Rapidly Increasing.

Its numerous industries employ nearly **6,000 hands** and pay out **over \$60,000 a week in wages**. It is the most beautifully located city in America. Travelers who have visited it say that no more attractive site for a city could be found anywhere in the world. It is clean, sober, moral and healthful.

It has churches, schools, water works, electric lights, well paved streets, handsome stores, fine residences and many other attractions.

IT HAS MORE WEALTH IN PROPORTION TO POPULATION THAN ANY OTHER CITY IN THE COUNTRY.

It is the industrial and commercial centre of one of the richest iron districts in the world. It is surrounded by a splendid agricultural country. It has unequalled advantages for the manufacture of everything into which wood and iron enter. It possesses every attraction needed to make it a delightful place for a home or as a health resort.

THE HOT BLAST is the only Morning Paper in Anniston, and is the only paper publishing any Mail or Telegraph news at all.

IT GETS THE ASSOCIATED PRESS DISPATCHES AND SPECIAL CORRESPONDENCE BY WIRE AND MAIL.

Outside of Anniston there is no other daily paper published in the entire Anniston Iron district, within which are embraced a dozen or more towns and villages.

Oxanna, a flourishing town, one mile from Anniston and connected by street railway, as well as by Georgia Pacific and East Tennessee, Virginia and Georgia railroads, has no daily paper. Oxford, a town of 2,500 population, three miles from Anniston, and connected by street railway and by E. T. V. & G. Railroad, has no Daily. Jacksonville, with a population of 1,500, the county-seat, on the E. T. V. & G. road, has no Daily. Talladega, a rich town with a population of 3,000, twenty miles from Anniston on E. T. V. & G. and the Anniston & Atlantic roads has no Daily. Cross Plains, Tecumseh, the location of an iron furnace, White Plains, Lincoln and a dozen other in the neighborhood are without any Daily, and they get the HOT BLAST. In fact, there is not a daily paper within 60 miles of Anniston in any direction and Anniston is the centre of an area that is undergoing more rapid development than any other part of the South. It will be seen that the HOT BLAST must have a wide circle of readers. It has been under the management of its present owner since January 1st, 1888, and it is pronounced now to be the best paper in the State.

It is unquestionably the best paper to advertise in.

WINONA REPUBLICAN

DAILY AND WEEKLY.

WINONA, MINNESOTA.

THE D. SINCLAIR PUBLISHING COMPANY, Publishers.

THE DAILY REPUBLICAN is published every week day afternoon, at the following rates: By mail—\$6.00 a year; \$3.00 for six months; \$1.50 for three months—strictly in advance. THE WEEKLY REPUBLICAN is published on Wednesday, at \$1.15 a year. All subscription payable in advance.

TO ADVERTISERS.—THE REPUBLICAN has a much larger circulation than any other paper in Minnesota outside of the cities of St. Paul and Minneapolis. It is extensively subscribed for and read in all the towns and villages on the various lines of railroads converging at Winona, as well as among the most substantial farmers in a wide circle of surrounding country on both sides of the Mississippi river. For this reason it is unrivaled as an advertising medium for the business men of Winona, as for all others who would communicate with the most intelligent and thrifty residents of this city and the region of which it is the principal market and commercial center. Terms—which are moderate—made known on application.
