## **LETTERHEAD CERTIFICATE FOR MEAT AND MEAT PRODUCTS FOR EXPORT TO CYPRUS**

**DATE ISSUED** \_\_\_\_\_ **CERTIFICATE NUMBER** \_\_\_\_\_

1. The United States has been free of foot and mouth disease for the past 12 months.
2. In the case of meat products containing pork, the United States has been free of:
  - i. African Swine Fever for the past three years.
  - ii. Swine Vesicular Disease for the past two years.
  - iii. Classical Swine Fever for the past two years.
  - iv. Teschen Disease for the past three years.
3. For meat products containing pork, the meat was examined for trichinellosis with negative result or comes from a farm free from trichinellosis or was processed to ensure the destruction of trichinae larvae.
4. The meat products were manufactured from meat derived from healthy animals which were born, reared and slaughtered in the United States or which were legally imported into the United States and which were subjected to an ante- and postmortem examination with satisfactory results. In the case of meat products containing pork, the meat was derived from animals which are not from holdings with animal health restrictions.
