

**Bighorn River System Issues Group
Draft Agenda
March 13, 2008**

Meeting Outcomes

- 1) Participants develop a better understanding of the current criteria used by Reclamation.
- 2) Participants discussed proposals for additional specific resource based targets, develop a better understanding of all resource needs, and have the opportunity to attempt to balance resource needs through model simulations.
- 3) Participants develop an enhanced understanding of Reclamation's process and the annual operating decisions by examining last year's operations and by participating in modeling different decision scenarios.

Issues Group Agenda

- 9:00** **Welcome, meeting purpose, agenda, ground rules (Beck)**
- 9:15** **Discussion of Operation Objectives and Criteria (Reclamation/All)**
