Mill Fire and Star Fire Contained

Gardner, MT... Smoke was reported July 25, 2006 in the Cinnabar Basin north of Gardiner. Firefighters responded and contained the Star Fire at 1/10th of an acre the same day it was reported.

Livingston, MT... The Mill Fire is 70% contained today. Crews and one helicopter will continue to work on the fire line and extinguish any hot spots within the perimeter.

The Gallatin Forest would like to remind folks that Stage I fire restrictions will go into place early Friday morning. Campfires will only be allowed in metal fire grates in developed recreation sites and smoking will be allowed only within an enclosed vehicle or structure or in an area 3 feet in diameter that is cleared of flammable materials. The public is encouraged to call your local Ranger District for more information.
