Clarks Fork Trailhead Celebration Scheduled for August 4

Cooke City, MT... The Gallatin National Forest will be hosting an informal celebration at the Clarks Fork Trailhead on August 4, 2006 at 11:00 a.m. The event will culminate the completed reconstruction, renovation and interpretive work at recreation sites on the Beartooth Scenic Highway in the Gallatin National Forest. It will also honor some of the local people who contributed to the success of this work.

Ken Britton, Gardiner District Ranger states, "We are very pleased with the renovated facilities. By providing improved and more accessible recreation opportunities along the Beartooth All American Road people will have more options when visiting this area."

Please join us at 11:00 AM, Friday August 4, at the Clarks Fork Trailhead, near the first picnic table. Come enjoy some light refreshments and a tour on the Historic Flume Interpretive Trail. The Clarks Fork Trailhead is located approximately 4 miles east of Cooke City on the north side of Highway U.S. 212. Some road construction may be occurring so please plan accordingly. For additional information please contact the Gardiner Ranger District at (406) 848-7375.
